FLASH! FLASH!

MIA MI—Word has just been received that the Embry-Riddle Tech School has been awarded a contract to give technical training to between 80 and 110 students selected from our Latin-American sister republics. Nine of these students arrived in Miami Tuesday with an additional 24 scheduled to arrive today (Wednesday). The balance will arrive in Miami within a short time. Complete story next week.

Buenaventura

Por este medio deseamos dar una cordial bienvenida a los estudiantes hispanicos que hemos favorecido con las becas concedidas por el gobierno de los Estados Unidos de Norteamérica.

Nos sentimos verdaderamente orgullosos de que la Escuela de Aviación Embry Riddle haya sido seleccionada por Washington, D. C. entre tantas en este país para inculcar a estos hombres. Revisando la curricula de los cursos que habrán de tomar, la hallamos muy completa y estamos seguros de que cuando se gradúen habrán de ser un crédito para la aviación de las hermanas repúblicas en este hemisferio.

Sinceridad del Movimiento

Hemos recibido muy atentas comunicaciones de los Jefes de la Aeronáutica Civil de varios países latinoamericanos, donde nos instan a comunicarles el desarrollo de las actividades escolares de sus nacionales y su conducta aquí, lo cual harémos con sumo gusto.

Es nuestra opinión sincera que estos estudiantes escogidos harán mucho por cimentar las relaciones entre los pueblos americanos y en este primer contingente, que representa a la mayor parte de estas naciones, recae la responsabilidad de mostrar a los norteamericanos con su conducta que ningun país tiene el monopolio de la inteligencia, de la destreza y de la caballería.

Miami, Dec. 28, 1941

SAFETY THOUGHT

Humility is the antidote for Vanity. Thousands of distressing accidents will occur and hundreds of people will be killed because pilots in an over-confident, cock-sure mood, do not pause to reflect that "A Bird Grows Before A Fall."

SAFETY THOUGHT

Luck may hold for a privileged few, but safety's best for me and you!

—Bill Jaster

RAF FLIGHT CADETS SPEND X-MAS HOLIDAYS AT MIAMI

Being granted the wish of almost every British Cadet passing through the Embry-Riddle training school was the X'Mas present to more than 80 of the U/Kers from the Riddle Field unit at Clewiston who were able to "Spend X'Mas in Miami."

Arriving in the School truck from Clewiston last Tuesday afternoon, the great majority of the "chappies" stayed with their Miami Beach "host," Sydney J. Burrows, genial manager of the Colony Hotel—but we'll let Syd tell of the occasion in his own words:

Boys Take It Easy
"Tuesday evening and Wednes-

Some Members of the Dorr Field "Family"

**DORR FIELD NEWS**

*By Jack Barrington*

With sufficient barracks and a Mess Hall, Dorr Field comes into its own. In order to get things in shape Mr. Wheeler has, for the past three weeks, been working three shifts of men on a 24-hour basis. With the most important buildings completed the remaining work will be rushed ahead during occupancy. Our highest compliments to the Miracle Man of Construction, Frank Wheeler.

The Mess Hall will probably double duty as a class room and food dispensary. This arrangement will only last a couple of weeks however, as the regular class room is in the progress of getting the final touches.

**New Hangars, New Cadets**

Any day should see the arrival of our hangars and as soon as they are hinged together we can move right in.

The new class of cadets has arrived and if first impressions mean anything they should make a pretty fine outfit. Their new uniforms are quite impressive.

**New York Ain't So Big**

We took a quick trip to New York during our intermission between classes. First thing we did was go to a motion picture only to discover about the middle that we had seen it several weeks before in Arcadia. So back to the station and the first train, feeling very much disappointed in the big town.

Even though a short intermission everyone seems to have got out and had a nice time, but it is good to see everyone back and raring to go.

The Editor's Office—This is one of the pictures we did NOT receive from Clewiston and Arcadia. Came as, Gosh! Get those cameras unlimbered and send us some good snapshots of the boys and girls at work and play. Make sure your camera is in focus to insure clean-cut pictures. Write all names and details on back of picture and mail them to The Editor, Fly Paper, Embry-Riddle Company, Box 668, Miami, Florida.

The message from former Mlle Alice Dalwood could not be turned out any sooner. By the way, Mrs. Towson’s nice build-up on her going to the new seven day a week job. Best regards, Tom Gaten—

*—Keep ‘Em Flying*—

**WHAT NO PICTURE!**

Pretty quaint, we calls it, the way we spelled QUINT FELAND’s name in our first printed issue. Each of the three times his name was mentioned it was spelled differently—and wrong! Please be advised that it should be spelled Quint Feland!

**Tech School Quintet Trims Dixie Tire 23-12**

*By Howard Beazle*

"On the Beanz" and "In the Groove," the Tech Basketballers chalked up their second straight victory when they trimmed the Dixie Tire Company 23 to 12. Displaying great teamwork, the players showed the results of their hard Saturday afternoon practice sessions.

Leading the scoring was Turnipseed, who was the star of the evening, while a newcomer on the team, George Hamilton, was in second place. Individual scores for the evening were: Lundblom, 12; Turnipseed, 9; Leatherman, 4; Baroudi, 0; Abrams, 2, and Hamilton, 6.

—"Remember Pearl Harbor!"

**APPY BIRTHDAY!**

Several birthday celebrations around the School last week—most fun, probably, was Instructor Jim McShane’s... all the students in Aircraft "chipped in" and bought him a super "singing telegram"... and did his face got red! Also getting a little older was Jo Skin- ner, celebrating her 22nd birthday and Flight Instructor Bud Caruthers at Riddle Field.

---

RIDDLLE FIELD—The Embry-Riddle Bases recently got a good "going over" by many of the most important men in aviation. Shown here is the inspection party as it paused at Riddle Field, Clewiston.

CIVIL AIR PATROL ORGANIZED TO AUGMENT NATIONAL DEFENSE

By Bill Jaster

Civil Air Patrol

Civil aviation has never been a missionary influence for air power. The civil aviator has blazed trails, opened up the territory of airports, conducted a constant campaign of education, and borne much forward thinking in the frontiers of the air. This action has created a wealth of experience, a wealth of knowledge of aviation utility. To waste this national asset would be unthinkable.

Grave times have now fallen upon us. The carefree skies of yesterday are overcast by international storms, through which our security is being impaired. Control of the skies, rigid discipline among those who navigate them, and coordinated traffic in them has become essential to the common defense. As the commerce of a nation is built on the standards of life, so the traffic of defense must preserve them.

Your Place In The C.A.P.

To a number of you whose services in accomplishing this task, the Civil Air Patrol has been set up under the aegis of Civilian Defense and under the supervision of the United States Army. No one knows better than the civil aviator how important his role is. So there is no apology for the appeal made to the 'splendid' boys such as Bill Cann, Marshall Pollard and Langdon W. Lawes, Clyde's Back Again.

Returning from Wayne, Mich., where he took delivery of a new Stinson "Voyager" for our friend Bert Stroock, is Clyde Ellis. He is mighty glad to get in out of the cold weather. There is a truth in the rumor that Clyde stopped at Cheyenne enroute north and borrowed one of the high altitude flying suits, although Clyde says he wishes he had "Tha' Yankee" weather." Clyde is a vicious censored man, and I'm mighty glad to see him back under the blue skies again.

LETTER FROM ENGLAND

Mailed in November, the following “letter from England” arrived just in time to give us an extra bit of happiness during the Christmas holidays:

5 Darwood Cottages, Bentley
Lancaster, Yorkshire, England.

Dear Editor,

Thank you very much for the copies of Embry-Riddle Fly Paper received on behalf of our son, Cadet G. W. Rowley, Class 42-B.

Vol. 2, No. 26, proved very interesting as it deals with the boys of Class 42-B during their stay at the Aeronautical Institute, Arcadia, their training and the free food sent for the people when they left for the Basic School at Montgomery.

Please convey our sincere appreciation and thanks to all concerned with the Institute, not only in training, but also for the way the boys were entertained and made to feel at home. Also to the young ladies who befriended them and made their social functions happy and successful events. Let us hope the friendship between these English boys and American girls is definitely forged another link in the chain of mutual agreement and understanding between the two countries.

With all best wishes from Mrs. Rowley and myself.

Yours faithfully,

Chas. William Rowley

“Mum’s the Word: Don’t Talk.”

Notice To All U/K Cadets

The postman has your paper and your families would enjoy getting it at home in England. It is mailed to them weekly free of charge if you will send their names and addresses, plainly typed, to The Editor, Box 668, Miami, Fla.

the removal of appendixes that almost burst on him. A lot of the long chipped in and presented him with flowers and now we are all hoping for a speedy recovery. Hope you up and around soon, Harry.

For being the first to finish his program, Clarence Snyder will soon fly the Rearwin parked in the hangar to Kansas and bring back a new trophy. So should go on an extra trip (providing the temperature stays above zero).

“Remember Pearl Harbor”

Believe it or not, etc., all the cross-country boys passed their written. Congrats to the boys! Of course, we all wish you at the University of Florida and hope you don’t fall too far in the brilliant Florida moonlight?” Slim Pittman, in Army Stores, uses a delicious sandwich of the famous Betty Lee on the counter with a shock strung in one hand and a carburetor in the other. Mr. Curtis’ Ground Crew take a glance at this animated billboard, and parts are replaced on the ships in no time.

Congrats to Bob Townsen.

WASHINGTON, D.C., for supper, we found our roommates included Bob Townsen, and when a changed man he is. The man has been replaced by a steady, solid married man. Yep, Bob went and did it last Sunday, at the lucky lady, we understanding, is the former Alice Dainwood. Congratulations, you two, but remember you are for sneaking it in on us. Before supper we were introduced to the new addition to the Button family—a darling little toy terrier named “Woo-woo.” It’s a well-behaved little rascal and spends its day on a cushion in Veg’s day

In the Canteen late Thursday evening we found Roscoe (B.E.) Bristow grilling a sandwich which he seemed just a little unhappy that his Miami purchases from Frank’s Magic Store have no practical service yet at Riddle-McKay.

Friday morning brought us by mail, the incomparable Tubby Owens. He hasn’t lost an ounce of avoirdupois. He flatty refused introduction to the lovely little lady recently installed behind the Canteen soda fountain. But we did get to meet her in the early afternoon, so we could not look around as much as we like. We got a “So long” wave from Jack Crommer, now instructing in Basic, and headed for Miami. It had been a hectic, yet immensely enjoyable week.

Party Post-Mortems

Hugh Hinchliffe as a remarkable Santa Claus with special presents for Charlle Bornhard, Mckee Lightholder and Phil Stiles... Ye Ed starting to speak Spanish to our date, Deirdre Font, and getting literally swamped by the stream of Latin language that answered him. It remained for Phil to successfully cope with the situation... Wondering at the fate that caused Mr. Fon’s hair to burst into flames, Mr. Reaction?... Being the last to be threatened with physical violence by Material Controllers Buxton, Logelld, Galbraith and Perry if we were not given complimentary tickets — gratters. Meeting the lovely Cecile Couchman again after seven months, first seen at a Cadele dance in Arcadia last May.

EMBRY-RIDDLE MENTIONING MUNICIPAL INVENTORY at CLEWISTON

(Continued from last week)

By Jack Hobler

Thursday afternoon we rolled into Dord’s office to find a place to stay. A barracks room had already been prepared for but our charming Bill Jacobs, formerly of Miami, conducted us to the Post Supply where he immediately began the counting job again, assisted by Ted Hooker. You should hear Ted sell jewelry to the boys. Pretty much looks at this beautiful locket. Can’t you just see its golden shimmer against the lovely curtain of her flowing hair? It seemed a pretty bit of research, but finally in the brilliant Florida moonlight?” Slim Pittman, in Army Stores, uses a delicious sandwich of the famous Betty Lee on the counter with a shock strung in one hand and a carburetor in the other. Mr. Curtis’ Ground Crew take a glance at this animated billboard, and parts are replaced on the ships in no time.

MUNICIPAL BASE--At long last, a picture of Pappy Norton’s famous legal Pretty, huh!

EMPLOYEES NOTICE!

Of especial importance to every employee of the Embry-Riddle organization is the Florida law requiring every person gainfully employed within the state to carry a Florida license tag on his car. The State authorities have been most kind in cooperating with us in this matter in the past, it is our duty to see that the law is obeyed. No matter where you are based, if you are employed at the School, buy a Florida license for your car!

—K.O. for Tokyo—

Jean Ogden Gets “Showered”

Still not too late to print is the news about the "Baby Shower" given Jean Ogden, Boss Riddle’s secretary, by Helen Drabek and the other gals in the Main Office. Among those attending were Jennie May the "Seelie," Fox, Betty Galbraith, Elaine Devrey, Jo Skinner, Connie Young, Audrey Sisson, Grace Koom and Dot Shooley.

—Remember Pearl Harbor—

CAPTAIN OF THE GUARD at the Tech School is BILL WESTLIAM, who has just been appointed to take charge of the ten men who will guard the school day and night.
