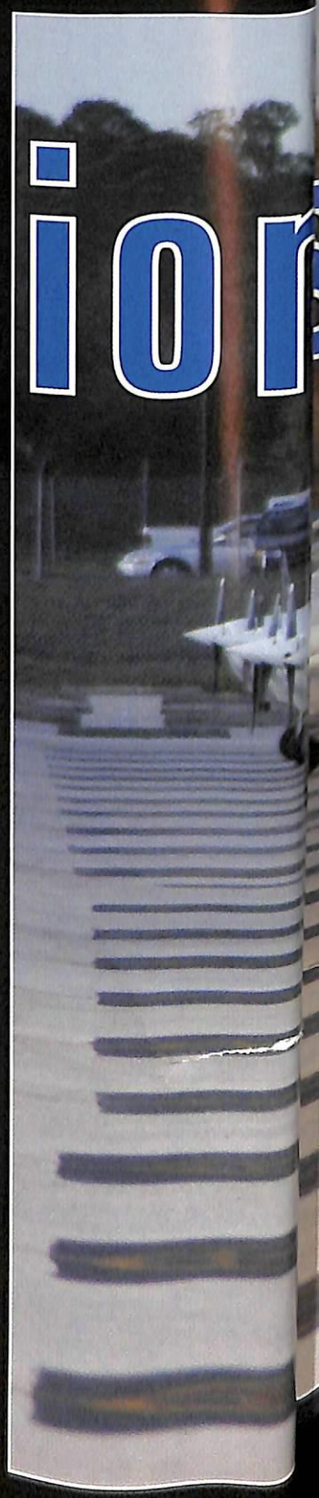
passing impression



Embry-Riddle Aeronautical University is a focused school.

The embodiment of our school is its students' dedication to aviation and aerospace. Embry-Riddle's Aerospace Engineering program is ranked number one in the nation. Our precision flight teams have consistently ranked among the top of the country. And it is also a school that has the produced the most astronauts and airline pilots.

the school

Yet despite this singular theme, it still breaks tradition and strays in and out of the norm.

With its dynamic atmosphere, Embry-Riddle works hard to provide the excellence expected of it. But **BREAK** through surface further and you'll find that behind the school, there are the people. Where else can students and alumni celebrate a Homecoming with an air show finale? What other technical schools host a variety of organizations catering to swing dance troupes and gaming fanatics? And where else can you find the students, faculty, and staff who have brought Embry-Riddle the awards they have today?

the people

Be it the sound academic dedication of a hardcore "studying machine", the record-breaking spirit of an athlete, the winged dreams of a passionate prospective flyer, or the honed skills of a developing singer, it is the people of Embry-Riddle who have had a hand in the success of the University. This is how we broke from the "traditional" college, and how we continue to **BREAK AWAY**.

STUDENT LIFE

Break away from dorm life and party it up at the apartment. Free yourself from your studies and hit up some of the hangouts in Daytona Beach and surrounding cities. Unshackle yourself from the food on campus and check out the local food. Sleep during the day and become nocturnal with your nightlife. Break the boredom and join a club. **Liberate** yourself from the traditional family and join a sorority or fraternity. Get out of your house and show your school spirit. Release yourself from your norm and show us **your talents**. Stop staring at pictures of planes and come out and see them for real. **Culture** yourself by attending international day. Get your degree, get out of the school, and start your career. Get your degree, get out of the school, and see how it is used in the **real world**.

first experience

For some of us, the first week at Embry-Riddle Aeronautical University was an exciting event. We met so many different people during orientation, we formed groups and we toured the campus. We saw the great variety of places to eat on campus. It was then that we were introduced to the famous Propellers. It was a first for many things. Some majors saw the Lehman building for the first time and knew the rest of their college lives would be spent there. It was also our first time getting lost at Alphabet Soup. When orientation ended, it seemed the campus shrunk considerably and we magically knew where everything was located.

time to get educated

Apart from ERAU students' classes and the social life, lies the major aspect of college, the studying. The 24/7 Lehman labs was always a great place to complete engineering projects, and pull all-nighters. Also, the COA labs were great for completing work sheets or running simulations. If a paper needed to be written, the library was always a great place to do research, and the C lab was always the ideal place to write it. Breaking away from the typical studying areas, off campus housing was always an alternative, as well the local Starbucks. If all that was needed was some lax studying, the beach was always inviting.

dorm lifestyle

For most of us dorm life was memorable and fun. We met our roommates and made friends with all the different people in our hall. The Resident Advisors worked hard to make sure our stay was enjoyable. Dorm events were fun and exciting. Through dorm life, we were able to know more people and make more friends. For some of us these friendships lasted all four years of college, and sometimes even a lifetime.

Just about any club can be found on campus, from the typical honor society club to a unique club, such as the aviation sports club. The clubs brought together people of the same interest, and introduced people to new experiences, opportunities, and cultures. In later years these people would be the ones sitting out in the hot sun trying not to get burned, and explaining to the new students what the club is about. It is a very busy time where all the new students are able to go out and meet new people with common interests while fraternities attempt to recruit more members. Clearly, Riddle is home to many different students with a wide range of interests.

week of the greeks

Greek week is an opportunity for all of the greek organizations on-campus to be pit against each other in friendly competition. Ranging from the chariot races to tug-o-wars, the fraternities and sororities duked it out, where wins are only achieved with teamwork (chariot races and tug-o-war), strategic planning (pyramids), and a sense of creativity (cardboard boats).

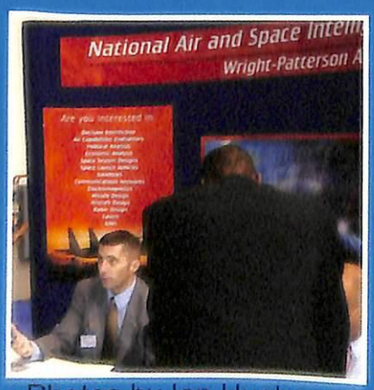
career expo



~Photos by Ian Hughes

The career expo made us look away from the math problems due tomorrow and the 15 page paper due in 2 weeks. It made us focus more on the big picture, and where we see ourselves in 5 years. We thought about opportunities in locations that we had never considered before. It gave us an idea of what the real world was looking for, and let us set goals for ourselves. However, the most valuable resource that we came away with from the career expo was networking, networking, and networking.

Even though we are known worldwide as aeronautical and technical school, Embry Riddle students are more than technical - we have talent. Lights and music fill the Student Center for a night as these talented students from every degree major sing, dance and play their hearts out. They are judged and a winner is chosen, but in the end everyone is a winner.

oming parade

Embry-Riddle's clubs and organizations changed their appearance to one of color, magic and fantasy. Fairy tales was the word of the day as ERAU's student body and faculty participated in their yearly home-coming parade. Candy, smiles and prizes were given that day, as hundreds gathered across the campus cheering for their favorite floats and receiving warm gestures from the people in them.

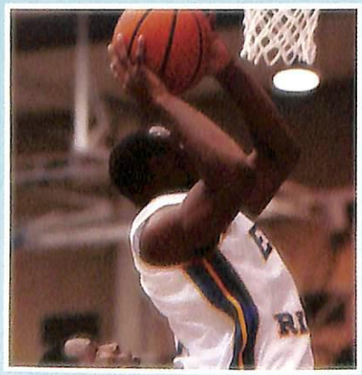
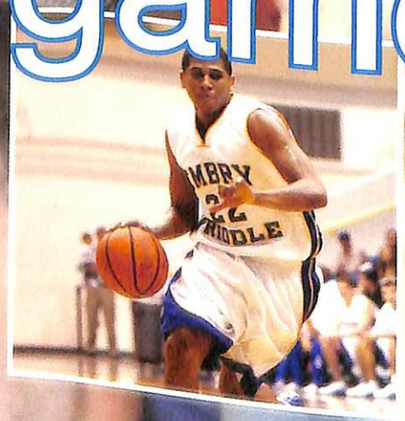
homecoming game





~Photos by Bill Campbell

Homecoming game is a day of spirit and pride as ERAU's basketball team is playing for our goal. Also, this is the day when the homecoming queen and king are crowned. The game began, and fans began to scream for their victory, but at halftime Kent Kalogera and Heather G. VanAntwerp were crowned as the new royal couple. The homecoming game was where new and old students from past years come together and cheer for their Embry Riddle team one more time.

~By Natalie Ramos

A day of excitement where thrust and speed are the common words of the day. The Florida Skyfest is held every two years in the Daytona Beach area and hosted by Embry Riddle. Tourists, kids and airplane enthusiasts enjoy playing with flight simulators, browsing through model airplanes, however the main spectacle is watching those airplanes fly above in the sky.

international

~Photos by Darrin O'Brady

Food, music and life define each culture differently. On Embry-Riddle's International day each student, faculty and visitor learns a bit from different cultures that make up the student body of our University. Different clubs relating to their culture create booths showcasing what their country is about, by showing the visitors their food, music and folklore.

meet the greeks

During the beginning of the semester, all of the greek organizations on-campus came together to hold an event for everyone so that people can "meet the greeks". People who are interested in joining a fraternity or sorority have the opportunity to get to know the different organizations, where they can ask questions they have regarding going greek in an informal and fun setting, with food and music. (Students also find this an excellent opportunity for free food, where they wouldn't have to use meal plans or spend additional cash.) The event was also a chance for the Greeks to all come together in a friendly environment to catch up from their summer activities. You can count on the Greeks whenever you're looking for food and fun.

Voice and Vote. This year our voice was taken away, but we didn't let our guard down. The SGA hosted a Rally in which many of the students were defending our right to have a voice in the decisions on campus. Free food was given, live music was played, and games were held in the West Lawn. The SGA Rally Voice and Vote was day where the Embry-Riddle student body were united by one ideal.

Daytona Beach has a lot of things that the Embry-Riddle student can do in his or her free time. Aside from its famous beach, it has local arcades, theaters, pubs, clubs and yearly venues, such as Bike Week, NASCAR events and of course Spring Break. There's a little bit of everything in Daytona Beach, from Latin dance clubs to Square dancing ones, from adrenaline pushing fast cars to relaxing your body in the beach.

EVENTS

The events of 2005-2006 made people to **break away** from their comfort zone with their enthusiasm towards their beliefs, not only on campus, but all around the world. As the saying goes, history writes itself, and everyone had a part in it, somehow someway. Students petitioned for their rights in a **rally** quickly organized by the Student Government Association. Embry-Riddle President **George Ebbs** steps down from his position. Stem cell research is in its prime. The nation watched in horror of the occurrence and aftermath of Hurricane **Katrina**. And the war against terror pursues.

SUPREME COURT FINDS NEW REPLACEMENTS FOR 2005

Two spots opened in the Supreme Court of the United States, one from the death of chief justice William Rehnquist and another from the retirement of justice Sandra Day O'Connor. President Bush nominated John Roberts for chief justice, but some minor concerns came up over previous writings on abortion and separation of church and state. For the other spot in the court, Harriet Miers, White House counsel, was nominated, but was soon withdrawn due to protest from both parties. Samuel Alito, the next nominee, also faced controversy in the same way as Roberts, but far stronger. Alito and Roberts passed 58-42 and 78-22 in the Senate, making them the second- and third- most contested justices sitting on the Supreme Court.

PLAME SCANDAL/SCOOTER LIBBY RAISES CONCERN

Valerie Plame Wilson, wife of a US ambassador who had spoken critically of the Bush administration's handling of intelligence, was working undercover with the CIA and that her identity as a covert agent was revealed by a government official, as well as subsequent investigations, claims, counter-claims, and security issues. Robert Novak, a journalist, revealed this information in a column, and subsequent investigations into the origin of the leak spurred some cover-ups and evasions. As a result, Vice President Dick Cheney's chief of staff, I. Lewis "Scooter" Libby, was indicted for obstruction of justice and perjury.

BUSH RECEIVES LOWEST APPROVAL RATINGS EVER

President Bush's approval rating falls to an all-time low of 34% as citizens grow increasingly pessimistic towards the War on Iraq. Many Americans feel that the aid to help the stability of Iraq has seen no improvement, and is perceived to have gotten worse. Another attribute towards the low percentages is how citizens felt relief was organized after the wake of Hurricane Katrina. Bush's programs, such as the "No Child Left Behind" act, also faces more scrutiny.

PEOPLE

You're side-by-side with your family and friends at your new school, Embry-Riddle Aeronautical University. For some, this may be the beginning of their college career, for others it may be a second opportunity. You've **broken** with the old, and with your backpack at hand, you're ready to take on this new challenge before you. Four years have passed (or five for the "super"), and soon you find yourself in the same position you were since the moment you first stepped into the school. Family and friends are beside you, and where once you held a backpack, you have your degree. Welcome to your **future**, your **present**, and your **past**.

SPORTS

The Embry-Riddle athletic scene of 05-06 not only encompassed University team achievements, but **personal victory** as well. Athletes of different sports battled against themselves and reaffirmed their own might by breaking personal records and goals. Their effort was well worth the fight as the University saw many records broken, such as Women's Volleyball obtaining several winning streaks and Men's Soccer achieving a title in the **NAIA** top ten. Some might call us a technical school, and they wouldn't be entirely wrong, but that certainly doesn't stop us from great achievements in all fields, **athletics included**.

When the going gets tough, the tough gets goin

The men's basketball team, coached by Steve Ridder, had a very successful season winning nearly all of the games of their season's tournaments. The team began their season by playing Johnson & Whales and crushing the opposing team by more than double their score of 89-42. More success was to come as the team was invited to compete in the 28th Annual Cedarville Invitational, where they won with a score of 71-66. The team also won both games of the Florida Sun Conference Tournament. They advanced to the 15th Annual NAIA Division II Men's Basketball Tournament in Point Lookout, MO, where they played a good game until the end where they lost 78-84. These minor losses, however, will not deter the success of the team. Afterall, one can only cheer for a team that only lost three times during its entire season!

Eagles volleyball soar above crowd expectations

The Eagles took a lot of people by surprise in 2005. After going 3-30 in 2004 and losing four starters and both coaches in the off-season, the team doubled the previous season's win total in just seven matches behind new head coach Joslynn Gallop and her high-powered offensive recruits. The team finished the year with a 24-12 mark and a third-place finish in the Florida Sun Conference.

Outside hitter Janelle Marinos shattered offensive records left and right, including aces in a single match (19), kills in a single match (32) and kills in a season (691). Freshman setter Marissa Gonzales took over the starting role, and broke the single-season mark for assists and made it onto ERAU's top-five list in her first collegiate season.

The Eagles face another rebuilding year in 2006 with the loss of both starting defensive specialists, Nancy Salb and Marcia Bullara-Smith, to graduation. Gallop has already hit the recruiting trail, though, picking up middle blocker April Ebanks from South Florida Community College and outside hitter Savannah Trakes out of Castro Valley High School. The offensive machine that was Eagle volleyball will only strengthen in the season to come.

The Embry-Riddle golf team faced many trials and tribulations this past year. But they had faced each with optimism on leading the way to victory. They had gone head-to-head with some of the best NAIA teams in the country, and had begun the Spring season with a somewhat rough start. Of all the games they had played, they have only lost twice in the University of Tampa Invitational and the Titan Winter Invitational tournaments. The rest of the season was full of notable achievements under the guidance of their head coach, Maria Lopez., one especially from the Rome News-Tribune invitational with a victory of a 15-4 win-loss ratio, and also in the Eagle Invitational with a 12-2 win-loss ratio. The culmination of the season came with three of the Men's Golfer's collecting the Daktronics/NAIA All-American Scholar-Athelete Honors - Richard Grove, Nathan Hellwege and Stephen Hellwege.

The men's soccer team started off their season with a win after fighting head-to-head to ERAU's western counterpart in Prescott, AZ. The women's soccer team also started their season with a win against New York Institute of Technology. As both seasons came on, both teams went ahead in a series of impressive wins as well as loses. The men's soccer team in particular ran with their season with an 11-game win streak, and against a winning game to Webber International, was brought to a third straight NAIA Region XIV tournament final. Their road to the championship was halted after playing aainst The Pilots of Bethel, though the team finished with a long list of impressive awards. The women's soccer team climbed up the ladder of the NAIA poll. The girls came in with a 6-game win streak, but was snapped with NCAA Division I Jacksonville. The end of their season came with an unfortunate loss against SCAD for the Region XIV tournament.

The Embry-Riddle Men's Baseball team enjoyed a successful year, playing opponents at level or even more challenging. The team started off the season playing Brewton-Parker, where they had lost the first two of three games. The Eagles won with a come back score of 7-4. While they had suffered some losses, they revelled in winning games to schools such as Brevard, Savannah College of Art and Design (SCAD), and Bellevue. Their games with SCAD had been tough where they had lost their first games against them. However, the Eagles advanced to the regional finals after winning 10-1 over SCAD. The peak of their achievements was earning an automatic bid to the NAIA World Series in Idaho. This is not new to them, as they have been brought to the World Series for the third year in a row, and the fourth time in five seasons. Also, they have been ranked second in the final NAIA poll.

ERAU's Track and Cross Country teams break o

Both of Embry-Riddle's Track and Cross-Country teams had finished off their season with many notable achievements.

Both of the men's and women's indoor track team were given the accolade of the Buffalo Funds Five Star Award for their dedication of the Buffalo Fund's five core character values. The teams had spent many hours assisting community events, cleaned race trails after hurricane damage, and volunteered in high school and college cross country events.

The track teams closed their season at the Georgia Tech Invitational where they broke five previous school records. Qualifying members were sent off to Fresno, CA to compete in the NAIA Outdoor Track and Field National Champsionship, where their season ended at reaching the national semifinals.

The cross-country team also had their hand in victory as well. At the beginning of their season at the Florida Institute of Technology (FIT) Invitational, men's cross country finished in first place and women's in third.

The teams continued on and were ultimately able to attain regional titles. The men's cross team came in first regionally under the leadership of senior co-captains Jack McAfee and Chris Henry, and the women's team came in second under junior captain Laurel Cook. With the men's team coming in first place, it marks a milestone in the achievement of ERAU's men's cross country, since it is their first time attaining that title and that the team would be able to compete in the NAIA Championships, where they competed in Louisiana.

ORGANIZATIONS

For the relatively small student population of Embry-Riddle, diverse interests abound. It can be seen from the 120 clubs on-campus, where students **break away** from their former selves and improve their leadership skills and break through **on-campus** and around the **community**. Whether experiencing brotherhood or sisterhood in a fraternity, being locked in an intense battle of strategy and wits in a game, or volunteering services to those in need, students find their "outlet" in what the campus has to offer.

American Institute of Aeronautics and Astronautics

Learning from Experts

The American Institute for Aeronautics and Astronautics (AIAA) is a dedicated group of predominantly Aerospace Engineering students. During their biweekly meetings, members arrange fundraising events charity events and plan their Dinner Meetings. The AIAA is an active club on and off campus. The Dinner Meetings are the group's occasion to invite and learn from speakers from the field of Aeronautics and Aviation.

To celebrate the end of 2005, the members went skydiving in Deland. Other activities of the group were a trip to Disney World, tours of the Kennedy Space Center, and Faculty-Student meet-and-greets.

The Singapore-International Aerospace Association (SIAA) promotes th continual advancement of the aviation industry. Such an intent i employed through the fusion of all applied disciplines which members posess, such as aerospace/aeronautical engineering, and aerospac studies, safety sciences, communication, meteorology and aviation business administration. All members are given ample opportunities to ex- plore, in-depth, the various roles in which Singapore has taken part in th international aerospace scene. Members come from all walks of life. Diversity i background and ethnic culture is strongly encouraged to further widen the scope o understanding of the world today. SIAA has undertaken many projects such as International Aerospac Day to promote the International Aerospace and Airline scene outside of the United States.

In the Fall semester, the association was involved in SkyFest, Blue Angels Homecoming in Pensacola, FL and held their SIAA Appreciation Ceremony. In the Spring, multiple events were attended, including a Site Visit to Mobile Aerospace Engineering (MAE), AL, the celebration of the Chinese New Year in February 2006, International Aviation Day, and International Day right here on the Flight Deck.

Omicron Delta Kappa Society

From Cardbox and Duct Tape to Real Houses

As National Leadership Honor Society for college students, faculty, staff, administrators, and alumni, ODK recognizes and encourages superior scholarship, leadership, and exemplary character. Membership in ODK is a mark of the highest distinction and honor.

The Society recognizes achievement in the following areas: Scholarship, Athletics, Campus/Community Service, Social/Religious Activities and Campus Government, Journalism, Speech and The Mass media, and Creative and Performing Arts.

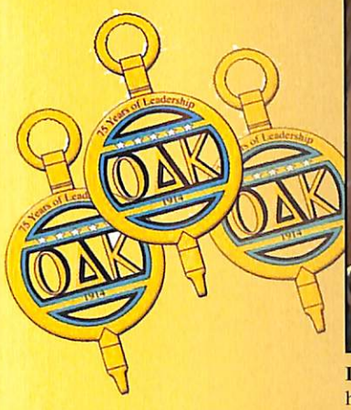
Let's add some color! From one of ODK's most frequent activity, Drew Turner, Kennedy Hester, Will Bossio, and Brandon Felts have built the foundation of their charity house and are now ready to apply the finishing touch.. a paint job.



Emphasis is placed on the development of the whole person, both as a member of the college community and as a contributor to a better society. The purpose of Omicron Delta Kappa is threefold: to recognize those who have exhibited a high standard of leadership and efficiency in collegiate activities, to bring together student leaders from all sectors of collegiate life in order to help mold the sentiment of the university for questions of local and collegiate interest, and to bring together members of the faculty and the student body on a basis of mutual interest and understanding.

Institute of Electrical and Electronics Engineers

Breaking Grounds

The IEEE, a non-profit organization, is the world's leading professional association for the advancement of technology. The full name of the IEEE is the Institute of Electrical and Electronics Engineers, Inc., although the organization is referred to by the letters I-E-E-E and pronounced Eye-triple-E. The IEEE has more than 365,000 members, including 68,000 students, in over 150 countries.

ERAU-IEEE is the student branch of the IEEE at Embry Riddle, Daytona Beach. Their objective is to provide members with project experience outside of the classroom and help develop an appreciation for electrical applications in daily life through fun activities and events. Everyone is welcomed regardless of their majors to participate and diversify their experience here at Riddle. They also attend the local IEEE Daytona Section meetings and provide members with network with engineers out in the field. The importance of being a part of a professional organization in conjunction with a student's academics cannot be overemphasized.

Walk for Education

All Photos Courtesy of NSBE

National Society of Black Engineers (NSBE) is striving towards their mission: To increase the number of culturally responsible black engineers who succeed professionally, excel academically, and positively impact their community. As president of NSBE Jamie Bryant encouraged members of the ERAU community to attend "A Walk for Education." During this walk ERAU students reached out to under privileged communities to speak and give out information on preparing, funding, and attending college. NSBE also demonstrated involvement in the Black History Month activities on campus which included bringing together speakers, poetry, art and music that reflected Black America's past and presence at ERAU.

Succeeding professionally is a cornerstone of the NSBE organization. During their Regional Convention in Atlanta, GA and their 32nd National Convention in Pittsburgh, PA members gained valuable information from workshops, speakers, business socials and exclusive and large career fairs. While at the career fair many NSBE members are hired that day or very soon after. NSBE works to develop and place talented minority youth in business and industry and prepare them for corporate and community leadership.

Society of Automotive Engineers

International Competitions... Here we come!

The Society of Automotive Engineers (SAE), society dedicated to advancing mobility engineering worldwide, had a lot on their hands this year. The members, although all working on automotive projects, have very different missions to accomplish. SAE is separated into three very different teams: The Mini-Baja, the Aerodesign Heavy Lift and the Formula Team. Each participated in Internationally Recognized Competitions.

Each competition involves structural constraints and a variety of specific tests: endurance, engine limitations, sizes, weight to size ratio, materials, etc...

Besides competing, SAE also organized various conferences where they invited outside companies to talk about current automobile concepts.

Aerodesign Heavy Lift

For the past 3 years, ERAU has won the best design part of the AHL competition. The strengths of the plane are manufacturability and high payload capability. With an empy weight of 12 pounds, the plane is capable of lifting 43 pounds. However, a broken wire during flight shortened the flight and ended with a crash! oops...

Formula Team Racing

Using a small open-wheel racecar designed and built by themselves, the Formula Team competition judges both the static and the dynamic aspect of the cars. The **Static** part (325 pts) judges a presentation, the engineering design and the cost analysis. The **Dynamic** part (675 pts) focuses more on the acceleration, skidpad, autocross, fuel economy and endurance.

Mud splashing, getting wet and sweaty, covered with grease is not part of most clubs on campus. Must it also be said that it is an All-women's team?

Part of the Society of Automotive Engineers, the Mini-Baja team had the pride to be just that during the spring. They designed and built an off-road vehicle capable of racing on rough terrains as well as being amphibious (ability to travel on water). All vehicles are powered by a ten-horsepower Intek Model 20 engine donated by Briggs Stratton Corporation. Besides weight and size restrictions, each team has entire control of design characteristics.

Homecoming 2005

A Christmas Carol

For the Homecoming Theme of "Once upon a time", Catholic Student Union's members represented the multiple ghosts of Jacob Marley who visited Ebenezer Scrooge on Christmas Night.

Singin' the Night Away

Created in 2002, the AcaFellas are now required and called for important events on campus: talent shows, spring concert, graduation ceremonies, commissioning ceremonies and openings to Touch-N-Go productions. Any event would miss that "Je ne sais quoi" if they were absent. In Spring 2006, the Fellas recorded their first CD, and the public eagerly awaits the official release. Popular songs include Brown Eyed Girl, Save Tonight, Kiss from a Rose, Lion Sleeps Tonight, My Immortal, etc...

During the Spring, the AcaFellas helped form the Bellatones UCF All-Female A Capella Group, which gladly accepted the invitaion to be special guests during the AcaFellas's Spring Concert on April 21st. Both groups hope to meet again in their respectives schools to share the passion of singing.

In the Studio

"In the process of recording our first CD, the AcaFellas have spanned the distance from being your above-average backyard barbershop, to becoming a fully equipped arsenol of pitch-pipes and harmonies. Through countless hours of performing and practicing in the studio, we finally have a quality product that we are proud to put forth. This CD shows both the ability of the AcaFellas to perform and the value of the Arts at Embry-Riddle. We thank all of our previous hosts as well as our wonderful SGA for the means to make this possible." Jonathan Dziok

In the future, why not a DVD with the spring concert and other shows...

Amateur Astronomy Club

A Shooting Star

All Photos Courtesy of AAC

The Amateur Astronomy club is a vibrant and active organization on campus. Re-started in Fall 2005 after being inactive for several years, the club has organized group activities, aided the faculty in astronomy related events, and brought together a variety of people to learn and expand their knowledge about the interesting topic of Astronomy.

Trips to the local planetarium, Orlando Observatory, Kennedy Space Center Star Parties, local guest speakers and biweekly observing sessions keep the members busy and active.

Through very successful fundraising the club has been able to purchase their own telescope now available for members to use. The club also received Silver Wing Status and enjoyed going out after every meeting to look at the stars. Being just one year old this club has achieved a lot, and its future looks quite bright indeed!

Anything Goes Anime

Photo and Caption Courtesy of Anything Goes Anime

Embry Riddle's Anything Goes Anime Club is the oldest still active anime club in Florida, with its first constitution drafted in 1982. Anything Goes Anime Club, often called AGA, also hosts an Anime Convention called Anime Express. Anime Express is a small homely convention held here at Embry-Riddle, but despite its small size, it is also the longest running Anime Convention in the state of Florida. AGA is able to draw in guests from the Anime and Gaming industry, with recent guests ranging from artists such as Steve Bennett and Doug Smith, voice actors such as Tiffany Grant and Greg Ayres, the popular band called Select Start, and even the co-founder of ADV film and director Matt Greenfield. AGA is also open to anyone who wishes to attend, and has attendees from a few local high schools, a few of our members from DBCC, and a few others from the local vicinity.

The game play concept is that players are to move their feet to a set pattern, stepping in time to the beat or rhythm of a song. The club plays these games weekly both on- and off-campus to increase in their technical skill, freestyle, and to ultimately just have fun.

Jazz Ensemble

Rising Stars

The ERAU Jazz Ensemble is an on campus organization that provides entertainment on campus as well as any off campus activities that the group decides on playing for. Created in 2005, the ERAU Jazz Ensemble is becoming one of the fastest growing groups on campus. The Jazz Ensemble's first performance came in November of 2005, when the group played live jazz music on the flight deck for the entire Embry-Riddle community to hear. Performances continued in December of 2005 when the ERAU Jazz Ensemble teamed up with the ERAU Choir and put on a holiday concert for the Embry-Riddle community as well as teaming up with the ERAU Swing Club and provided live jazz music for the Swing Club's end of the semester party.

In the spring semester, the ERAU Jazz Ensemble continued to put on performances as well as team up with other clubs on campus.

Pep Band

Live . Uncensored . Uncut

The Embry-Riddle Pep Band was originally a very small group of musicians that got together to support the Men's Basketball team. Over the years, the Pep Band has continued to grow in numbers and can be found playing at a variety of different events. They can now be found playing at all home Volleyball, Hockey and Basketball games.

The Pep Band has also made appearances at a couple soccer games and charity events such as the Sorority Powder-puff game and the Swing Club's Rootbeer Kegger.

This past year, the Pep Band has begun to reach out into the community and played for a number of Father Lopez High School's home football games. In addition, the band invited two local middle schools to come and play with them at a basketball game.

The Pep Band can also be found playing at the fall and spring graduation ceremonies to support the graduates, including their own musician graduates.

No matter where the Pep Band is playing you can be assured they are doing it with pride.

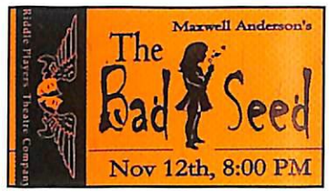
Riddle Players Theatre Company

Back in Time



The Riddle Players Theatre Company surely put an extra amount of work, will power and extra hours to pull off the magnificent year they just had.

This year brought back some flashbacks from 1999 and 2000. The team won back their title for best homecoming float during the Fall 05 homecoming parade. Who could fit better the theme of Once Upon a Time than the Riddle Players who brought back to life, for a short time, prince and princesses named Sleeping Beauty, Cinderella, Snow White and many more...

During the Fall, Kerry Rottner directed the drama The Bad Seed by Maxwell Anderson, where an 8 year old Rhoda turns out to be not as "perfect" as it seems when one of her comrade drowns during a school picnic.

In the Spring, and after 5 years of ban on musicals for cost and difficulty to direct, Pamela Arban decided it was time to take on the challenge again with Zombies from the Beyond. Altogether, the players put on more than 2 weeks of excellent acting and directing.

Study Abroad Honor Society

Museum, Wine, Cheese and Chocolate

The Study Abroad Honor Society was born barely two years ago and now have close to 40 very active members, from countries all over the world: France, Italy, Germany, Japan, China, etc... Every semester starts with a welcoming dinner of all new international students at Louise's Italian Restaurant. This year was particularly successfull with the entire restaurant's tables taken by the group. A new twist was added to the Wine and Cheese Night by having chocolate from all over the world. During that night, every student, thus country, is in charge of bringing a bottle of wine, cheese, and chocolate from their respective contry to Dr. James Cunnigham's house by Ponce Inlet. Other activities included Canoeing in Alexander Springs, Camping/Picnic, Theatre Excursions, Bowling, and a Visit to the Museum of Arts and Sciences in Daytona.

Swing Dancing Club

Swinging Away in Tampa, Orlando and Daytona Beach

The Fall and Spring semesters of the Swing Dancing Club were aimed to breaking away from the ERAU flight deck of Daytona as well as finally start the arials "stunts" the club members had been waiting for a long time. Lessons have been every Tuesday nights on the Flight Deck and it was time to break away from the comfort of school.

In October, a wild and courageous team got together and headed on to the Swing.Dance.Usa Tampa Bay immediately after classes Friday night, only to come back exhausted Sunday early morning. All were thrilled of the new moves of Lindy-Hop and agreed that West Coast just wasn't for them...yet!

In February, another team headed to Orlando for a Blues workshop, and finally on April 8th, the final "regulars" went to UCF, Orlando for a Charleston workshop. All learned tremendous amount of new moves and even made up their own, notably the "Run Away Fast", by Scott Cox!

Diving Eagles Scuba Club

We've got the urge...

The Diving Eagles Scuba Club went on over 20 dive trips during the 2005-2006 school year. These trips included South Florida ocean dives to check out Florida's wreaks and reefs and many dives to Florida's abundant spring systems. The club offered four trips in which its members furthered their certifications in dry suit diving, deep diving, night and limited visibility diving, and cavern diving. The club also helped certify over 20 new open water divers during the year.

Ice Hockey

New Horizons

The ERAU Ice Hockey club has been around for eight years and has developed a following that rivals all the other sports on campus. Currently competing in the American Collegiate Hockey Association (Division III), the team members have been doing everything they can to make themselves known on campus. With the university exploring the possibility of developing an NCAA ice hockey program, the future looks bright.

This past year, all hockey players were invited to two national tournaments. The first tournament was the ACHA 2005 National Showcase Tournament held in Wichita, Kansas. The Eagles placed 4th out of 10 teams from around the country. For the second tournament the hockey club was invited to the Kennesaw University Elite Eight Tournament in Atlanta, Ga. The Eagles played hard and well. They finished the season with a record of 12-13-0. "Come support the coolest sport on campus, the ERAU Ice Hockey team! "

Stormriders Surf Club

Costa Rica, here we come!

Breaking away from the dull walls of the Hunt library the Stormriders Surf Club made their first surfing trip abroad. During the week of spring break, a lucky handful of them made it down to the hot, beautiful beaches of Jacó, Costa Rica. Waves that ran all day long and broke so clean were just some of the many highlights of the

trip. Among enjoying the surf and sand, some took hikes through the mountains by mule or harnessed their way through the luscious jungles. Among their other firsts this year was arranging free surfboard rentals with surf instruction for their members. The Stormriders also continued tradition with another successful surf competition.

Watersports Club

Taking a Break...

ERAU Watersports Club took a sabatical year to give the boat a new look and more specifically a new engine. Besides a good cleaning, a new carpet, minor repairs, major breaks (oops.. trial and erros...), a small fire due to a minor fuel leak, the Moumba has a new engine.

Thus breaking away from the natural wakeboarder, waterskier, shovel skiers, slalomers and barefooters experts in the group, some team members got a glance at the mechanical and engineering aspect of the watersports club. From one break to another, from one fix to another, the Moumba got closer to operational everyday closer to summer.

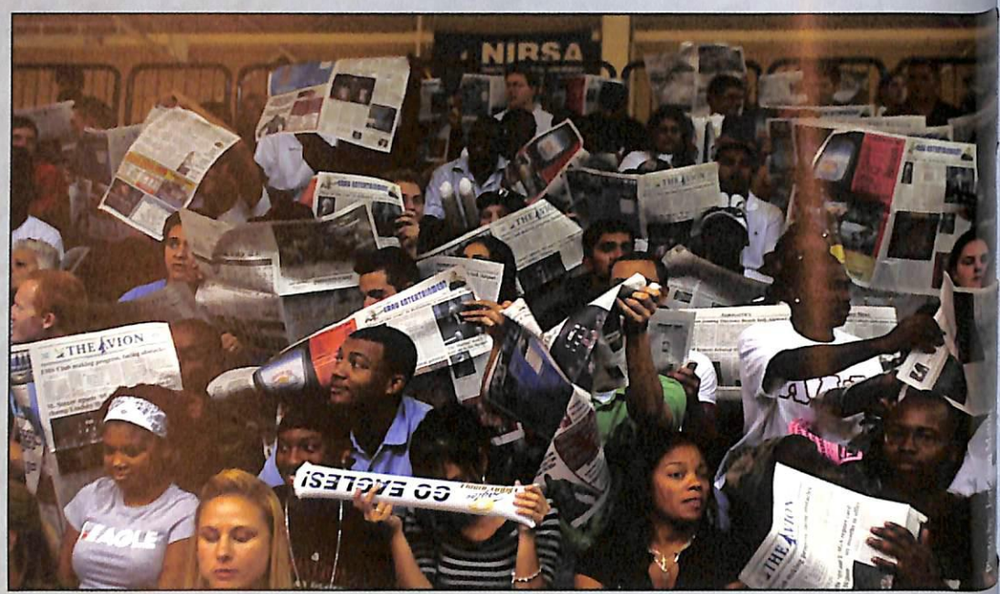
THE AVION NEWSPAPER

Jonathan Mettin

Managing Editor



The Avion is the campus newspaper of Embry-Riddle Aeronautical University. Consistently ranked among the best college papers in Florida, The Avion prides itself on covering the Embry-Riddle campus and the aerospace industry.

In the fall of 2005, the paper revamped its front page and covered a lot of pressing issues for students, including the Voice & Vote campaign, the NAIA national soccer tournament (hosted by ERAU) and a possible Embry-Riddle subscription to legal downloading services. The Avion continued its investigative reporting into the spring of 2006, including full coverage of the SGA elections and a rash of deaths that hit the campus, claiming two students, a professor, a former president and an alumnus.

The Avion was founded as an open forum for student expression, and students certainly took advantage of that, filling the Opinions page with debate over everything from religion to the University administration.

Up 'til Dawn

Always a good cause...

Having only been at the Embry-Riddle campus for just a few years, Up 'til Dawn has grown into a thriving organization! By putting on social events and fundraisers on campus, Up 'til Dawn raises money for St. Jude Children's Research Hospital in Memphis, TN. The Fall '05 - Spring '06 year proved to be one of UTD's most successful years yet - raising $12,625!

Social programs including Battle of the Bands, Ladies Night, and the Date Auction were all resounding successes – gathering rave reviews from the students who participated. Up 'til Dawn also held fundraising activities such as Candy Canes for the Kids at holiday time and took on the task of selling flowers at the Spring 2006 graduation. Up 'til Dawns signature event – Finale, a 12 hour bash with dancing, games, activities, food, and giant blow up toys - topped off the year drawing hundreds of ERAU students!

Up 'til Dawn will continue to work hard in the years to come in support of St. Jude Children's Research Hospital – for the kids!

glowing embers

As 2007 comes, we cannot help but reminisce over the events of the past year. For many, the year was just a stepping stone in the journey towards graduation. However, for a select few, this is the end of a very important chapter in their lives. The simple daily routines for some Riddle students are over. At the same time, a new generation will begin their college years, in turn beginning an important chapter of their lives. Current students in University stand before a crossroad that lies between success and failure. Though bigger and better things lie ahead, it's the little things that we will always cherish.

by Eddie Miller

Chris Cole

COLOPHON

The theme, **BREAKAWAY**, characterizes the unique character of the University, in contrast to traditional colleges across the United States. Embry-Riddle's dedication to aeronautic and aerospace studies permeates not only through the academic structure of the University, but also with the students that make Embry-Riddle what it is today.

BREAK AWAY is also a testament of the Phoenix Yearbook staff as continuing the "life" of the legendary bird. Break Away is the second sequel to the 2004-2005 yearbook, *Rebirth*, which was the bringing about of the yearbook after a 2-year hiatus.

HARDWARE

This book was published using four Power Mac G5's and one iMac. Photos were taken with four different sets of cameras - a Nikon CoolPix, a Canon Digital Rebel, a Canon D30, and a Canon 10D. The printer used was an HP Color LaserJet 5500.

SOFTWARE

The software used by the staff was a duo of Adobe InDesign 2.0 and Adobe Photoshop 7. Copy was written using Microsoft Word.

THANK YOU...

Special thanks to the entire Avion Staff for helping the Phoenix Yearbook in every way imaginable.

Thank you to Michael Toulouse, who helped out with content for the yearbook, even if he isn't a student of the University.

And last but not least, thank you to Darrin O'Brady, whose dedication to the success of the yearbook never waned, even well beyond graduation.
