REFERENDUM BATTLE HEADING FOR SHOWDOWN!!!

Monday, July 14th, is the day slated for what is becoming one of ERAI’s most controversial issues concerning the activity fee increase from six dollars to eight dollars for the proposed "Student Club" or "Future Projects Committee".

The opposition to such an increase seems to be heavy. Led by Mgt. Representative Phil Woodruff and various others, an all out attack has been made against any further increases. Representative Woodruff would like to see the SGA "operate within the generous budget they now have". He further states that "There is proof to show that quite often a very poor showing of attendance is recorded at many ERAI social events" and many more points of enumeration.

On the other hand proponents for the student Club have aired views that it "will save money in rental fees, be here on campus close by, be your own club with no need to be gouged downtown," and much more.

President Collins has aired his views and they are a matter of record. He unqualifiedly is in favor of such a project. It means stature for the ERAI social functions and an added spark for the student body plus much more.

Other proposals were brought forward. Such as why not construct an all purpose building, or do not make the activity fee for social functions mandatory but rather optional.

Still, others have agreed to split fees, one for SGA costs and expenses for representation and another separate fee for social functions.

The controversy has been hot and heavy and Monday, July 14th, will decide this important issue. VOTE!!!

SGA Briefs

President Collins reminded everyone of the SGA that the Blood Drive is today, Friday, July 11, and all are encouraged to pick up pledge cards in the SGA office and donate blood.

Jerry Berndt said that he would have a full audit of the SGA books in the next few months.

Phil Woodruff of the College Facilities Committee stated that he has checked with Mr. Gervase about the road leading to the new Academic Complex. The approximate cost of grading and filling the road will be about $600. This project should be completed within the next few weeks.

Bob Connelly, the head of the Yearbook Committee stated that the yearbooks will be distributed by the end of July. The proofs are in and everything is finalized.

The constitutional Revision Committee will come up with an interim report within the next couple of weeks.

HAPPINESS AND SUCCESS

Happiness is wanting what you get; and success is getting what you want.

Happiness is...seeing your instructor make a lousy landing while showing you "How its done"!
the president's corner

I would like to take advantage of this president's corner to dispel some rumors I have heard here on campus.

First of all, the Student Activity Fee. The last issue of the AVION had a statement in the SGA briefs that the student fee will be $8.00. This is untrue; at present the SGA activity fee for September will be $6 dollars. If any further increase is to take place the decision will be made by the students at the "Student Club" referendum.

Secondly, no one in the Student Council from the President on down is receiving any pay at all for serving on the Council. Most other schools in Florida do pay their Council officers but Embry-Riddle has not yet reached this point.

Thirdly, the Student Government is receiving no "kickback" or reimbursement of any kind from the vending machines or the hot food service. When the contract was written with Sands vending, it was agreed that any profit above a certain percentage would be returned to the students in the form of a price reduction on the food products sold.

There are probably other rumors I haven't heard yet, so if you have any questions about how anything is being run on campus, stop by the SGA office and get the facts.

Jan Collins
SGA President

NEWS & VIEWS From the Editor's Desk

Issue number 6, on it's way! First, a couple of important items. In the last AVION, June 27, 1969, under SGA briefs, it states the "Student Government fee will be $8.00." This is not so, the current fee is $6. The referendum Monday July 14th, will decide if it goes to $8.00.

On the May 30th issue of the AVION, the sub title "Collins Elected President" is also incorrect. According to our constitution, if there is a resignation the person elected to that office is the bona-fide holder of that office. Therefore, Jan Collins is "The" President and no "Pro-Tempore.

Well, the blood drive is today! Won't you give a pint of blood for this worthy cause. It will help the school's reputation plus increase your benefits to you. In addition, if you give blood, you will be entitled to a free B-B-Q ticket for tomorrow's B-B-Q. Please give and reap the benefits!!

Monday, July 14th, is the date set for the referendum on the "Student Club." I am officially on record but would further like to state that this is an excellent undertaking which will allow you the student body, through the SGA to stand on your feet independently. In addition, you will have your own place to go to. This issue, I realize is loaded with comments concerning the "Club." Read it all and decide. But vote Monday and let the SGA know how you feel!!

Mr. Byron Brown is back from a long journey over the county-side selling our school to industry and Junior Colleges. He has learned a lot and would be happy to talk to anyone about his travels. For an interesting interview, read Dan Roben's report on Mr. Brown's trip further in this issue.

I want to encourage each and every student on campus to try and attend some future SGA meetings held on Tuesdays, at 12 noon to 1 PM. In the past much has been said against this growing, progressing organization. But noone has ever come to see how meeting are run. Each week under the guidance of President Collins and many officers, the SGA is becoming more and more a professional organization. The only way you can be convinced is to come and sit in on a meeting to see your representatives at work.

Further back in the issue will be some pages of job descriptions for SGA key members. Please read them carefully so you may know and understand how your problems are solved and who solves through the SGA. This printing of duties of each officer and chairman, I believe, is a fine idea.

Frustration is...A previously licensed private pilot trying to check out in Riddle aircraft.

Happiness is...the school offering to pay for an alignment job.

Speaking Out Continued
If it O.K. for D.B. Aviation Personnel to utilize our Short-Order facility, then I say we should be able to utilize some of their private parking spaces.

Gary Anderson

SUBJECT: Increase of SGA fee of $5.00 for the Rathskeller support.

I object to the increase for the purpose intended on the grounds that the support of and the encouragement of dispensing of alcoholic beverages is not in the "best" interest of the concerned.

Joseph F. Albert

The subject that is causing the most controversy around school at the present time is the proposed new student center which has been vigorously supported by some of the members of the SGA. I see this as probably as good a goal as any for the student body to support, but I think the student center as proposed would probably be inadequate when the school enrollment reaches 5 to 6 thousand as is contemplated by the mid or late 1970's. I therefore think that any proposal to construct a building that would be inadequate for that number of students is not in the best interest of any student whether he be presently attending school or a future student. After all, very few if any of us would be here in school to see the result of the construction of the student center even if it were accelerated.

I also have another viewpoint I'd like to express in regards to the proposed hike in SGA fee. The main points put forth by the supporters of the raise in fee's is that it is costing so much to rent a place to hold dances and other social functions. I don't feel that the main purpose of having a Student Gov't Association is to provide social functions for the students to attend.

By their count they spend 78% of our funds on recreation and student aid. (student aid accounts for little of that 78%) This indicates to me that they also must spend 78% of their participation in SGA affairs in preparation of recreational functions. Is this necessary? I doubt that any of the student body is having difficulty in finding social contacts and social functions to attend in Daytona Beach. If these expenditures could be reduced, either by fewer free functions or a small donation collected from those who participate, I would think that SGA fee's could be reduced or at least stable for a long time to come. The savings that are realized from disciplined management could be put into a fund for future use or a building fund.

Respectfully submitted,
John A. Birch

One important factor in the value of your diamond is that of Clarity—absence of internal inclusions or blemishes. Professional jewelers determine this through use of specially designed gem microscopes. We will be happy to show you the diamond you select through our fascinating instrument.

or by appointment
We are listening some thing today at Embry-Riddle that is really unusu-
al. It is that the major-
ity of the school is tak-
ing an interest in one thing and that is the "Rathskeller" proposal.
I have heard views both pro and con for the idea and I must admit the con
ideas sound good but just analyse some of them. "$60,000 is too much for the SGA to spend." Apparently the price scares
some people. Stop and think about it. Just what does the expenditure of $60,000 mean to you. It
means that if you spend four years here (8 trimesters) it will cost you at
least $16.00 ($2.00 per tri-
x 8 trimesters) WOW!!!

Perhaps I'll knock on your door some day and hope to live in a
$60,000 home of which there will not be 1500 people paying for it but
one namely me.
Then the next con, "Aviation and alcohol odd not mix." Fine in theory but how many pilots do we have here? 51%? If so,
don't build it, just build a social hall. Oh there are not 51% pro-pilots? Then that means the major-
ity of ERAI could use it. Besides how many pilots set in Mar's soaking up
suds or at MF's till the wee hours of the morning.
A club on campus is not going to turn people to drink that never touch the
stuff but it will provide a place for those who want it.
If you don't believe in drinking or drugging or entertainment, VOTE NO.
If you would like to have a place for socializing VOTE YES.

Another argument is "It will only affect the students over 21". Malar-
key!! Look at Shakey's Pizza Parlor. How many people are not 21 and
still go there?
We want a social Club!! Not a BAR! A place to hold social events, a
meeting place for organi-
izations, a place close by
that will have entertain-
ment of a high quality at
what we can afford, a
place to play pool, ping-
pong, shuffle board, checkers, chess cards, hold bull sessions, have a
sofa, coffee or a beer, or whichever you desire is. Not just a BAR, but a So-
CIAL CENTER.
I wouldn't attend the place regularly, but maybe one or two weekends a
month the SGA would have a
group on the level of the Limelighters or the old
Kingston Trio. I sure
would be able to afford to go with my wife when I
know that it isn't going to cost me $1.85 a drink and 50¢ a soda for my wife
plus a door charge or cov-
er charge just to get in.
One more argument is
that if Mamma & Dada talk
a club would TAINT little
Johnny, they had better
keep him home in the clos-
et because Johnny is go-
ing to be TAINTED at some
time in his life or at
least tempted by the pre-
sence of such things as
bars, houses of ill repute
etc. If Johnny can not
say no, when he is a col-
lege man, what the heck is
he going to do when he
graduates? Acquire the
ability to make everyday decisions the moment he
receives his diploma?
Hogwash! If Johnny can not
say no by the time he en-
ters college he will
either learn it or fall by
the way-side when he steps out from Mamma's apron
strings for the first
time.
I would like to see more
facts on the club before I
vote. Financial facts.
Not, $60,000 but the ini-
tial cost, the length of
the mortgage, monthly pay-
ments towards the 1) Mort-
gage (2) Operating Costs
broken down to A) Utili-
ties B) Insurance and C)
Employment (3) Estimated
prices (4) estimated in-
come from SGA, sales, etc.
(5) Cost of licenses and
we can get them for A) en-
tertainment B) Beer & wine
C) Dancing D) Pool tables,
E) juke box F) Shuffl
Speaking Out CONTINUED

Speaking Out
Lee A. Henry
A & P Representative

On Friday, June 27th, many students were alarmed by the notice in the AVION stating that the SGA fee would be increased to $3 a trimester, or $24 a year for a year-round student. However, Jan Collins, at the July 1st student council meeting, assured the council that this was projected income looked by the editor of the AVION. It is curious, none the less, to note that this incident happened only a short while after a very similar mistake in which the SGA council approved the increase. This mistake occurred 2 weeks before it was to be acted upon in any way by the students council. Mr. Collins has assured us that these were unavoidable mistakes, they serve as a clear indication of the enthusiasm (or perhaps over-enthusiasm) with which certain council members are acting on the subject of the Rathskeller or student club.

It seems that the chief argument in support of the construction of the student club is that it will provide a place for student activities which would be free from the "spiraling costs which have hurt our social functions."

This all sounds wonderful, but the Future Projects Committee has yet to present to the Council and the student body any substantial facts or figures to prove that the club would be self-supporting. Moreover, the Committee has not yet explained how this "spiraling inflation" which now threatens our budget. These facts and figures are very essential for study before considering such a drastic undertaking. It is therefore my opinion that the student body should not allow the Council to increase student fees to support this project. Vote "NO" on the referendum vote to be held on July 14th.

At present, the Council admits to spending about 78% of its total budget for social activities and direct benefits. Several times I have asked appropriate members of the council to justify this by showing me that 78% of the students attend these social functions. Their answer has always been the same - "The dances and barbeques are available to all students, and it is the students responsibility to attend them. This type of thinking, if projected on a large scale, would be just as ridiculous as the U.S. Government spending 78% of all taxes collected for tennis balls and saying it is the responsibility of the people of America to enjoy tennis.

At other major colleges around the country, most of the social functions such as dances and barbeques - are sponsored by the fraternities and other clubs supported by the SGA. This sort of program could be established at Emery-Riddle. Article VI Section 3B of the SGA Constitution states "The student council shall have the power to aid in the supervision and correlation of all extra-curricular activities..." Possibly the SGA could accomplish this by forming an inter-organization council made up of representatives from each club and the appropriate officers of the Council.

This plan has proved itself on other campuses both large and small, and it can work here at Emery-Riddle. Three obvious, nearly fatal to the SGA, however, it seems to me that if our officers were to exert 1/2 as much energy on establishing such a program as they have on the student club idea surely something could be worked out. Advantages to this sort of program are:

1. Clubs would operate the activities at a profit to boost their treasury.
2. Only those students interested in attending would pay for the cost of the activities.
3. It would free the Student Council so it could devote its full energy to its rightful function as the collective bargaining agent for the student body.

I feel it is time to reorganize the social program that would place the burden of paying for social activities upon those who participate in them. The officers of the SGA have said that the problems involved in operating in this manner would be
EDITORIALS

THE SGA FOR THE EGG

BY DAVID RABEN

The Embry-Riddle SGA sees fit at this time to launch a future a future activities project that will effect every student, even those that are enrolled but will not be back until September, to the tune of more cost to the student. The project as it is presently proposed invokes an expenditure of $65,000. That figure is conservative at best. Many builders will readily admit that estimates for one reason or another usually wind up too low. Consequently, extra money must be appropriated in order to complete the project. With less than half of Embry-Riddle's normal enrollment present, the SGA wants to up the SGA activities fee to $2.00 per student. Another possible assessment on top of the additional $1.00 increase and add firmness to the already pending idea. The SGA would like to (and they just might) complete the requirements for the increase and the future assessment BEFORE ANY STUDENTS RETURN TO THE CAMPUS IN THE FALL. Why is the SGA so intent on doing these things while 820 of 1400 students are NOT HERE TO VOICE ANY OPINION OR IDEAS, Constructive or otherwise????? The SGA must continue to function even though we are in a summer trimester, but do we need much advance planning? Even though the majority of affected students are not here and do not know what is going on? The students that are away for the summer helped elect the SGA officers as much as anyone on the campus. Those students did not have to give their elected officers a blanket invitation to initiate LARGE SCALE plans without the benefit of the majoritv of the students being in the know. The vacationed students did not intend to be taxed while their backs were turned. They did not expect to be taxed without benefit of being heard first. Shame on teh SGA and shame on the faculty for allowing a gross misuse of trust and authority. I say its is a gross misuse because the SGA and the faculty are acting within their but in the absence of 800 (more than half our normal enrollment) affected students. These are for the most part students that have already made an investment of time and money in Embry-Riddle. The SGA is not in a do or die situation as far as expenditures are concerned. The latter was and is not so pressing that waiting for the fall students to return will effect every student, we are in a trimester, but do the Student Council students return to the SGA for being genuinely interested in the students welfare, however, I question their hurried action in calling for more money at a time when 800 paying students are ignorant to what is being planned. I now call on the SGA officers to give recognition to the many other people that thought enough of you to vote you into office. It behooves you, the SGA officers, to withhold any raises and/or proposals of large magnitude until the other 800 affected students return to the campus. We are not in such a bind that we must have the additional money when the classes resume in September. Do not impose an advalorem tax on us. No one ( and I have talked to many) is on your back to give us social functions. Represent ALL of your constituents, not just 800 that are here at the present. Save your surprises for the proper occasion, not for some 800 or more returning students. Incubate the one dollar raise, the possible two dollar assessment and the $65,000 plans, for a time when 1400 students will have the opportunity to hatch or break the egg. Do not hatch a golden egg that has been, conceived and nourished in the absence of THOSE PEOPLE THAT MUST PAY FOR THE EGG.

Social Club

BY PHIL WOODRUFF

Your SGA fee is about to be increased to $8.00 per trimester--$24.00 per year. This is 60% increase which is to be used for two purposes. First, $1.00 of this increase is to be used for a general cost of living increase. This, the Student Council majority says, is essential if the Student Council feels they must provide such plans, at approximately $800.00 each. £ Bar-B-Q's, parties, etc., every trimester. It would seem more probable for them to try to operate within the generous budget they now have, rather than to say what they want to spend and then levy the appropriate fee to the students who should have a voice on these issues, but often do not.

Secondly, $2.00 of this increase is your mandatory contribution to the ERAI Rathskeller, or Student Club. Yes, you are about to become a member of the ERAI Student Club. This is a project of over $60,000 in scope and you are expected to pay for it. However, you may be able to prevent this tragedy from taking place by voicing your opinion and voting "NO" on the referendum vote to be held July 14th.

You are the one who will be affected by the construction of the Rathskeller, should it be built. ERAI is your school and the image of the school is the image you portray when you identify yourself with the school. It is also your money that will build this club. You have been paying since you came here, for parties and social gatherings of minority groups on this Campus. There is proof to show CONTINUED NEXT PAGE
CONTINUED

that quite often a very poor showing of attendance is recorded at many of the ERAI social events. These social events are excellent for those who desire to entertain themselves in this way, but those who participate should be willing to pay the costs incurred rather than charging it with the rest of the student body. Vote "NO" on the referendum to be held July 14th. There is very little justification for a Rathskeller here at ERAI at this time, because it would have lent itself to Dance Halls. However, we must realize that part of these savings would be spent on a Rathskeller and expenses of the Clubhouse building and equipment, and after interest on mortgages are paid there may be no savings realized at all. In addition, there are many reasons for the project being unjustified. It is a costly project and with the high interest rates of today the cost could easily top the $100,000 mark. In the future, there will be College facilities available for dances. This is not immediate, but it may not be too far off. A three story dining hall is now being planned for construction next year. Could we not use part of the building for a Hall to hold dances in? If the students how build a place for recreation we may well be encouraging delays in the construction of other needed student facilities. This project is not popular enough with the student body of the school to make it successful. To this date no official survey has been taken of the student body to see if they want this Club and are willing to pay for it. Plans for making a club of the Reserve Base have been successful as built around the profit expected from the sale of alcoholic beverages. This club has not yet been approved for Future license by the state of Florida or the Board of Directors of the College. How is it expected to pay for itself if such operations were to be pro-

DAYTONA'S LEADING PHOTO SHOPS

BY JAN COLLINS

At 10 o'clock on July 4th the annual Firecracker 400 was started at the Big "O". The race lasted two hours and twenty-nine minutes with an average speed of 160.8 for the winner Lee Roy Yarbrough.

The race was highlighted by engine problems and collisions that eliminated four of the favored drivers. Cale Yarbrough dropped out in the beginning of the race with engine problems. Paul Goldsmith hit the wall in the 1st lap and was out for the rest of the race. Two other favorites, Bobby Isaac and Charlie Glotzbach, fell by the wayside with blown engines.

Lee Roy's Ford Talladega number 98 ran well all during the race and in the last lap proved to be too much for Buddy Baker's Dodge charger. Following Buddy Baker in second place were Donnie Allison in third and David Pearson in fourth place.

Happiness is... A class ring.

---

YOU KNOW YOU'VE FAILED THE COURSE WHEN:
1. Your tests keep coming back looking like it was a used surgical sponge.
2. The instructor keeps asking what you're doing next trimester.
3. The desk you normally sit in has been removed.
4. Your classmates keep asking if you would like to cheat off their paper.
5. Your midterm grades look like the computer had a bad day.
6. Your regular classroom has been changed and no one told you.

SGA Aid Program

The Student Government Association has implemented this program to assist fellow students by lessening their financial burdens. The Student Aid Committee will distribute funds to individuals in accordance with set policies of this program. The gift will be used to purchase books in his course of studies for one trimester.

The money for this program will not come out of SGA funds, but will be raised by contributions from citizens in the community.

The responsibility of raising funds will be vested in the Student Aid Committee. This committee may use its perogative as they see fit to raise funds as long as it is within the scope of reason and does not endanger the reputation and image of school and Student Government Association in any way.

The aid will be limited to the amount of money available in the fund. The fund will be distributed equally to all departments. The recipients will be selected from said departments.

This aid is open to all students who have completed at least one trimester in Embry-Riddle. The applicants must have at least a two point overall index to be eligible. Any individual interested in obtaining aid must submit an application at said time. This application will consist of a statement as to why the individual should be the recipient of financial aid.

It will also contain financial questions on earnings, monthly expenditures, outstanding debts incurred in pursuit of advancing his education, marital status, dependents, relatives or friends.

All applicants will fill out statements and attest that all statements are true and must be notarized.

Applications will be distributed on said period of each trimester and must be completed and submitted before a specified date. Applicants failing to submit their notarized statements before a certain designated date, will automatically become void and ineligible for financial aid.

The Executive Board of the SGA will select a faculty member from each department, who will review applications on the basis of financial need, academic record and participation in school functions. All information submitted will be of a confidential nature and will be handled in strict confidence.

The selections made by the faculty member from each department will be final and the student will be notified before leaving school at break that an account in the book store or in the VA used book store is available in his name for him to purchase books or supplies needed in his course of studies.

The recipients of financial aid must spend 80% of the money available to him in the book store and may receive the remainder in cash.

If the entire amount granted to the student is not spent, the surplus will be returned to the Financial Aid Fund.

Any violation of agreement between recipient of aid and policies set down by the Financial Aid Committee will immediately disqualify the recipient and the money will be returned to the Fund.

This program is in its initial stages. The ultimate goal is to grant full scholarships to fellow students.
ERAI to Get New Dean of Faculties

On September first of this year Mr. George Borsari will assume the position of Dean of Faculties, replacing Mr. Edward Yackel, who is stepping down from his present post to devote his full time to teaching in the math and science departments.

Mr. Borsari is currently a high-ranking official in the Federal Aviation Administration, and was chosen from twenty-five qualified persons applying for the job.

Mr. Borsari was born in 1910 in Middleboro, Massachusetts and attended elementary school and his first two years of high school there. He graduated from Bucksport Preparatory School in 1930. He attended American University from 1930 through 1934, at which time he received his Bachelor of Arts degree. Mr. Borsari continued his education doing graduate work at George Washington University from 1934 to 1938. In 1938 he entered George Washington University’s National Law University and received his Doctor of Jurisprudence degree in 1940.

Upon graduation he entered government service in the then Civil Aeronautics Authority and has worked in the CAA and new FAA for Airports and Administrator of the Federal Aid to Airports program for several years and has also been involved in the administration of Aviation Education programs sponsored by the FAA.

Mr. Borsari is an active pilot and holds a commercial pilot’s license, airplane single and multi-engine land, instrument rated, and jet qualified and flies himself around the country while attending to his duties as an administrator. Mr. Borsari’s hobbies include fishing, flying, and golf where he is a two handicap player. Mr. Borsari has had no previous military experience. He and his wife, Sara, have three children, one of which is now attending the University of Florida.

Mr. Borsari is very interested in aviation education and is coming to Daytona Beach because he likes the climate and would like to get more involved in education. Mr. Borsari first saw the Embry-Riddle campus about a year ago and has made several visits to Daytona Beach since. He was offered the position of Dean of Faculties on May 12 and accepted the same on May 19.

With Mr. Borsari’s considerable background in both aviation and education, it is expected that he will add much experience and knowledge to help strengthen and integrate our varied programs at Embry-Riddle so that it will continue to be the best Aviation College in the world. We look forward to Mr. Borsari’s arrival on our campus.

FAA and VA Approved Flight School
Any Embry-Riddle student wishing to check out books from DBJC Library must present an "Authorization Slip" from ERAI Library. These slips may be obtained at the Library between 8:00 and 5:00 PM Monday through Friday, and must be signed by Mr. Sauls, Director of Library Services, or by Mrs. Kipp, Librarian. NEW AUTHORIZATION SLIPS WILL BE REQUIRED FOR EACH TRIMESTER.

The open, reciprocal check-out agreement we originally had with DBJC was cancelled because so many of our students abused the privilege and DBJC lost too many books checked out to ERAI students. Mr. Sauls worked out this arrangement with Mr. Leon Fordham, Director of Library Services at DBJC, as a specila concession. In effect, the "Authorization Slip" is a personal guarantee signed by Mr. Sauls that ERAI students permitted to check out books at DBJC library will return them and will be responsible for such books while in their possession. Needless to say, this privilege could be cancelled, too, if DBJC continues to lose books checked out to ERAI students.

Colonel Wm. N. Beaz, USAF
Embry-Riddle Aero. Inst.
Division of Flight Tech.
Post Office Box 2411
Daytona Beach, Florida

Dear Colonel Beaz:

As President of the Daytona Beach Area Chamber of Commerce I would like to take this opportunity to thank you for accepting Chairmanship of the Culture and Education Committee for the balance of 1969.

This is one of the most important committees in our organization and I look forward to working closely with you on its many projects.

Cordially,
Donald P. Clark
President

The special referendum vote on the increase in Student Government fees for a student club or future projects will be held Monday July 14th in the Student Center.

The polls will be open from 8 AM to 4 PM.

There is a sample ballot posted on the Student Government bulletin board in the Student Center and also in this issue of the AVION.

PLEASE VOTE!!!

Merritt Welch
Coordinating Committee Chairman

"OFFICIAL REFERENDUM BALLOT"

Vote "YES" if you are in favor of the issue listed below.

Vote "NO" if you are opposed to the issue below.

#1.) YES NO Increase in the SGA fee to $8.00 for the purpose of constructing a student club.

#2.) YES NO Increase in SGA fee to $8.00 for the purpose of accumulating working capital for future projects.
TO: ALL CONCERNED
FROM: SGA FUTURE PROJECTS COMMITTEE

Due to the increase in costs in renting halls for social functions, the SGA has come up with a plan for stabilizing the student fee for approximately the next six years. We believe this stabilization will come in the form of a student club.

The following is a brief summary of points which the Future Projects Committee has outlined in support of a student club.

1. High costs of renting halls. Increases in rent charges has risen from $150 for one night to $360 for one night over the past year and a half.

2. Limited places to rent. There is only one hall left in the area which is available for renting to Embry-Riddle on a B.Y.O.B. basis. This is the ARMORY. Due to time conflicts there is a possibility that this hall will be unavailable also.

3. To furnish a gathering and meeting place for discussion by students, staff, faculty and administration.

4. To provide an area for club meetings and student assembling. We honestly believe that in order to stabilize the student fee, we must build a hall or Student Club to hold social functions and student gatherings. This will help to bring the student body in close union and possibly achieve a greater spirit and cooperation among all facets of Embry-Riddle. In addition it will be possible to host various entertainment groups at a minimal cost to the SGA.

The cost of the club will run approximately $60,000. This cost will be incorporated in a one dollar ($1.00) increase of the normal operating cost of the student government fee.

The benefits of this measure will be felt within the next fiscal year if action is taken by the student body now. If not, there is a possibility of the student fee rising every year in the future to accommodate this rise in operation expenses.

Thank You,
Bob Nawrocki
Publicity Chairman
Future Projects Committee
The AVION is a bi-weekly publication for Embry-Riddle students financed by the students activity fee through the Student Government Association.

Articles may be submitted to the AVION for publication by the administration, the faculty and student body. The AVION deadline is every Monday afternoon at 5:00 PM. Please mark all items AVION and deposit in the basket in the trailer, the Suggestion Boxes, or ERAI Box 1689.
