Cocoa Beach, Florida April 24, 25, 26, 1984
CHAIRMAN'S MESSAGE

The objective of the Twenty-First Space Congress is to present a series of up-to-the-minute presentations on Space Technology. This year's theme, "New Opportunities in Space," underscores a growth industry with dynamic challenges, vitality, and competition.

The Space Shuttle is fulfilling its promise as an economical and reliable vehicle to deliver payloads to orbit. The development phase has been an unparalleled success. This year, however, the focus is shifting to the operational phase where the name of the game is to increase the launch rate dramatically while holding cost to reasonable levels. This must be done without compromising reliability. The cost of future Shuttle operations will determine the ultimate demand for payload space — hence the potential benefits to mankind. Achieving higher levels of efficiency in Shuttle processing and flight operations becomes of paramount importance and is the subject of a featured panel. You can look forward to a stimulating discussion of new methodology, techniques, goals and objectives and expected results.

Space represents a new frontier in military science and technology and, as such, may play an expanding role in defensive and offensive strategy and systems. A Department of Defense panel comprised of senior officers and experts in military space will review current activities and future projects.

Finally, as the nation embarks on the next major initiative in space — The Space Station — it is appropriate to examine the planning for this bold venture. The Space Congress will present a select panel discussion of Space Station missions, schedules, scientific usefulness and key technologies.

Paper sessions which complement the panel discussions are listed in the pages to follow. They cover a broad range of topics from "Machines to Augment Man" to "Commercialization of Space."

I urge you to make it a point to visit the Exhibit Center at the Crossway Inn where state-of-the-art technology of major corporations is on display. As in the past, a secondary school science fair, featuring exhibits by a host of bright young students, will be held in conjunction with the Congress.

Russell M. Barnes
General Chairman
Twenty-First Space Congress
GENERAL INFORMATION

HEADQUARTERS/REGISTRATION

Headquarters for the Twenty-first Space Congress is the Holiday Inn, Cocoa Beach. Registration will take place in the Dolphin Room from noon to 5:00 p.m. Monday, April 23, 1984. Registration will continue from 7:00 a.m. to 5:00 p.m. on Tuesday and Wednesday, and from 8:00 a.m. to 1:00 p.m. on Thursday.

<table>
<thead>
<tr>
<th>PACKAGE REGISTRATION</th>
<th>$75.00</th>

</tr>
</tbody>
</table>

Package registration will save you money; however, each item may be purchased individually at the listed price. Individual papers in the proceedings will be available at a cost of $.10 per page.

PRESS ROOM

Press headquarters is in the Pelican Room of the Holiday Inn and is staffed and directed by Pat Hicks from 12 noon to 5:00 p.m. on Monday and from 8:00 a.m. to 5:00 p.m. on Tuesday, Wednesday and Thursday. The telephone number in the press headquarters is (305) 783-2631.

MESSAGE/LOCATOR ASSISTANCE

The sponsoring organization, the Canaveral Council of Technical Societies (CCTS), assists attendees by maintaining a message board. Registrants who wish to leave lodging and local phone information can do so by turning in locator forms, available at the Registration Desk, to the CCTS/Message/Locator Desk located in the Dolphin Room, Holiday Inn, or by phone to 783-2642 or 783-5375.

PROCEEDINGS

The proceedings of the Twenty-first Space Congress are available at the registration desk in the Holiday Inn during the Space Congress. After the close of the Space Congress, additional proceedings can be purchased for $35 each plus postage from Secretary, CCTS, Post Office Box 245, Cape Canaveral, Florida 32920.

EXHIBITS

Exhibits will include displays of the Space Shuttle, Shuttle payloads and communications satellites. The exhibit hall will be open from 11:00 a.m. to 7:30 p.m. on Tuesday, from 11:00 a.m. to 7:45 p.m. on Wednesday, and from 9:00 a.m. to 1:00 p.m. on Thursday. Representatives of the exhibits will be in attendance to assist and inform visitors. The exhibit hall is located at the Crossway Inn, 3901 N. Atlantic Ave. (A1A), Cocoa Beach.

The exhibit center is open to the general public at no charge. A free Shuttle Bus is available on a 30-minute schedule from the registration area, Holiday Inn, to the Beach Theater and the exhibit area in the Crossway Inn.

EXHIBITORS

Boeing Aerospace Co.
Bravard Community College
Canaveral Council of Technical Societies

ATTRACTION CENTERS

Late April in Florida is a delightful time of the year for the entire family. The weather is pleasant, the hardy find the Atlantic warm enough for swimming, and the tourist attractions are not yet crowded. Cocoa Beach offers a long stretch of swimming beach, surfing areas, and both deep-sea and shore fishing. One day Sea Escape adventures can be enjoyed from Port Canaveral. Bus tours of the Kennedy Space Center and Cape Canaveral Air Force Station are available from the KSC Visitors Center where a free exhibit-filled space museum can be enjoyed by both children and adults. Within one to two hours drive are - a world of vacation fun in the Magic Kingdom of Walt Disney World and Epcot - Sea World, one of America's finest marine attractions - the mystery and excitement of Africa in Busch Gardens - the famed Glass Bottom boats at Silver Springs - the beautiful gardens and daily water ski revue with lovely aquamaids at Cypress Gardens - or see the show and be a performer at Circus World.

THE MAP BELOW GIVES THE LOCATION OF VARIOUS ATTRACTIONS.
YOUTH SCIENCE FAIR

Science fair displays and demonstrations from local secondary school students will be open to the public from 7:00 a.m. to 7:30 p.m. on Tuesday, and 7:00 a.m. to 7:45 p.m. on Wednesday. The Thursday schedule is from 8:00 a.m. to 1:00 p.m. All Youth Science Fair activities will take place in the Dolphin Room of the Cocoa Beach Holiday Inn. Judging will be conducted from 8:00 a.m. to 12:30 p.m. on Wednesday, April 25. The awards will be presented to the winners at the 8:00 p.m. “Meet the Astronauts” panel session to be held at the Beach Theater on Wednesday.

PIONEERS’ DAY

The Pioneers’ Banquet ’84 will be held on Friday, April 27, at the Officers Open Mess, Patrick Air Force Base.

Speaker: Mr. Lee R. Scherer, Director
Commercial Space
General Dynamics Convair Division

Social Hour: 6:30 p.m.
Dinner: 7:30 p.m.

Registration is April 24, 25 and 26 at the Holiday Inn, Cocoa Beach, and 2:00 to 6:30 p.m. at the Officers Open Mess on April 27.

CANAVERAL COUNCIL OF TECHNICAL SOCIETIES

Air Force Association
American Institute of Aeronautics and Astronautics
American Institute of Architects
American Institute of Industrial Engineers
American Meteorological Society
American Society of Civil Engineers
American Society of Heating, Refrigeration and Air Conditioning Engineers
American Society for Industrial Security
American Society of Mechanical Engineers
American Society of Photo Optical Instrumentation Engineers
American Society of Safety Engineers

Many of the societies will have educational/promotional brochures/information on display at the CCTS Desk. Attendees are invited to stop by and review this material.

TWENTY-FIRST SPACE CONGRESS PROGRAM

TUESDAY, APRIL 24, 1984

KEYNOTE ADDRESS (8:30 a.m. to 9:00 a.m.)
Beach Theater

Introduction: Mr. Russ Barnes
Speaker: Congressman Bill Nelson

Bill Nelson serves as a member of the Budget Committee and the Science and Technology Committee in the House of Representatives. He was elected to the 96th Congress in November 1978 and subsequently re-elected in 1980 and 1982.

Bill attended public schools in Brevard County, Florida and graduated from Melbourne High School in 1960. He attended the University of Florida and graduated with a Bachelor of Arts from Yale. He received a Juris Doctor Degree from the University of Virginia and was admitted to the Florida Bar in 1968.

Bill was a Captain in the United States Army Reserve where he served from 1965 to 1971 and was on active military duty from 1968 to 1970.

He was elected to three terms in the Florida House of Representatives beginning in 1972.

Bill is a member of the Kiwanis Club, the Jaycees, and is a Master Mason. He and his family attend the Tabernacle Church in Melbourne and the National Presbyterian Church in Washington.

Bill has been honored by the Florida Jaycees as one of the Five Outstanding Young Men of Florida in 1975 and nominated as the most valuable member of the Florida House of Representatives in 1976. Two Florida colleges have conferred upon him honorary degrees - a Doctor of Laws from Rollins College and a Doctor of Science from Florida Institute of Technology.

He is married to the former Grace Cavert of Jacksonville. They have two children, Billy and Nan Ellen.

PANEL SESSION I (9:00 a.m. to 11:30 a.m.)
Beach Theater

DEPARTMENT OF DEFENSE SPACE PROJECTS

Session Chairperson: Lieutenant General Forrest S. McCarthey, Commander, Space Division, Los Angeles Air Force Station, CA
Session Organizer: Lieutenant James H. Conlon, Development Engineer, Eastern Space and Missile Center, Patrick AFB, FL

MEMBERS:

Major General Carl N. Beer, Deputy Chief of Staff, Plans, Space Command, Peterson Air Force Base, CO
Colonel Walter S. Yager, Commander, Detachment 1, Space Division Shuttle Activation Task Force, Vandenberg AFB, CA
Colonel James V. Sullivan, Deputy Director of Space, Office of the Deputy Chief of Staff for Plans and Operations, Headquarters, U.S. Air Force, Washington, DC
Colonel William H. Crabtree, Deputy for Space Communications and Assistant Deputy Commander for Space Systems Space Division, Los Angeles Air Force Station, CA
Captain Donald G. Diaz, Executive Assistant for Navy Space Systems, Office of the Chief of Naval Operations, Washington, DC

PAPER SESSIONS I (1:00 p.m. to 4:00 p.m.)
A. INTERNATIONAL AEROSPACE PROGRAMS
Beach Theater

Session Chairperson: Dr. Udo Pollvogt, President, ERNO USA, Inc., Washington, DC
Session Organizer: Mr. Thomas M. Hammond, NASA, Kennedy Space Center, FL

1. **Spacelab – The First Mission and Beyond**
   Mr. Edward James, Technical Control Manager, Spacelab Division, NASA Headquarters, Washington, DC
   and
   Mr. John Garnett, Aeronautical Engineering Co-op, Spacelab Division, Office of Space Flight, NASA Headquarters, Washington, DC

   Presenter: Mr. James C. Harrington, Director, Spacelab, NASA Headquarters, Washington, DC

   Dr. Dietrich Davids, MBB/ERNO Ottobrunn, Munich, Germany

3. **International Microgravity Missions**
   Mr. Michael J. Sander, Director, Spacelab Flight Division, NASA Headquarters, Washington, DC
   and
   Dr. William Wells, Sr. Scientist, Space Science Depart., Science Applications, Inc., Washington, DC

4. **Aspects of International Cooperation in a U.S. Space Station**
   Mr. Robert V. Lottmann, Member, Space Station Task Force, NASA Headquarters, Washington, DC

5. **Scientific Cooperation in the Space Station Era**
   Dr. Charles J. Pellerin, Director, Astrophysics Division, NASA Headquarters, Washington, DC

6. **Space Station Related Investigations in Europe**
   Mr. Wolfgang Wiens, MBB/ERNO, Bremen, Germany
B. MACHINES TO AUGMENT MAN
Holiday Inn, Manatee Rooms A&B

Session Chairperson: Dr. David Flinchbaugh, Senior Staff Specialist, McDonnell Douglas Astronautics Co., Titusville, FL
Session Organizer: Mr. Tom C. Davis, Jr., NASA, Kennedy Space Center, FL.

1. Advanced Teleoperation in Nuclear Applications
   Dr. William R. Hamel, Oak Ridge National Labs, Oak Ridge, TN

2. Advanced Control Techniques for Teleoperation in Space
   Dr. Antal Bejczy, Automated Systems Section, Jet Propulsion Labs, Pasadena, CA

3. Robotics and Research Development for Applications
   Mr. Russell L. Werneth, Naval Weapons Center, White Oak/Silver Springs, MD

4. Eye Directed View
   Mr. Plesent W. Goode, Automation Technology Branch, NASA, Langley Research Center, Hampton, VA

5. LOX Expert System
   Dr. Carl I. Delaune, Software Applications Branch, NASA, Kennedy Space Center, FL
   and
   Dr. Ethan A. Scarl, Knowledge Based Systems, MITRE Corp., Bedford, MA

6. The Shuttle Remote Manipulator System (RMS) and Its Evolution
   Mr. Brian R. Fuller, SPAR Aerospace Ltd., Ontario, Canada

C. SPACE COMMUNICATIONS
Holiday Inn, Manatee Rooms C&D

Session Chairperson: Mr. Leon F. Blachowicz, Vice President-Engineering, Government Satellite Communications Division, Harris Corp., Melbourne, FL
Session Organizer: Mr. Raymond J. Cerrato, NASA, Kennedy Space Center, FL.

1. Space Communications Overview – 1945 to 1995
   Mr. Leon F. Blachowicz, Vice President-Engineering, Government Satellite Communications Division, Harris Corporation, Melbourne, FL

2. ACTS Flight System: Cost Effective Advanced Communication Technology
   Mr. W. M. Holmes, Jr., TRW Electronics & Defense, Electronics Systems Group, Redondo, Beach, CA
   and
   Mr. George A. Beck, RCA Government Systems Div., ASTRO-Electronics, Princeton, NJ

3. Satellite Communications Network Control in the Presence of Electronic Countermeasures
   Mr. Marc I. Spellman, Sr. Associate Principal Engineer, Government Satellite Communications Division, Harris Corporation, Melbourne, FL

4. Space Station Communications
   Dr. Joel G. Smith, Manager, TDA Technology Development, Jet Propulsion Labs, Pasadena, CA

5. Tracking Accelerating Spacecraft Signals with the Wide Dynamic Range Demodulator
   Mr. Frank R. Leslie, Associate Principal Engineer, Government Data Communications Div., Harris Corporation, Melbourne, FL

6. Rescue in Space – TDRS Flight 1
   Mr. Emery I. Reeves, Vice President/Manager, Spacecraft Engineering Div., TRW Electronics & Defense, Redondo Beach, CA

SPACE CONGRESS BANQUET
Officer’s Club, Patrick Air Force Base

Cocktails: 7:00 p.m. to 8:00 p.m.
Banquet: 8:00 p.m.

Introduction: Mr. Russ Barnes
Speaker: Mr. Philip E. Culbertson, Associate Deputy Administrator, NASA, Washington, DC

Philip E. Culbertson is the Associate Deputy Administrator, National Aeronautics and Space Administration. He was appointed to this position in November 1981. He serves as senior staff advisor to the Administrator and the Deputy Administrator and directs NASA’s efforts to formulate policy, strategy, and planning of a facility providing the permanent presence of the United States in space.

From 1979 to November 1981, he served as Assistant for the Space Transportation System. He provided the Administrator and Deputy Administrator continuous assessment of the STS Development, Acquisition and Operations status; forecasted potential problems affecting resources, performance or schedule; prepared analyses and other papers relating to the STS for use by the Administrator and Deputy Administrator in communication with the Executive Office, Congress and other offices within the government and industry; and otherwise advised the Administrator and Deputy Administrator on STS matters requiring policy decisions.

Prior to this assignment, he was Deputy Associate Administrator for Space Transportation Systems (Technical). Earlier assignments within NASA include the positions of Assistant Administrator for Planning and Program Integration, Director of Advanced Manned Missions, and Manager of the Institutional Assessment conducted in 1977. He also served as the NASA representative in the 1979 A-Sat treaty negotiations and in 1976 and 1977 was detailed to the Executive Office for a five-month period as Executive Director of the President’s Committee on Science and Technology.

Mr. Culbertson came to NASA in September 1965 from General Dynamics/Convair, where he spent eleven years in key technical management and engineering positions associated with aerospace activities.

Mr. Culbertson was born at Colfax, Washington. He attended State College of Washington, Pullman, Washington; Millsaps College, Jackson, Michigan; and received a B.S. degree in aeronautical engineering from Georgia Tech. He served as a commissioned officer in the U.S. Navy following which he spent four years at the University of Michigan as a research associate and received a Master of Science degree in aeronautical engineering.

He and his wife, Shirley, reside in McLean, Virginia. They have a daughter, Camden, and a son, Philip, Jr.
WEDNESDAY, APRIL 25, 1984

PANEL SESSION II (8:30 a.m. to 11:30 a.m.)
Beach Theater

EFFICIENCY & ECONOMY IN SPACE OPERATIONS

Session Chairperson: Mr. Fred W. Hase, President, Grumman Technical Services, Inc., Kennedy Space Center, FL
Session Organizer: Mr. Preston Beck, NASA, Retired

MEMBERS:

Mr. Richard G. Smith, Director, John F. Kennedy Space Center, NASA, Kennedy Space Center, FL
Mr. Gerald D. Griffin, Director, Lyndon B. Johnson Space Center, NASA, Johnson Space Center, TX
Mr. Albert R. Schuster, President, Lockheed Space Operations Company, Kennedy Space Center, FL
Mr. Gene P. Brinkwell, Manager, External Tank Project Office, NASA, Marshall Space Flight Center, AL
Mr. Creighton Terhune, Chief of Cargo Integration Office, NASA, Kennedy Space Center, FL
Mr. Klaus P. Herle, Chairman, SPARX Corporation, New York, NY
Dr. Lawrence R. Greenwood, Director of Mission Planning and Program Development, Fairchild Space Co., Germantown, MD
Mr. Ray Valiska, Vice President - Maintenance and Engineering, Pan American World Airways, Inc., JFK Int’l Airport, NY

PAPER SESSIONS II (1:00 p.m. to 4:00 p.m.)

A. FLIGHT AND GROUND OPERATIONS
Beach Theater

Session Chairperson: Mr. Thomas E. Utman, Director of Shuttle Management & Operations, NASA, Kennedy Space Center, FL
Session Organizer: Mr. William F. Huebner, NASA, Kennedy Space Center, FL

1. Delta Legs in Launch - Class Redirection
   Mr. Philip W. Payne, Director, Launch Sites, McDonnell Douglas Astronautics Co., Kennedy Space Center, FL

2. Airline Enhancements for Shuttle Ground Turnaround
   Mr. T. S. Groene, Director, Process Planning & Control, Pan Am World Services, Inc., Kennedy Space Center, FL

3. The Evolution, as Anticipated by LDGC, of Ground Operations from Current Turnaround Flow to the Baseline (28 Days) Flow
   Mr. John Denzen, Deputy Program Manager, Lockheed Space Operations Company, Kennedy Space Center, FL

   Mr. John D. Holt, Chief, Payload and Operations Support Branch, NASA, Johnson Space Center, Houston, TX

5. Shuttle Operations & Planning Complex, Its Role in the Consolidated Space Operations Complex
   Major Harold S. Hardwick, Chief, Flight Control Division, Flight Support & Training Directorate, Manned Space Flight Support Group, Johnson Space Center, Houston, TX

6. Advanced Space Transportation System Operations Study
   Mr. Clement D. DiLoreto, Manager, Advanced Programs, Martin Marietta Aerospace, Kennedy Space Center, FL

7. Payload On-Orbit Refueling using the STS
   Mr. Don A. Mangard, Senior Staff Engineer, TRW Space & Technology Group, Redondo Beach, CA

B. SPACE STATION TECHNOLOGY
Holiday Inn, Manatee Rooms A&B

Session Chairperson: Mr. James L. Hiest, Manager, Scientific Satellite Systems, TRW, Redondo Beach, CA
Session Organizer: Mrs. Fran Harding, Manager, Customer and Public Relations, TRW Space & Technology Group, Redondo Beach, CA

1. A Miniaturized Cassegrainian Concentrator Solar Array for High Power Space Applications
   Mr. Robert E. Patterson, TRW Space & Technology Group, Redondo Beach, CA

2. Space Station Active Thermal Control Technical Considerations
   Mr. William E. Ellis, Chief, Systems Engineering Branch, Johnson Space Center, Houston, TX

   Dr. L. Bernard Garrett, NASA, Langley Research Center, Hampton, VA

4. Power Generation and Energy Storage Consideration for Space Station
   Mr. Gerald J. Buzza, Manager, Space Station Office, NASA, Lewis Research Center, Cleveland, OH

5. Focusing Life Support Technology for Space Station
   Mr. Sherrif Schriner, Product Marketing Manager, Hamilton Standard, Windsor Locks, CT

6. The Space Station Data System and the Urror
   Mr. Larry B. Kauka, Branch Chief - System Requirements, McDonnell Douglas Astronautics Co., Huntington Beach, CA

7. SPACE STATION TECHNOLOGY
Holiday Inn, Manatee Rooms C&D

Session Chairperson: Dr. Michael W. Vannier, Assistant Professor of Radiology, The Edward Mallinckrodt Institute of Radiology, St. Louis, MO
Session Organizer: Mr. Robert L. Butterfield, NASA, Kennedy Space Center, FL

8. INNOVATIVE TECHNOLOGY APPLICATIONS
Holiday Inn, Manatee Rooms C&D

Session Chairperson: Dr. Michael W. Vannier, Assistant Professor of Radiology, The Edward Mallinckrodt Institute of Radiology, St. Louis, MO
Session Organizer: Mr. Robert L. Butterfield, NASA, Kennedy Space Center, FL
1. NASA Image Processing Technology Applied to Medicine: Ten Unresolved Problems in Medical Imaging
Dr. Michael W. Vannier, Assistant Professor of Radiology, The Edward Mallinckrodt Institute of Radiology, St. Louis, MO and Ronald G. Evens, M.D., Professor and Director, The Edward Mallinckrodt Institute of Radiology, St. Louis, MO

2. Magnetic Refrigeration: The Promise and the Problems
Dr. John A. Barclay, Project Leader,± Los Alamos National Laboratory, Los Alamos, NM

3. Graphical Programming of Robots
Dr. Donald Gayou, Specialist, CAD/CAM, McDonnell Douglas Automation Co., St. Louis, MO

4. Meteorological Interactive Data Display System (MIDDS)
Lt. Col. John W. Oliver, Staff Meteorologist, Patrick Air Force Base, FL and Maj. John E. Erickson, Staff Meteorologist Office, Patrick Air Force Base, FL

EXHIBIT CENTER COCKTAIL RECEPTION (4:30 to 6:00 p.m.)
Crossway Inn Convention Center
The reception is open to general public (cash bar)

PANEL SESSION III (8:00 p.m. to 9:30 p.m.)
Beach Theater
MEET THE ASTRONAUTS
Session Chairperson: Mr. Richard G. Smith, Center Director, NASA, Kennedy Space Center, FL

A panel open to the general public with several astronauts and payload specialists discussing present and future activities for men and women in space.

THURSDAY, APRIL 26, 1984
PANEL SESSION IV (8:30 a.m. to 11:30 a.m.)
Beach Theater
SPACE STATION & OTHER NEW PROGRAMS
Session Chairperson: Mr. Philip E. Culbertson, Associate Deputy Administrator, NASA Headquarters, Washington, DC
Session Organizer: Mr. Edward D. Bretzius, Mgr. Test Engineering, Lockheed Space Operations Co., Kennedy Space Center, FL

MEMBERS:
Mr. Philip E. Culbertson, Associate Deputy Administrator, NASA Headquarters, Washington, D.C.
Mr. Richard F. Carlisle, Manager, Space Station Systems Office, Space Systems Div., OAST, NASA Headquarters, Washington, DC
Mr. David Wensley, Chief Program Engineer, Space Station McDonnell Douglas Astronautics Corp., Huntington Beach, CA
Mr. Richard L. Kline, Director, Shuttle Application/Space Station Program, Grumman Aerospace Corp., Bethpage, NY
Mr. Ivan Bekey, Director, Advanced Programs Office, Office of Space Flight, NASA Headquarters, Washington, DC

LUNCHEON (11:45 a.m.)
Holiday Inn, Manatee Room

Introduction: Mr. Russ Barnes
Speaker: Mr. Gerald D. Griffin, Director, Lyndon B. Johnson Space Center, NASA, Houston, TX

Mr. Griffin assumed the post of Director of the NASA Lyndon B. Johnson Space Center in Houston, Texas on August 8, 1982.

Mr. Griffin was born in Athens, Texas. He received a bachelor's degree in aeronautical engineering from Texas A&M University in 1956 and served 4 years as an officer in the U.S. Air Force. Following military service Mr. Griffin was employed as an aerospace engineer with Douglas Aircraft Company, the Lockheed Missile and Space Company, and General Dynamics. He joined NASA in 1964 and served continuously until 1981 when he left NASA to become Vice President for Systems Engineering and Management, Scott Sciences and Technology, Inc., Lancaster, California. He rejoined NASA in 1982.

Mr. Griffin has served NASA in a variety of important and challenging positions. From 1977 to 1981, he was the Deputy Director of the Kennedy Space Center, Florida. From July 1980 to June 1981 he concurrently served as Associate Administrator for External Relations at NASA Headquarters in Washington. Mr. Griffin was Deputy Director of the Dryden Flight Research Center, Edwards, California, from 1976 to 1977. At NASA Headquarters he was Deputy Associate Administrator for Manned Spaceflight (Operations) from 1975 to 1976, and from 1973 to 1975 served as Assistant Administrator for Legislative Affairs.

Prior to his first Headquarters assignment, he was a Flight Director in Mission Control on all 11 Apollo missions. He was lead Flight Director on Apollos 12, 15 and 17. He was also involved in all of the Gemini flights as a flight controller. He joined the NASA Johnson Space Center (then the Manned Spacecraft Center) in 1964. During his career he has received many honors and awards.

Mr. Griffin is married to the former Sandra "Sandy" Jo Huber. He and his wife have a son and a daughter.
A. FUTURE SPACE: TRANSPORTATION AND MISSIONS
   Beach Theater

   Session Chairperson: Mr. Paul F. Holloway, Director for Space, NASA, Langley Research Center, Hampton, VA
   Session Organizer: Mr. Thomas A. Feaster, NASA, Kennedy Space Center, FL

1. Shuttle Derived & Heavy Lift Launch Vehicles
   Mr. William R. Marshall, Director, Program Development, Marshall Space Flight Center, AL

2. Future Space Transportation: The Next Step Beyond STS
   Mr. J. Robert Tewell, Manager, Vehicle Systems, Martin Marietta Aerospace, Michoud Division, New Orleans, LA
   and
   Mr. Samuel P. Bronson, Sr. Engineer, Mission Analysis, Martin Marietta Aerospace, Michoud Division, New Orleans, LA

3. Orbital Maneuvering Vehicle (OMV) Missions Applications and Systems Requirements
   Mr. David C. Cramblit, Deputy Manager, OMV Task Team, NASA, Marshall Space Flight Center, AL
   and
   Mr. William G. Huber, Manager, OMV Task Team, NASA, Marshall Space Flight Center, AL

4. Transportation Systems in the Space Station Era
   Mr. P. H. Bialla, General Dynamics/Convair Div., San Diego, CA

5. An Evolutionary GEO Transportation System
   Mr. Gideon Markus, Senior System Development Engineer, McDonnell Douglas Astronautics Co., Huntington Beach, CA

   Mr. Edward A. Gabris, Transportation Systems, NASA Headquarters, Washington, DC
   and
   Mr. Delma C. Freeman, Jr., Analysis Engineer Team Leader, Space Systems Division, Langley Research Center, Hampton, VA

7. Orbital Transfer Vehicle
   Mr. Robert E. Austin, Advanced Systems Office, NASA, Marshall Space Flight Center, AL

B. STS FLIGHT EXPERIMENTS
   Holiday Inn, Manatee Rooms, A&B

   Session Chairperson: Mr. Michael J. Sander, Director, Spacelab Flight Division, NASA Headquarters, Washington, DC
   Session Organizer: Mr. James A. Aliberti, NASA, Kennedy Space Center, FL

1. NUSAT – The First Getaway Special Free-Flying Satellite
   Mr. R. Gilbert Moore, Special Programs Manager, Morton Thiokol, Brigham City, UT

2. STS 41-D Solar Array Flight Experiment
   Mr. Gary F. Turner, Manager, Solar Array Programs, Lockheed Missiles & Space Co., Inc., Sunnyvale, CA
   and
   Mr. Henry C. Hill, Manager, Solar Array Flight Experiment, NASA, Marshall Space Flight Center, AL

3. STS Flight Experiments Database
   Mr. Lott W. Brantley, Jr., Preliminary Design, Electrical Systems Branch Chief, NASA, Marshall Space Flight Center, AL

4. Capture of Uncontrolled Satellites – A Flight Demonstration
   Mr. Herbert M. Lenox, Aerospace Engineer, NASA, Marshall Space Flight Center, AL

C. COMMERCIALIZATION OF SPACE
   Holiday Inn, Manatee Rooms C&D

   Session Chairperson: Mr. David J. Stoddard, President, American Society of Aerospace Pilots, Schaumburg, IL
   Session Organizer: Mr. Sam Beddingfield, NASA, Kennedy Space Center, FL

1. Commercial Use of Space
   Mr. Llewellyn J. Evans, Jr., Director, Commercialization Task Force, NASA Headquarters, Washington, DC

2. Opportunity for Commercial Participation in Materials Processing
   Mr. Kenneth R. Taylor, Preliminary Design, Marshall Space Flight Center, AL

3. Electrophoresis in Space
   Mr. James T. Rose, McDonnell Douglas Corp., St. Louis, MO

4. American Society of Aerospace Pilots Space Commercial Initiatives
   Mr. David Koch, National Chairman, American Society of Aerospace Pilots, Schaumburg, IL

5. Space Development: The Strategic Implications
   Capt. James H. Sloan, Satellite Support Systems Engineering, Los Angeles Air Force Station, Sunnyvale, CA
