EMBRY-RIDDLE
FLY PAPER

"STICK TO IT"

Vol. 1
November 15, 1940, Miami, Florida

Our annual fall party, just like Topsy, has grown and grown until it has
developed into something super-special—nothing you just can’t afford to miss —in fact, you
just gotta be there or blame yourself for missing the best time of your life.

It all happened like this: Boss Riddle, Joan Ogden, Bud Holloway, Mark Trammell, Bob
Johnson and George Wheeler—and Bob Quinn put their heads together and talked and
talked, and pretty soon, look what happened!—

Our party will be held this Sunday, November 17th, at 6:30 P. M. at MacPadden’s
Dauphine!

FIRST On the informal program will be swimming in the famous Dauphine salt water
pool from 6:30 to 9:00. Bring your own suit; towels will be furnished.

SECOND will be dinner at 8:00 served on the Clipper Deck at the Dauphine.

THIRD at 9:00, world famous water carnival in the Dauphine pool, the exact same
thing as featured in Miami every winter, complete with comedy acts, high
divers and all the trimmings. (Note: Primary flight student, Jack Ott, will
be one of the divers.)

FOURTH Following the water carnival, there will be moonlight swimming in the pool
and dancing on the Clipper Deck until the wee small hours of the
morning.

The cost? Sound like fun? —It will be!

Tickets . . . . Available at the Seaplane Base, Embry-Riddle Operations
Office or Main Office, Municipal Airport, Technical Division
Office, Fritz Building.

But . . . . . . . . . . . Please buy your tickets and make your reservations in
advance.

Procedure . . . . . Sunday evening at 6:30 enter the front door of the Dauphine, sign the guest register on the Clipper Deck and
begin having fun. —And remember all Embry-Riddle employ-
ees, students, and friends of the company are invited!

It’s informal! —We’ll see you there, rain or shine!

And speaking of parties, the one Jack Wantz threw for the Embry-Riddle pilots at his
home last Sunday night was one of the best. Plenty of food and stuff, good company
and a wonderful time for all. In addition to a “juke” organ for dancing, the enter-
tainment program included a genuine glass eater. We understand Jack borrowed him from
the advance agent of Ringling Brothers Barnum and Bailey circuses. A million thanks
from us to you, Jack, signed by your guests.

Mrs. Max Margie Bane, wife of Jack Bane, formerly instructor at the sea-plane base
until he went over to pilot Eastern Air Lines, passed her written exam for private
Pilot’s license this week. Age, ditto and the same for Buddy Cohen.

WARNED! Notice to airmen — and all de-icers between Miami and Look Haven: Howard
Wade left Monday night for Look Haven where he will take delivery on a new Cub for
the Embry-Riddle Co.

Mark Trammell has returned from visiting his family. He asks us to explain that he
went to Atlanta, NOT Georgia.

Max Husted passed his rating test as an instructor, and immediately joined our fam-
ily as instructor at the sea-plane base. Just call him “sailor”. Smiling Bobby Ahern
also passed his instructor’s test and left for Sarasota with the promise to write to
us as soon as he gets settled.

Secondary student George Litchfield had an attack of appendicitis this week but
“Doctor” Holloway diagnosed it as purely mental, plus something like ice cream and
shrimp salad. Anyhow, George is okay and flying again.
The other evening, at the close of a hard day, some cynic thought up this little jingle, "Some boys just play and fiddle, but we work all day for Embry-Riddle". Which is as good a place as any to introduce the new members of our family:

Roscoe Brinton, the Brinton part of the famous Brinton & Bayles Flying Circus. Roscoe is from Pittsfield, Mass., and has joined our family as an advanced instructor. Incidentally, his son Roscoe, Jr., was recently featured by Bob Ripley in "Believe It or Not" as the youngest student to ever solo an airplane, at the tender age of 11 years.

Also, Cheneault Elmore is working in the stock room to replace H. O. Bates, who is spending much of his time in operations.

Steve Place, in uniform, visited us Tuesday. His proper address is Recruit Supply Room, MacDill Field, Tampa.

Lee Malmsten called to tell us that the Private Pilot's Ground School classes will start at the technical school, in the Fritz Building, next Monday night, November 18, at 6, and will be held thereafter each Monday, Wednesday, and Friday evenings from 6 to 10. This is a swell chance for you to assure yourself of passing your test. There will be 72 hours of instruction, for only $35. For further information call Lee at the Fritz Building, phone 2-1359.

We can't keep up with all these solos, but somehow we remember that Tommy Coles and Donald Day soloed the Fairchild for the first time Thursday.

Among visitors this week were Eddie Boniske, Arthur Jacobson, Mrs. H. O. Bates and baby (Very cute, by the way) and Ethel Malmsten, "Doof H. H. Cheek and Walter Hudson, old friends from Orlando, hangered with us Thursday night.

Lt. Van Burgin was promoted to Assistant Director of Primary Flight Training in charge of Primary Flight Operations at the Municipal Airport.

Owen Lazey is back flying after returning from his vacation in Tennessee.

Our family also includes H. O. Bates, who is spending much of his time in operations.

We hope to see you all soon.

---

Is it or is it not true that Ad Thompson is courting a widder woman with five children? Or is that just malicious gossip??????

And finally, don't forget the party, 6:30 Sunday evening at the Deauville, Informal.

Be seeing you there!

WASH DAY AT EMBRY—RIDDLE
