

Andrew Dallas:

I currently serve as the Interim Director of Integrated Student Services (ERNIE Central). I have been employed at Embry-Riddle Aeronautical University for 13 years. I got my start in the Financial Aid office.

- I proudly served for 7 years in the United States Air Force as a Nuclear Weapons Specialist. As a Sergeant I worked as a Crew Chief to maintain and replace limited life components on our munitions.
- I attended basic training at Lackland AFB in San Antonio, Texas. I went from there to Lowry AFB in Denver Colorado for my Technical School. My first duty station was Barksdale AFB in Bossier City, LA where I spent 3 years maintaining the munitions that were aging out of the inventory. From there I went to Ghedi AFB in Ghedi, Italy. This was an Italian AFB. The Italian Air Force flew the planes and we provided the munitions. I ended my career at Fairchild AFB in Spokane Washington.
- I was a marksman

Earned NCO of the quarter my first board. Was recognized for recommending a change to the design and hardware for bomb racks that not only made the rack more reliable but saved money in hardware and time for repair.
