Overview

Impact of War - The effects of conflict and rivalries between two opposing entities. These effects have an impact on categories ranging from people groups to government to economy to neighboring countries.

There are three main impacts of war:

- Those directly affected
- Those indirectly affected
- Demographic based effects
Important Terms

**Refugee**- A person who has been forced to leave their country in order to escape war, persecution, or natural disaster.

**Genocide**- Deliberate killing of a large group of people, especially those of a particular ethnic group or nation.

**P.T.S.D.**- A mental health condition triggered by experiencing or seeing a terrifying event.

**Anarchy**- A state of disorder due to absence or nonrecognition of authority.
Causes of War

Political Conflict

Economic Conflict

❖ Resources

Turmoil

Terrorism

Self-Determination Control
❖ National Control
Ideological Change
Imperialism
Injustices

Unfair treatment of citizens based on nationality

The ability of wealthy to flee, in contrast to the poor

Puppet regimes

Innocent being punished for country’s actions

Poor treatment of P.O.W.s
Directly Affected

People have stereotypical views of them

Countries are destroyed (abstract and physical destruction)

Citizens become vengeful

Governments either become larger or fall apart

Physical and psychological impact on veterans
Indirectly Affected

Influx of those directly affected

Government faces internal conflict

Economy fluctuates
Demographics
Is there really a root cause of war?

War can always be stripped down to a difference of opinions.
Is War a Problem?

War is the worst problem currently that the world faces

Syrian Civil War
