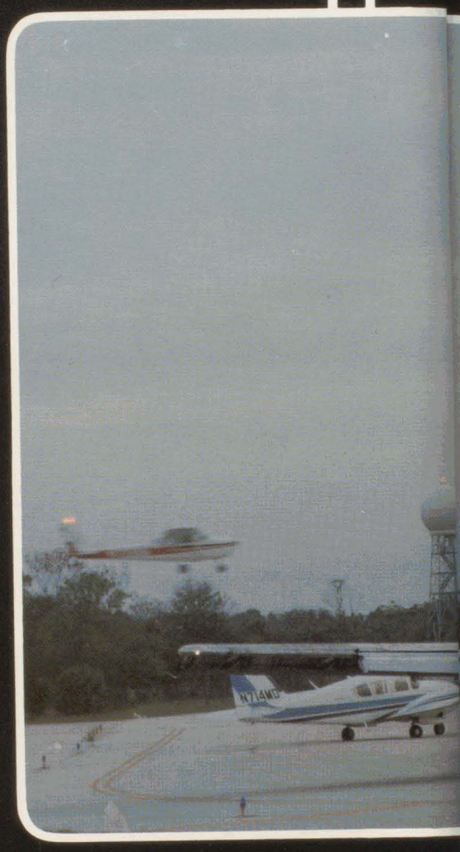
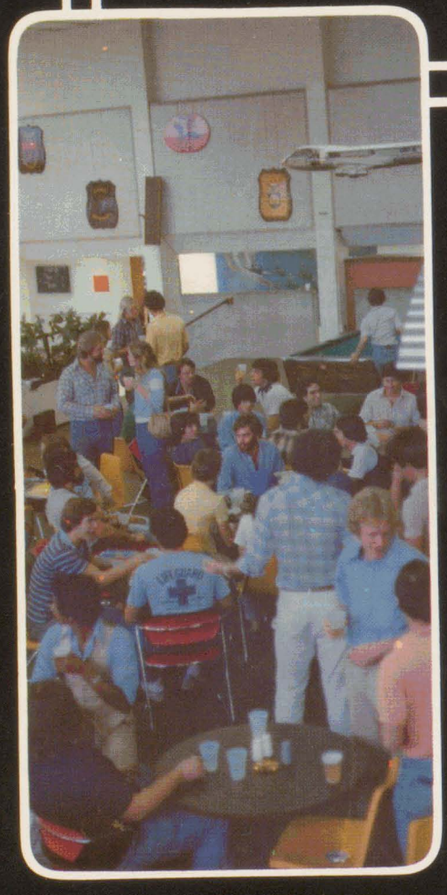
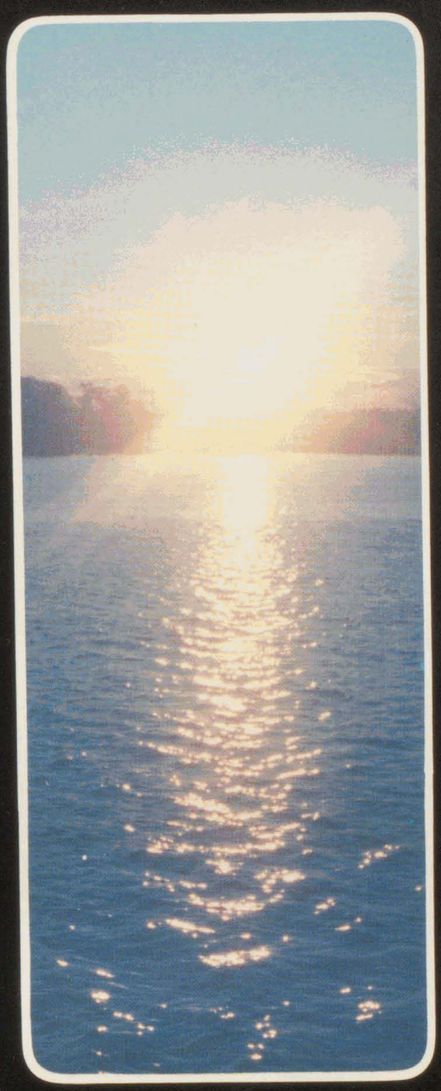
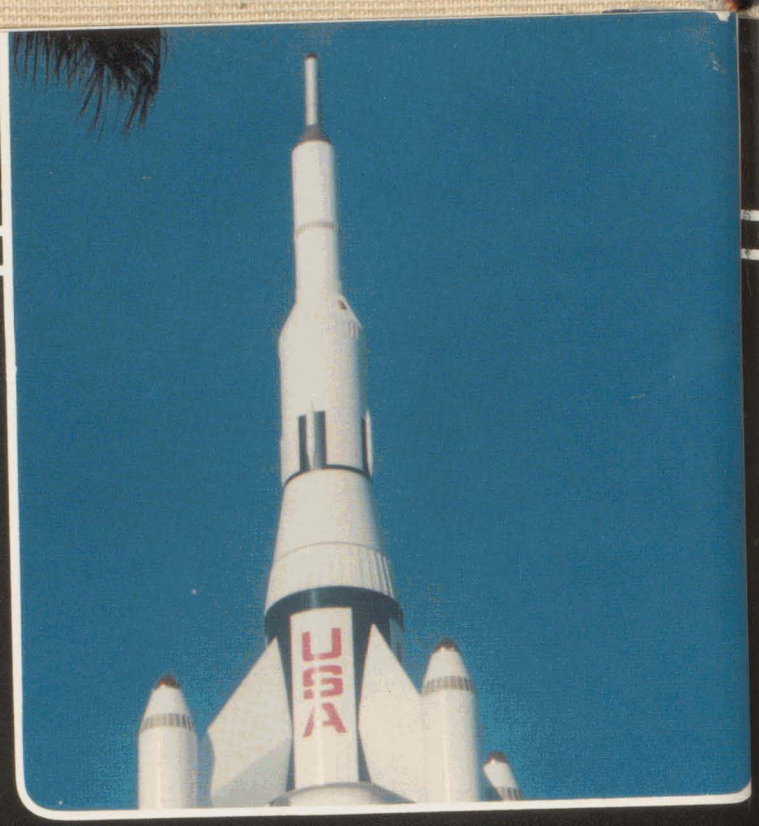
Upon the rising winds we fly . . .







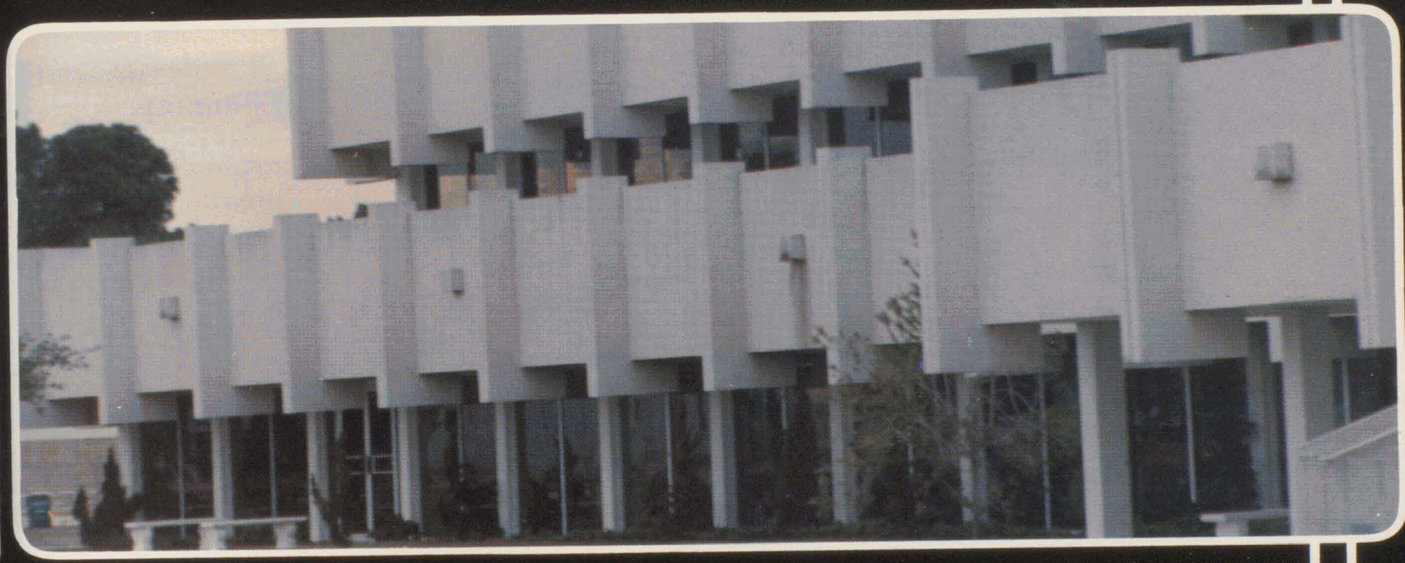
With hopes to greet the morning sky



Our message
here

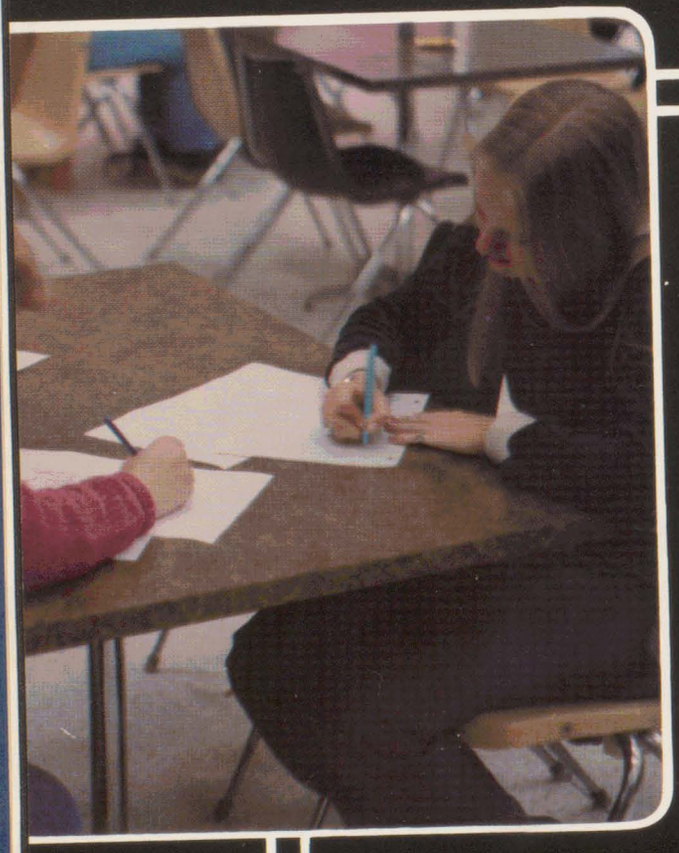
is plane

to sea

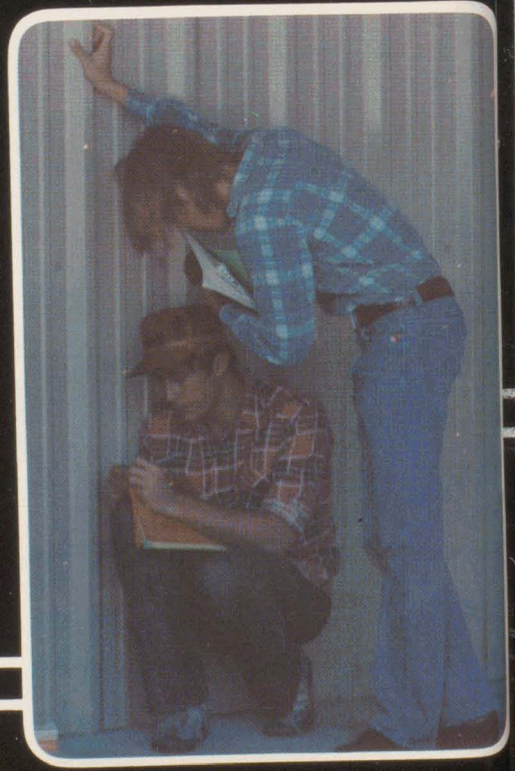


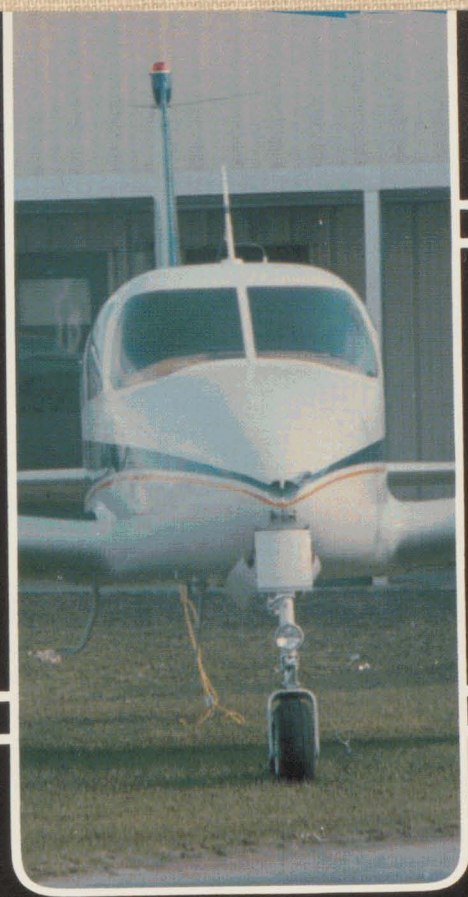
Of course,
we do
not know

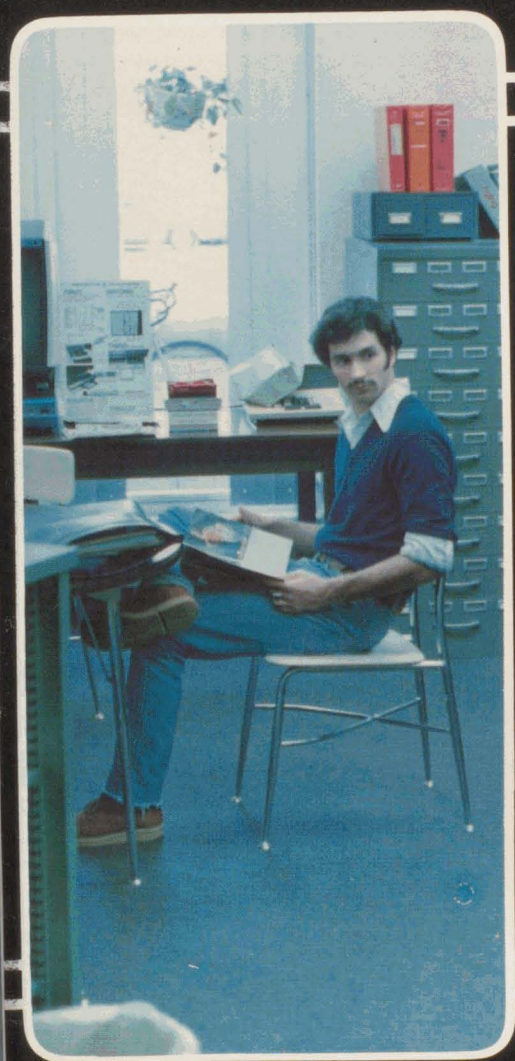
where
we'll
go

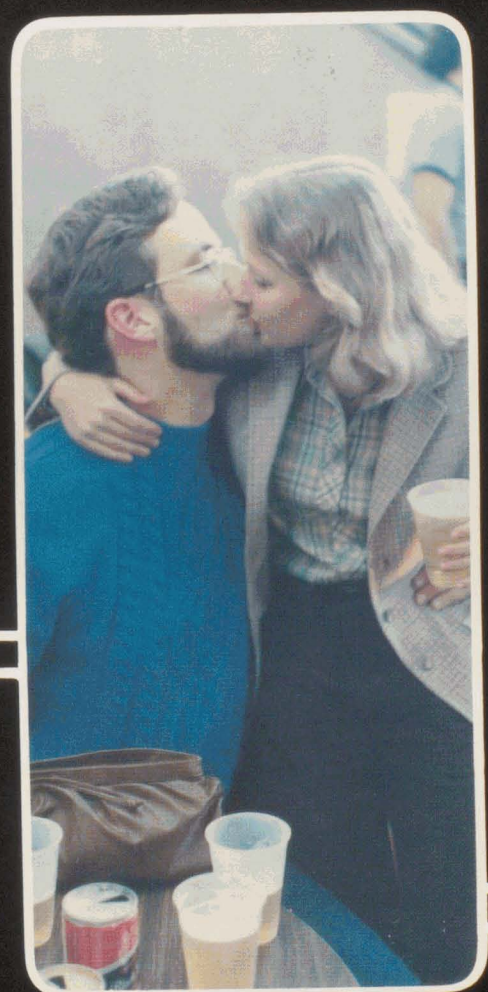


CESSNA









EASTERN

For

Thru Time

We Change
And Grow

GRADUATING STUDENTS

The 1980 Phoenix Yearbook Would Like to Congratulate Each Individual for His or Her Own Personal Achievements. The Road to Graduation Has Been Long, Hard and Sometimes Tedious but Each One of You Has Conquered This and Will Continue to Prosper With a Higher Degree of Education. The Real World May Be Hard to Cope With at Times but Always Remember to Press Forward and Keep a Level Head With a Touch of Foresight. Good Luck and Best Wishes for a Happy and Prosperous Future.

SIGMA CHI FRATERNITY

The Sigma Chi Fraternity is truly an International Fraternity with over 182 active chapters in the United States and Canada. The Eta Iota Chapter here at Embry-Riddle is the best social Fraternity on campus, and is ranked one of top 50 chapters within the United States.

Each Trimester the Brothers of Sigma Chi actively participate in many school and community projects. Our involvement with the Red Cross Blood Drive, the Easter Seals' Campaign, and the local YMCA Boy's Club, have earned us respect as an organization, and more importantly each individual Brother has enhanced his own personal qualities.

The "SPIRIT OF SIGMA CHI" also finds itself on the athletic field. We have won Greek Week three out of the last five years and our football, softball, and hockey teams have excellent victory records.

The Brothers of Sigma Chi are striving for "True Brotherhood," which will not only better their college lives, but will forever strengthen them for the future to come.

DELTA CHI FRATERNITY

EMBRY-RIDDLE AERONAUTICAL UNIVERSITY

Delta Chi was founded as a national fraternity in 1890 at Cornell University. There are over 100 Delta Chi chapters across the United States. The Embry-Riddle chapter was established in 1970, making us one of the oldest social fraternities on campus.

Our social calendar is designed with a variety of entertainment and social functions, Banquets, parties, sorority socials, and weekend retreats are just a few of the main events planned for this year.

An invitation is extended to you to come by and visit our house. We are located at 538 South Ridgewood. Come by and see Delta Chi.

ALPHA ETA RHO is the only fraternity on campus that is totally aviation oriented. The purposes of the fraternity are:

1. To further the cause of aviation in all its branches.
2. To install in the public mind a confidence in aviation.
3. To promote a closer affiliation between the students of aviation for purposes of education and research.

Don't get the impression that the members don't know how to relax, we do! we know that all work and no play could get very boring. We have a softball team, participate in Greek Week, and have parties throughout the trimester.

The constitution of AHP declares that the success of aeronautics depends upon its unified development in all the countries of the world and upon the cooperation of different phases of aviation with each other. It affirms its character to be international and declares eligibility for membership not dependent upon race, religion, nationality, or sex.

LAMBDA CHI ALPHA

The LAMBDA CHI ALPHA Fraternity is a national fraternity that was established on the Embry-Riddle campus in 1973. Lambda Chi Alpha is known as "The Fraternity of Honest Friendship," and this is illustrated by its members homes in all parts of the United States and the world.

The Lambda Chi Alpha chapter at Embry-Riddle takes part in activities for the betterment of the campus and the community. The brothers of Lambda Chi Alpha have been students government presidents and senators, others have been officers in Omicron Delta Kappa, an honorary fraternity, and still others have been listed in Who's Who Among American College Students.

The Lambda Chi Alpha takes part in most school activities including greek week, Riddle Regatta, and intramural sports, Lambda Chi Alpha members can be easily identified by their green jerseys with gold letters.

OMICRON DELTA KAPPA

ICARUS CIRCLE
EMBRY-RIDDLE AERONAUTICAL UNIVERSITY
DAYTONA BEACH, FLORIDA

National Leadership Honor Society; founded at Washington and Lee University in 1914; the Icarus Circle at Embry-Riddle chartered November 21, 1975.

The purpose of the Omicron Delta Kappa Society is threefold:

First, to recognize those who have attained a high standard of efficiency in collegiate activities and to inspire others to strive for conspicuous attainments along similar lines;

Second, to bring together the most representative students in all phases of collegiate life and thus to create an organization which will help to mold the sentiment of the institution on questions of local and intercollegiate interest;

Third, to bring together members of the faculty and student body of the institution on a basis of mutual interest and understanding.

Omicron Delta Kappa recognizes and encourages achievement in scholarships; athletics; social, service, and religious activities; and campus government; journalism, speech, and the mass media; creative and performing arts.

ODK MEMBERSHIP LIST 1980

Bob Olsen, Bruce Chadbourne, John Wheeler, Robert Brown, John Eberle, Nena Backer, Howard Less, Helmut Reda, Richard Belotti, James McDede, Harry Mitchell, Donald Byrne, R. Stephen Whiting, Lee Clements, John Rourke, Richard Mathus, Capt. Kimball Scribner, Deborah Sue Rizzo, Dennis Mitchell, John Torres, Gary John Francis, Eric Coleman Gibson, Leslie Louis Panek, Edward Paul Crawford, Roslyn Renee Royster, Stanley Mansfield.

Your Student Government Association is comprised of hardworking students, many of whom donate countless hours a week to effect a strong and positive interaction between the students and Administration. Its structure involves three major divisions: The Student Administrative Council, S.A.C.; The Student Union Board, S.U.B.; and The Student Court.

The S.A.C. is comprised of the President, who chairs the committee, the Vice-President, the Faculty Advisor, (Director of Student Activities), the Chief Justice, five Representatives at large, and a Housing Representative. This group handles the Administrative and Executive responsibilities of the S.G.A. They are the final approving authority of fund allocations and purchases such as sound equipment and rental typewriters. They sit on all University committees with a vote and report on these meetings to the S.A.C. for discussion and possible action to be taken. Also, Ad Hoc committees are set up occasionally for special projects taken on.

The S.U.B. is comprised of the Vice-President, (Chairman), the Faculty Advisor, the editors of the Phoenix (yearbook), and Avion (weekly newspaper), the manager of W.E.R.U. (radio station), and the Entertainment chairman. The S.U.B.'s main objective is to coordinate the budgeting of the trimesters' funds between these divisions which is presented to the S.A.C. for final approval, and to provide a good interface between the divisions to maintain a strong communications and coordination.

The Student Court is comprised of the Chief Justice, and four Justices. They handle everything from parking tickets, to student flight, or theft between students. Their recommendations to the Administration are strongly considered whether it be a small fine, dismissal of a charge, or a more severe penalty.

The S.G.A. is involved in every facet of student life, and has a strong voice in the goings on in our University. All S.G.A. meetings are open to the students, and participation in the S.G.A. is not limited to its formal members. Many students actively participate in areas such as Entertainment, or on specific projects. Participation is more than welcome in order to effect a strong and beneficial organization.

The S.G.A. Office is located in the University Center and provides services to students such as a Notary Public, rental of typewriters, and general information on campus happenings.

The Arnold Air Society is a nationwide, professional, service organization. AAS enables AFROTC Cadets to get better acquainted with other AFROTC Cadets and the Air Force Officers that control AFROTC. AAS aids in the development of effective Air Force Officers. AAS also affords its members the opportunity of working with the community and the school on different service projects. The members attend dinners and participate in other activities during each trimester, which always prove to be very intersting and entertaining, to say the least.

The Embry Riddle Veterans Association is comprised of Military veterans from all branches of the service. We also have seven positions open for students who are not vets but desire to belong. We are active in community service, and maintain a program of veterans assistance through contracts with the school and various external government and veteran organizations. We provide information on existing and pending veteran legislation. We aid the vet in locating housing or part-time employment opportunities and assist those who need classroom counseling or course scheduling. You'll find Vets in every phase of Embry-Riddle, and our members are actively involved in student government giving us an active voice in school policy decisions.

VETS CLUBS

CHRISTIAN FELLOWSHIP

The Screaming Eagles is a model airplane club designed to incorporate all levels of remote control skill. The advanced R.C. pilots always take the time to instruct the inexperienced or the beginning R.C. pilot. The requirements include an AMA certificate and a person who is willing to get out on the weekends and have a great time.

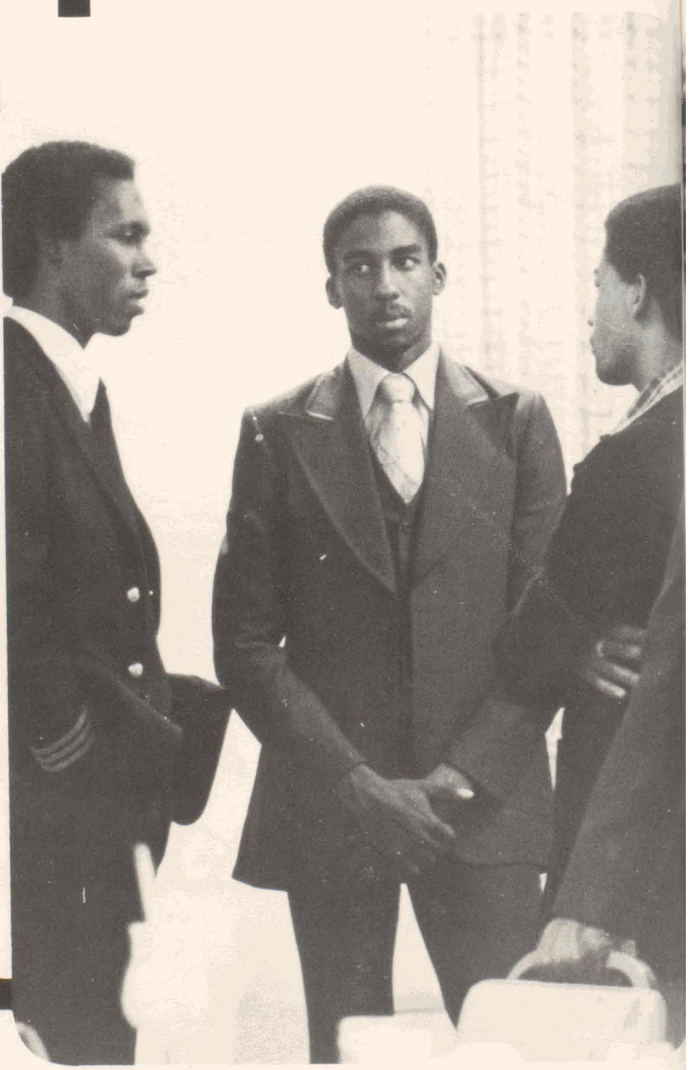
BROTHERS OF THE WIND



BROTHERS OF THE WIND

The Brothers of the Wind (A.K.A., B.O.W.) is an organization composed of the minority students of the Embry-Riddle campus. This organization has been together for five years and is open to all who wish to join.

The purpose of the organization is to aid each individual member in his/her class studies, enjoyment of the area social activities, and we try to bridge the gap between degree and job. We also try to promote aviation awareness in the immediate community, neighboring schools and colleges, and within ourselves.

The B.O.W. would like to invite all those interested to check us out. We won't be hard to find because we'll be looking for you.

FLIGHT TEAM

The E-RAU Flight Team is active during the fall, spring, and summer trimesters. We compete in N.I.F.A. (National Intercollegiate Flying Association) air meets at various colleges throughout the country. The events include ground, air, and safety competition.

The Flight Team stresses professionalism, safety, judgment, and sportsmanship. Weekly practices are mandatory. Competition for Regional are held during the fall and National events are held during the spring. We also get together with nearby schools such as Florida Institute of Technology in Melbourne, Florida for practice competition.

MANAGEMENT CLUB

The purpose of the Management Club is to provide an environment for those young men and women who intend to further their knowledge and experince toward a future in Management.

The Club provides for the active participation of the membership in special projects which can lead to special recognition by the student group, the campus group, as well as to groups outside the university's "controlled" environment.

This Club is a professional development organization. It is student organized and operated. The membership has usually one dinner/business meeting per month. Over the years, the club has invited one guest speaker per meeting from the industry. The response by industry to come to meet with the Embry-Riddle Management Club has been outstanding and normally produces such speakers as Vice-Presidents or System Directors. They provide our Club members with inside information of the industry and employment opportunities. In addition, these guest speakers may well be the key needed to open employment doors at some companies.

The members of the Management Club are students from all programs of the university. Remember, each student will be involved in some form of Management throughout life.

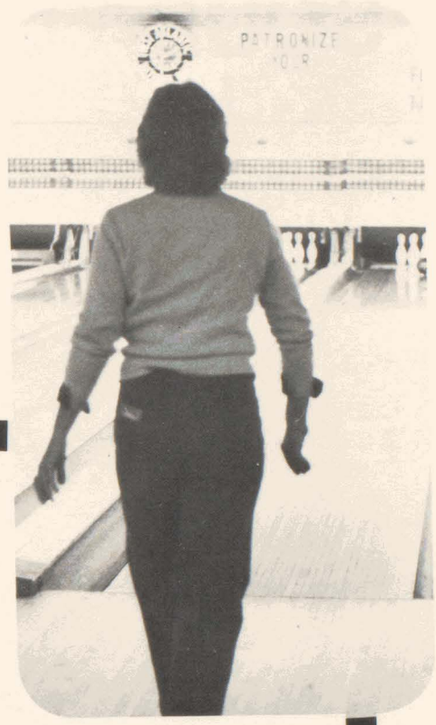
THE E-RAU BOWLING LEAGUE

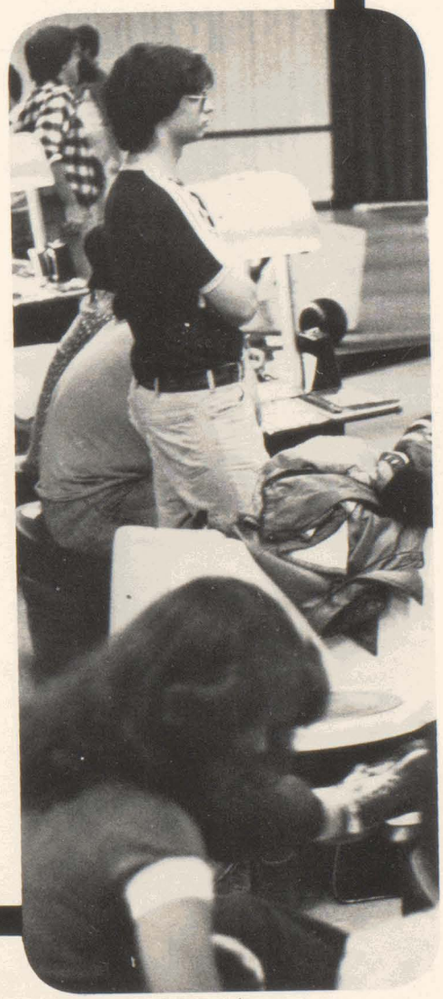
This is a league composed of Riddle students, and their friends and relatives. We bowl one night a week at the Halifax Bowling Lanes on Mason Avenue, here in Daytona Beach.

Each person will be sanctioned by the American Bowling Congress (for the men), or the Womens International Bowling Congress.

To join our league, look for our signs on bulletin boards throughout the university at the beginning of each trimester. They will tell you when and where we will be meeting to start up for the tri. If you are unable to locate these signs, find out who the current officers are (through the student activities office).

L-R SPRING 1980 — Ken Clark — V.P., Caroline Louderback — Treas.; Gary Francis — Sec.





Fall 1979 — Keith W. Johnson — V.P., Alice Owens — Treas., Gary Francis, Sec., absent, Rick Freeborn — Pres.

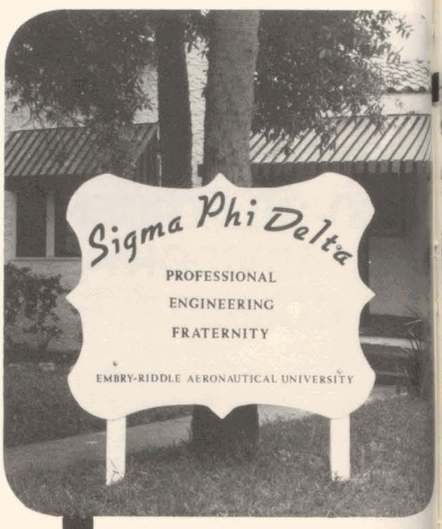
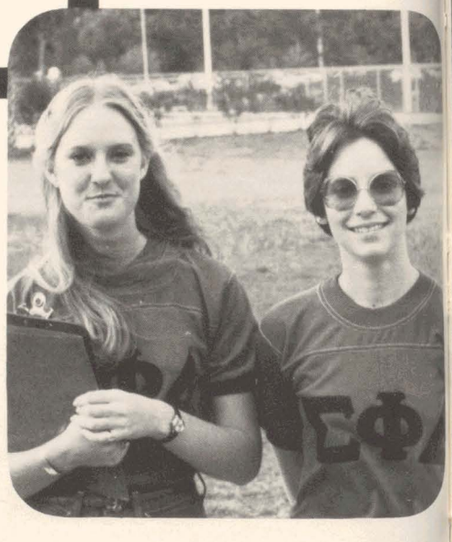
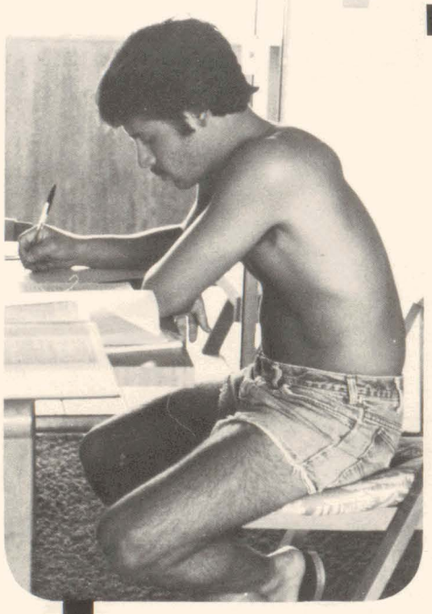
SIGMA PHI DELTA ENGINEERING FRATERNITY

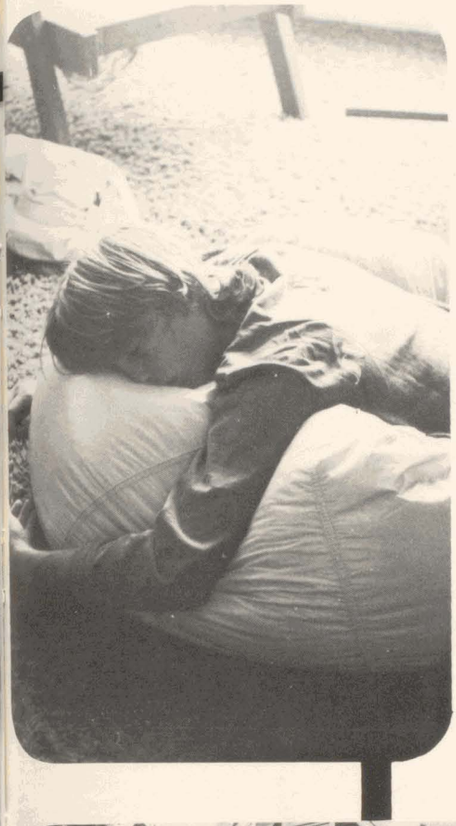
Sigma Phi Delta Engineering Fraternity was founded in 1926, and was established at Embry-Riddle in 1960 as Pi Chapter. Since we can only accept students in the Engineering curriculum, we are a small congenial group with common goals and interests. Pi Chapter owns two houses located ten minutes from campus. The buildings provide housing, study and recreational facilities. The function carried on by Pi Chapter is both social and professional, combining professional knowledge and social growth.

The Engineering program is the most challenging curriculum taught at Embry-Riddle. To meet this challenge, Sigma Phi Delta supplements classroom instruction with a professional program which involves field type trips to aerospace centers, lectures, and study workshops.









Sigma Phi Delta also strives to provide a varied social program, which is an integral part of a total education. The program includes participation in on-campus activities, intramural sports, as well as fraternity functions. Social events are geared to the engineering students so as to not interfere with their studies.

Sigma Phi Delta offers the serious engineering student the chance to mature professionally as well as socially, and can be the source of friendships that will last long after the completion of college.

The E-RAU Sport Parachute Club has the following objectives:

The promotion of greater interest in sporting parachuting and the diffusion of knowledge concerning this sport

To provide an opportunity for students and others to gain experience and find recreation in sport parachuting.

To furthering of competitive sport relationships with organizations within and without the collegiate sphere of activities

The club has trained hundreds of students to enjoy this thrilling air sport.

c/o 6130 Old Providence Lane, Charlotte, North Carolina 28211
E-RAU Management Club.

HUTCHINGS, ROBERT B.
4149 Barracuda Drive, South East, St. Petersburg, Florida 33750
Airframe & Powerplant Licenses; Associate in Science — Maintenance Technology; Dean's List - All Terms.

IKONOMOU, JOHN T.
9018 4th Avenue, Brooklyn, New York 11209
Personally, I feel that Daytona Beach, Marines, Aeronautical Engineering was a mental exercise which will remain in my mind as a life experience. I enjoy very much school life, by being twice Honor Student, once Dean's List & at the same time, disco dancing & playing soccer. I admire. It was spectacular.

JACOBSEN, KATHRYN J.
4800 Springbrook Drive, Annandale, Virginia 22003
Chi Delphia; Women's Tennis.

JEFFORDS, JR., COLIN Q.

WE NEED CERTAIN COLLEGE MAJORS TO BECOME AIR FORCE LIEUTENANTS

Mechanical and civil engineering majors ... aerospace and aeronautical engineering majors ... chemistry ... computer science ... mathematics majors ...

The Air Force is looking for young men and women preparing themselves in academic areas like these. If you're one of these people, you may be eligible for the two- or four-year AFROTC program. And to help you with the college bills, a two-, three- or four-year scholarship could be available to you.

The AFROTC program leads to an Air Force commission. That means excellent starting salary, promotions, medical and dental care, 30 days of paid vacation each year. But more than all that, it means responsibility for people and high-value equipment ... it means challenging work, and a chance to serve your country with pride.

Find out today about an Air Force ROTC scholarship. It's a great way to help pay for your college, and it could be that your present major will help you become an Air Force Major someday.

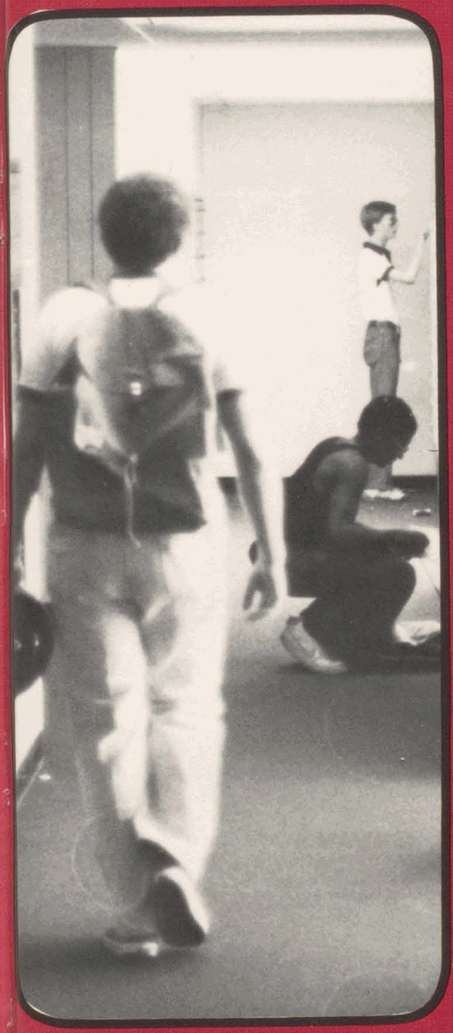
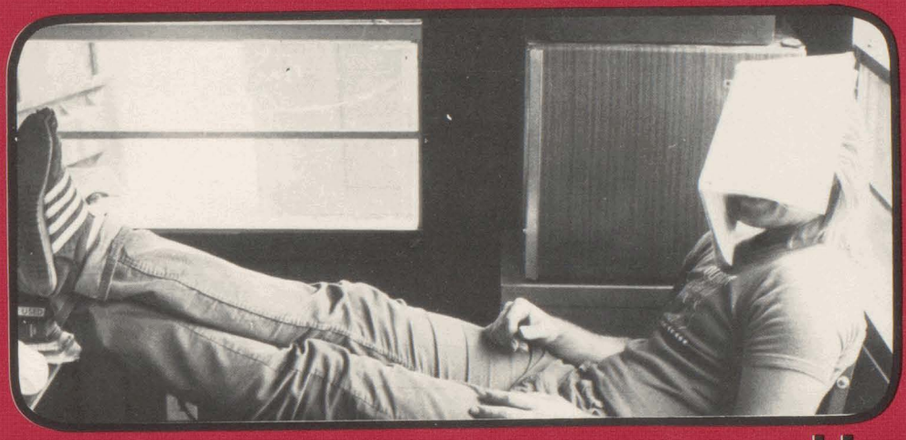
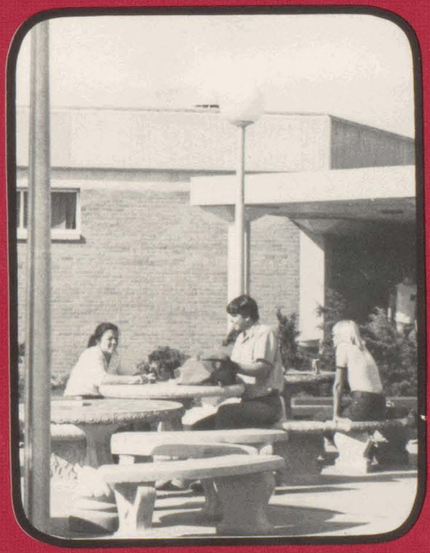
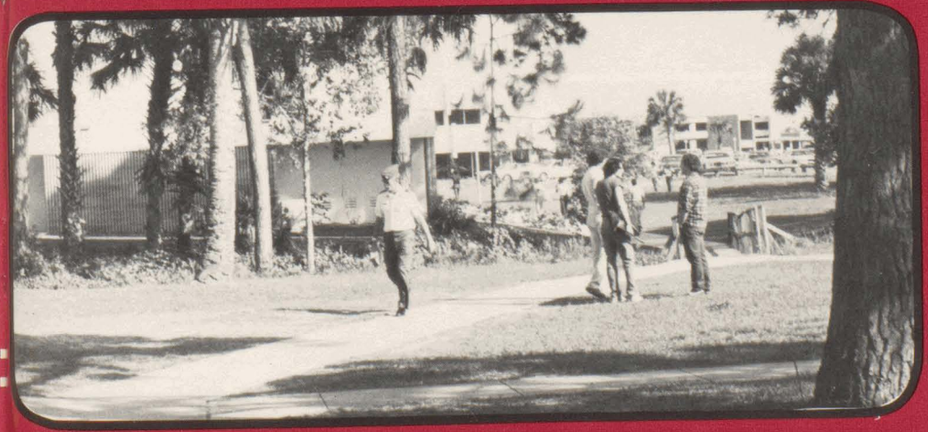
Bye !

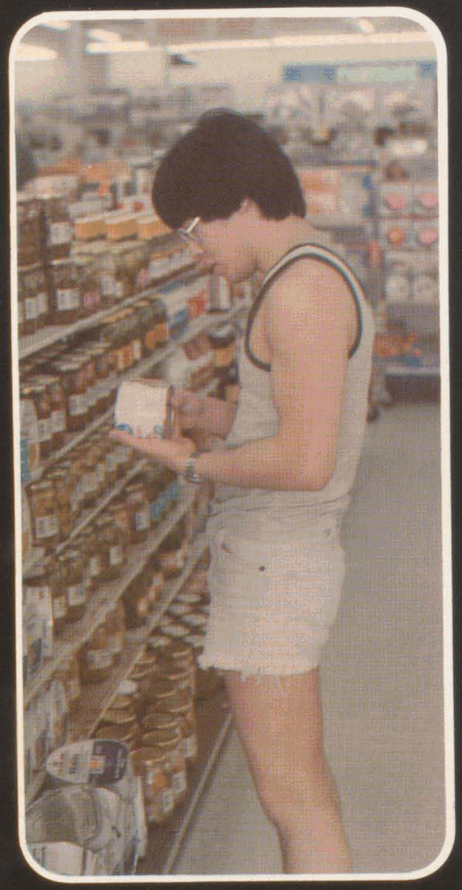




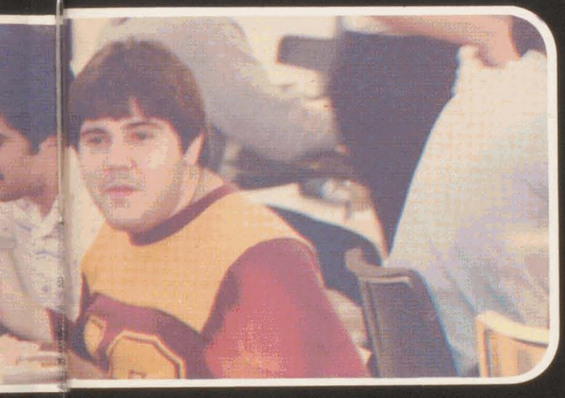


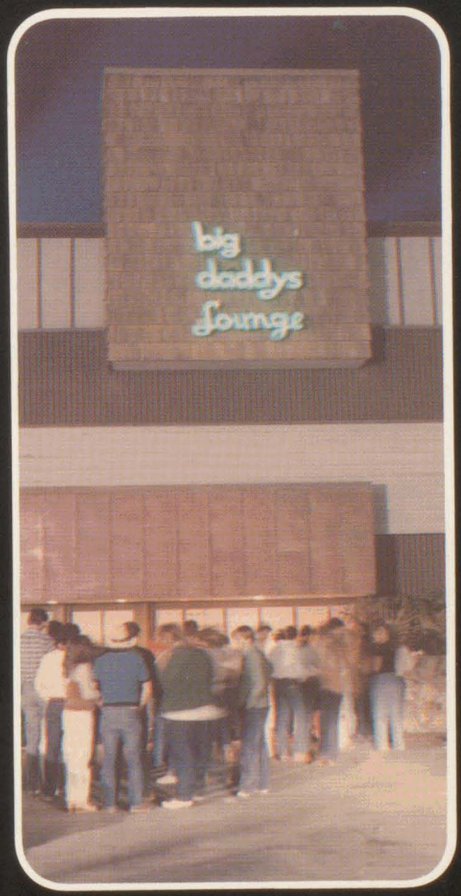


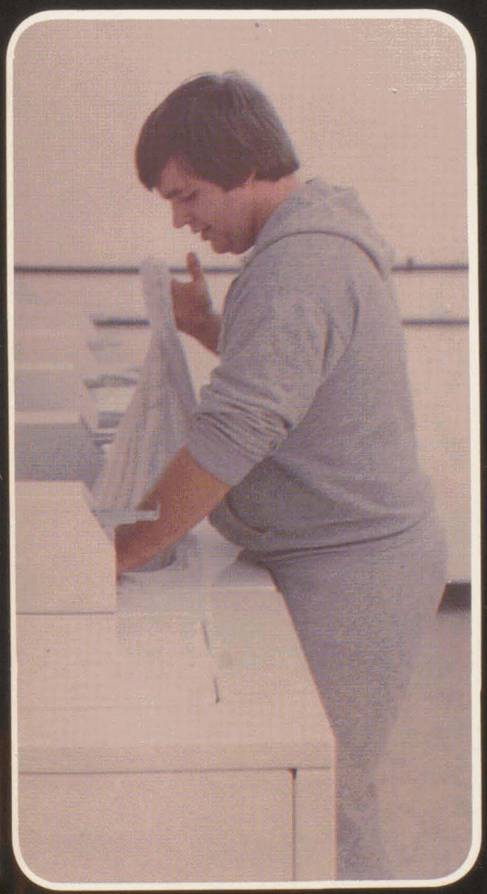
'Upon the turbulent winds

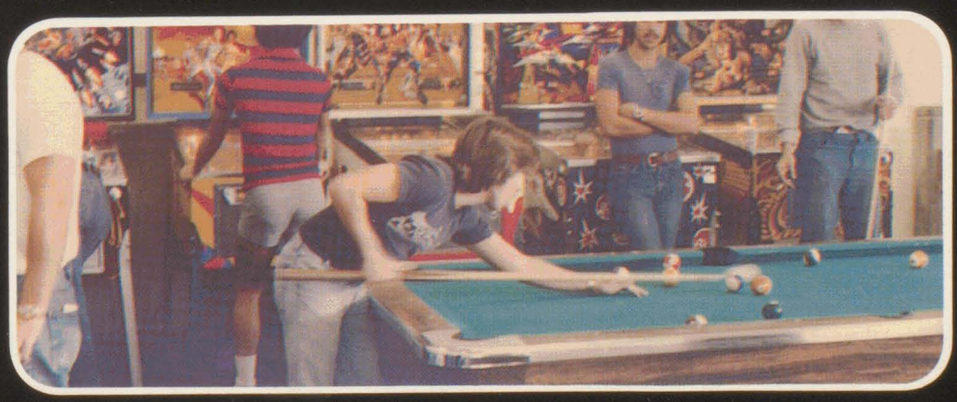


We've flown

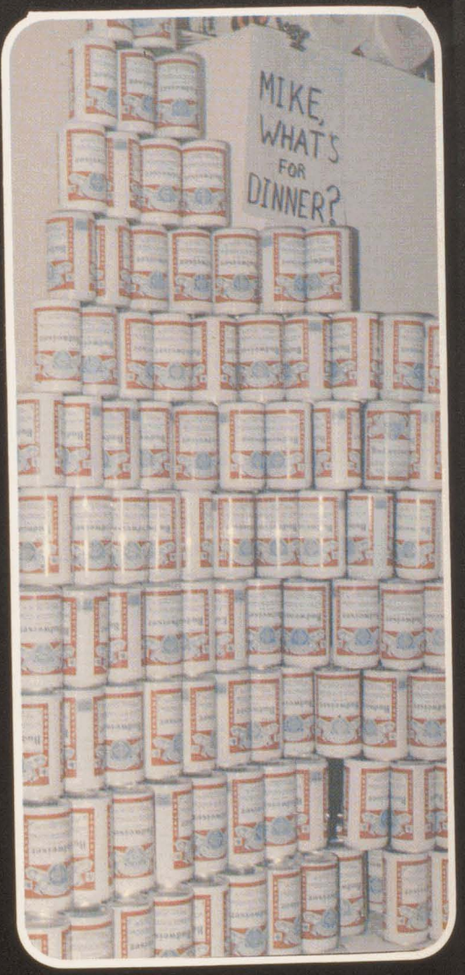


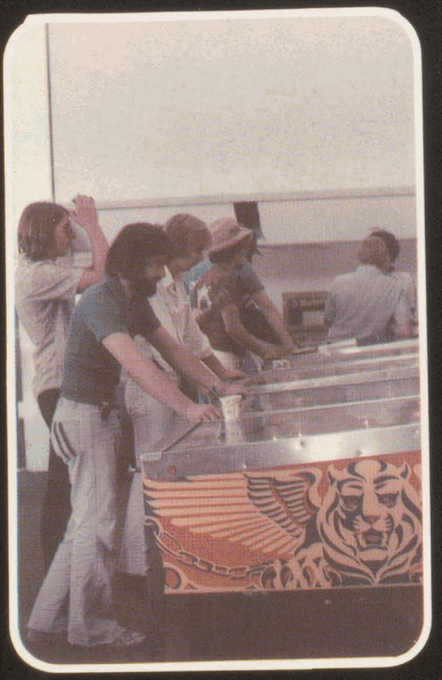


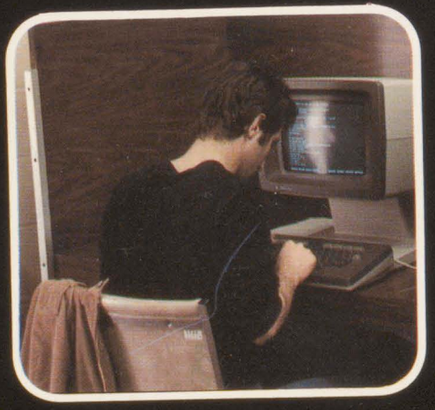


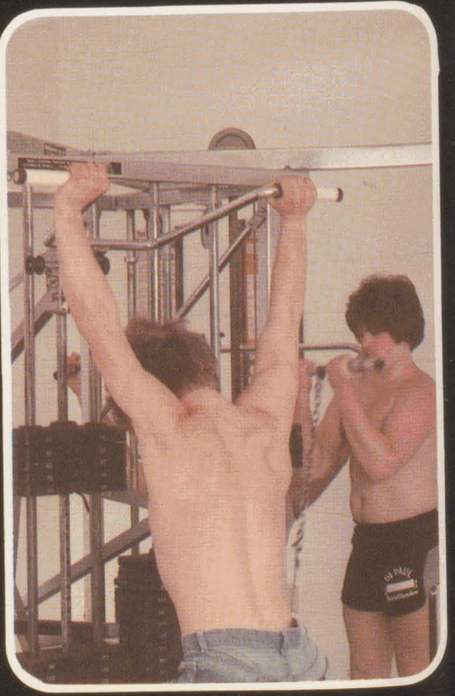


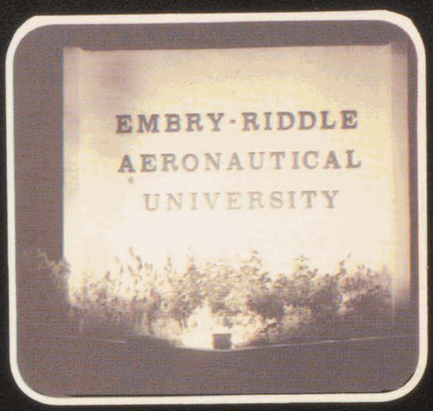
Our destiny now is known,



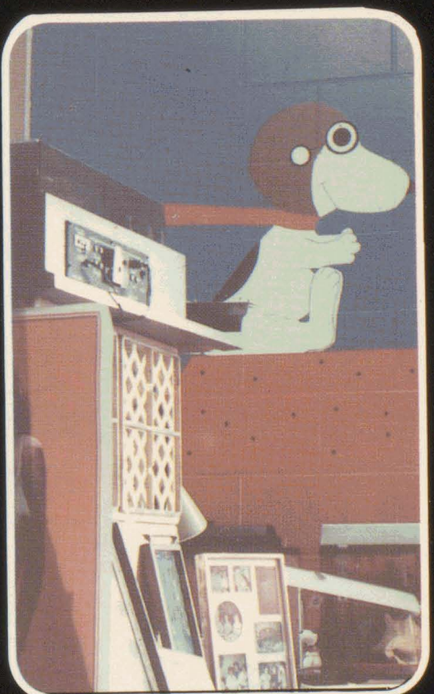




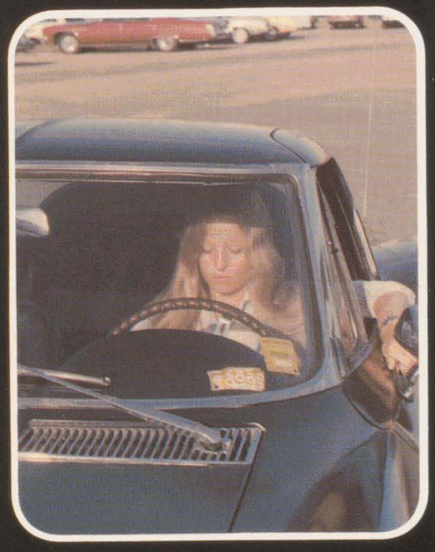


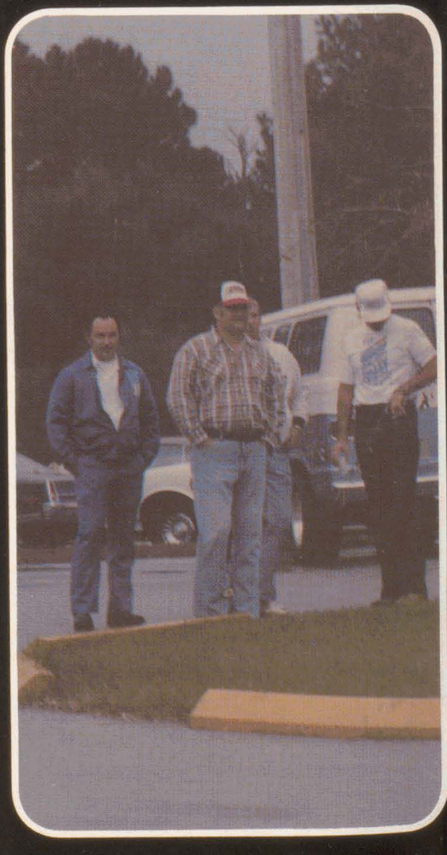


From all that we've been shown

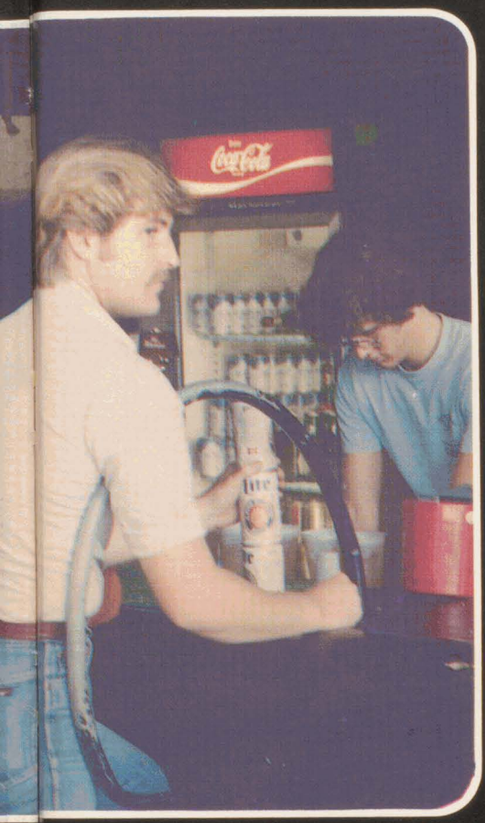


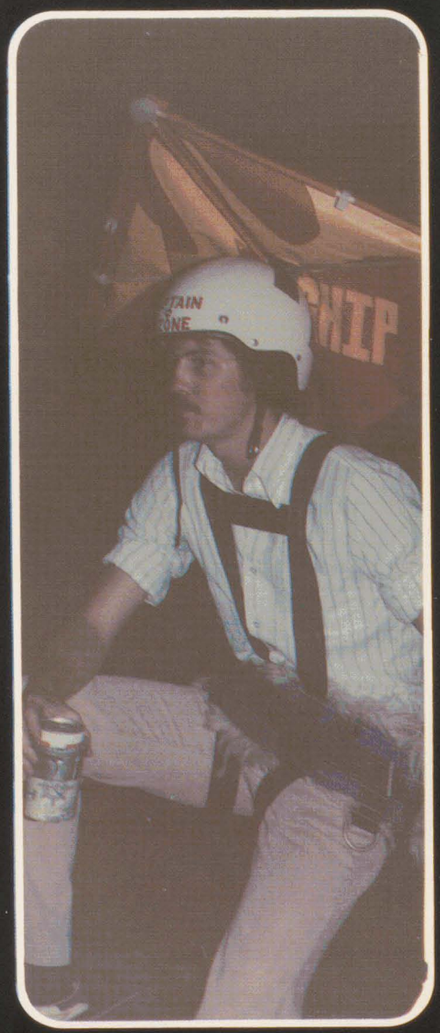
"Thru Time





"We have changed and Grown"





In Memoriam

James Brannam

We are two eagles
Flying together
Under the heavens,
Over the mountains,
Stretched on the wind.
Sunlight heartens us,
Blind snow baffles us,
Clouds wheel after us
Ravelled and thinned.

In Memorian

Gary
Maltese

We are like eagles,
But when Death harries us,
Human and humbled
When one of us goes,
Let the other follow,
Let the flight be ended,
Let the fire blacken,
Let the book be close.

During my editorship I have seen a yearbook go from near extinction in 1979 to the best yearbook Embry Riddle Aeronautical University has ever seen in 1980. This recovery would not have been possible without such a dedicated staff, also Eric Gruber, Marvin Mayer, Jean Snyder, and Diann Ramsden. A very special thanks goes to Chris Clark for his outstanding artwork, cover, and endsheets and division pages. Also a very special thanks to Carlos Garcia for his layouts and enthusiasm put into the 1980 PHEONIX Yearbook. Without their dedication of time to teach me the skills needed to produce the best yearbook in ERAU history, it could not have ben accomplished.

As the editor for two years I have learned more about working with people, responsibility, and money management that otherwise I would never have been able to gain through books and sitting in a classroom. I have found that the majority of true learning is not found in a classroom but within the world. The world is the largest classroom of all; if people would just take the time and open their eyes to absorb just a small quantity of this knowledge, they would find that it would make their lives so much easier.

With the coming of the new decade and new editors, I hope that they will continue to have the same enthusiasm and dedication as the yearbook staff and I possessed in 1980. A road has been started now in the right direction. I hope that the new editors will follow the road and make the minor repairs necessary to have the yearbook flow more easily. The road is not finished yet so I hope the new editors shall continue to pave the road clearly in order that the next editor shall have an easier time producing their yearbook. Good luck because this task is not an easy one.
