

# SMALL WINS, BIG IMPACT:

## NARRATIVES FROM BEHIND THE SCENES

GOALS: 1) To address struggles & disseminate successes with first-year engineering programs for adoption & adaption; 2) Provide attendees with a better understanding of their own stories & key takeaways

### NARRATIVE INQUIRY OR STORYTELLING

## THINK STUDENT MINDSET

Ease transition from high school to college through college success courses and informing students about professional etiquette and responsibility

## STUDENT PREPAREDNESS READY!

Encourage collaborative and near peer mentoring that focuses on developing study habits and math skills

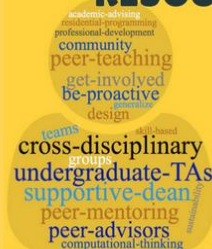

## TEACH? CONTENT

Pick most important topics to focus on (example: design, teaming, programming) and connect ideas across course(s)

## RESOURCES \$\$ TIME

Hiring undergraduate students is essential in making first-year engineering initiatives possible
