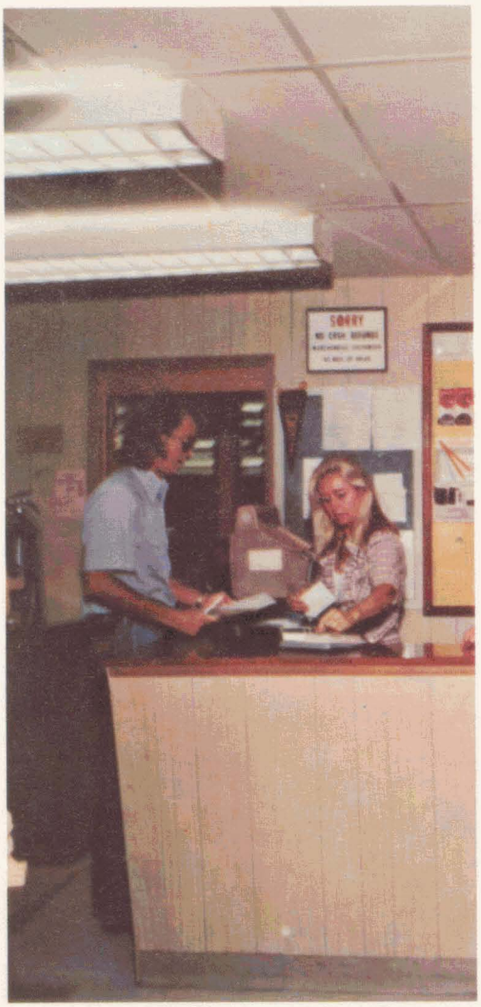
EMBRY RIDDLE AERONAUTICAL UNIVERSITY

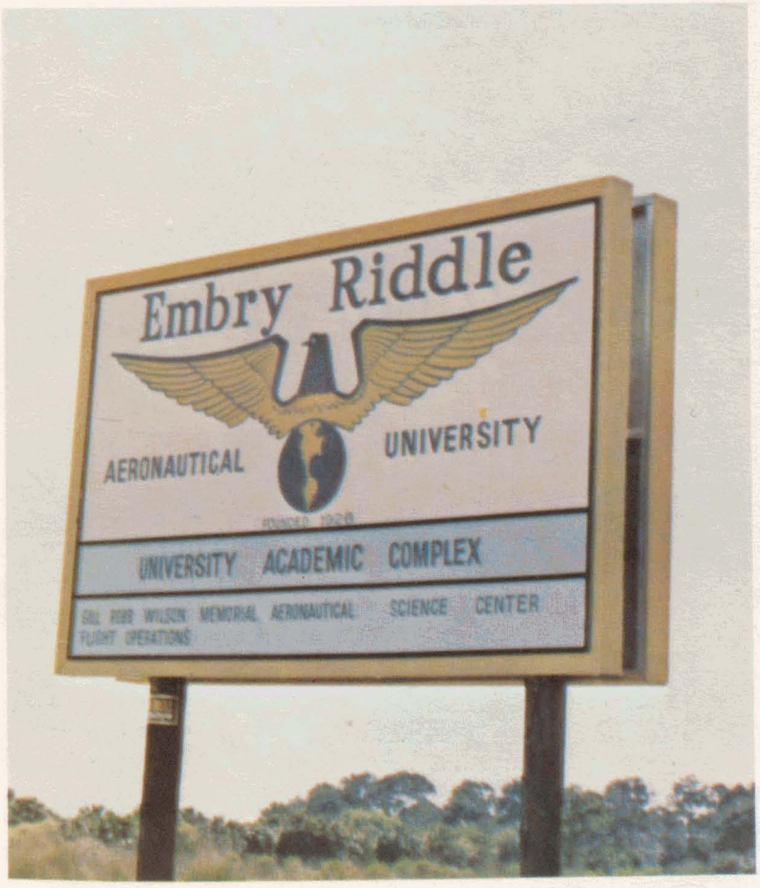
DAYTONA BEACH, FLORIDA

TODAY



IS THE FIRST DAY OF THE

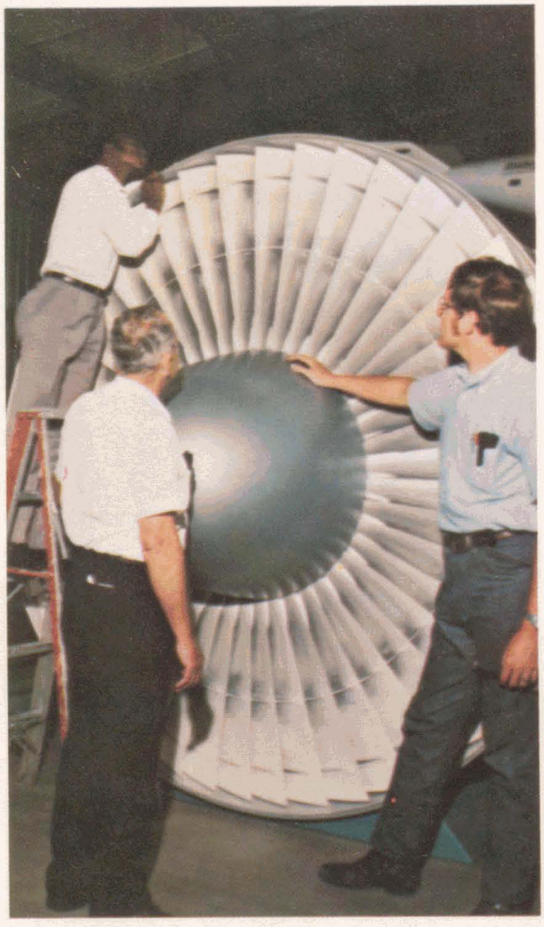
REST OF YOUR LIFE

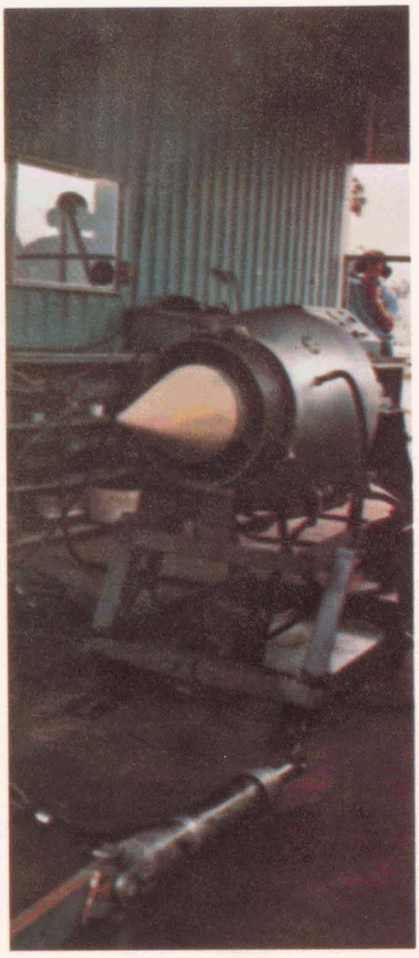


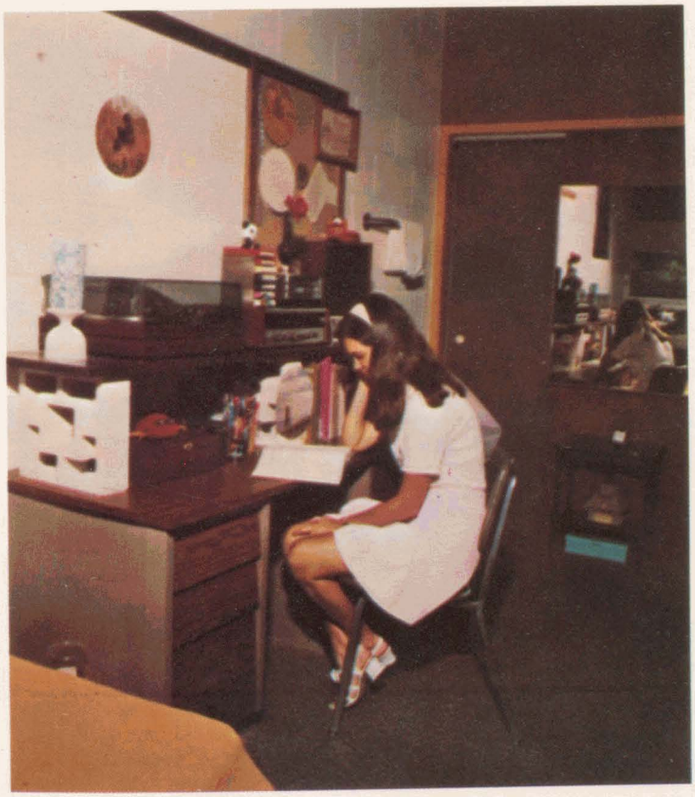
YESTERDAY

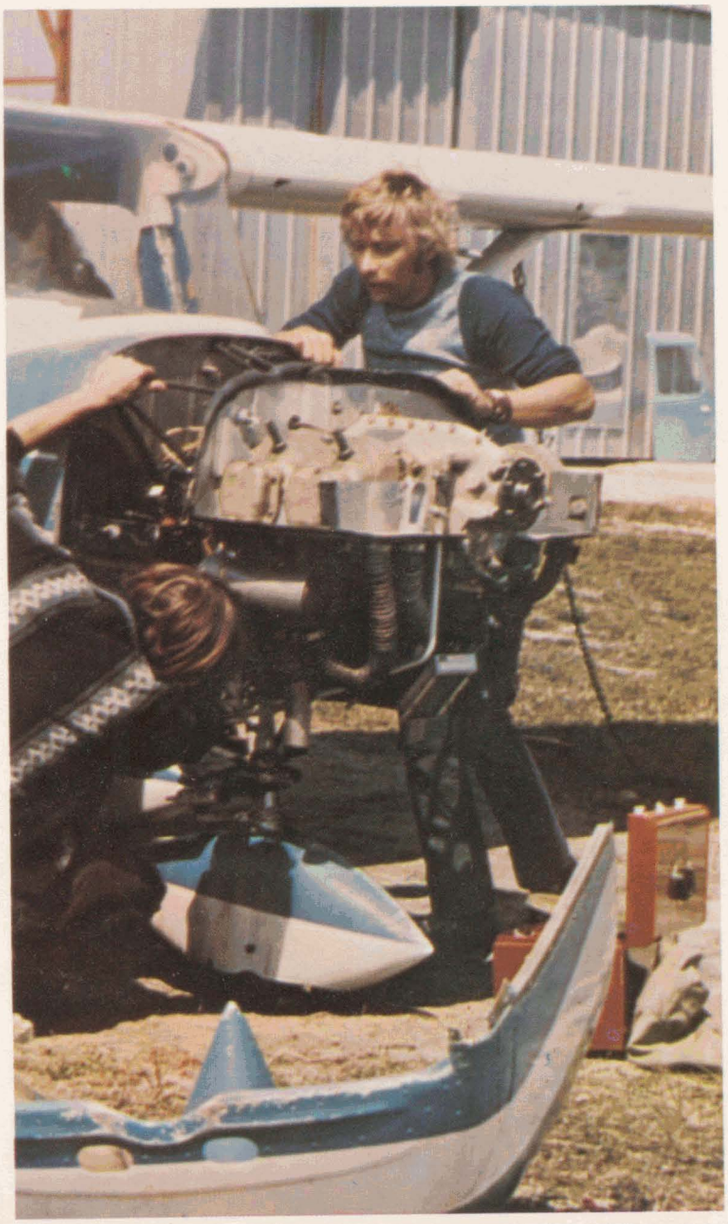
WE KNEW LITTLE ABOUT

AVIATION!









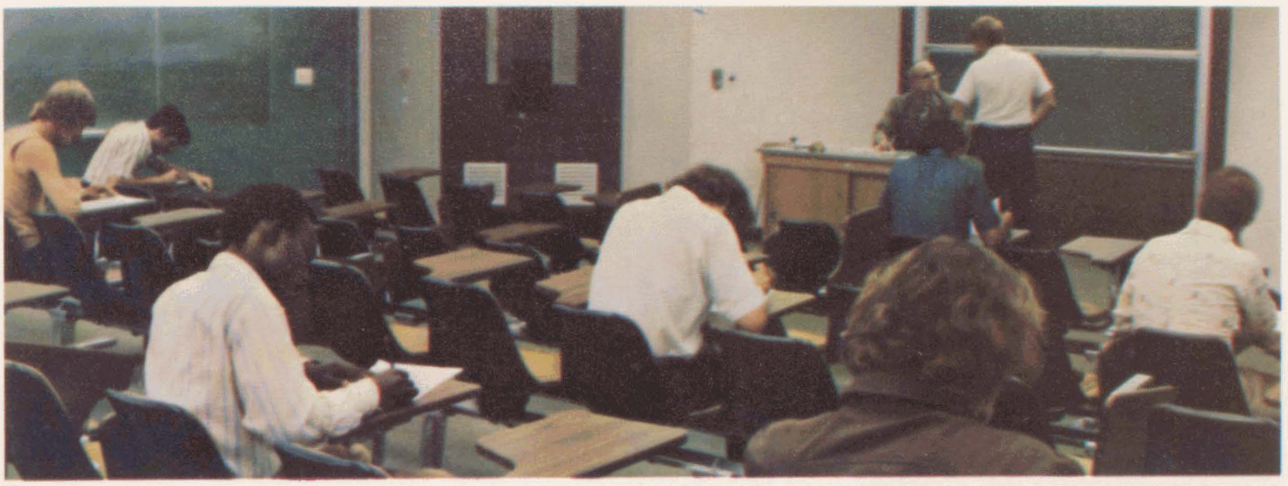
BUT WE

LEARNED!

WE CAME FROM EVERYWHERE,

from all fifty states,
and from over sixty
different countries.

Our skins have various pigmentations. We speak many languages and worship in many ways, or not at all. The homes we left behind were happy, broken, rich, poor. They were located on farms, suburbs, and cities; in apartments, houses, ghettoes and barracks. Our academic histories ranged from poor to good to interrupted. We came from high schools, civilian occupations, the military, or as "college dropouts". None are "Super" men or women. We are different, but alike in having a burning desire to be a PROFESSIONAL in some phase of aviation.



SO, WE CAME TO THE
WORLD'S CENTER
for
HIGHER
AVIATION EDUCATION

WE ENROLLED IN

CERTIFICATION PROGRAMS
Flight Technology - Maintenance Technology
or
A.S. and B.S. DEGREE PROGRAMS
Aviation Management - Aeronautical Science
Aeronautical Studies - Aeronautical Engineering
Aviation Maintenance Engineering Technology
Aviation Maintenance Management
R.O.T.C. - Management

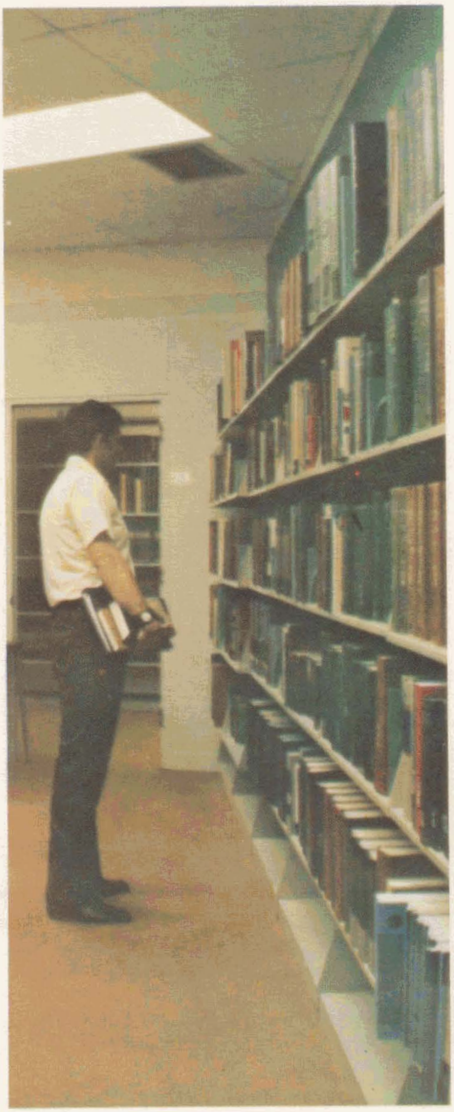
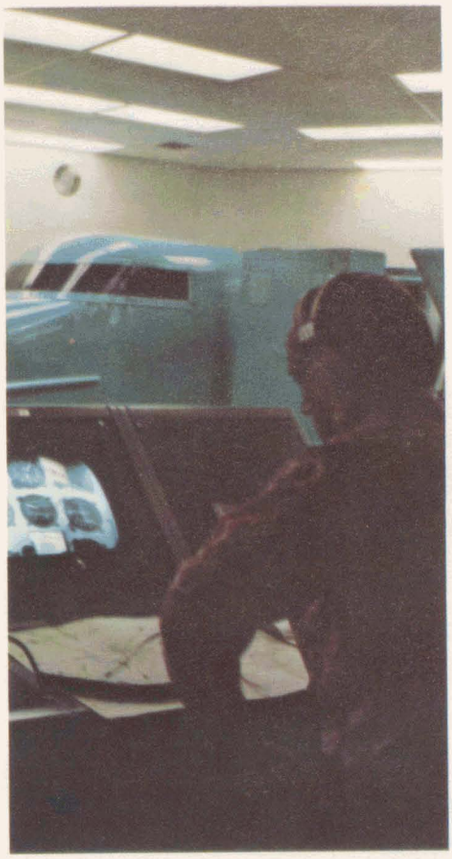
WE CAME TO LEARN AVIATION

and about the real world
we will someday manage!





WE LEARNED

and we graduated as
skilled, educated
aviation professionals
and
worthy individuals!

Wherever we go in the years ahead, we are prepared to meet challenges and turn them into opportunities, because NOW "WE ARE A CUT ABOVE THE AVERAGE!"

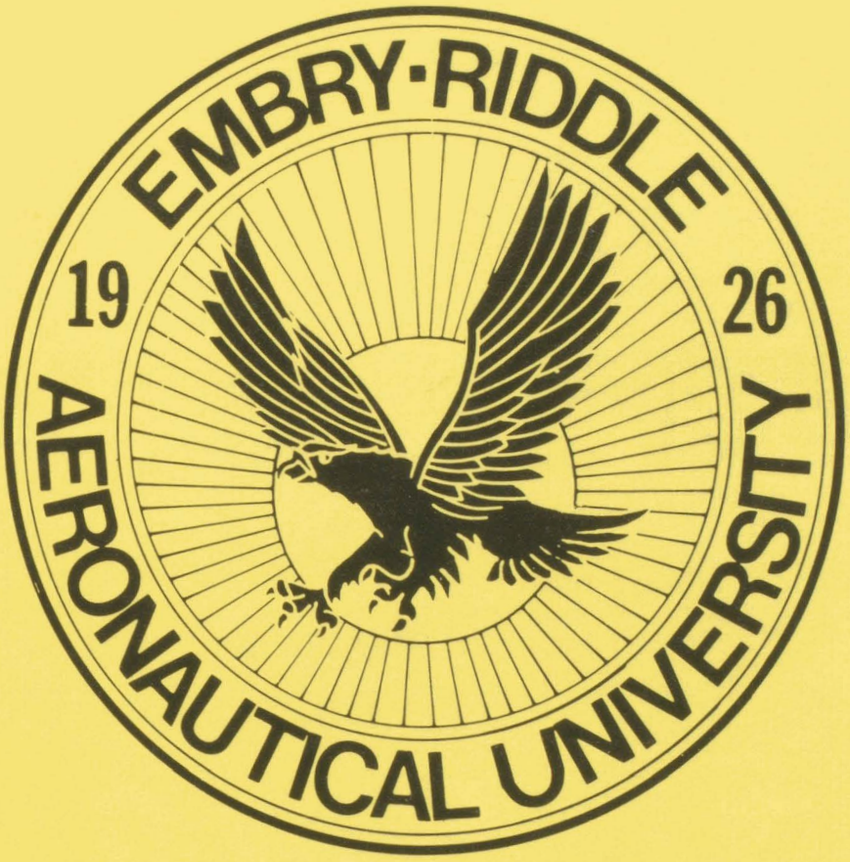
DEDICATION

The Chairman of the National Advisory Council, a member of the Executive Committee of the Board of Trustees, Pilot for Pan American Airways, and a familiar figure on our campus.

To Captain Kimball J. Scribner we, the Phoenix staff dedicate our yearbook for 1973, for sharing with us your time and energy and dreams for the future at the world's only University doorway to aviation.

AERONAUTICAL SCIENCE CENTER
VERSITY



ADMINISTRATION AND FACULTY

ADMINISTRATION

Planning, Moving and Building towards the future . . . The Administration is applying all its energies towards reconstructing and initiating policies and principles for the development of the university.

The Library has been moved for easier access for the students. Academic standards have risen and will continue to strive towards a better education for all of us. We can thank the qualified personnel of the administration for their interest and help in our research for the answers to the many questions we came here to ask.

NATIONAL ADVISORY COUNCIL

The National Advisory Council consists of individuals of renown and substance with backgrounds in aviation, education and related fields who act as counsel to the Board of Trustees and the administration when appropriate.

Serving voluntarily, the Council has provided invaluable assistance and guidance in many areas concerning school policies and establishment of a sound aviation education program.

Kimball J. Scribner, Chairman

Kimball J. Scribner	Daytona Beach, Fla.
Maj. Gen. Joseph D. Caldara	Arlington, Virginia
Congressman Don H. Clausen	California
Najeeb E. Halaby	New York, New York
Phillip Mann	Miami Beach, Florida
Dr. Maynard M. Miller	New York, New York
James M. Moran	Fitchburg, Mass.
Tore H. Nilert	New York, New York
Leonard J. Povey	Ft. Lauderdale, Fla.
James T. Pyle	LaGuardia Airport, N.Y.
Senator Jennings Randolph	West Virginia
Colonel Thomas P. Stafford	Houston, Texas
Dr. Mervin K. Strickler	Washington, D.C.
Colonel Ansel E. Talbert	Washington, D.C.
Colonel C. J. Tippett	Ocala, Florida
Dr. George R. Wallace Jr.	Fitchburg, Mass.

BOARD OF TRUSTEES

William W. Spruance, Chairman

The Board of Trustees under the leadership of Chairman William W. Spruance and Vice-Chairman Phillip H. Elliot Jr., is charged with the responsibility of broad policy establishment and provision of guidance to the University.

Prominent nationally, state-wide and locally, the board members are dedicated to the furtherance of education among the young people of our nation in the aviation field.

Serving without remuneration, they give freely of their time to assist the University in obtaining the educational objectives of ERAU.

John C. Adams Jr.	Daytona Beach, Florida
Cesar S. Canals	San Juan, Puerto Rico
Austin O. Combs	Daytona Beach, Florida
Henry C. Coleman	Daytona Beach, Florida
Dr. Tine W. Davis	Montgomery, Alabama
Channing Dichter	Pittsfield, Mass.
Richard V. Drake	Philadelphia, Penn.
Phillip H. Elliott, Jr.	Daytona Beach, Florida
Tally Embry	Miami, Florida
Captain Jack B. Faes	Wyckoff, New Jersey
Dr. Philip T. Fleuchaus	Daytona Beach, Florida
T. Paul Freeland	Washington, D. C.
Mrs. David W. Goddard	Ormond Beach, Florida
Harold A. Kosola	Albany, Georgia
M. Chapin Krech	Coral Gables, Florida
Captain Bernal L. Lewis	Woodside, California
Carl W. Lindell	Jacksonville, Florida
General John P. McConnell (RET)	Washington, D. C.
Walter J. McFadden	Daytona Beach, Florida
Hobert B. McKay	Miami, Florida
John G. McKay, Jr.	Miami, Florida
Ronald G. Moore	Daytona Beach, Florida
Charles L. Proctor	Windsor 11, Ontario
Delos W. Rentzel	Washington, D. C.
Richard B. Reimann	South Daytona, Florida
J. Paul Riddle	Coral Gables, Florida
Captain Kimball J. Scribner	Daytona Beach, Florida
Lee B. Spence	Daytona Beach, Florida
General William W. Spruance	Wilmington, Delaware
Fred Thellman	Daytona Beach, Florida
David D. Thomas	Annandale, Virginia
Brig. General William R. Yancey, USAF (RET)	Palm Desert, California

BOARD OF VISITORS

The ERAU Board of Visitors is a group of leaders from the local community whose purpose is to promote Embry-Riddle's growth for the prosperity of the community and the social and academic enrichment of the student body.

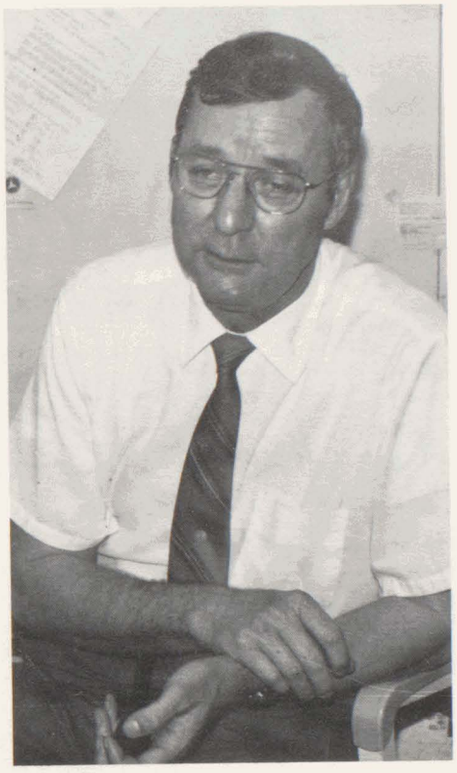
Serving for a period of three years, the board members keep abreast of University developments by attendance at meetings, briefings and school functions.

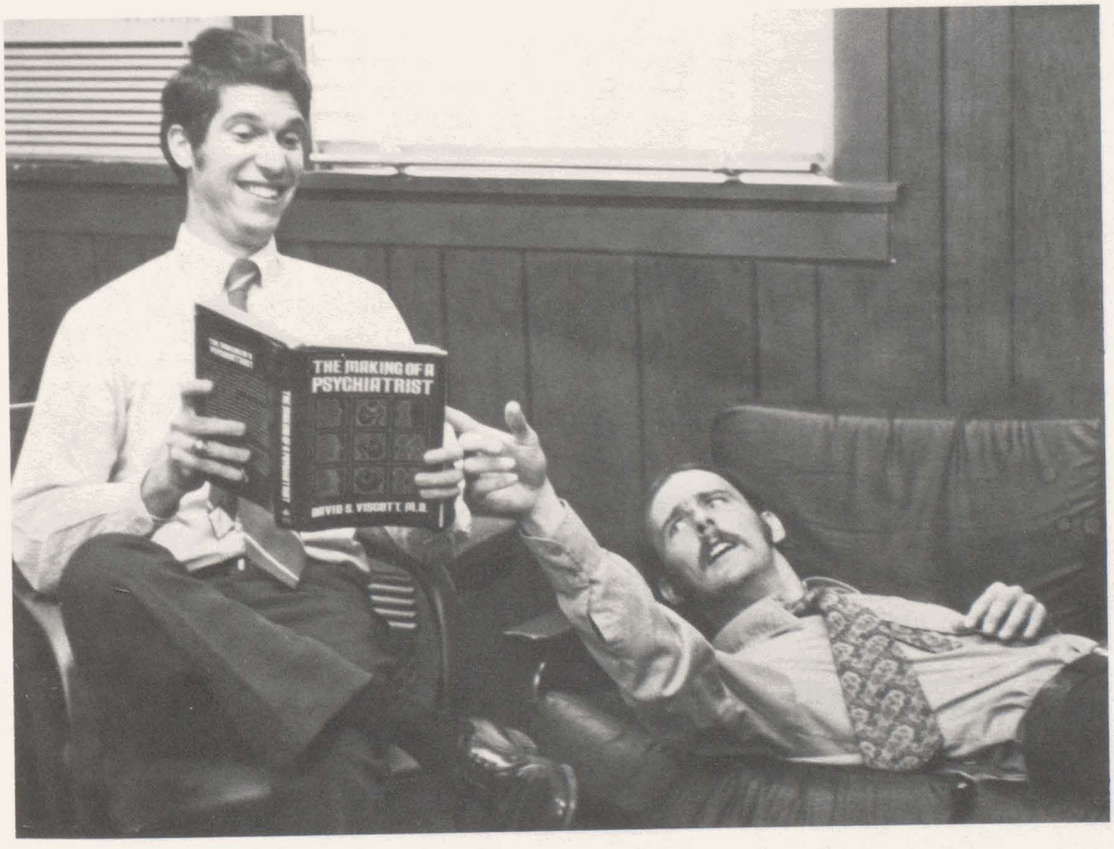
Board members often take active roles in University matters and have proven to play an effective and active role in the growth of ERAU.

Austin O. Combs, Chairman	Daytona Beach, Florida
D. B. Alexander	Daytona Beach, Florida
George H. Baker	Daytona Beach, Florida
John G. Beardon	Deland, Florida
Walter B. Booth	Ormond Beach, Florida
J. Hyatt Brown	Daytona Beach, Florida
Drew F. Burton	Daytona Beach, Florida
Elbert H. Chambers	Daytona Beach, Florida
Henry C. Coleman	Daytona Beach, Florida
Hugh Crawford	Daytona Beach, Florida
E. William Crotty	Daytona Beach, Florida
David A. Freer	Daytona Beach, Florida
Louis Fuchs	Daytona Beach, Florida
Mrs. William M. Gillespie	New Smyrna Beach, Florida
Vobert Gilpatrick	Daytona Beach, Florida
Frank Hoffman	Daytona Beach, Florida
Philip E. Hoffmeister	Daytona Beach, Florida
Reid B. Hughs	Holly Hill, Florida
Earl R. Howell	Ormond Beach, Florida
Fred W. Krantz	Holly Hill, Florida
Robert F. Lloyd	Daytona Beach, Florida
William S. Lloyd	Daytona Beach, Florida
Mrs. Gilbert A. Martin Jr.	Daytona Beach, Florida
Walter J. McFadden	Ormond Beach, Florida
Kenneth E. Neland	Ormond Beach, Florida
Bert Reames Jr.	Holly Hill, Florida
C. N. Rice	Daytona Beach, Florida
Charles Richards	Daytona Beach, Florida
Herbert Riggs	Daytona Beach, Florida
Robert A. Rollberg	Ormond Beach, Florida
J. L. Schmitt	Daytona Beach, Florida
Fred Thellman	Ormond Beach, Florida
William A. Welch	Ormond Beach, Florida
Fred T. Wills	Daytona Beach, Florida
Edmund A. Wright	Ormond Beach, Florida
David A. Fennell	Savannah, Georgia
Alfred J. Ferrari	Daytona Beach, Florida
Congressman William Chappell	Daytona Beach, Florida
Lee F. Shalhope	Ormond Beach, Florida
Clifford H. Coffin	Daytona Beach, Florida
Thomas Wetherell	Daytona Beach, Florida

Come on in the water's fine.

Sherry's?





Let me see that!

That about cleans it up!

FACULTY

We ask the questions. And *we expect* answers. Luckily we have been provided with a team of instructors who are there with most of the answers.

We want interesting classes. And *we expect* the unexpected once in awhile. Again we have instructors who with the aid of video-tapes, movies and tape-recorded presentations, help us to comprehend and to gain new insights.

We need someone there once in awhile just to talk to and to listen to us as we move through the changes and problems of college life.

WE THANK our faculty for being there.

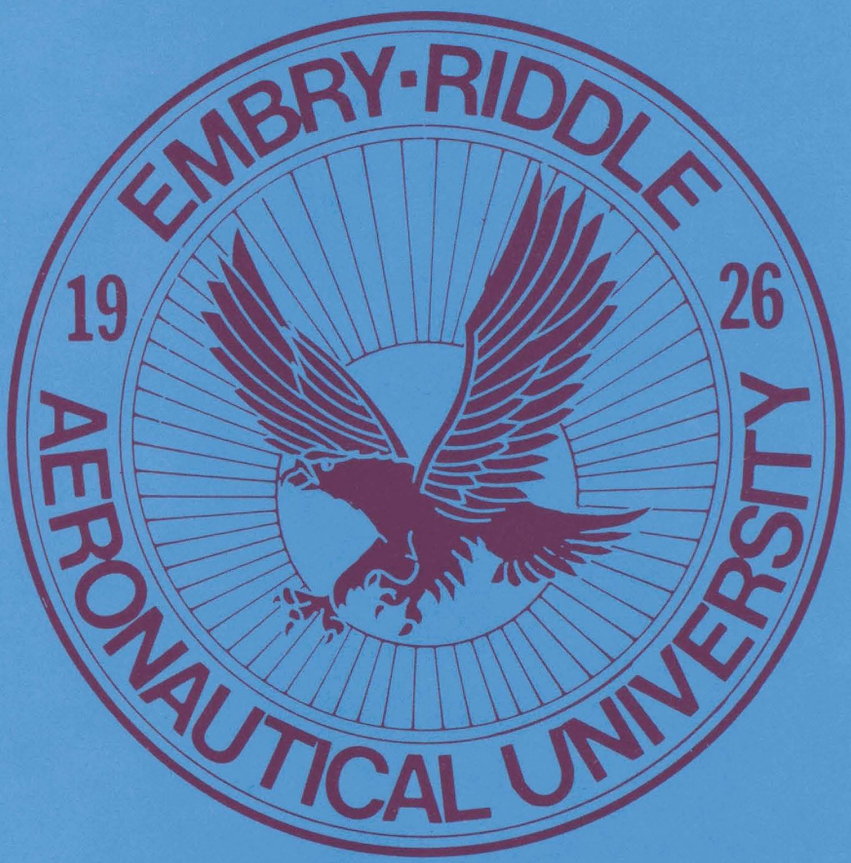
SPENCE CHEVROLET



STUDENTS

Graduation

TO THE 1973 COLLEGE GRADUATES:

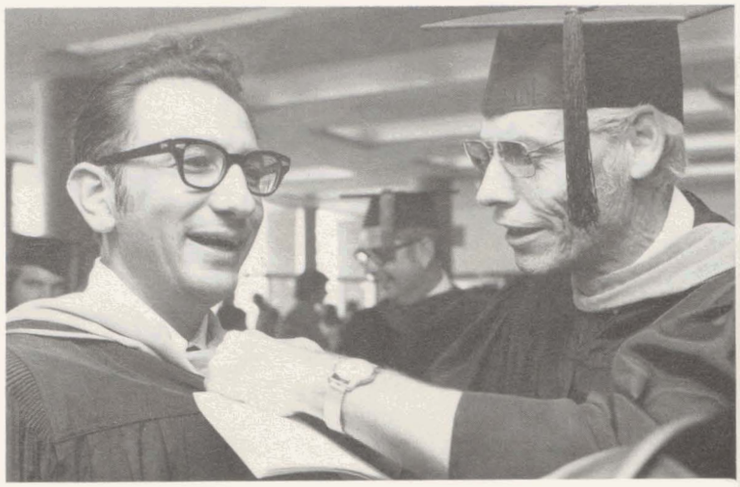
I am inclined to be sparing with words of congratulations, advice, and challenge to this year's college graduates, for you hear more than enough of them at commencement time, and you are eager to turn from words to action.

From early childhood, for the most part, the classroom has been your world. Now the world becomes your classroom. The education you have gained so far is precious capital. As you invest it in the service of mankind, it will continue to grow and pay you rich dividends.

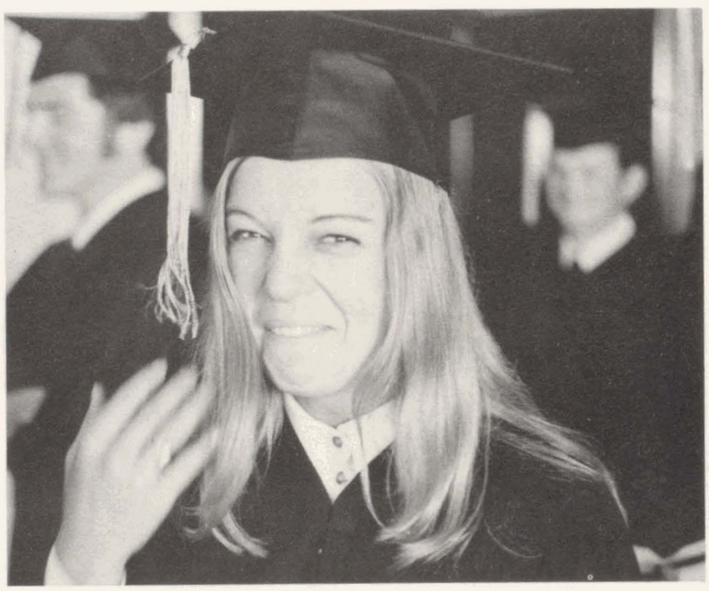
Your opportunities for service and achievement are wide. For the first time in your lifetime, the world is on the threshold of an era of lasting peace. The United States is astir with the forces of a profound renewal -- social, economic, political -- and reaching for new possibilities in its third century of independence.

The coming age will belong to you. America is grateful for what you are, and much in need of what you can become. I wish you Godspeed on the great adventure that lies ahead.

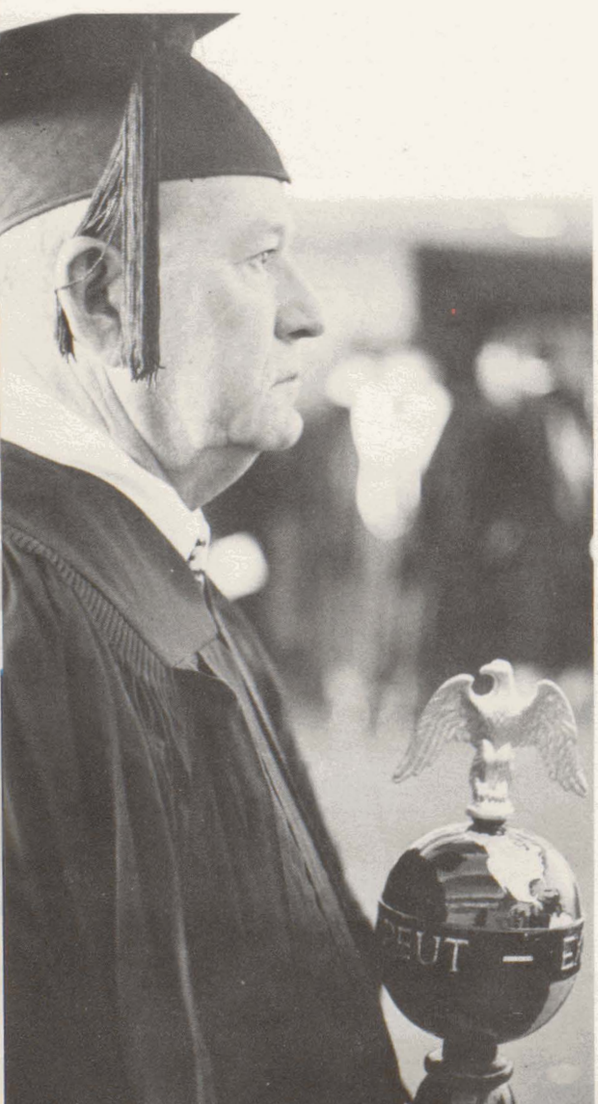
Richard Nixon



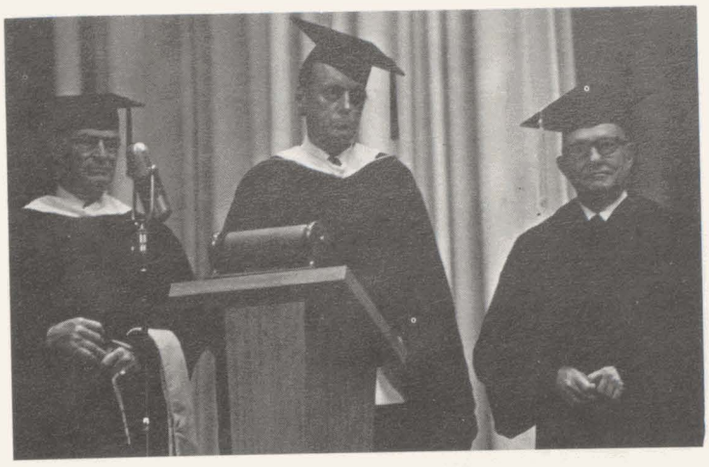
Preparation

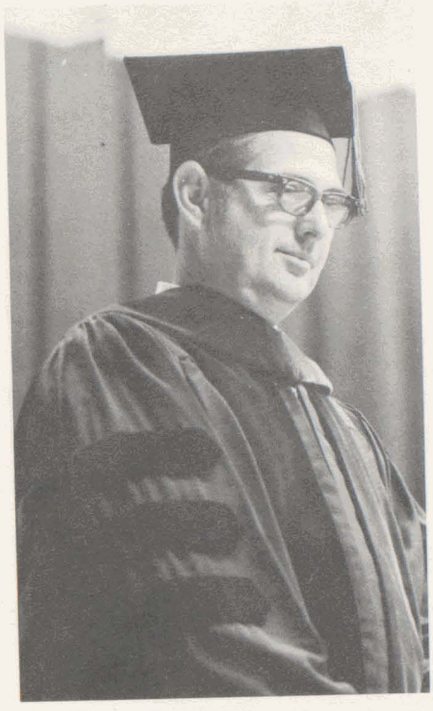


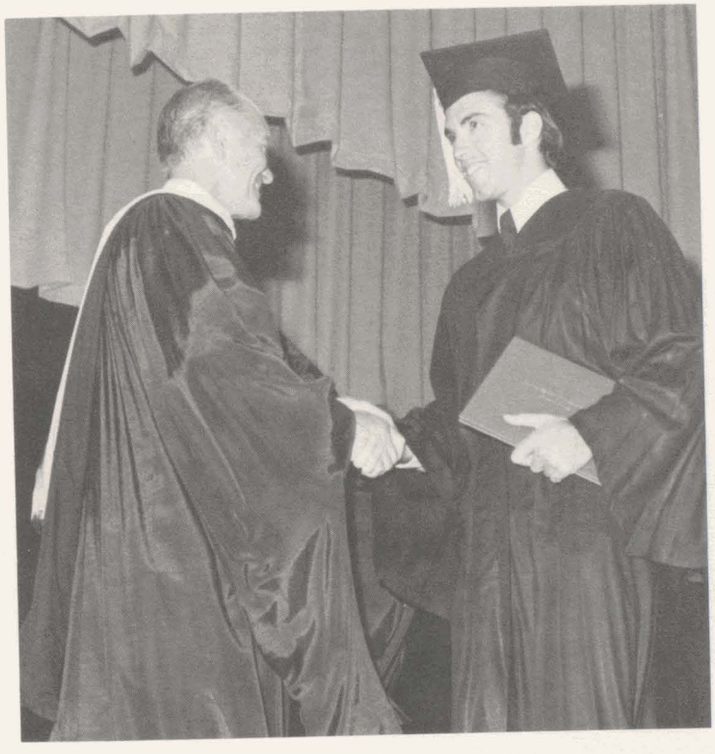
Anticipation
AND . . .

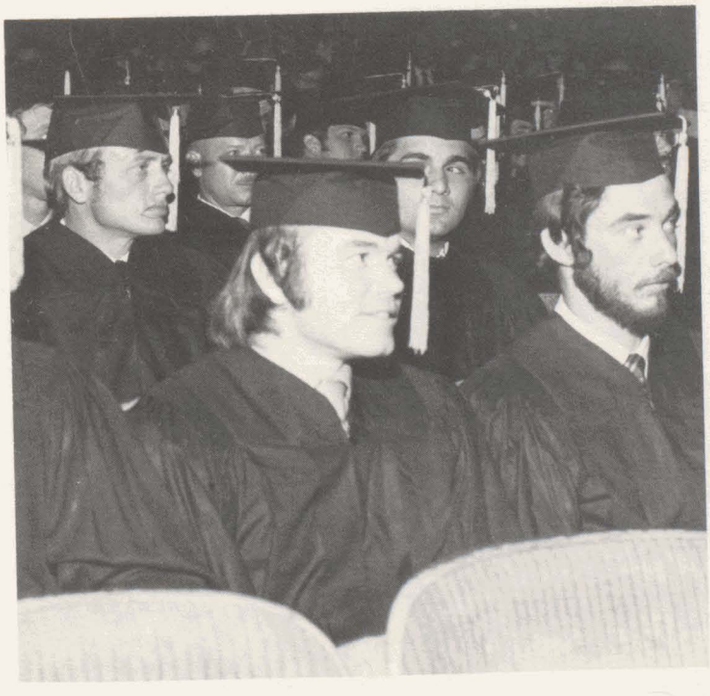


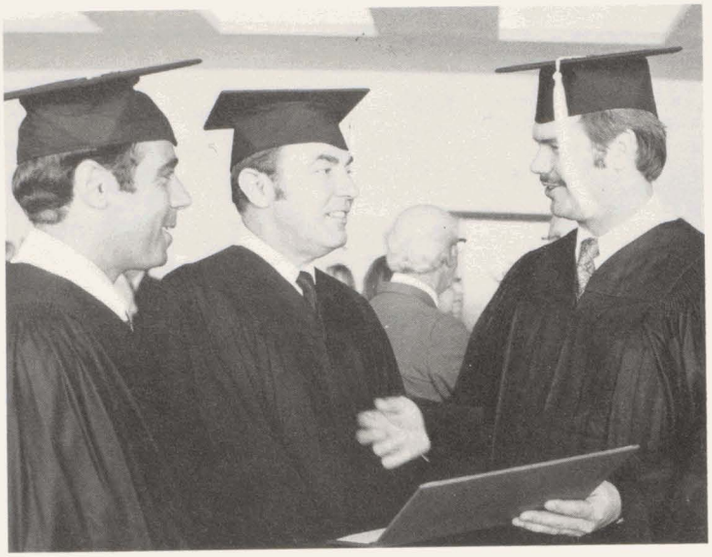
Graduation!





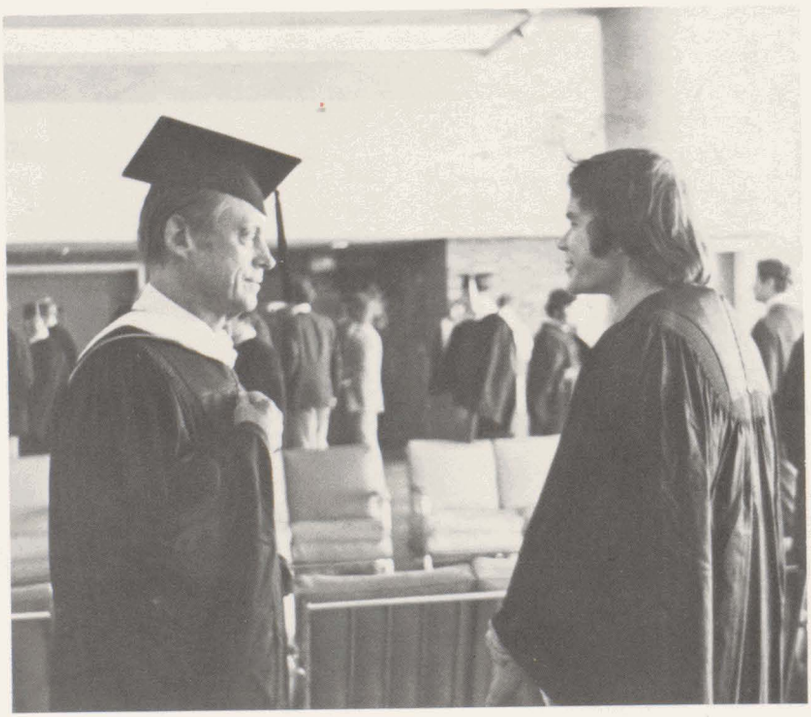


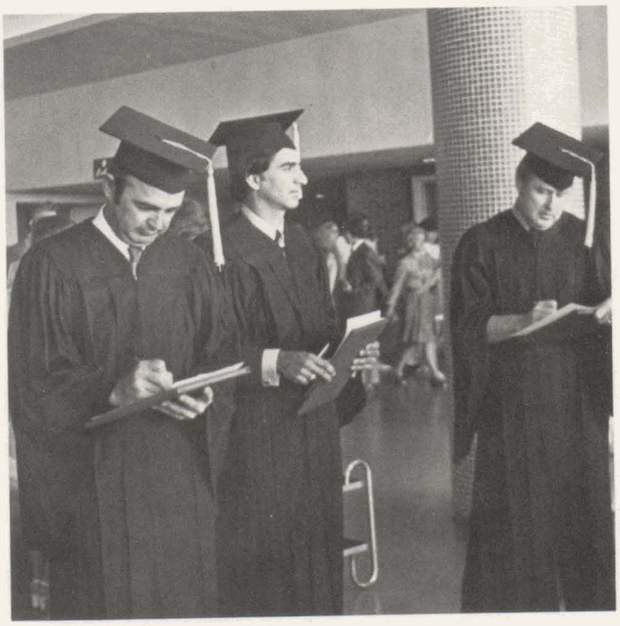




It's Empty?!

PRIDE!!!





I'm an Alumnus!!!

Congratulations

1973

Graduates

SENIORS

Once it was only a dream. We stared with awe at aircraft when we were only young boys. We worked hard in high school in order to go to college. Some of us went to war and then came back to go to school. We worked four long years at Riddle. There were those classes we slept through, those we really liked, and some which even inspired us!

Now it's over. The dream has come true. We are Men. We're engineers, managers, mechanics and pilots. We are graduates of Embry-Riddle Aeronautical University.

UNDERCLASSMEN

What is an underclassman? He's a guy who can afford to skip an eight o'clock class. But he's also a man who's working hard towards a degree some day. Some of us have only one more year, some of us have just started. College has put us on our own. We've met people from all over the U.S. We've had to grow up and take on the responsibility of living our own life.

Some of us were in the military and we've had to get used to being in school again.

Being here isn't easy but we've all got our goals and we're working towards them.

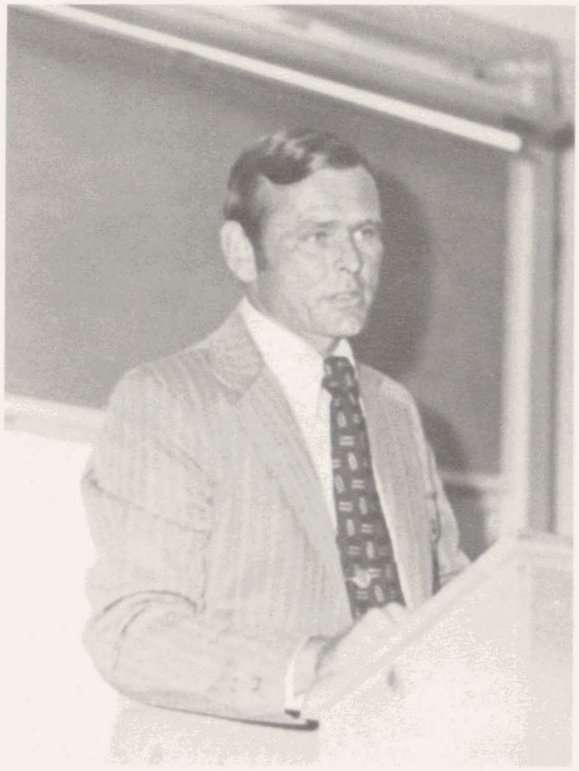
ORGANIZATIONS

STUDENT GOVERNMENT ASSOCIATION

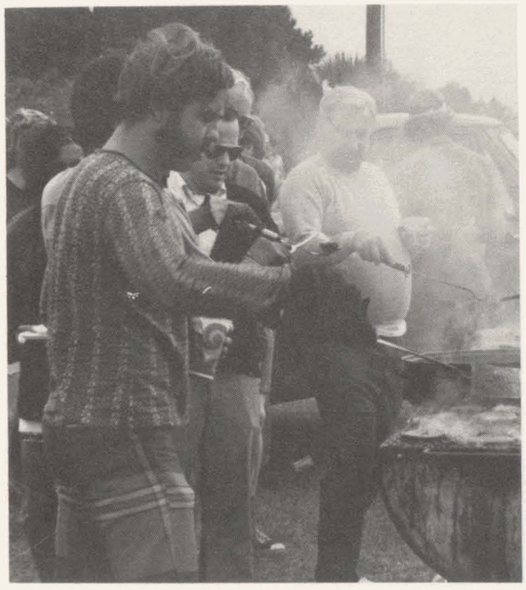


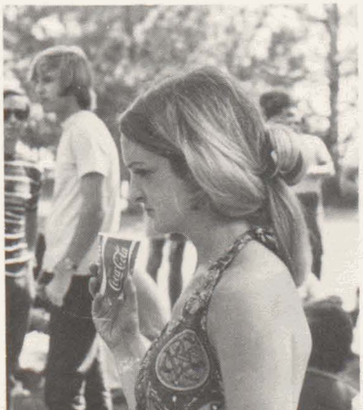
The Student Government Association (SGA) is the students' voice with the University's Administration. It is made up of students chosen by their fellow students to represent them. The SGA is the central organization of the student body; it sets guidelines and support for almost all other organizations that are on campus. Under the leadership of Dick Reimann the SGA has been most concerned this year with the economizing of the student's dollar. In order to get the student the most for his dollar the SGA has put its support behind the student publications. This has given the student a better Avion, Pegasus and Phoenix, all at a lower cost. The SGA offers students an excellent opportunity to become involved in the University.

(above) — President Richard Reimann maintaining alert and positive control over an important meeting. (left) — V. Pres. Mike Leonard prays for adjournment. (below) — The swearing in of new senators is an event that takes place every trimester. This event is more important to the student body than these particular individuals because they are our representatives.

Bar-B-Ques

Every year the SGA sponsors several Bar-B-Ques for the enjoyment of the students. Every one usually is at least a little different. Some have hamburger, others fish, others chicken, but all feature free BEER!

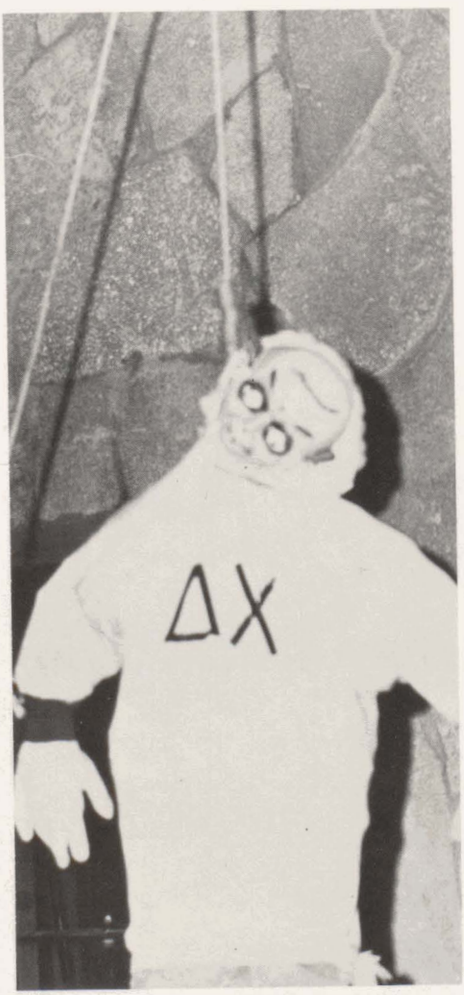




DANCES

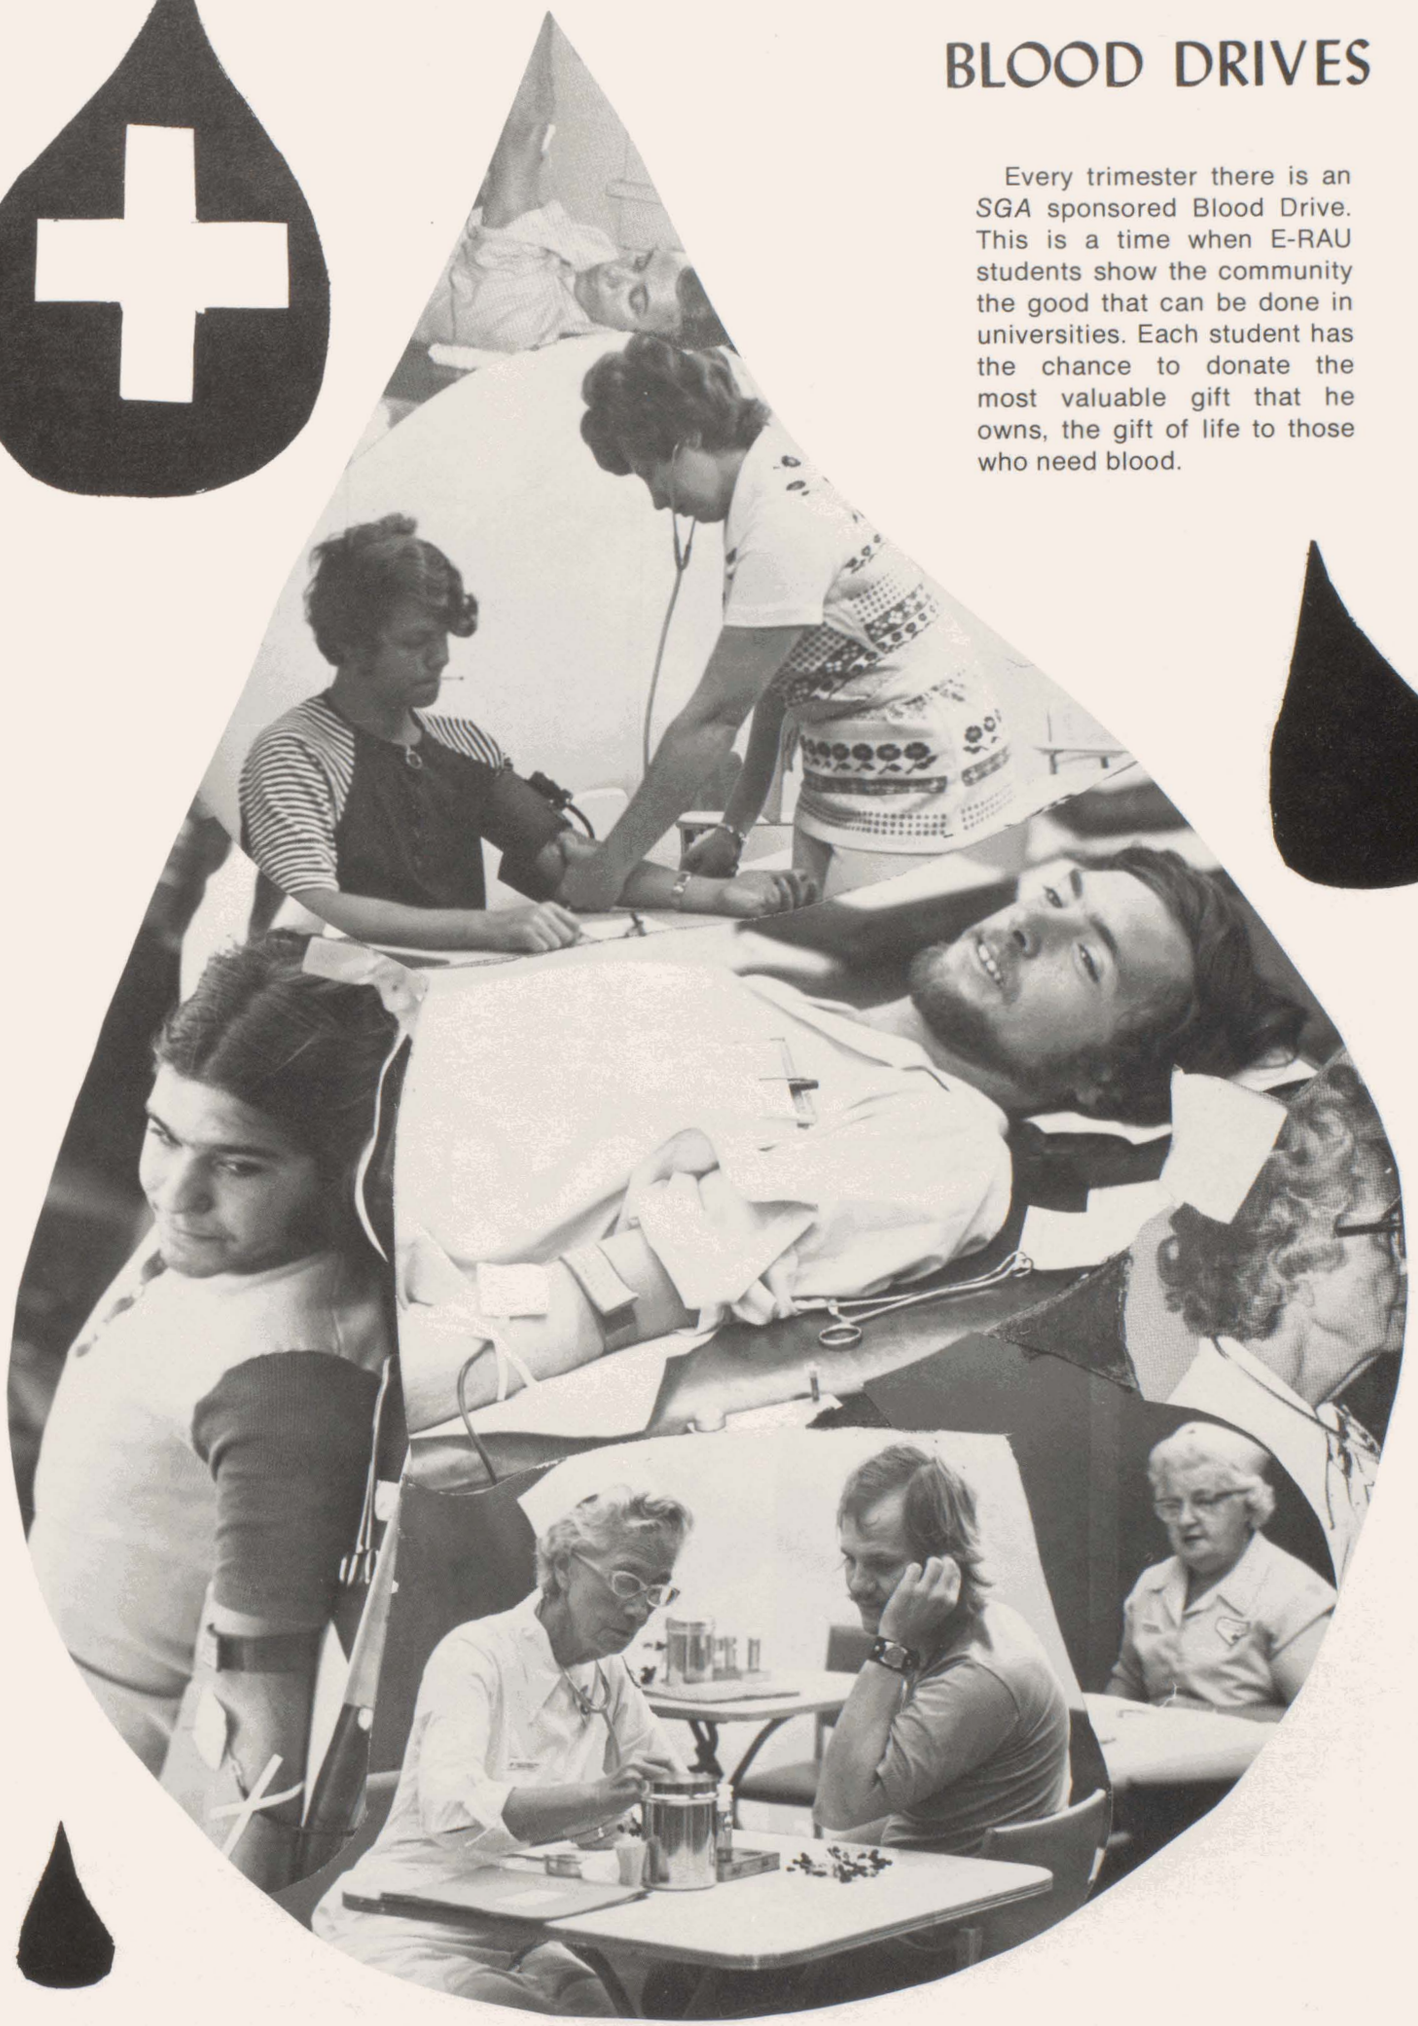
An E-RAU SGA dance is many things to many people. It could be a costume party for halloween or a coat and tie Christmas party. To some the letters BYOB are the most important. But in all cases an SGA dance spells FUN!

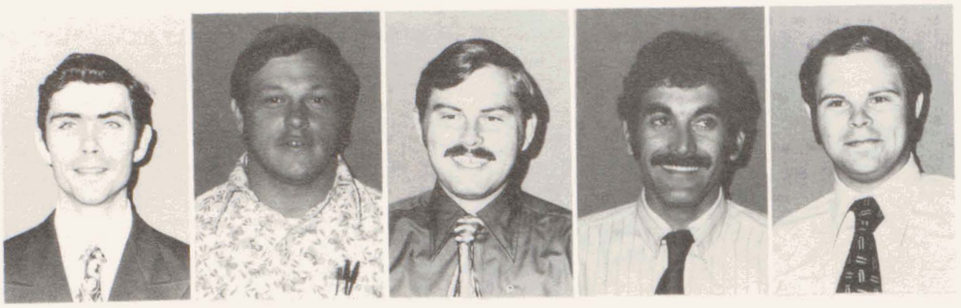
M&M's She'll melt in your mouth not in your hand!



BLOOD DRIVES

Every trimester there is an *SGA* sponsored Blood Drive. This is a time when E-RAU students show the community the good that can be done in universities. Each student has the chance to donate the most valuable gift that he owns, the gift of life to those who need blood.





William Craig | James Daily | Walter DeWitt | Richard DiPietro | William Leeds

SGA

SENATE 1973

YOUR SGA REPRESENTATIVES FOR THE YEAR 1973. These are the people that you should go to when you have a problem concerning school or the school environment. These men are the ones that have put themselves up for election, so take advantage of their positions, make them work for you.

There are also plenty of jobs available that need filling. So if you feel that you might want to get involved with your university, the SGA is a good place to start. Other organizations that are part of the SGA are also in need of interested students that care about their colleges.

There is the Avion for people that like to work with a weekly paper, The Pegasus for those that are literary enthusiasts, and the PHOENIX for those that want to publish a real book. So get involved and get more out of your education.

Betty J. Bond, Director of Alumni Affairs

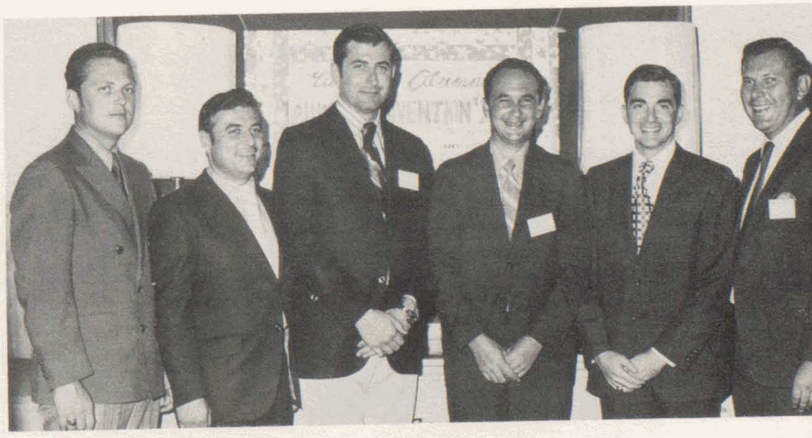
Whence sprang the alumni worker? Seven years of thorough research by the Institute for the Study and Understanding of Alumni Man have produced a voluminous and scholarly work which includes three principal theories.

The first theory, brought forth by a group of anthropologists, states that todays alumni workers are unquestionably descendents of the widely-recognized miracle workers who lived near the Dead Sea in ancient times. Some of the most noted of these could, among other things, turn water into wine. The Anthropologists assert that the uncanny and superhuman ability of todays alumni executive to take a small budget and turn it into thousands for his university has obvious evolutionary connections with the miracle workers of that long ago time.

This Theory is hotly disputed, however, by a number of historians known as the "Eastern group". This group asserts that alumni workers are actually descended from an ancient Afghan religious sect which could speak in tongues — that is, speak in unknown languages. The historians believe that the incredible capacity of alumni workers to fluently, and often simultaneously, speak the jargon of students, faculty, administration, and alumni stems from NO other than this ancient sect of afghanistan.

A Third group of scientists believes neither of the above, but holds to a theory even more remarkable. In medieval Europe, a favorite form of execution was "Quartering". The limbs of a man would be tied to four spirited horses pointed in different directions, and the horses whipped — the results so obvious as not to be recorded in scholarly works. However, an unjustly accused man could muster the strength of a four-horsepower engine and hold back the horses. The scientists state that alumni workers descend from the few amazing survivors of "quartering". In fact, they say the evidence of their theory is obvious. They ask, "Who else but descendants of such incredible men could conduct their affairs amid the turmoil of students, alumni, faculty, and administrators going in four different directions.

Alumni president Harold A. Kosola (left) has rendered Embry-Riddle and its alumni many years of faithful service. He is shown here receiving from university President Jack R. Hunt, the award for "OUTSTANDING ALUMNUS OF THE YEAR, 1972".



THE ALUMNI BOARD OF DIRECTORS is responsible for the administration of the Alumni Association. Shown here are (l. to rt.): James E. Augustus-Treasurer, David Raben, Larry Brandt, Victor W. Tisdel, Vice-President-Phillip S. Woodruff, and President-Harold A. Kosola. (Not pictured above are Stephen Gay and Secretary Robert J. Brown.)

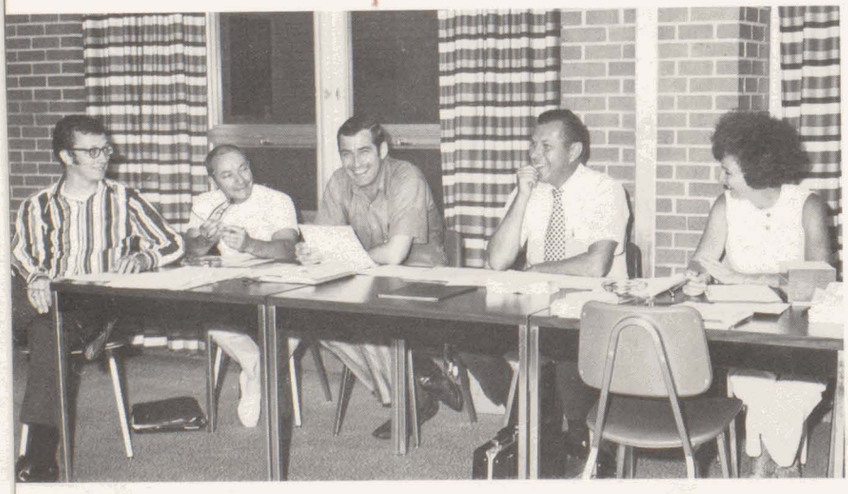
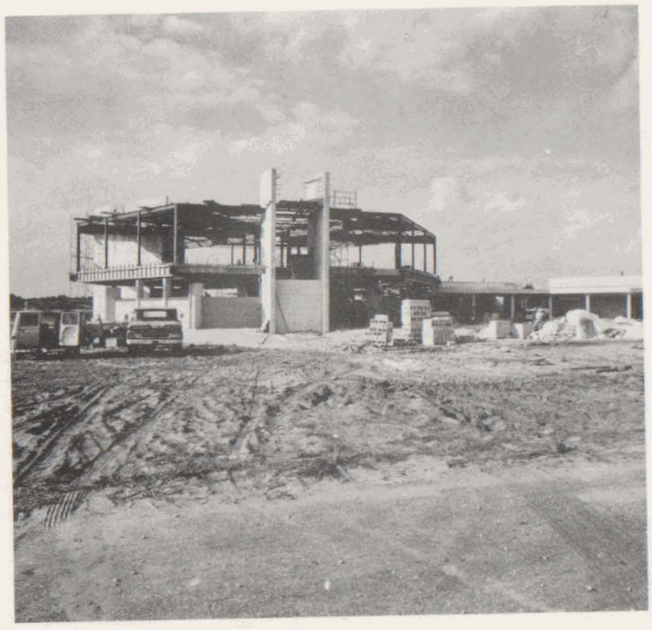
AS EMBRY-RIDDLE ALUMNI

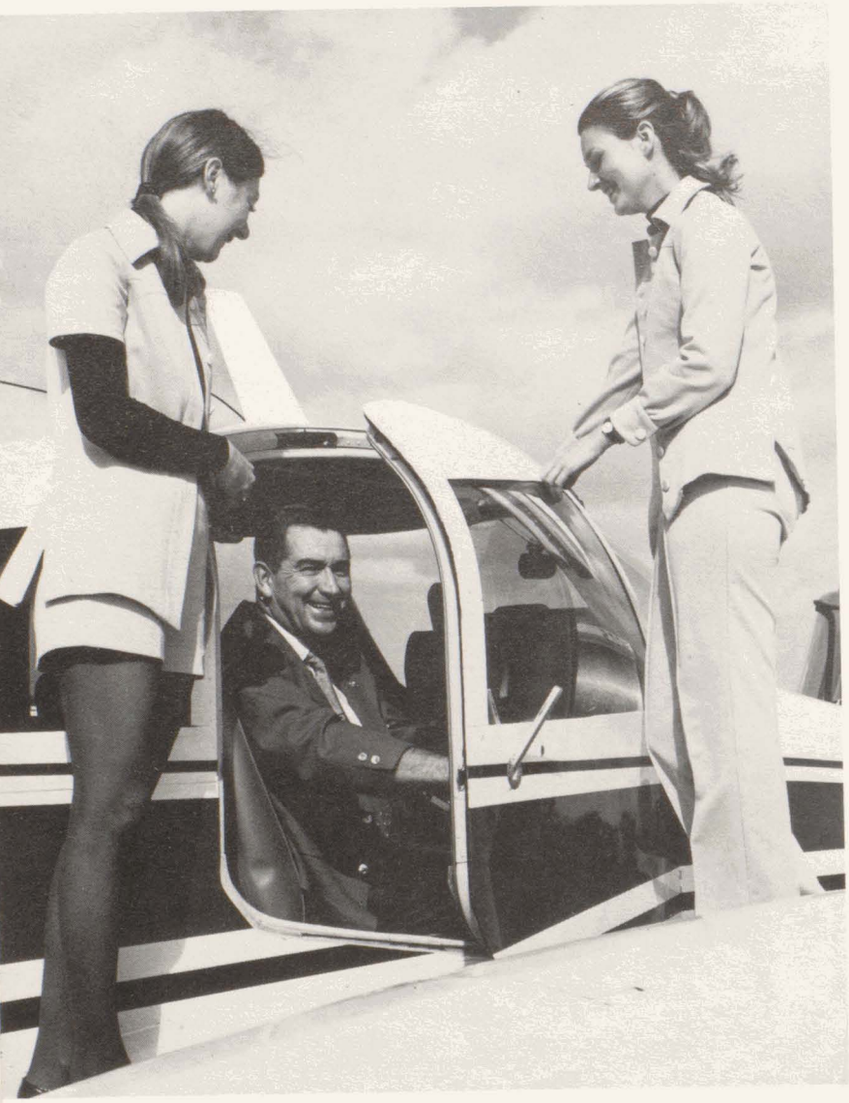


GRADUATES WHO CARE . . .



AND ARE HELPING TO MOLD THE FUTURE OF THEIR ALMA MATER

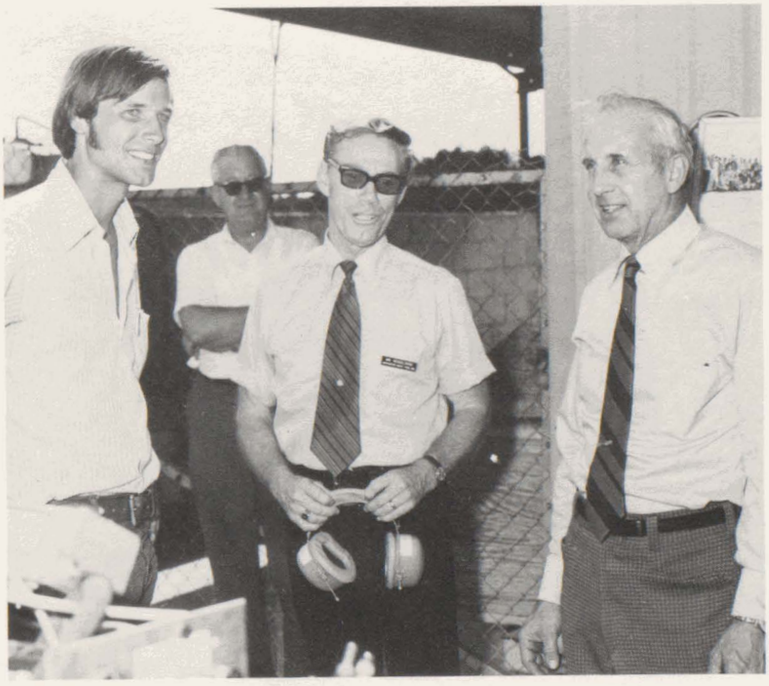
The Parents Association . . .
"dedicated to promoting closer ties and a better understanding between the home and the University."



Jack Faes, Manager of Flying for Eastern Airlines, and parent of E-RAU student Larry Faes, started it all in the spring of 1971. Captain Faes was always an "others-oriented" individual anyway, and the idea of organizing a parents group of Embry-Riddle seemed to him simply brimming over with possibilities — for both parents and the University.

Today, 1500 parent families scattered all over the United States and in 25 foreign countries, enjoy informational publications, family-orientated service programs, and fellowship with other parents. They have put their combined support behind the University in a variety of ways, too. So, everybody is a winner in the Embry-Riddle Parents Association.

"PARENTS COUNT — at Embry-Riddle!"



INTERFRATERNITY COUNCIL

Tip Fuller, President

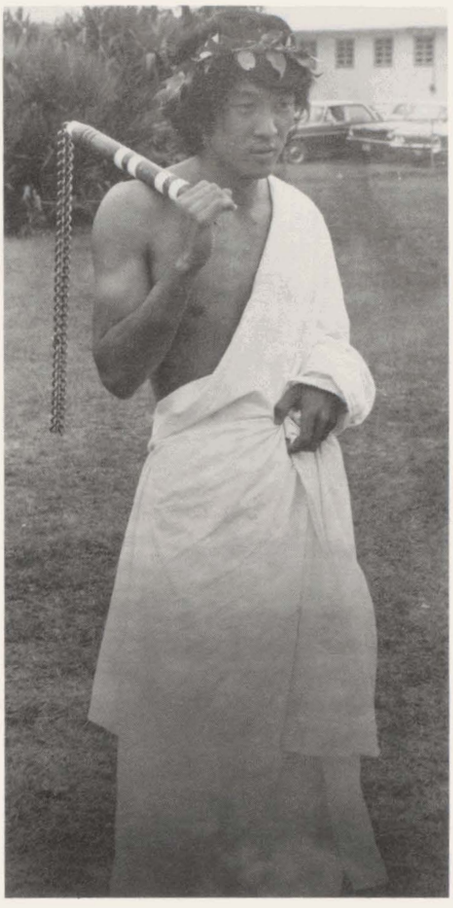
The Interfraternity Council is the cooperative governing body of the campus Fraternity system. The members of the IFC are chosen from each fraternity by their respective brotherhoods. The main objective of the IFC is to coordinate the Fraternities and maintain cooperation among the various Greek organizations.

Among other projects in the IFC there is the Annual GREEK WEEK which features Greek Games or competition among the Fraternities.

Through the efforts of the IFC in GREEK WEEK and other Interfraternity activities, The Fraternal System on the E-RAU Campus is among the best in the nation. The Fraternal System on campus offers the individual a wide choice between Professional, Social, and National Fraternities.

Alpha Eta Rho, Alpha Rho Omega, The Arnold Air Society, Delta Chi, Lambda Chi Alpha, Sigma Phi Delta, and Sigma Chi Fraternity.

THE GREEK CHALLENGE



The Greek Games are competitive and fun for all that are involved including the spectators. For Those that participate there is the exhausting fun of racing a chariot, or straining your arms in a demanding Tug-O-War, or even running circles around a bat, and the great flour bowl for the Pillsbury people. For the spectators, there is always a hamburg and beer.

PROFESSIONAL FRATERNITY

CHAPTER MEMBER

ALPHA RHO OMEGA

Alpha Rho Omega, a professional maintenance fraternity, was formulated in the minds of several interested students out of a need to create a spirit of cooperation and understanding among aviation maintenance technicians, maintenance managers, and aircraft engineers. This need has for a long time been a problem both at school and in the industry itself. The fraternity is a step toward the goal of bringing the maintenance profession closer together in a spirit of unity so that as we grow and prosper, so will the aviation industry, as a whole, grow and prosper. The date of founding was during March, 1971, at Embry-Riddle Aeronautical University, Daytona Beach, Fla.

Alpha Rho Omega believes that the aviation maintenance profession holds a very important position in today's aviation community. These particular individuals are responsible for the lives of those who depend on their skill and judgement. School is the place to learn a skill, but judgement must be learned from association with people. We want to better prepare our members to take their place in the industry as a responsible member of the team striving for the betterment of aviation.

We have plans to extend Alpha Rho Omega to other schools and eventually throughout the entire aviation industry. The fraternity is on the ground floor trying to establish the guidelines that must be followed if it is to succeed, but already we see that there is no end to the possibilities which are open.

At the present time, the fraternity meets every Wednesday evening to discuss the problems which have arisen during the week and plans for upcoming events. After the business meeting, there is a film or discussion on job placement for the seniors and alumni. The upcoming agenda has dates set aside for guest speakers which will invariably enlighten us on how to further prepare the professionals of tomorrow to learn the new methods and techniques employed in everyday maintenance throughout the industry.

It is the sincere hope of the fraternity that as our brothers graduate and enter the field of aviation, they retain their ties with the fraternity and help us prepare other men to take their places in aviation also.

Hopefully, before not too long, Alpha Rho Omega will be a standard name in the aviation industry used to introduce one brother to another and overcome the communication barrier between men of the same career field.

At present Alpha Rho Omega incorporated chapter membership in the Society of Licensed Aircraft Engineers and Technologists, London, England. The society is a technical and professional society founded in 1944 in England, and is devoted to the general advancement of aeronautical maintenance and the promotion of safety in all aviation. The Headquarters for the Society is located outside London, England and at the present time the active membership in the Society is over 7,000 with approximately 20% of the total in 44 countries throughout the free world.

Alpha Rho Omega has also joined the Professional Aviation Maintenance Association as a charter chapter member. PAMA is a new national maintenance association created to incorporate all of the present local maintenance organizations throughout the U.S. into one large body. It is currently about 8 months old and has approximately 400 members.

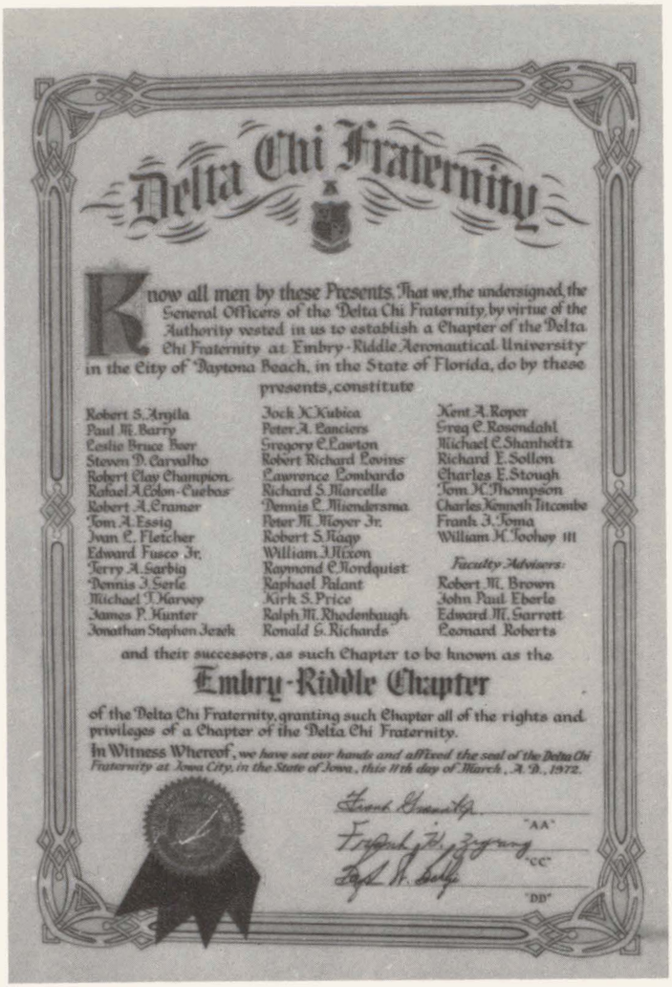
Delta Chi



Delta Chi Fraternity

Know all men by these Presents, That we, the undersigned, the General Officers of the Delta Chi Fraternity, by virtue of the Authority vested in us to establish a Chapter of the Delta Chi Fraternity at Embry-Riddle Aeronautical University in the City of Daytona Beach, in the State of Florida, do by these presents, constitute

Robert S. Arytia	Jack K. Kubica	Kent A. Roper
Paul M. Barry	Peter A. Canclers	Greg E. Rosendahl
Leslie Bruce Boer	Gregory C. Lawton	Michael C. Shamhottz
Steven D. Carvalho	Robert Richard Levins	Richard E. Sollon
Robert Clay Champion	Lawrence Lombardo	Charles E. Stough
Rafael A. Colon-Cuebas	Richard S. Marcelle	Tom K. Thompson
Robert A. Cramer	Dennis C. Miendersma	Charles Kenneth Titcombe
Tom A. Essig	Peter M. Moyer Jr.	Frank J. Toma
Ivan C. Fletcher	Robert S. Nagy	William H. Toohey III
Edward Fusco Jr.	William J. Nixon	
Terry A. Garbig	Raymond C. Nordquist	*Faculty Advisors:*
Dennis J. Gerle	Raphael Palant	Robert M. Brown
Michael T. Harvey	Kirk S. Price	John Paul Eberle
James P. Hunter	Ralph M. Rhodenbaugh	Edward M. Garrett
Jonathan Stephen Jezek	Ronald G. Richards	Leonard Roberts

and their successors, as such Chapter to be known as the

Embry-Riddle Chapter

of the Delta Chi Fraternity, granting such Chapter all of the rights and privileges of a Chapter of the Delta Chi Fraternity.

In Witness Whereof, *we have set our hands and affixed the seal of the Delta Chi Fraternity at Iowa City, in the State of Iowa, this 11th day of March, A. D., 1972.*

"AA"

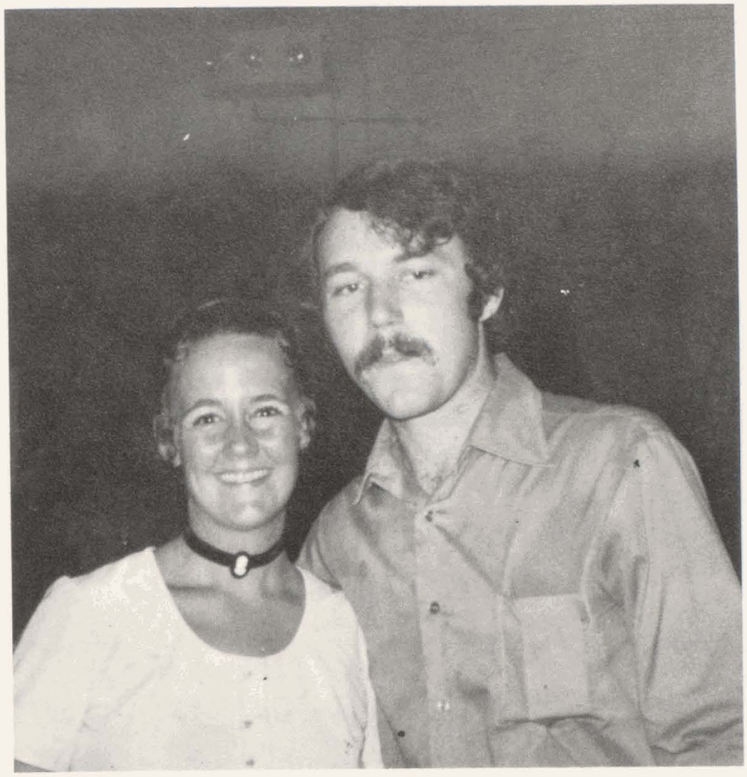
"CC"

"DD"

DELTA CHI

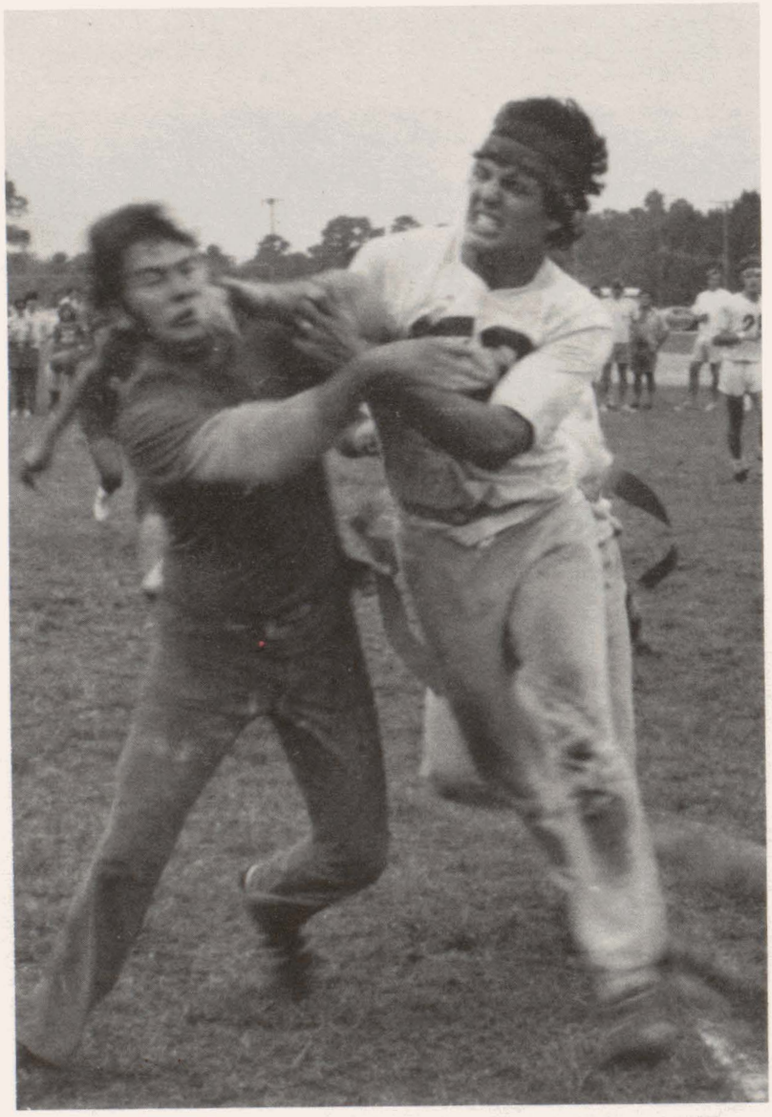
In 1973 Delta Chi has again maintained its No. 1 position in athletics. In intramural football we again finished in first place undefeated. Also in the GREEK WEEK competitions the final results were very close but again we squeaked by for victory.

This coming year we again plan to be the No. 1 athletic Fraternity on campus.

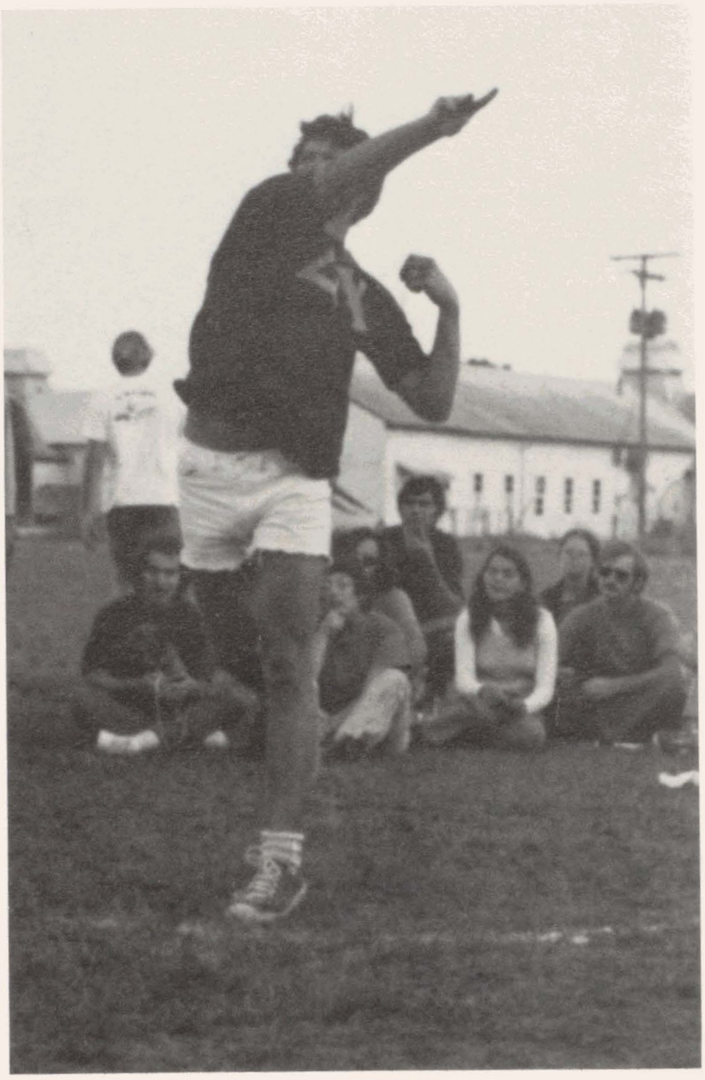


Make way for the master!

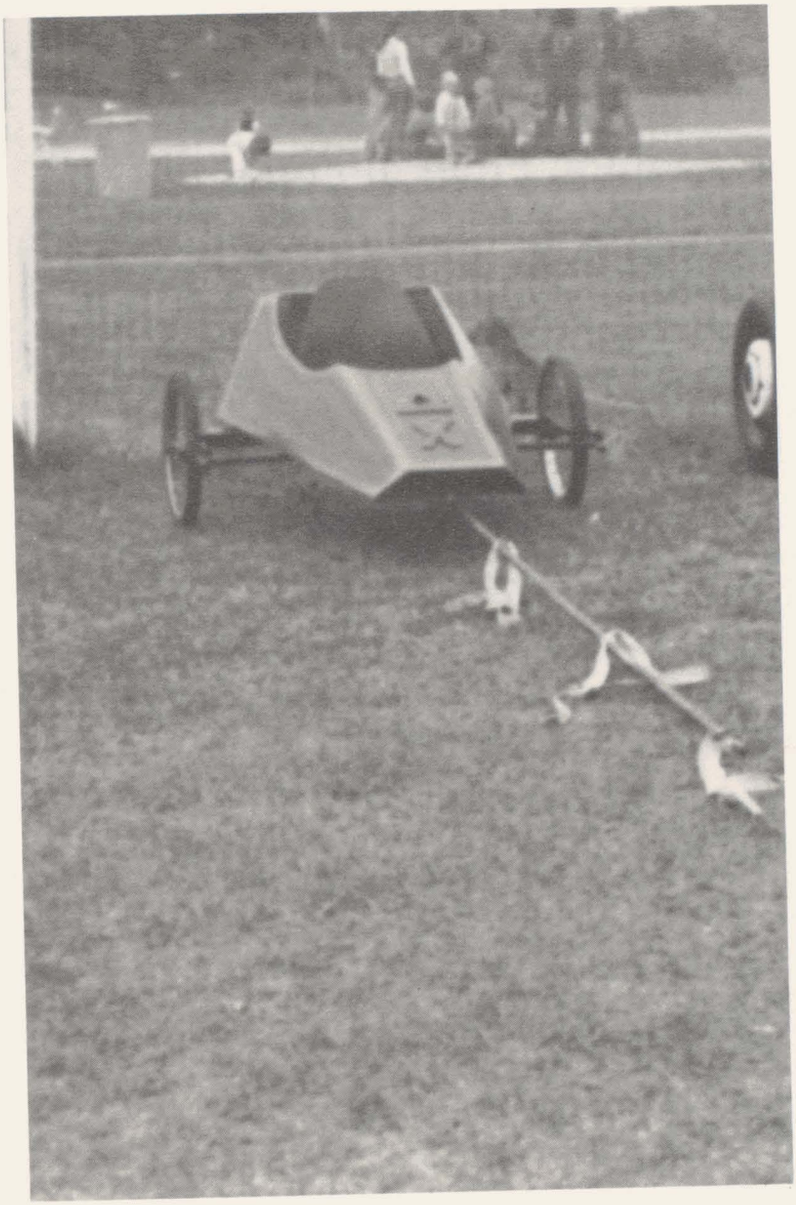
CHEERS! !

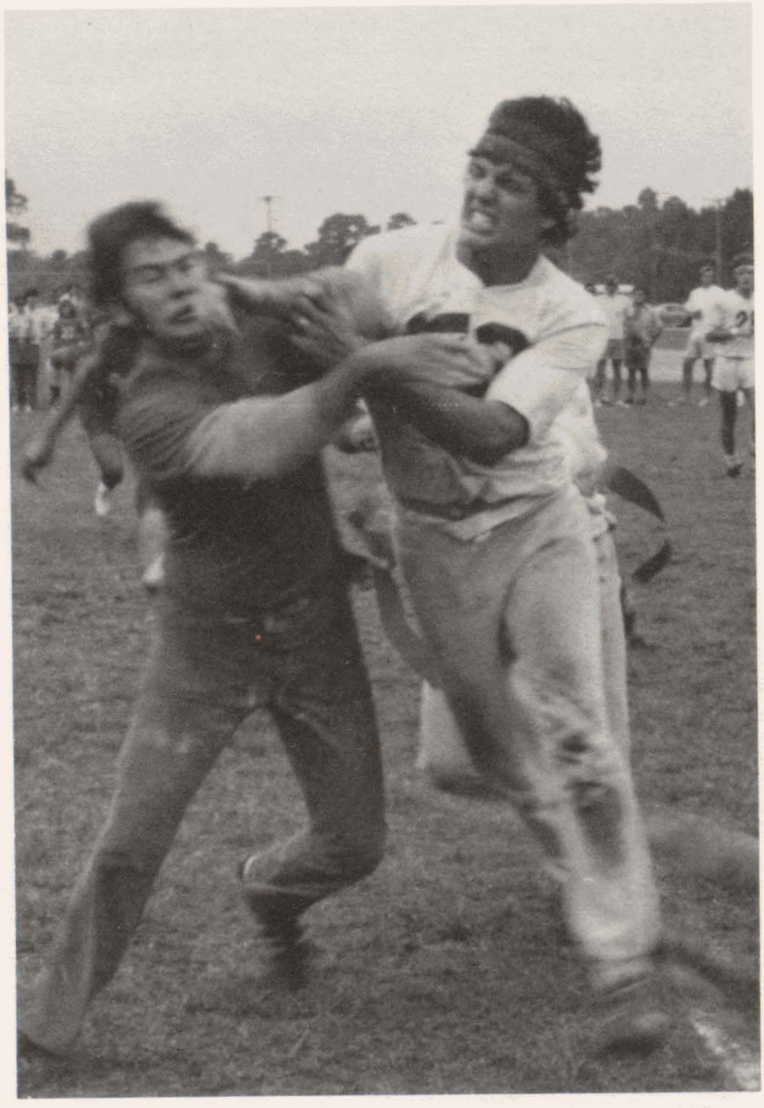


We've got to stop meeting like this; my dentist won't approve.

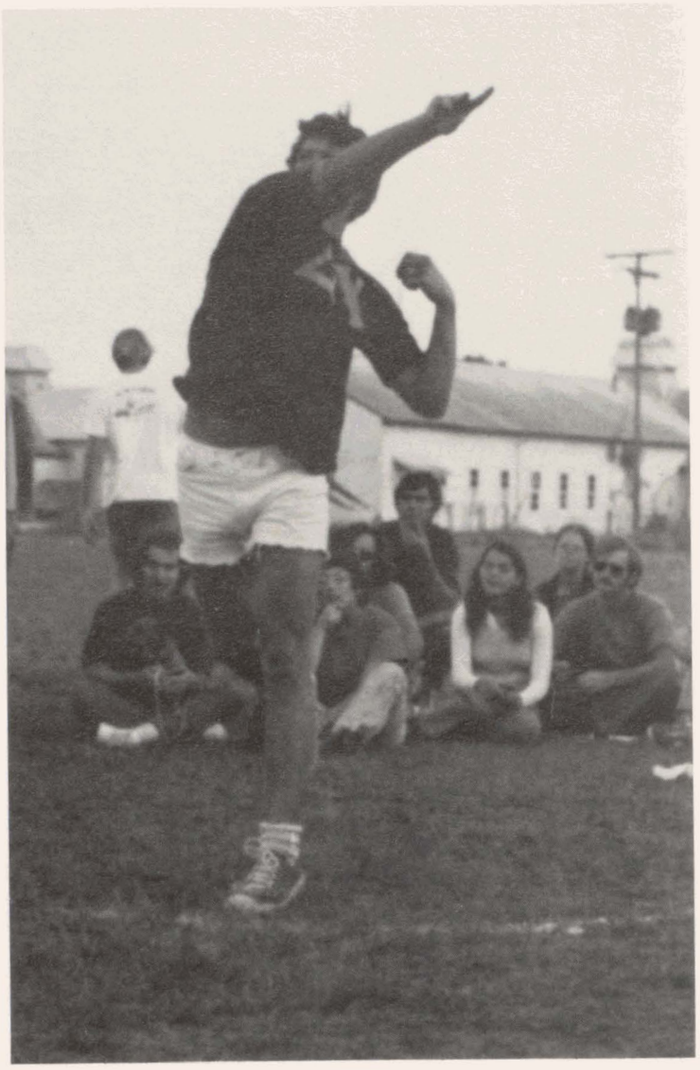


COMPETITION . . . that is an important part of life and also an important part of the Delta Chi Fraternity. The brothers of Delta Chi strive for excellence on the ATHLETIC FIELD and also within their own lives. To be a part of Delta Chi is to inherit the spirit of competition. For in this spirit the man is most able to find himself and set the goals that he must reach in his lifetime.

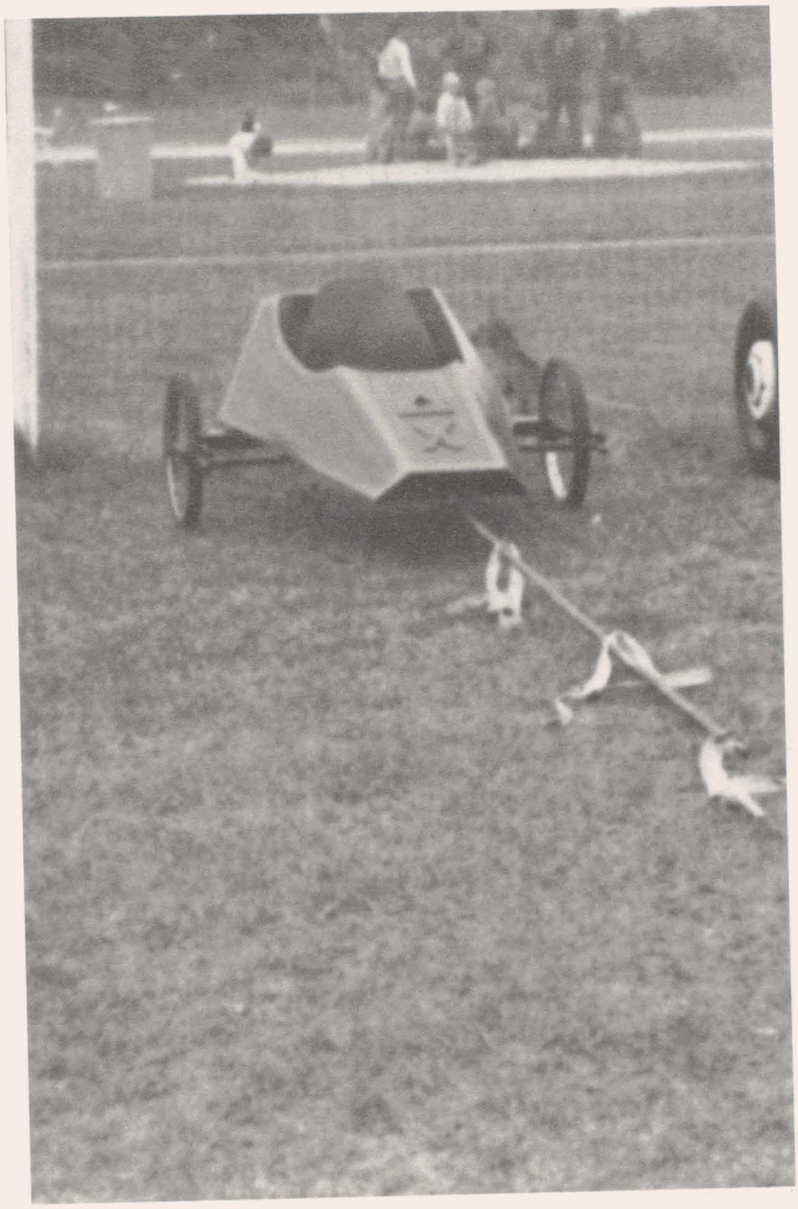


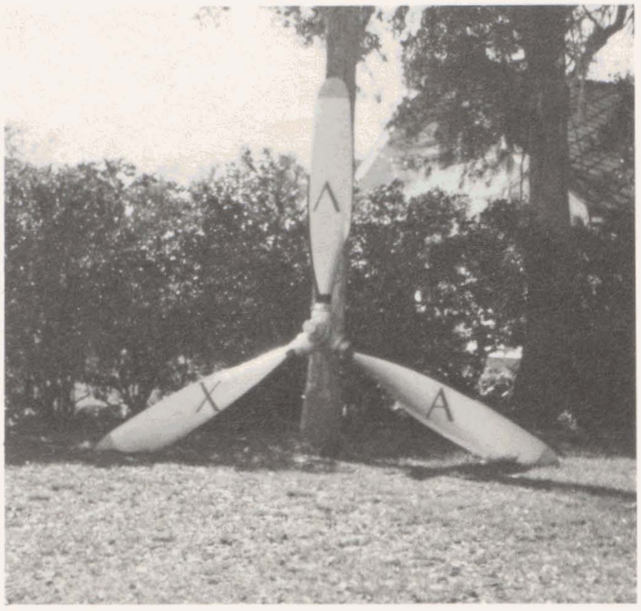


We've got to stop meeting like this; my dentist won't approve.



COMPETITION . . . that is an important part of life and also an important part of the Delta Chi Fraternity. The brothers of Delta Chi strive for excellence on the ATHLETIC FIELD and also within their own lives. To be a part of Delta Chi is to inherit the spirit of competition. For in this spirit the man is most able to find himself and set the goals that he must reach in his lifetime.





LAMBDA CHI ALPHA

Lambda Chi Alpha, the Fraternity of honest friendship, is a relatively new name on campus, but one that is becoming very well known. The brothers of Lambda Chi are very active in many activities that are happening on campus.

Lambda Chi Alpha is part of the large national fraternity system. This feature alone is a reason that it ranks among the best fraternities on campus, even with its relatively short period as an active social fraternity on the Embry-Riddle Campus.

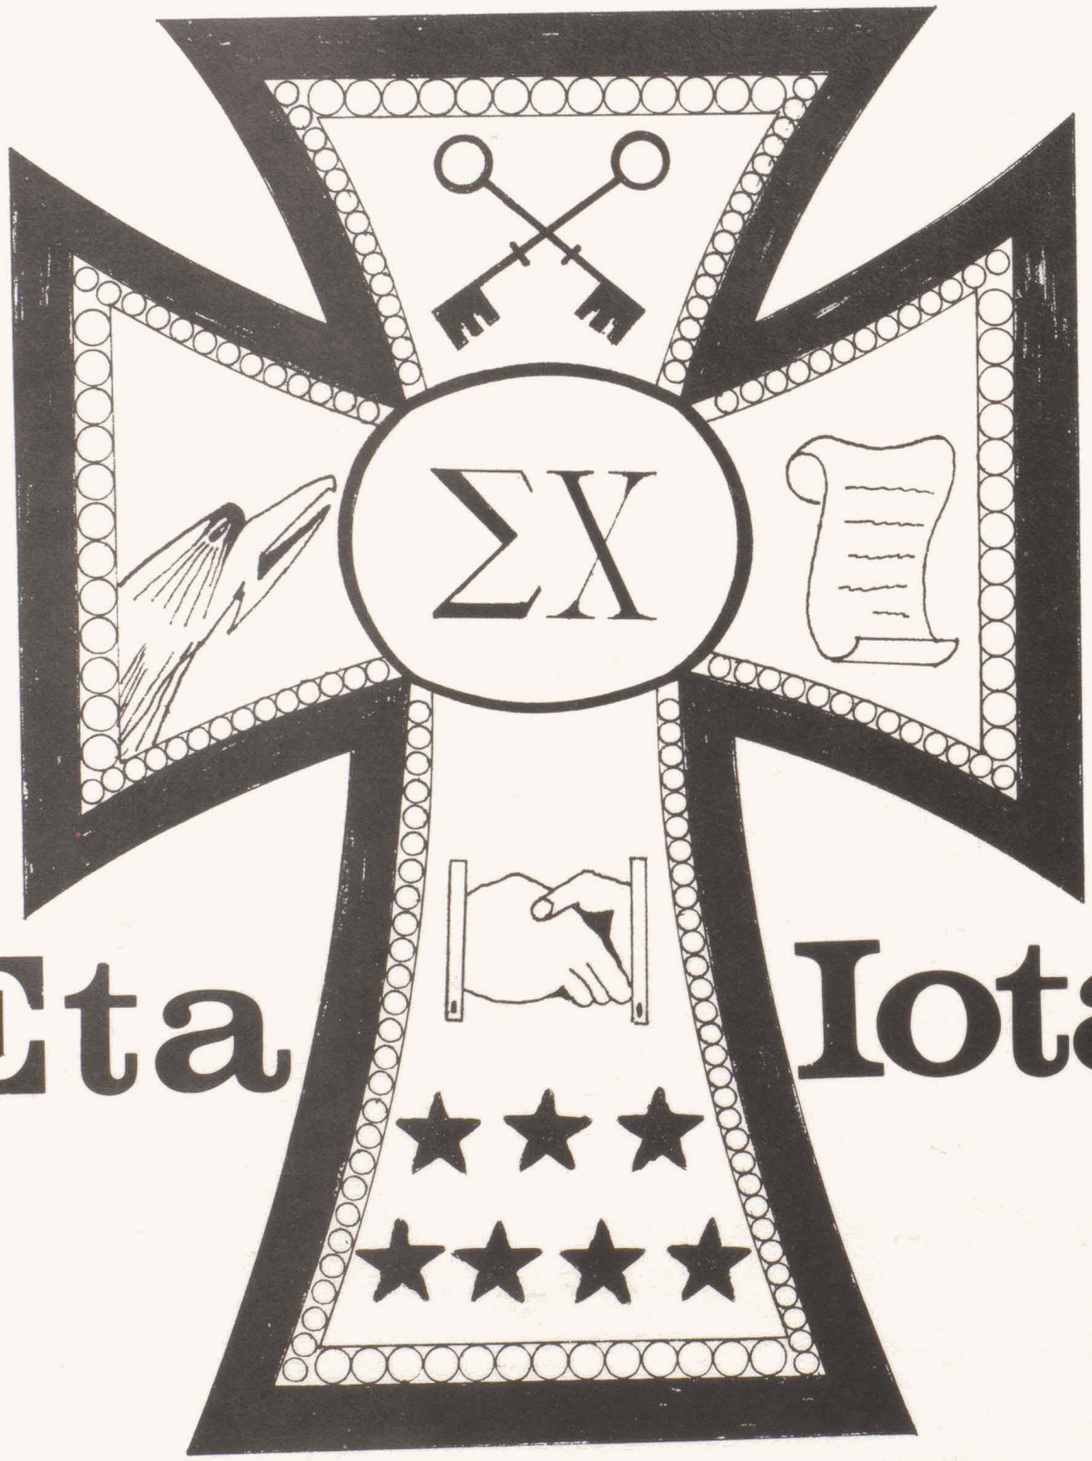
SIGMA CHI

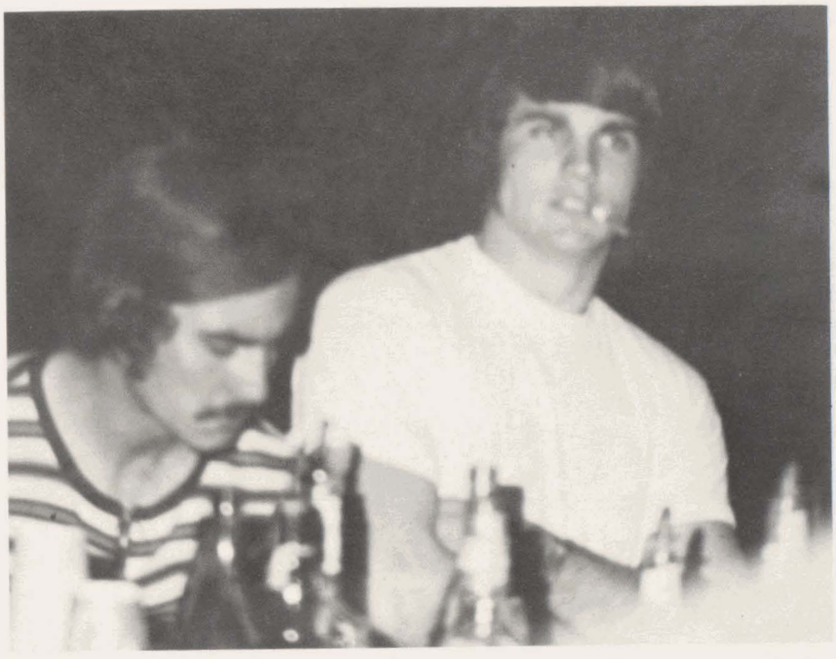


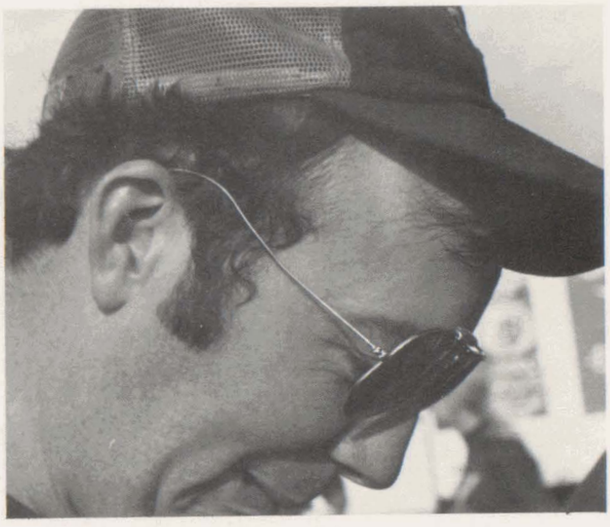
Eta Iota

FOUNDED MARCH 6, 1971

Sigma Chi Fraternity is truly an International Fraternity with over 150 active chapters in the United States and Canada. Eta Iota Chapter at Embry-Riddle is a fairly young chapter in Sigma Chi. We received our charter on March 6, 1971 and we've been growing ever since.

The brothers of Sigma Chi at work parties, Toga parties, or on campus are always the active group. At Sigma Chi we feel that we are an important part of the University, Community, and the Student Body. The projects that we undertake reflect this feeling. This year we went all out to support the Easter Seals Campaign, the Blood Drive, The Student Senate, and many other organizations on campus. If something important is happening you can be sure to find a Sigma Chi taking an active part.





Taking an active role on campus is not our only activity. When our brothers are in need they can be sure of finding another brother that can help him through when he needs extra strength.

He ain't heavy . . .

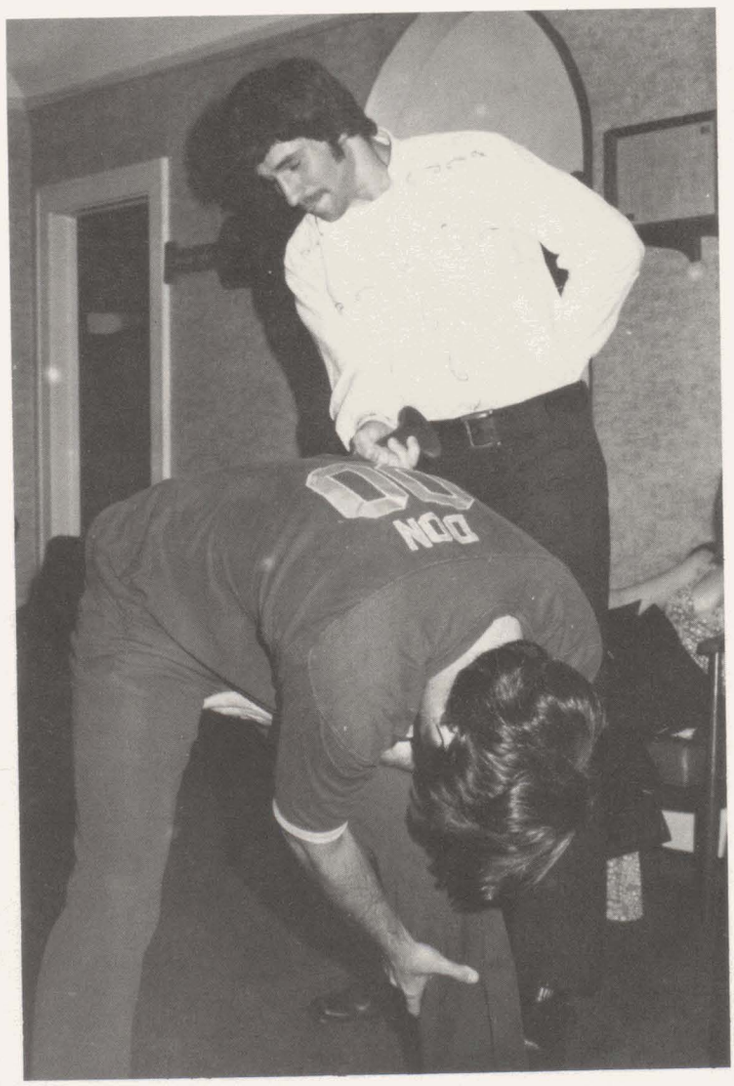
SIGMA PHI DELTA

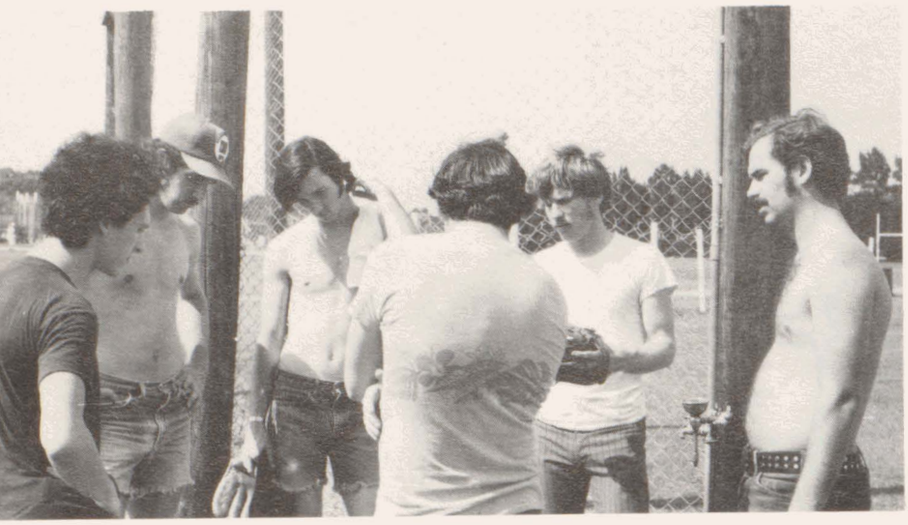
Sigma Phi Delta is a national Professional Fraternity for Engineers. The Pi Chapter here at Embry-Riddle is also an active social Fraternity that maintains all of its professionalism with Professional orientated meetings that relate to what is happening in the current field of Engineering. The brothers of Sigma Phi are a very close group and work closely together. Even though the numbers of Sigma Phi are small the spirit and the brotherhood are very large indeed.



Say Schlitz!!

Explode?? How should I know?

Dr. Ritchie speaks



Range is, $R = v_x T = v\cos\theta\left(\frac{2v \sin\theta}{g}\right) = \frac{2v^2 \sin\theta \cos\theta}{g}$

PULL . . . PULL . . .

Avion

PEGASUS

ORGANIZATIONS

Embry-Riddle certainly has something for everybody — from poets to party goers.

The leaders of tomorrow can join the SGA.

The newspaper men can write for the Avion. And those with a softer touch contribute to Pegasus.

Then there are numerous Fraternities where a man can find a brother, friendship and a good time.

The Vets are very active as is A A A A for those with the common bond of the military.

The daredevils can join the sport parachute club.

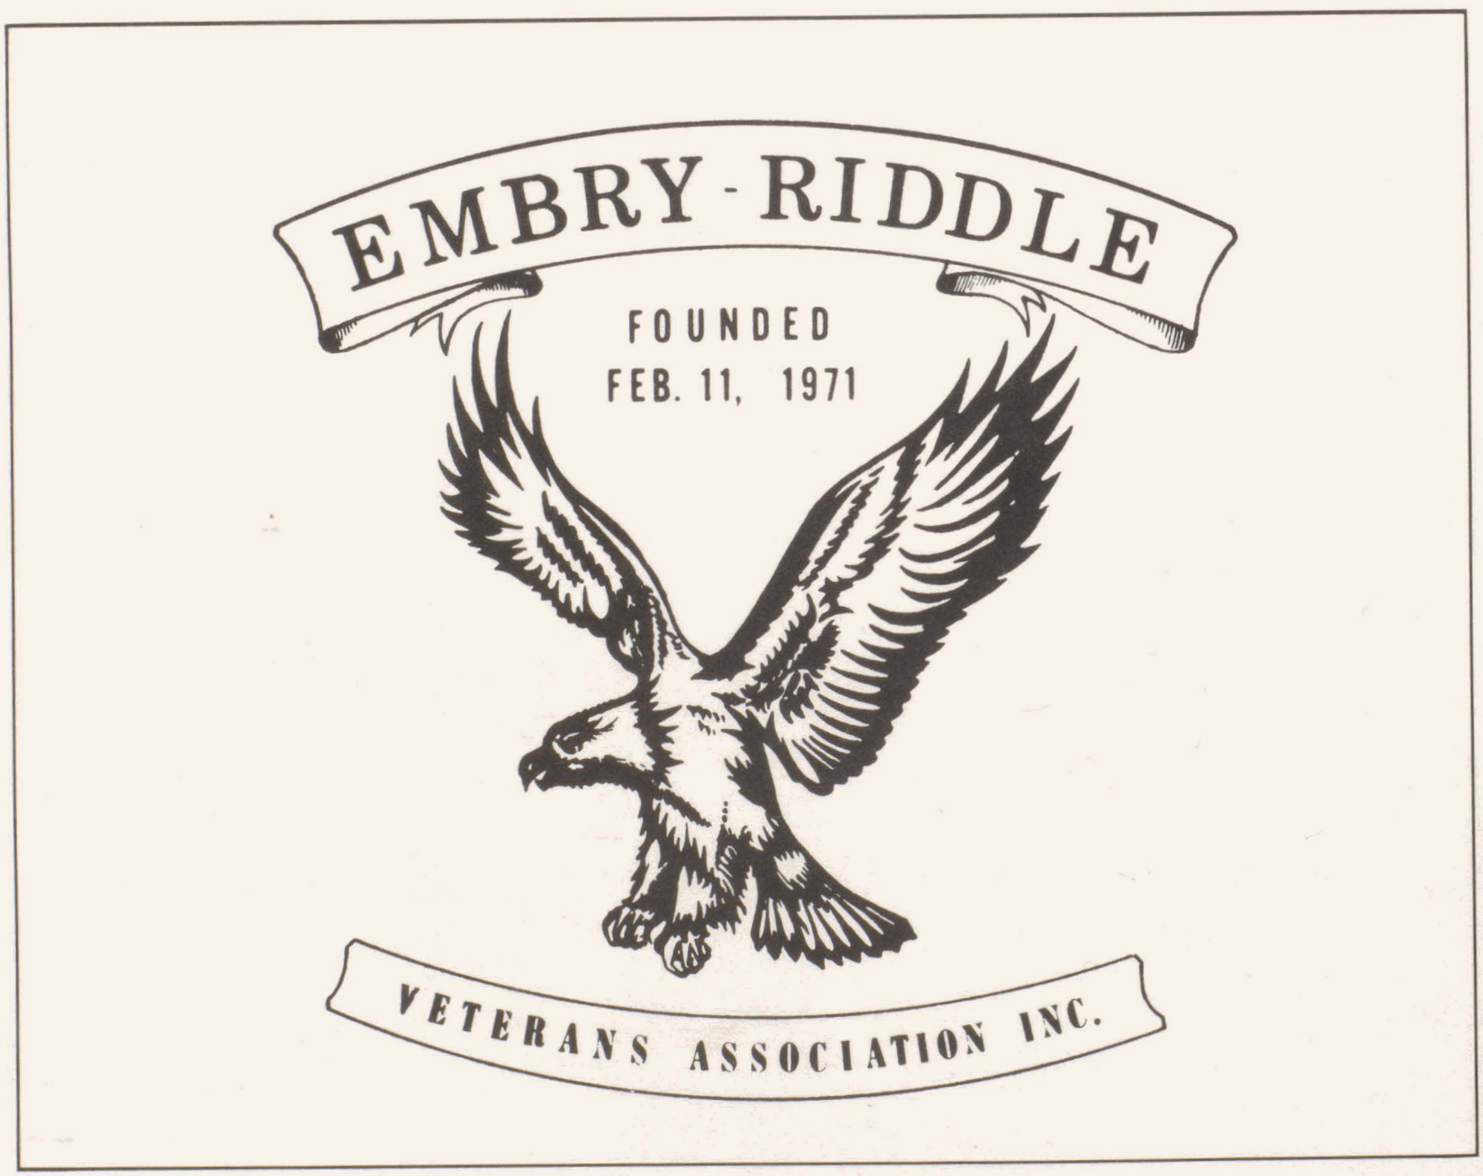
So if you are bored at Riddle it's your own fault.

AAAA

PHOENIX

VA

VETERANS ASSOCIATION INC.



The Veterans Association is the largest organization on campus, established to provide social activities and promote fellowship among all veterans at Embry-Riddle.

ATHLETICS

VARSITY SOCCER

Soccer — with an international flavor — is the oldest intercollegiate sport at Embry-Riddle. The first game was played against Rollins College in September, 1965. E-RAU (then E-RAI) defeated that year's F.I.C. champion 5 to 3 and a new era was born in Florida Soccer Annals.

There are several good reasons behind this rapid success. One is the spirited coaching of Dean Herbert Mansfield, a retired Army Colonel who sets a vigorous pace and leads the way — on the playing field or off. Dean Mansfield lettered in Soccer at nearby Stetson University and helped coach the Stetson team before coming to Embry-Riddle. He now takes particular satisfaction in leading the Eagles to victory over that team.

A list of players on the Eagles team reads like a "Who's Who" of the United Nations. And, the team members all get along famously, according to Coach Mansfield. Eight percent of the student body are from foreign countries, but fifty per cent of the Eagles players are foreign students.

A key factor in the Eagles rapid rise in NAIA standings lies in the origin of the players. Many of them are from countries where soccer is the national pastime; where children grow up playing soccer on empty lots the way American youngsters cut their competitive teeth on sandlot baseball or football.

Some of the foreign countries represented on E-RAU's soccer team are Lebanon, Iran, Nigeria, Tanzania, Thailand, Germany, Czechoslovakia and Canada.

(top left) Coach Mansfield looks on at the action. The action in soccer is endless. From the first movement of the ball to the final whistle there is a multitude of excitement.

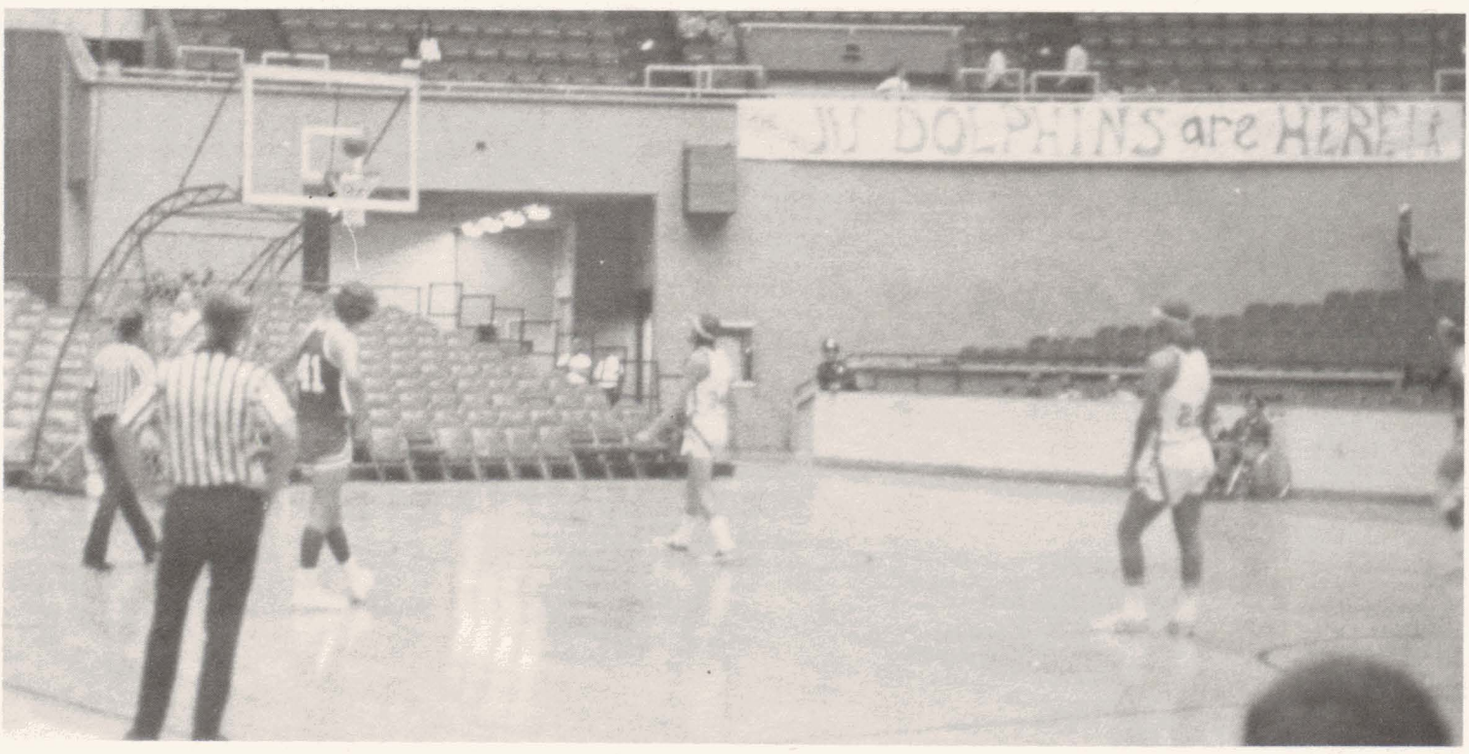
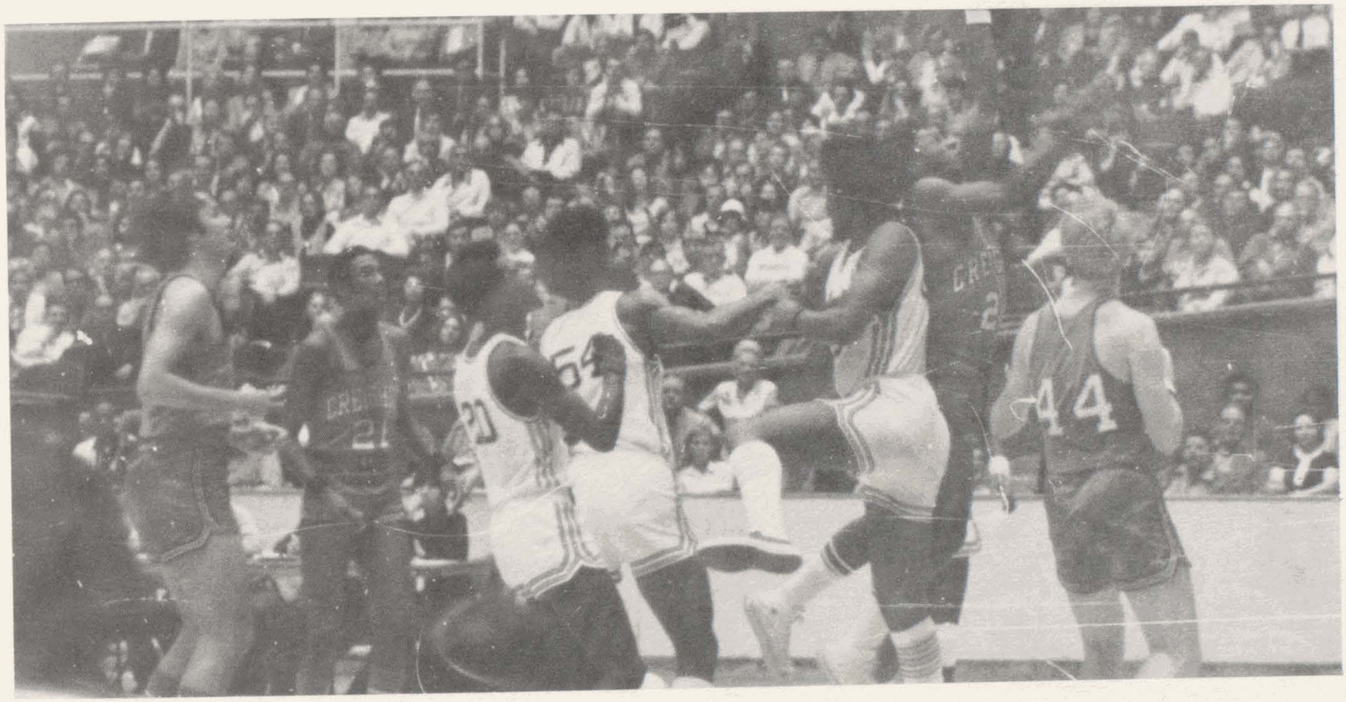
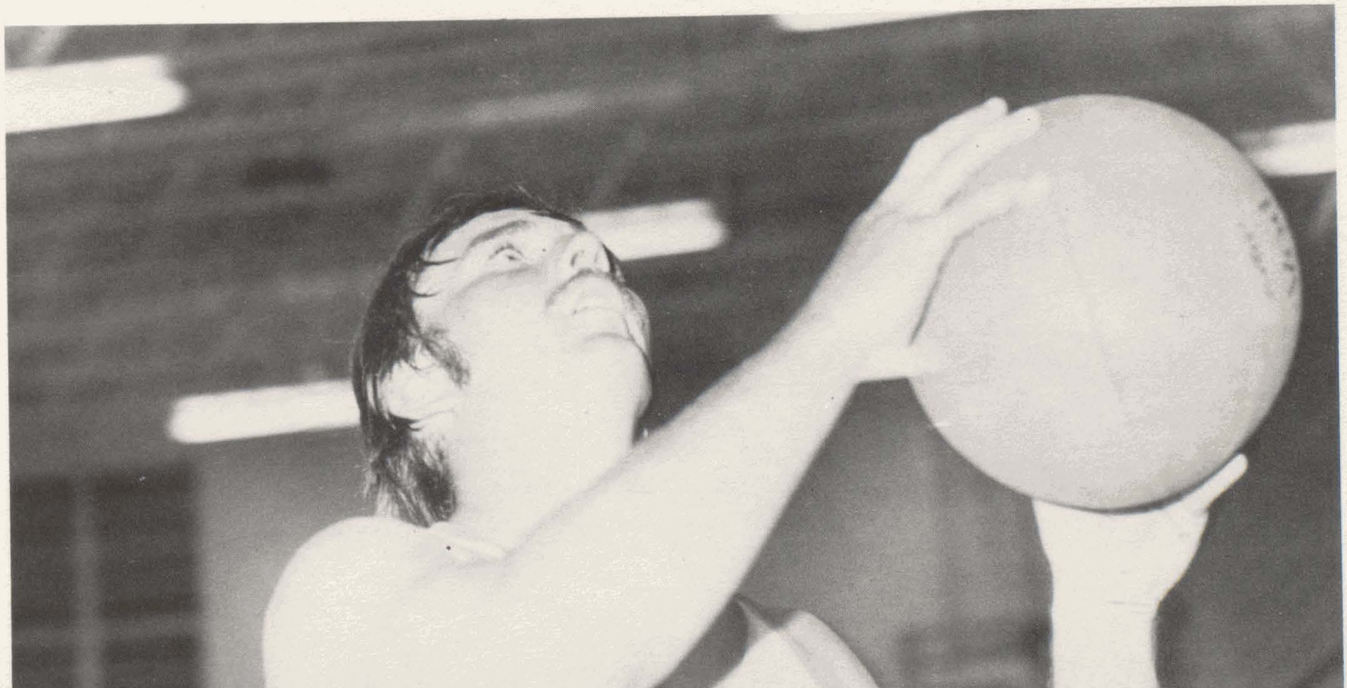
VARSITY BASKETBALL

Basketball at E-RAU is a young sport as it was only introduced to the E-RAU campus two years ago. However, our team is growing in strength, this year we even beat the traditionally strong Jacksonville Jay-Vee team.

It might be a couple of years before the E-R team wins the state championship but the team is fast becoming a real challenger in its league.





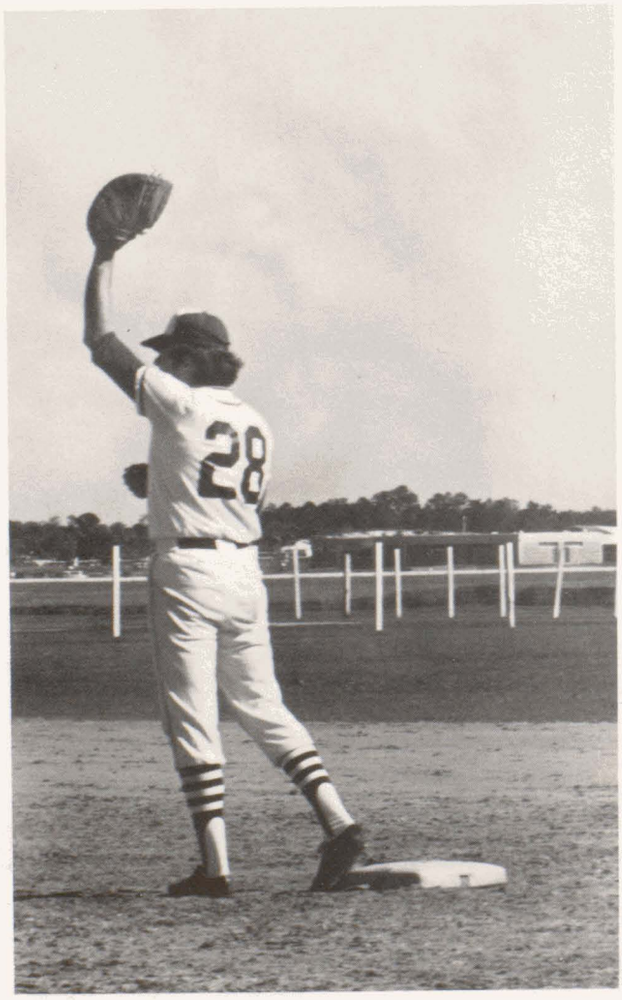


VARSITY BASEBALL

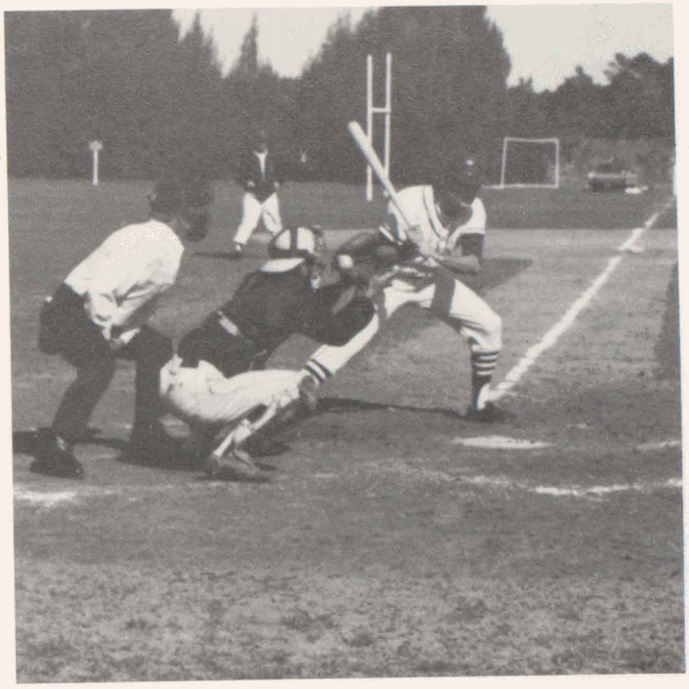
The Baseball team this year received more support than ever before. The team made a fine showing all season long and accented the season with an E-RAU sponsored Baseball Tournament. The tournament featured big named schools and some fine baseball games.

Coach Robert Brown

"SLUGGER"



A Baseball Game Is: . . .



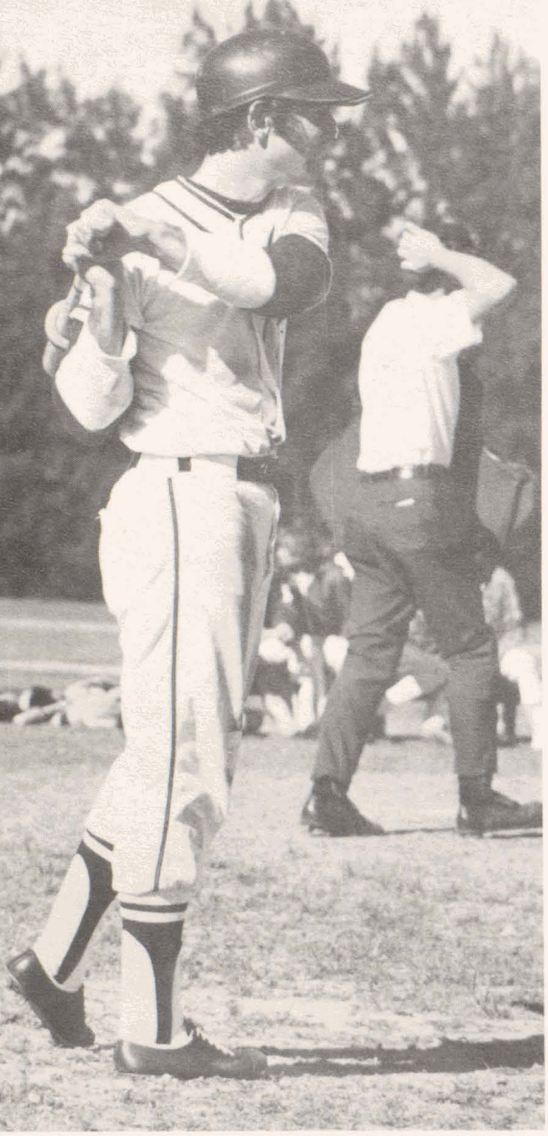
Batting . . .

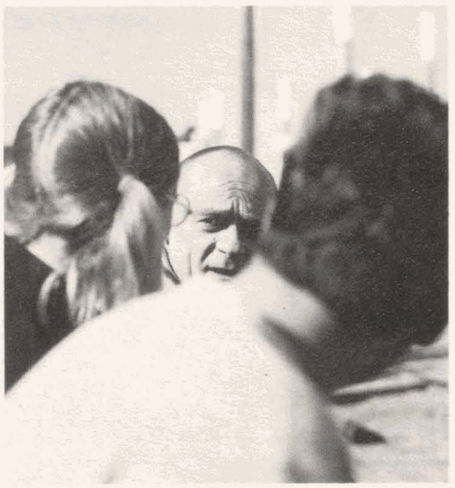
Fielding . . .

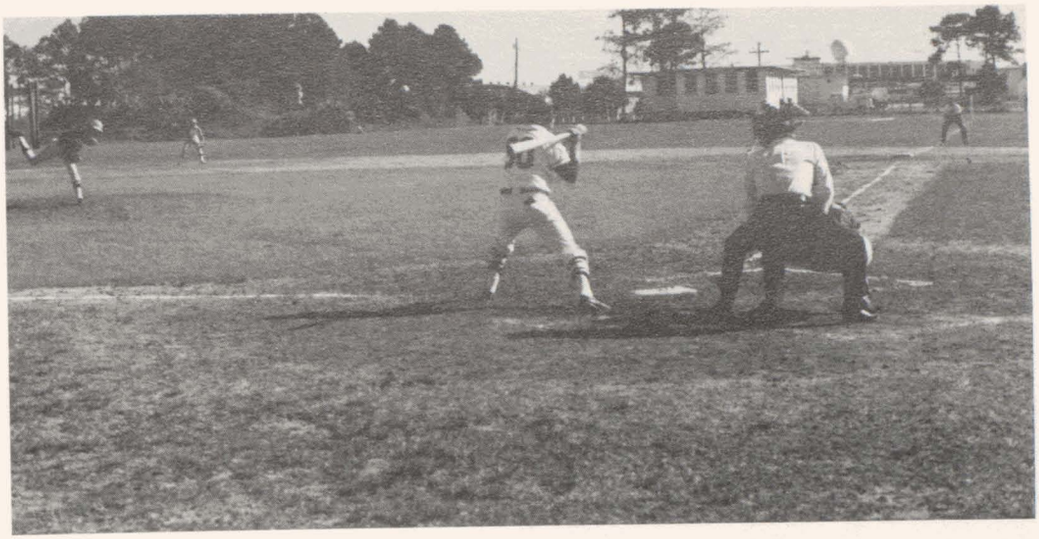
Spectating . . .

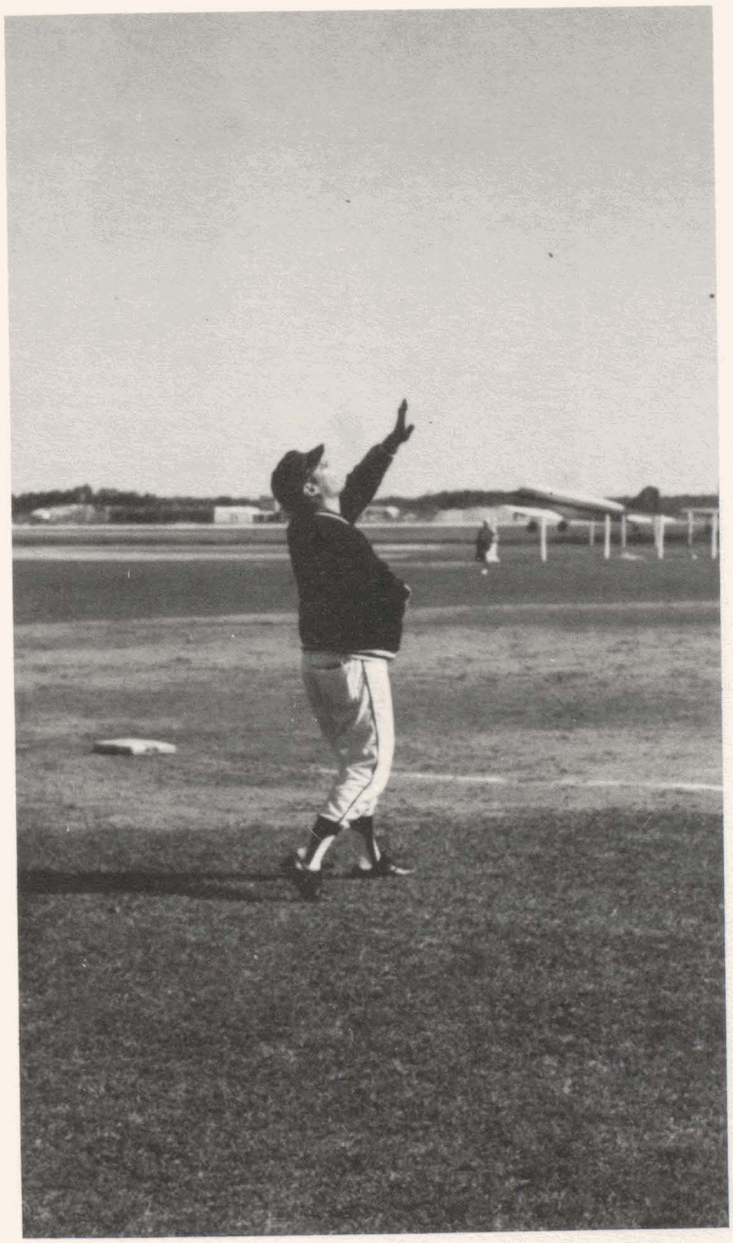
Waiting . . .

Watching.

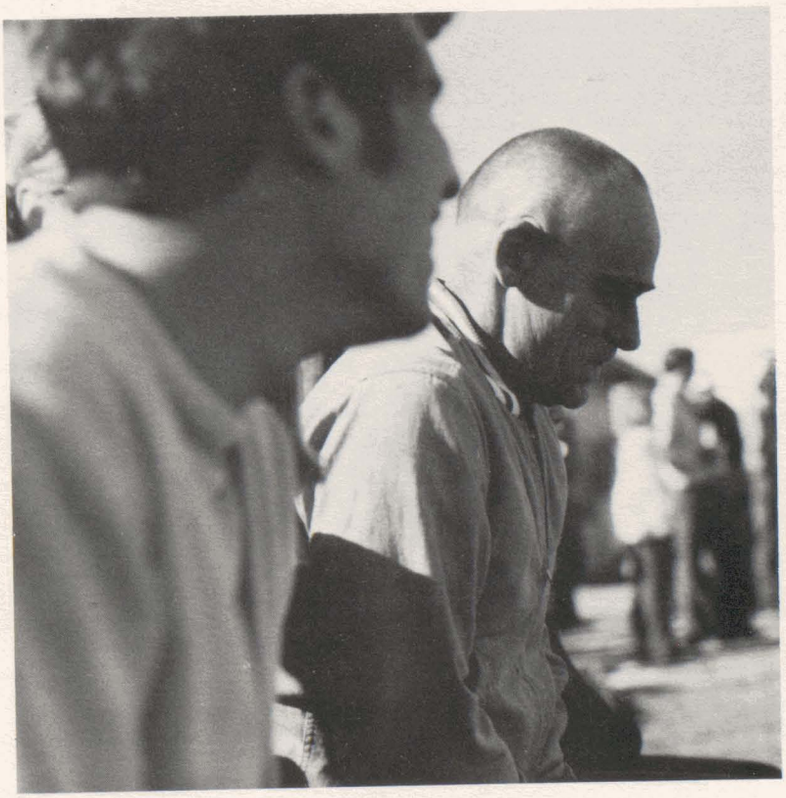








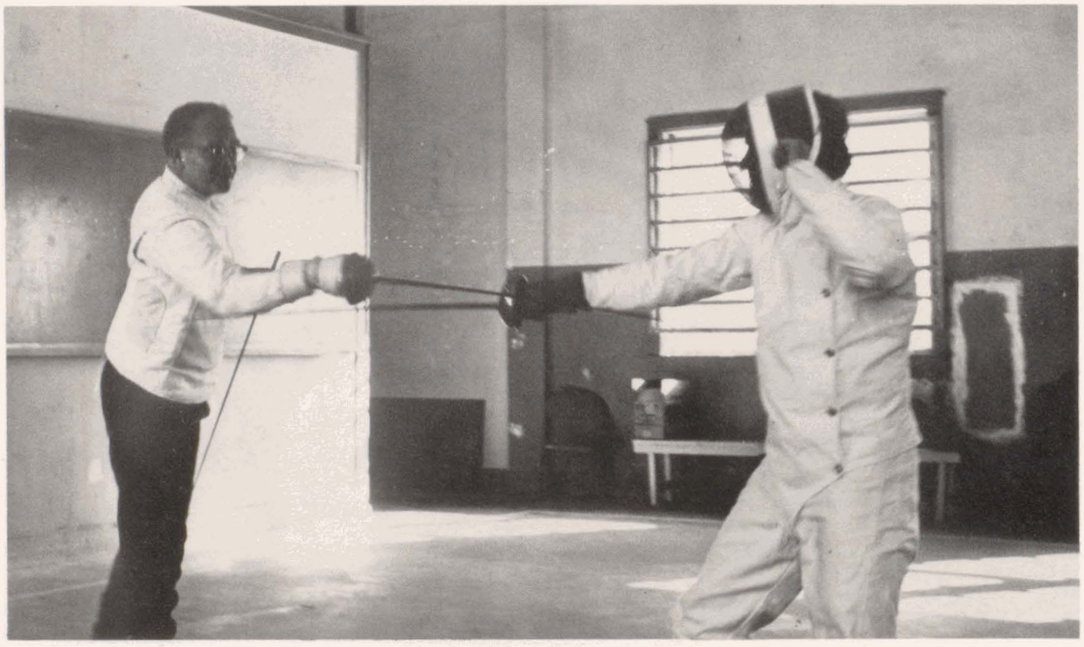
I've got it!!

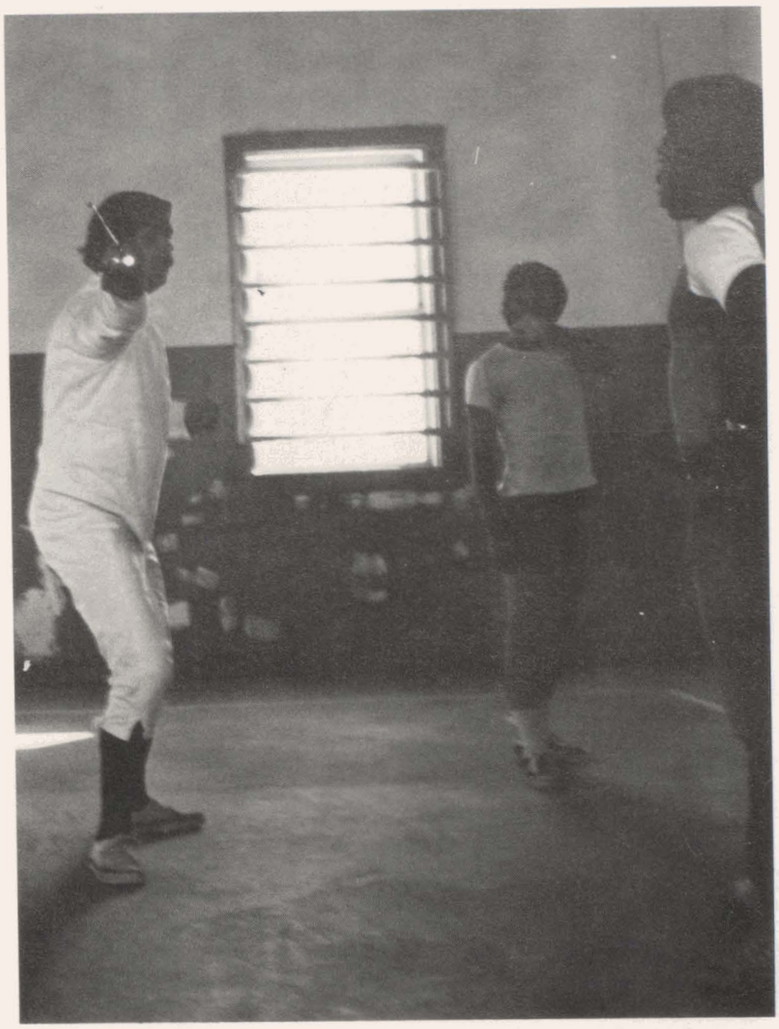


FENCING

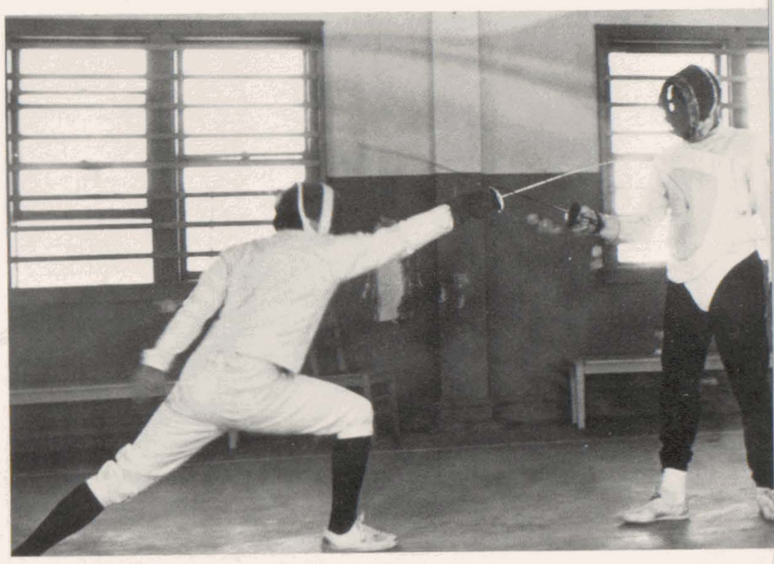
The classic, competitive art of fencing is now being taught to interested students in the E-RAU Fencing Club. This club has entered several collegiate fencing competitions and has faired very well.

The students learn under the guidance of Dr. Bakst the artfull skill of Fencing. This sport is a very demanding one of both physical and mental strength and endurance.

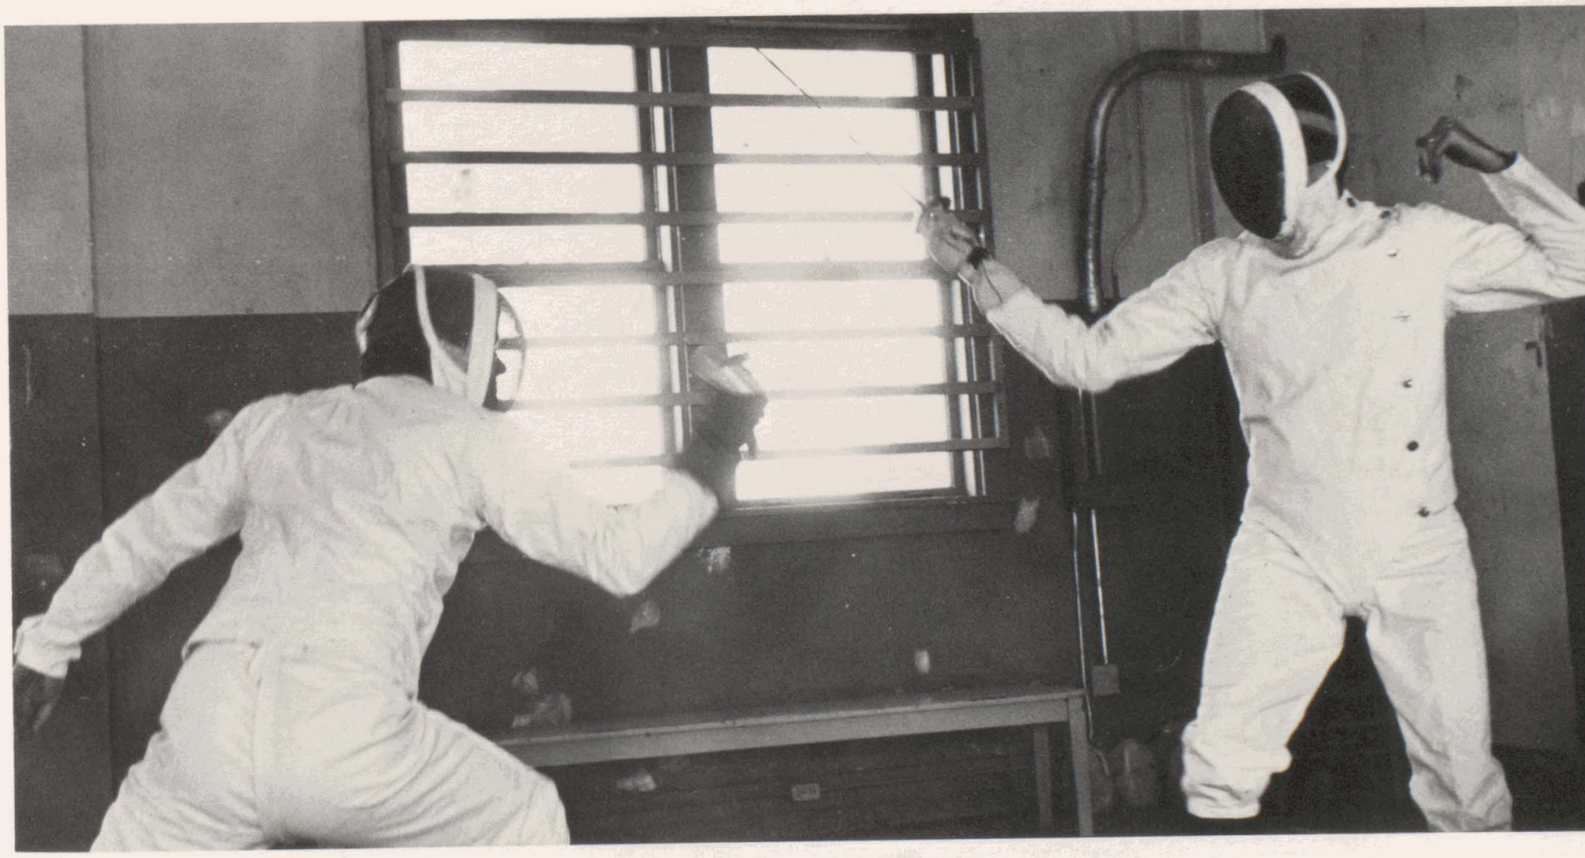




"On Guard!"

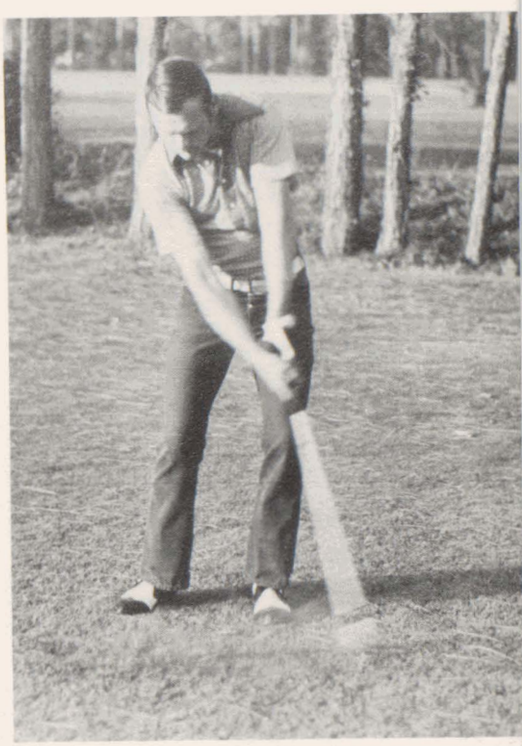


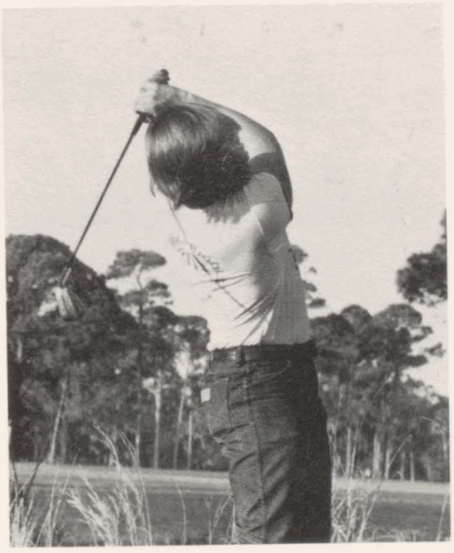
"Touche' . . .
All the way!"



GOLF

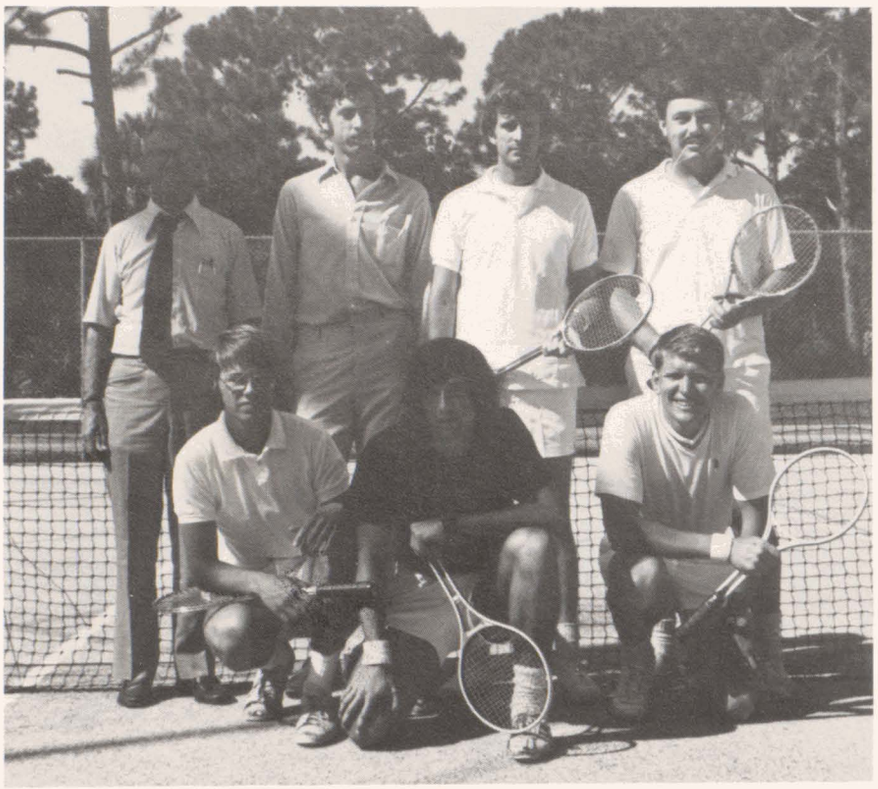
Coach Dean Spears



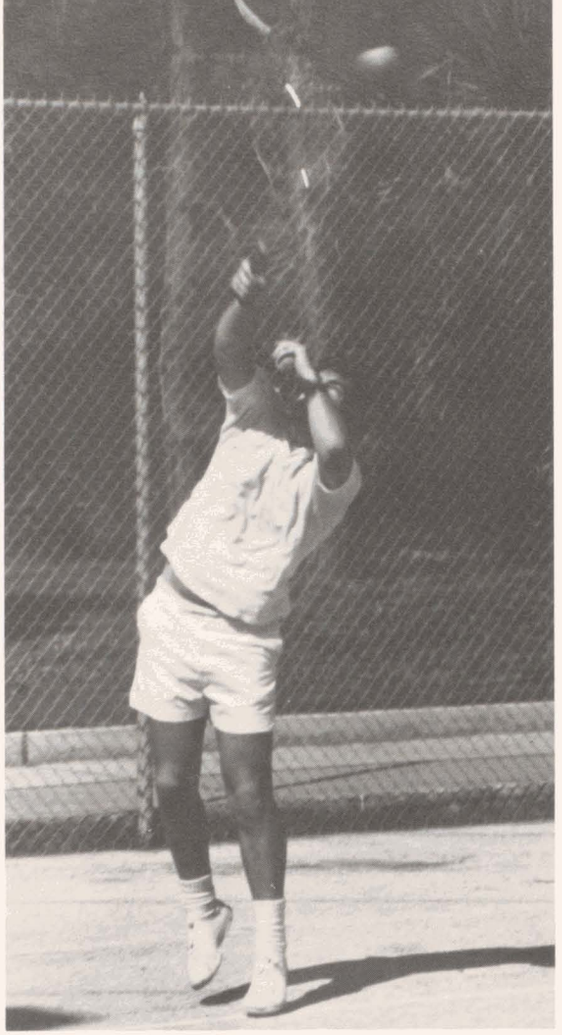


E-RAU GOLF TEAM 1973

TENNIS

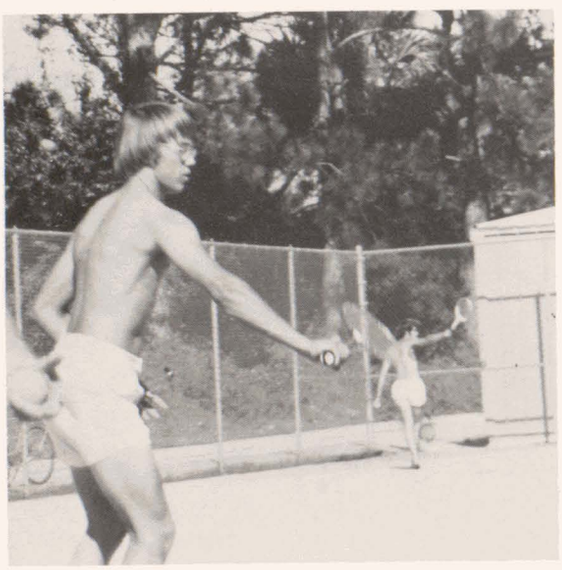


1973 TEAM



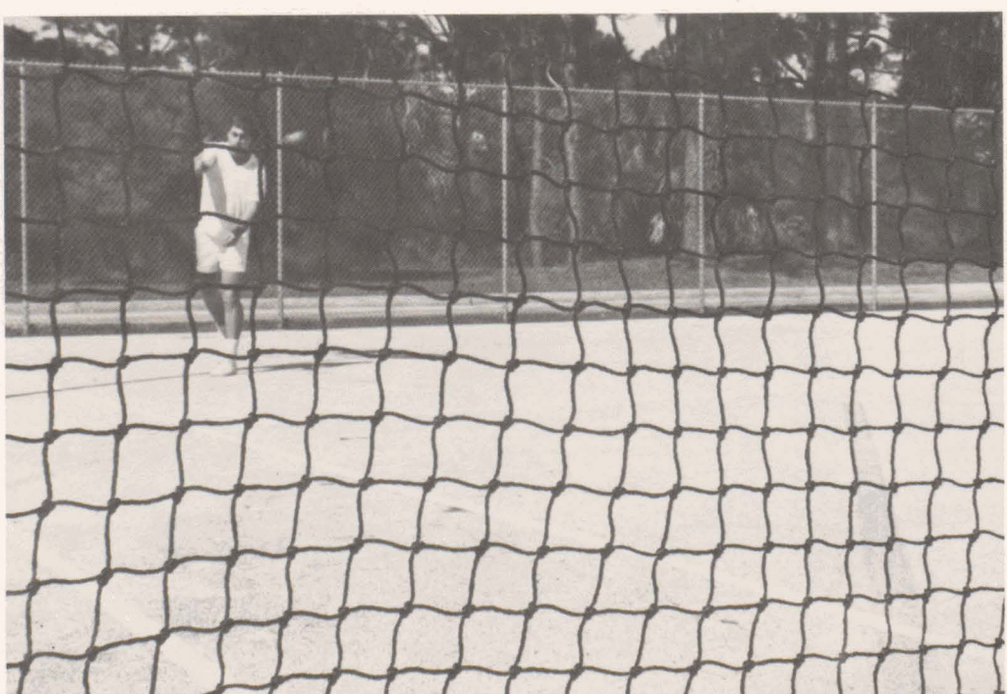
The E-RAU Tennis team is under the direction of Mr. Carl Brown. The tours to many different schools in the state of Florida are for collegiate competition. The 1973 team did well on its circuit this year. Despite some very highly contested disappointments the team ended its season with a very proud record.

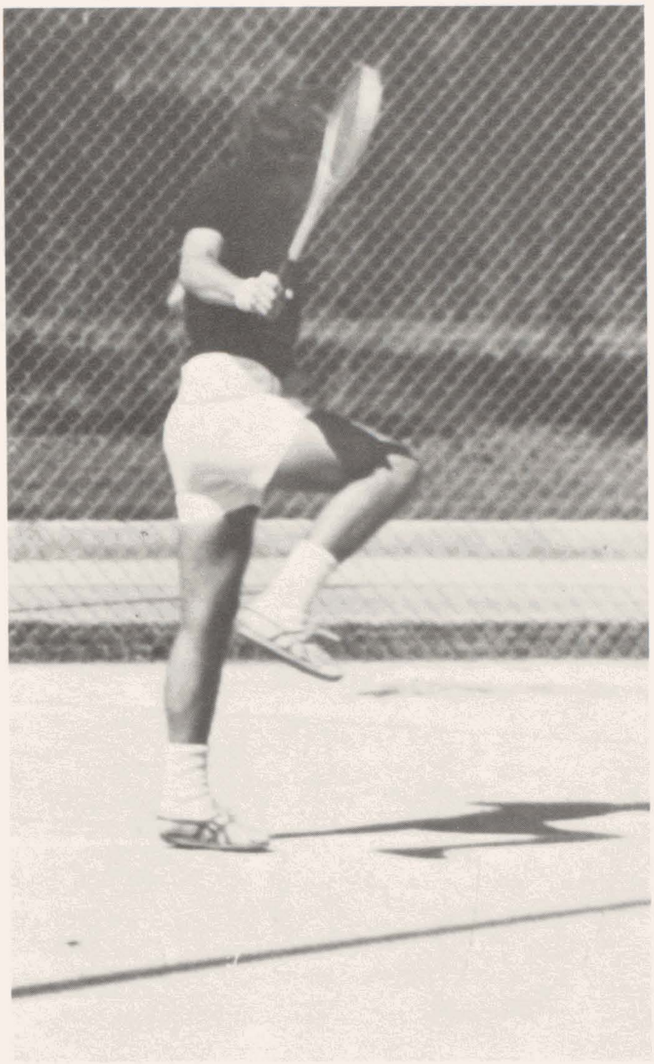
The team members played very hard and very good at every match. With continued spirit and some better luck on the courts next year's team should be very promising indeed.

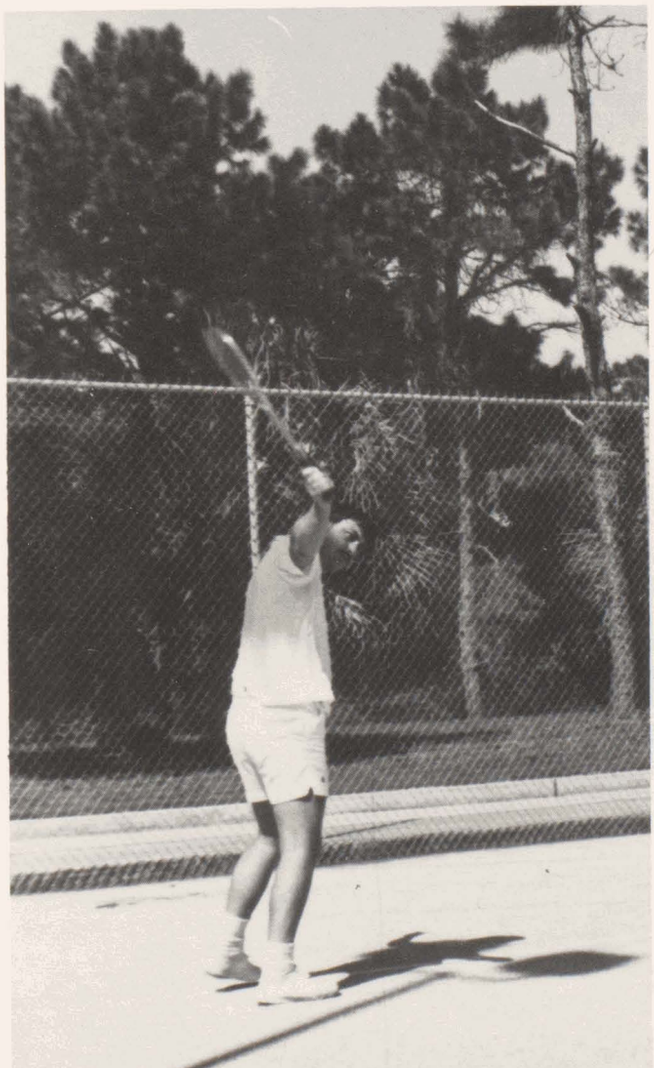


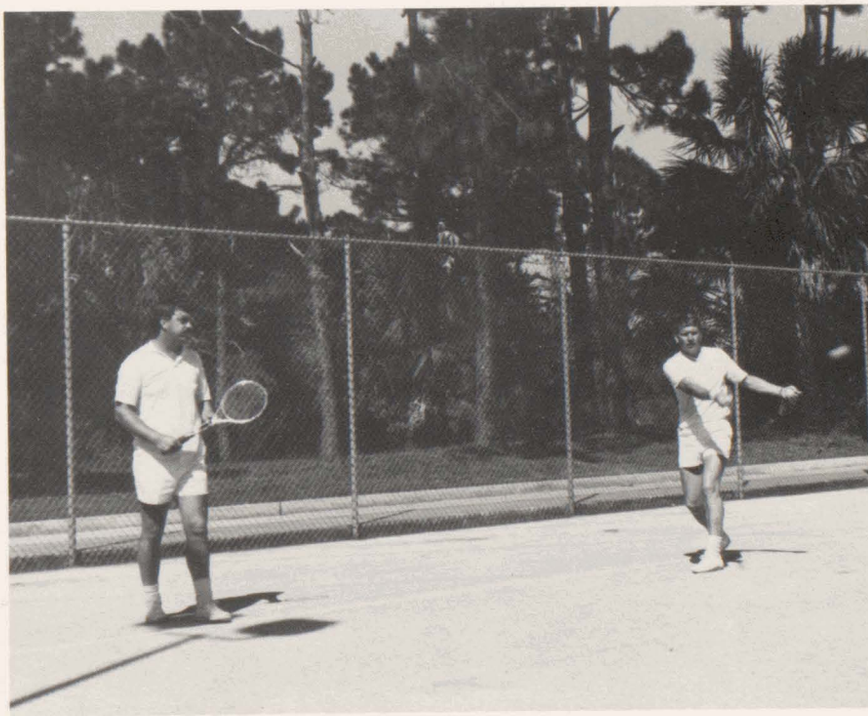
-PRACTICE-

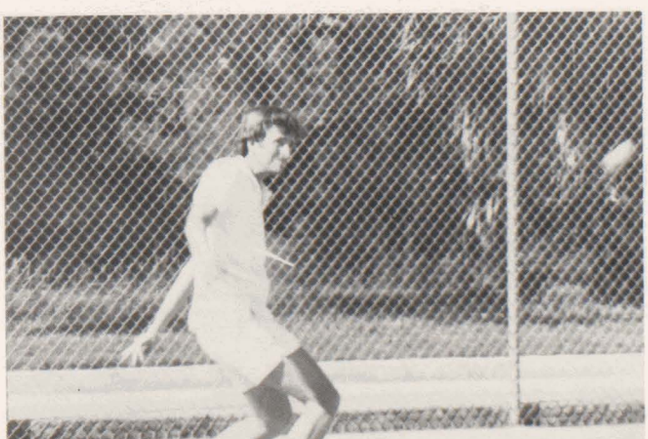
The secret to success in any sport or competitive event is practice. Without it the most able person could not develop his skill to its full potential. Tennis as with any other sport an individual must practice hours on end in order to perform up to his standard.



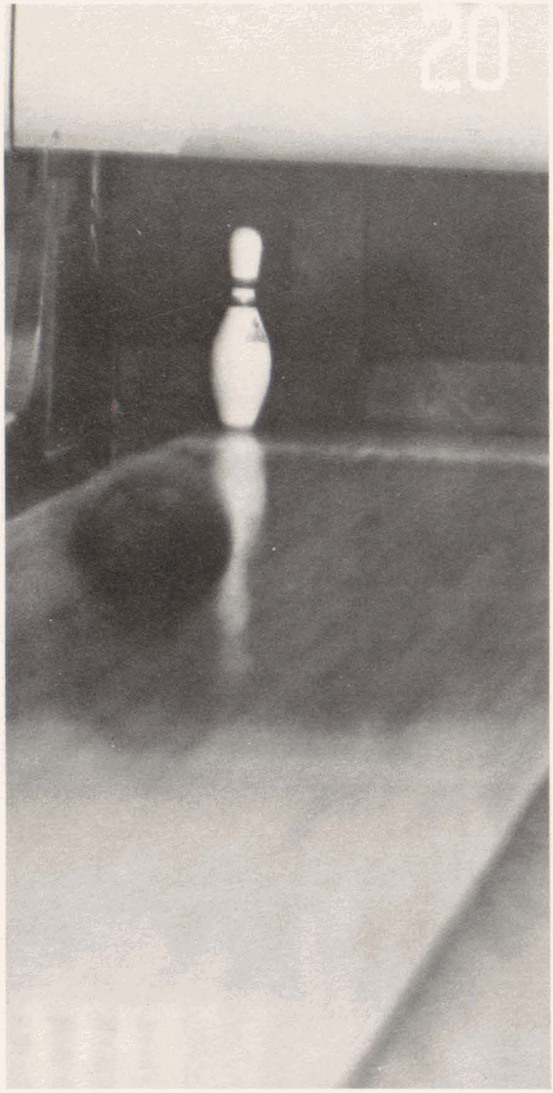


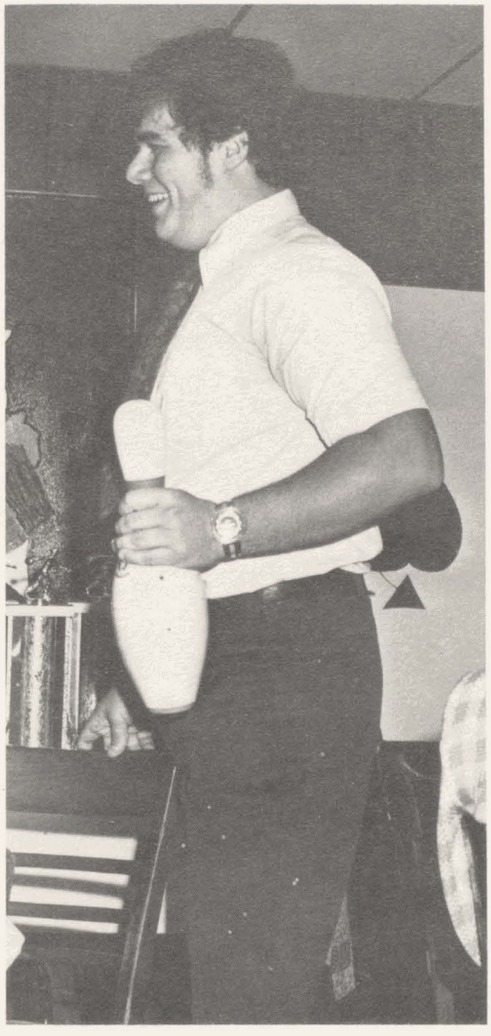






INTRAMURALS





At E-RAU there is available to every interested student intramural sports. There is at least one intramural sport for every season. In the fall there is flag football with the stiffest competition imaginable. During the winter season there is Volleyball and Basketball. In the spring there is Softball. Each season has its own theme and the competition and sportsmanship is very enjoyable. As a student if you have not participated in one or more of the intramural sports you are truly missing a good part of Embry-Riddle.

THE LAST PAGE, A TIME OF CLOSING

There were more than a few times that I thought the Phoenix '73 would never make it this far. Throughout the year the Staff, our Advisor, and I have endured some hardships and disappointments in order to reach this point.

Mistakes have been made in the past and we have made our share this year. I hope our mistakes will help the staff of 1974 to produce an even better Phoenix for next year.

Now that I have completed my tasks at Embry-Riddle it is with pride I offer the 1973 Phoenix to Embry-Riddle Aeronautical University and the student body.
