MOTHER'S DAY, 1942

She held him once with tender care, her heart so filled with love; She had no thought someday this babe would roar through skies above. Nor did she know those little teeth that pushed through gums in pain Would someday grit as jaws set hard o'er far, war-torn terrain. Who'd think that downy, childish head—in helmet now encased— Would house a mind intent to see oppression from Earth chased? Those tiny, pudgy hands and feet—so soft, pressed to her lips— Have grown in strength to firmly grasp controls of combat ships.

Oh how she watched, protected, fed, and guided him those years! Now, on his own, her love for him but magnifies her fears. Her man-child, grown, sweeps back and forth 'mid chattering guns, so bold, And bullets whining 'round his head her heart pierce hundred-fold. But other mothers' sons are there—in peril, same as he; Their hearts are also torn and stabbed for boys they'll never see. This Mother's Day brings grief to them; there's naught that they can do To once more guide, protect, assist their sons; they're helpless to.

So turn your fear to courage, you who've given birth to men; Their job's protecting YOU right now as you've protected them. They're likewise sad—they'd like to be at home with you and Dad; Have courage, then, and lift a prayer for him: your stalwart lad. He misses you; he's grateful for that tender, loving care; Defending other mothers, sons, he's fighting now in air. God's blessing on you, Mother dear, for giving such a son; We can't repay the debt we owe to you when this war's won.

—JACK HOBLER

THESE ARE THE "GUYS FROM GEORGIA!"

RIDDLE-McKAY OFFICIALS SPEND
"VACATION" AT MIAMI BEACH

Salvage waste for victory!

It's been the old American custom—"Aw, throw it away! There's plenty more!" Sure... there was plenty more... and there still is plenty more... more steel and iron and lumber and coal and oil... what we're short on is time... production time! Every minute spent protecting from raw material something that could have been salvaged, is a minute that might have been employed installing a bomb release on a fighter aircraft or any one of a million jobs that must be done now to insure our victory in this war!

And that's why we're climbing back on the old crusading bandwagon... it's a personal plea to everyone...to everyone...in the Embry-Riddle School to salvage waste for victory! Maybe you don't realize how much we can save... recently J. M. Evans, Hugh Hinchliffe, Ed China, "Bruz" Carpenter and a few others began discussing waste paper. The result was a paper bale at the main office and technical division... and within a week we salvaged 30 bales of waste paper weighing over 3,500 pounds!

How does this help the war effort? Listen to this...that paper will be reclaimed... it will appear next as stationery on which vital Army orders can be written...or packing boxes for small arms ammunition... and most important of all, it will save the use of vital chemicals so necessary in the manufacture of explosives! Y-D-I can help... now, today and every day, when you come to work or school at the Technical division, bring with you last evening's paper, or one of those old magazines that has been lying around the house for months. Don't burn it. Don't destroy it! Bring it to the school, throw it into the waste basket and our Reclamation Department will salvage this waste for victory!

Arcadia and Clewiston... you're in on this too! Paper is too bulky to transport from your bases, but you can help in other ways... there's tin foil, old razor blades, paste tubes and dozens of other small items worth salvaging! Right now, we're publicly asking the cooperation of all of you... Kay Bramlett, Carlstrom, Leon Foster, Dorr Field, and Nelva Purdon, Riddle Field... will you set up salvage waste for victory boxes at your fields...in the administration building or the canteen or some other prominent place? And every week, send anything worth salvaging to Stewart Dubois, Reclamation Department, main office, Miami!

Let it not be said about us—too little, too late! Let us all give all our cooperation and effort now!
“VACATIONS”  
Continued from Page 1  

SEAPLANE BASE NEWS  
by Janet Mayheres  
(Via Air Mail from Ravenswood Airport, near Wilmette, Ill.)

Had the pleasure of meeting Bobs Beckwith at the Seaplane Base last week and from her report it seems that civilian flying on the West Coast is zero-zero, so she came all the way across the continent to fly at Embry-Riddle. Since I, myself, traveled 1,500 miles to fly here, I can agree with her that this is the place to fly no matter how far you have to travel to get here.

Also want to let everyone know that Ye Editor, Bud Belland, against the good advice of Ad Thompson and after renewing his life insurance, finally condescended to ride with me and let me take him quite a ways down into the Keys and back. He says I’m the first girl pilot to take his life in her hands, so maybe we gal pilots will eventually break down all his male resistance.

Everyone was happy to welcome Michael Covert back to the Seaplane Base the other day when he came down to Miami on a ten-day leave from Augusta, Georgia. Mike is looking swell and teaching basic training seems to agree with him. He’s the man who taught me how to fly a seaplane, so naturally I invited him up to check on me since it’s a year that we flew together.

Saw one of Ad’s students make a downwind landing the other day and had a lot of fun heckling him about it.

Had Charles Stahler show me how to do some radius of action problems and surprised him and myself by doing one of them correctly.

Having to go back North I would like this opportunity to say goodbye to everyone at the Seaplane Base, and all kidding aside, I enjoyed every minute I was there. Also, want John Paul Riddle to know that I was happy to meet him that evening in Bud Belland’s office, and we were working Mr. Riddle, REALLY!

—"We’ll rule the blue in ’41"—

Flash from Charlie!

THE RUMOR (very ugly I calls it) seems to persist that ‘Ad’ Thompson, our Seaplane Base Manager, is on a vacation. I’m sure that all of you have heard the dusty platitude “on a busman’s holiday.” Well, Ad is having the busiest busman’s holiday anyone would ever want to take and I mean seven days each week of flight instruction right here at the base.

—"He who laughs, lasts!"—

Thanks, en Espanol!

En nombre de la Sra. McShane y mi, dejo agradecer a todos los cadetes latino americanos su fina atencion en enviar las flores al hospital donde ella esta recluida. Esta ha sido una grata sorpresa para ambos por la cual estamos sumamente reconocidos.

JAMES McSHANE,
Jefe Instructor Depto. de Aviones

Information from Accounting
Dear Mom:

Business has been a bit too rushing lately. The old end of the month stuff, you know! The Accounting Department hasn’t been exactly terrific in the softball league, but they haven not been bad either. Licked the Ordway Lambs once and nearly whipped them again in a seventh inning rally, but the game was called on account of darkness, so we had to let them have the decision.

Looks like we may lose one of our best, as well as best looking, men to the Main Office crew, Or at least Ted will have to associate with them, because he will be on the main floor.

Griffs is getting to be quite a promoter. He helped our school obtain the hotels in the Gables and is following up by being seen with the Vice-President quite often.

Asberger hasn’t had any culinary tips lately, but it must just be because of loss of sleep. He looked very, very sleepy the other day. Or was it spring fever?

Incidentally, the Accounting Department should soon blossom out with new manners and super-salesman airs. They are nearly all taking the Dale Carnegie course.

Well, Mom, news is scarce, so till we meet again, I remain

ANANAMUS

—"Keep ‘Em Flying"—

CONGRATULATIONS to L. D. Carlson who has just been promoted assistant to Sales Manager Peter Ordway.

RIDDLE FIELD NEWS LETTER
Jack Hopkins, Editor
Bill Jacobs, Bonnie Draughon, Paul Prior, Mickey Lightholder, Tuffy Owens, Konny Berry, Ned Purdin, Ted Taylor, Jimmy Walker, Roger Franklin and Ralph Thying, Associate Editors.

Another course arrived at the field Sunday afternoon to begin their training and by now have discovered the "ins" and "outs" of the camp. We want to take this opportunity, however, to extend to you new fellows a warm welcome, and we assure you that everything will be done in order to help you enjoy your stay here.

Cadet Chatter
One who came to the Camp last Saturday evening or Sunday morning, would have sworn the place was deserted. Except for the A.D.'s, one or two gentlemen who had failed to read and heed Station Standing Orders Part One Not To Be Removed and Station Standing Orders Part Two Not To Be Removed, and a very few cadets who had decided to spend a quiet weekend for an end of the camp, looked like a Bald Eagle. Anyway, to make a long story shorter, all of the flights had leave, and everyone reports a good time.

Cadets S. F. McMaster, Red Flight, Jerry Clark, Blue Flight, and Jack Sweetser, Green Flight, were confined to the Infirmary the past week.

Personal Prattle
Mrs. Lynwood Blount has accepted a position as telephone operator here at the Field.

General Manager G. W. Tyson, Asst Jimmie Durden, the Department Head Flight and Squadron Commanders and several others from this Field, enjoyed a pleasure week-end in Miami.

Oliver "Skinny" Uebelhor and Erwin "Pat" Uebelhor of Huntington, Indiana, visited friends here last week. The boys made many new friends and it is hoped they will come back again for another visit.

Several citizens of both Clewiston and Moore Haven entertained with farewell parties for the members of the graduating class, and these kind indications of hospitality were much appreciated.

The officer of the day received a telephone call one night last week from one of the guards to the effect that sabotage was being committed in the Link Room. The O.D. investigated and did find one of the links torn down, but the "sabotager" was R. V. Domer, link maintenance man, who was doing a routine inspection of the machine.

Can You Solve This One?

On his recent visit to this field, Syd Burrows stopped in at the Link Department for a few minutes, and we happened to get this shot of him with Joe Obermyer:

Syd and Joe

Now here's the problem - can you tell us how it is possible for Joe, who is 5 ft 4 in. tall, to appear taller than Syd, who is 6 ft 3 in, in height, when they are both standing on good old terra firma? (Note — No trick photography either). To the first person submitting the correct deduction to this great mystery, we will present two fresh doughnuts, holes and all, plus a year's subscription to the FLY PAPER.

—Mum's the Word: Don't Talk—

"DER TAG"
From the diary of Hans Krummelbaum, a Luftwaffe cadet, discovered by our old friend STRABIS-MUS:

Morgen
7:00 At seven hours up I get... Heil Hitler! Then the shaving-works do.
7:15 Der face clean.
7:20 Der room clean.
7:24 Der Flugzeugersatz put on, and mit polische der Flugzeugersatzbuttonsticks clean... Heil Hitler!
7:30 DER BREAKFAST. Ersats eggs, ersatz bacon, ersatz coffee, ersatz stomach. Understand it is for der Vaterland... Heil Hitler!
8:15 Im der Reichsklosethaus.
8:30 Im der GRINDE SCHULE.
9:00 Bombb und gebaggenen lektur.
9:30 Bombb und popgunnerywerke lektur.
10:00 Blizenblaster und bangen-bombingwerke.
11:00 Blitzenenbangen, Blas tenn-blophings, Bangenblitzenpraktis und lektur.
12:30 End of der Grinde Schule... Heil Hitler!
1:30 DER LUNCHEN (Meatless day... No Luncheon... Heil Hitler!)
2:00 Der Lunchoon I haf digest, und new der Krosskountryflightplan I make.
2:30 Take off from KLEWISTEN (South Bavarian).
3:1 Engine running badly due to ersatz oil. (This observation in der Log I not enter.)
3:20 Ninety degree turns in all directions.
3:45 Der Kourse set for SCHLOSS MAYERRS.
3:50 Kompus not working properly... Point of pin under MOORE-HAFEN.
3:55 Kompus now revolve greatly. Rate four turns necessary to keep plane on kourse.
4:55 Still uber MOOREHAFEN... Ach! Hans is all puzzeled!
5:55 Still der plane revolver und der kompus stay still uber MOOREHAFEN oder der plane stay still und der kompus revolve uber MOOREHAFEN. Naw Hans' head revolver.
6:00 Ach, I am unhappy... Der Kampus I haf found to be wrong, but it is Verboten to think for myself.
6:15 Heil Hitler!... Dek kompus stick and Hans fly straight. Hans is happy.
6:30 Point of der pin uber KARL-STROM-FLUGENSERSCHULE (N. Bavaria).
6:41 Der city I see, probably SCHLOSS MAYERS.
6:41 To zero feet I descend mit divebomber. Liquidate Non-Aryan residence. Heil Hitler! Discover- city to be WESTPAULMEAS-CHEBERG not SCHLOSS MAYERS.
6:45 Engine running better due to ersatz oil running out.
7:00 Decido der landingswerke to do, enough fuel I haf not to re- turn to KLEWISTEN. (Also Gretchen at der "Kuba VER- BOTEN" I visit. Ja wohl.)
7:10 Landingenwerke done. Landin­ gendar did verweke (Due to liquid­ ating Non-Aryan residence! Landinger done in.
7:10 Land on belly of plane.
7:20 Fill own belly.
8:30 Telefonen Gretchen.
9:30 Still telefonen Gretchen.
10:00 Telefonen der KAMP.
10:10 Mit pride I tell der HERR KOMMANDANT of der glorious day, how do Non-Aryan resi­ dence I Liquidate (Heil Hitler!) And how I der plane land mit only a damage wing und land­ ingear.
10:15 Herr KOMMANDANT is mitt emotion speechless... To­ morrow he will in his office see me... No doubt der decoration to me he will give. Meanwhile I am mitt Gretchen... und Hans is happy... Hans is very, very happy.
12:00 Der Nacht...

—Waste Not, Want Not!—

Lady of the Week
It was brought to our attention a week or so ago, that there were as many important women around the field as men, and when we stopped to think about it, that was true. Therefore, we are presenting this week the dean of the office workers, Mrs. Nelva Purdon, secretary to Mr. Tyson, as Lady of the Week.

Nelva, alias Nellie, was born in the Middle West, the Show Me State (Missouri), on Jan. 26, 19 — (censored) and lived an eventful, normal life as a farmerette attending school at the proverbial "little red school house," but in reality was white, and graduated from the Centralia High School in 19 — (censored). Later time Nelva specialized in Teacher Training and for the next (censored) years taught the same school; attending spring and summer school at the Northwest Missouri State Teacher's College. The latter experiences finally persuaded her to abandon her B.A. degree for a Mrs. degree after meeting "the doctor" (Walter F. Purdon).

He further persuaded her that living in Florida among the mosquitoes, snakes and alligators (to say nothing of the hurricanes) was just what the doctor ordered — so they came to Florida to venture into both a professional career and married bliss, having first lived in Gainesville, then moving to Ft. Myers, where Nelva conducted a private kindergarten, later accepting a position as assistant to the credit manager at Sears, Roe- buckle & Co., Ft. Myers. When the doctor opened an office in Clewiston she resigned to join him, and blew in with "our almost hurricane" last October, to become Mr.

Please turn over leaf
Nelva likes to read and knit, eat fried chicken, angel food cake and ice cream, dislikes being a warwidow, and according to her roommate (Miss Morgan) very much dislikes to get up in the morning (first). Her ambition is to gain a concrete knowledge of what keeps 'em flying. "She's from Missouri and you have to show her."

"Mom's the Word? Don't Talk!"

70 R.A.F.ers VISIT BEACH by Syd Burrows

The Metropole Hotel was definitely R.A.F. last week, from Tuesday thru Sunday when about 70 Clewiston Cadets on leave settled down to rest, read, write, do the town and er . . . "fish!" (Voice from over my shoulder, "Say, I thought you told us that the Gulf Stream was always calm!"") Well, anyway, it certainly was a change and a new experience for the lads.

Am sending herewith a list of the Cadets who were in the During the week . . . hope you can print this as so many of the boys are having the Fly Paper sent home to England, and I know their families will enjoy knowing that their sons are well, happy, and in all probability, sunburned!

Clewiston Cadets

Also the pleasure of accommodations Clewiston Instructor James E. Taylor, Jr., and wife.

"It's Nice to Be Nice!"

BOWLERS AT IT AGAIN!

After a summer vacation from the rigors of hurling a 17-pound ball down the polished alleys, the Tech School bowling team comes into the running again, this time in the Southside "A" League, playing at 8:15 every Friday evening at the new Playdium Alleys at the Dougles entrance to Coral Gables on Tamiami Trail.

Now understand, the "A" League is definitely high-class stuff, with players taken from the leading bowlers in the Greater Miami area and the boys have really cut themselves a job. However, they didn't do so bad in the first go 'round last Friday, losing a 2 to 1 decision with Hunkamp's Motors, 795 to 867, 836 to 822, and 818 to 902.

Our new team is composed of Charlie Smith, Electrical Department, who bowled 139, 148 and 129; Jim Pyott, Sheet Metal, who was entered on his average of 151; Mel Klein, Electrical Department, who bowled 187, 201 and 187; Bill Liversedge, Auditing, who bowled 157, 161 and 202; and Jim McShane, Aircraft Department, who bowled 159, 175 and 169. Let's turn out and see these games each Friday evening!

Individual scores in the second game in this "A" series were:

Klein 162 183 156
Liversedge 108 198 186
Smith 150 133 155
McShane 146 175 156
Daniels 206 167 153

Diary of the Week

We have had us a pretty big week these past seven days, with a diversity of sources for news. So, with a few distinguished visitors, among whom were our beloved boss, Mr. Riddle, and Major Milner, of the Signal Corps, here to give us a lift with the showing of training films.

Still Another Wedding

The first big event of the week was the marriage of our own Paul Dixon to Betty Clement, of Dorr Field. The wedding took place in Lakeland last Thursday night, April 30th, and both it and the reception following were very well attended by friends and relatives of both bride and groom. From Carlsstrom Field were Mark Ball (best man), Paul Debor, Bill Graecy and ourselves. Too late for the ceremony but on time for what was left of the wedding cake, Larry Walden and Joe Woodward arrived with Tex Kuykendall, who had just got off an Eastern Airline from a vacation in his native Texas. Arrangements for the shindig were capably taken care of by Mr. Dixon's parents, with the help of the bride's family. Also on hand was Mr. James Dixon, Paul's uncle, who had come from Miami where he is a law partner of Jack McKay, Sr. The bride was lovely in a beige sports dress, straw hat to match, and spectator pumps, while the groom stood resplendent in tan Palm Beach, white shirt, white face and green tie. After the reception, the newlyweds departed for Tampa amid a forceful shower of rice and good wishes.

Enlisted Personnel "Eat Heartly"

Next in importance was the steak fry given for the enlisted Army men of Carlsstrom and Dorr Fields at McSwain's Grove on Thursday night. Sgt. "Red" White larded diligently as chief cook and bottle-washer, abetted by Kathryn Sandusky, while Sgt. Herbert Dallay served his wife tried to be a one-man detective agency in looking for his wife in the mob. Sally Lambie flickered her pretty eyes at all and sundry, while Lea and Eddie Taylor were at their genial best. Jim Burt answered questions as to what he likes Dorr Field with some unilluminating reference to the Burma Road.

Also contributing to the whoopee-making were the Kenny Brughs and the Jack O'Brien's, and one and all were surprised to see Professor Joe Gillis at such a festive occasion. All in all, a wild time was had by all, as the mosquitoes ate up as much of the participants, as the participants ate of the food spread before them.

Society Section

Adding to our Society Section comes news of a soiree conducted by Jack and Dorothy Hunt at their home Friday evening. The event was featured by an enormous buffet supper, and the guests got in their required exercise throwing darts afterwards to settle the sumptuous meal. Nate Reece exasperated his wife and scared the rest of the folks when he tried to ride Clara.
Louise's bicycle backwards by sitting and steering on the handlebars. Attending, as befits such socialites, were Edie Povey, Gordon and Connie Mougey, Jim and Marie Burt, Joe and Jean Horton, Tom and Blanche Gates, Capt. Bill and Claudine Hart, and Sid and Norma Pfuger. That's a crowd Brenda Frazier would give a lot to entertain.

The Challenge is Hurled!

We have been asked to sort of transmit a challenge. The Maintenance Crew here at Carlstrom has formed a small team which decked out a game with that vaunted Miami gang. According to Manager Leach, the boys are plenty hot stuff, and seriously doubt that any team (particularly Miami Tech School) can give them any real competition. As a result, they will be on the outside for just the exercise, as they need an outlet for the energy stored up in their muscles from cranking up PT's all day long. Watching them in practice, we also venture the opinion that they will be hard, if not impossible, to beat (particularly by the Miami Tech School). All they want is a date set when they can sweep down on the east coast lads and administer a shellacking.

(Note from Miami Gang)

Your challenge accepted! As this paper goes to press, arrangements are being made to play the game in Miami Saturday, May 23. Please note that this is a School Party date and you will be expected to stay on for the Dance as our guests, win or lose! Okay, Mr. Leach and Company,—we'll be seein' you all two weeks from this Saturday!

Conversation, Barber Shop Talk

We learn a lot of things from everyday conversation around here. For instance, anyone who doubts that Jimmie Sutton is a competent instructor has only to look at the record of his last class. Also, Bob Boyle got a real professional barber's shave while away on his recent vacation, and has been bragging about it ever since. Speaking of barbers reminds us that one of our present Cadets, A/C Tait, is an amateur barber, and has done much to relieve the growing burden on Elmer Bishop and Pop Stubberfield by taking in customers in his room. The samples we have viewed indicate that he has relieved his fellow-classmates of quite a bit of tansorial beauty likewise. Ah, the trials and tribulations of Army inspections!

CARLSTROM FLIGHT LINE

By Tom Taylor

Well, here goes again, I hope you can take it.

Some Congratulations

The outfit is again going full blast and we are getting ready to see what class 42-J is made of. We have some new flight commanders and assistants, namely "Red" McKendry, Flight Commander; Flight Four; Cleve Thompson, Flight Commander, Flight Two, the new assistants are George Dudley, Flight One; Charlie Sullivan, Flight Three. Congratulations, lads. We all regret the fact that Lloyd Lampman has left us, but we take this opportunity to thank Lloyd for all he did to help make this place what it is and we wish him every success and happiness in his new work. Good luck, Lloyd. Don't forget, in case you ever get around to returning to this type of work, R.A.I. has prior rights to your services.

Please Check Your "Hardware"

We also notice that the guards on the gate are compelling every one to check in their cameras and "pistols, rifles, etc." and they keep them until the owner leaves the post. We can't say for sure, but we have heard that the reason for this is that a bounty is being offered for a certain captain! (The hide must be in good shape.) Be sure you get the right one; most of 'em are really nice guys.

Another Thing

This has nothing to do with the flight line, but we do want to know why a certain Mr. Hart of the accounting department left the bus with such a rosy complexion one evening recently.

My Gosh! It Flies!

Well, well, the miracle has done gone and happened. "Boots" Frantz actually flew his airplane; and all the way to Virginia and back. We also include herein a warning to "Floydwell" Jones; either put a horn on that Culver Cadet of yours or keep it off the public highways.

Now Comes Some Precaching

We are a big outfit and we have a lot of airplanes in a more or less localized area. It is the easiest thing in the world to get in some one else's way—so keep looking around and especially watch that airplane that wasn't there the last time you looked! And don't forget the guy who climbs above you, and starts a spin without properly clearing himself. You've got six or seven heads and do plenty of good clear thinking.

Also, remember that straight and level don't come second! You have to be good at that before you are qualified to be a hot shot.

"The Sun Shines Bright ..."

Say, you know the sun was awfully bright the day after the pistols' barbeque out at Welles ranch! Ever so many of the boys were around town holding their hands up to their heads—I suppose this was to keep the sun from blinding them! The bravest man on the plane is Ralph Cuthbertson who was actually looking for accuracy and acrobatic grade slips the day after the afore-mentioned "Shindig," or maybe it should be "Fahringerized" by being classed as a "Whifferdill.

Chatter

What in turn is Jack Hunt going to do with those nice new goggles he bought? How long will it be before Sam Appleby is back on the job? The typewriter is being wrung out by everybody on the place. When Potter Smith gets going on it some one has to keep a stream of ice water on the keys to keep the smoke down.

IDLE CHATTER

OWL SHIFT LAMENT

(To the tune of Waltiki)

I don't think it's nice for you
To all go off to bed.
And leave me sitting here alone
With this gadget on my head.
But then, I can't waste time to gab
For I've got things to do,
I hope you all get rested,
And I do mean you and you.

The above explosion is through the courtesy of the swinging rope on the flag pole. It bears a rhythmic staccato all night in the breeze and can be heard at the opposite end of the grounds, like a sentinel calling new watchmen.

One of our voices with a smile is going back to Miami and rub elbows with the Navy. Can you imagine? After Carlstrom! We hope she'll be happy and have no regrets, but then she's a honey and will surely brighten the picture in her new location. Lots of luck, Martha.

That sure was Mrs. Garner you saw boarding the bus for Tallahassee and she is not on a sightseeing tour. We hope she will come back rested from the change of scenery and results 42-J, as a group, thinks we have a lovely spot here at Carlstrom, and wired all the folks. It will grow on you boys, and we're all here to help make life a little smoother away from mother and dad. Glad to be of help wherever we can.

Soo Long, Night P.B.X.

—We who laugh, last!—

MICKEY LIGHTHOLDER, now almost fully recovered from his famous appendectomy and about due for flight duty at Clewiston, suggests that we open a contest, awarding an original cartoon by Ray FAHRINGER for the best SUGGESTION OF THE WEEK. Excellent idea, Mickey, old boy; the first cartoon goes to YOU if you can swear how to get Mr. Fahringer to DO a cartoon a week! Come, come, "Fire-engine," are you again to take THAT sittin' down, Suh!
DORR FIELD NEWS BULL-ETIN

Ed Morey, Editor

Back to Work
The departure of 42-H gave a breathing spell to several of our personnel. Looking toward the Ground School we find “Dick” Oschner spent his vacation getting married; congratulations, Fellow! Mr. and Mrs. Oschner were married in Sebring and spent the rest of their vacation honeymooning around our “Sunshine” state.

Huggins and Holton spent a few days in Tampa; Homer Holton is a new member of our staff, coming from Massachusetts. Navigation is his line and he does a bang-up job of it. Harry Warren spent his time in New York state.

Grind School is Honored
Major Hallahan of Wright Field, Ohio, spent a few hours with the entire Ground School staff Saturday afternoon; he chatted with us on film training and told us how outstanding Dorr Field is. Pictures were shown on “Identification of Aircraft” and “Theory of Bombardiering.” We certainly enjoyed his visit and look forward to having him with us again soon.

Flight Line Chatter
We saw Mr. Thomas Murphy and Mr. A. F. Mchike all smiles because they had successfully completed their Refresher Course and began Cadet Instruction with the new Class.

The Flight Line resembled a ball park Training Camp today when Sgt. Williams (of Cucumber Fame) and Sgt. Blackwell were batting out a few; Miss Prevette even joined them; work at Army Operations was at a stand-still—just a little relaxation from that important job of “Keeping em Flying.”

Gils Entertain
The floor at the Canteen was slippery in preparation for the dance given by the Dorr Field girls for the 42-I Class when Freddie Lewis entered—and slipped across the floor to a tumble; sorry we all laughed Freddie, but no harm done since you weren’t hurt.

It was amusing to see “Patty” drinking punch from a paper cup at the dance while she remained perched securely on the shoulder of her master, Capt. Nachtigall.

Everyone enjoyed the dance and we are all looking forward to the next one.

Maintenance on Top
Our Maintenance Department under the supervision of Mr. Culters has made a new mark to shoot at; they have pledged over $500.00 per month for the purchase of Defense Bonds and Stamps. Nice going, Youse Guys; but come on you other departments—don’t let them stay on top. There is room for everyone of us.

100% Efficient
Come on! Come all! And let’s help the Field Canteen in their drive to save tinfoil and toothpaste tubes. Remember, Kids, it’s an “all out defense plan” so let’s do our part.

“ARMY FORM ONE”
by A/C Tom Moses
Oh, for the life of the Flyer Zooming up toward the sun;
And as you go higher and higher,
You think “Oh to H— with Form One.
You miss on your banks, your stalls and spins,
But your troubles have only begun;
Because I’ll just bet you dollars to pins,
You’ve made a mistake on Form One.
You taxi your ship up to the line,
And think: “That was plenty of Fun”
But don’t be too cocky for that’s a sure sign
You’ll get all mixed up on Form One.

And when I take off upon my last flight,
When my work here on earth is all done,
St. Peter says “Sorry, Lad, all else is right,
But you’ve screwed up the Army’s Form One.”

Army
Another newcomer at Dorr Field. Lt. Barnes who is Assistant to the Commandant and the Adjutant. Hope you like it here, Lt.!”

It’s reported that in June our own Lt. Phillip will follow in the footsteps of Lt. Folan—the bride being Miss Murphy of Americus, Georgia.

Extra ! !
Everybody please tell Flight Instructor Barclay that the Dorr Field Bus is GREEN!!!

- Sh - Sh - Sh
We heard — buzz-buzz-buzz—that Bass Gates lost his young daughter recently — she vanished quickly and was finally located in the Minegineh Storage Cupboard! Could it be that she inherits that “Speedy Vanishing Act!” from her Papa??

TECH SCHOOL, Miami—The new Aircraft Radio Department was pretty much of a mystery to us until Instructor William (Bill) Kohler came in the other day and began boasting about what had been accomplished. Fact is, we didn’t even know we HAD a radio department... so we wondered back three years and had another very pleasant eye-opener! Not only do they have enough nice new equipment to “call all ears,” but the whole shibang is all set up and operating, with students and everything. Shown above, left to right, are Erven Friedlander, Allen Wescott, Instructors Grover Hamilton and Bill Kohler, Miss Hazel Shevman, Robert Lipkin and Morris McGahan. The “Radio Boys” are right proud of their Department, and herewith invite you-all to come visit them whenever you have a few minutes to spare. Located in Technical School Building, extreme north wing of the fourth floor.

TECH TALK
by Dorothy Burton

Arrival
The panic in the Clinic, nay the entire building, was all caused by the arrival of Lorraine Steuber who will substitute for Nurse Betty McShane on leave of absence for six weeks. According to the prophecies of the discerning Bud Belland, Miss Steuber will be married within a week, but we have reason to believe that Lorraine is not so easily separated from her profession as she confidently expects to be a lieutenant in the army upon leaving her present assignment.

And have you seen that radiant smile on Reuel Dietrich’s face? The occasion for it is his wife and two fine boys have come to Miami to join him. No longer is Reuel a mournful bachelor. Mr. Hiss, Cafeteria, has a new assistant, Lynne Fox, who is so good he says in three months he will have taught to do but sit in his penthouse. In the Aircraft Department we find Al Raymond all set to carry on Jim McShane’s “do or die” policy.

Departures
Dave Abrams, our most popular instructor, whose students sing his praises to the high heavens, to Panama. He is not entirely lost to us as he will continue teaching navigation classes. Ralph Spain, Sheet Metal, to Little Rock, Arkansas where he will continue in the same quiet line of business.

Tom Stark, from Aircraft Dept. to Key West where his services were badly needed. Harriett McLane, Material Control, to Chicago where her mother is seriously ill.

Congratulations
To Capt. Field who celebrated a birthday last week; to Estelle Woodward who did likewise but didn’t tell until afterwards so she didn’t get any “and one to grow on and one to be a good girl on!” to Mr. and Mrs. Bill Kohler, Radio, on their wedding anniversary.

Sick List
Truman Gile, a bad spring cold. As “Skinny” lives near school he had plenty of would-be nurses to care for him and friends to amuse him twenty-four hours a day. The invalid’s room held an appearance of a club-house. Dr. and Helen Drabek are in charge of the case. Nurse Betty McShane, appendectomy, in Room 326 Jackson Memorial Hospital. Betty is doing very nicely but all her patients and friends at school miss her and want her to hurry and get well and come back to her pills and potions. Bill Burton, infected foot in Room 532 Jackson Memorial Hospital. When last heard from the patient was bitterly complaining that he received weak tea and toast in place of three-inch steaks.

Transfers
Raymond Farmer, Elevator, to Aircraft Dept. where he will be secretary to the ritzie executive, James A. McShane, Esq.

Visitors
That attractive girl you saw one day last week was Lorraine Cerdighia, a junior from the University of Miami who liked the E.-R. setup so much she hopes to join the organization when her school is over. Her handsome escort was Gerard Deneil. No, Betty, you can’t have him! Son Kenneth McMann, was the six year old male fashion-plate whom you saw in the
Cafeteria Saturday. Florence says he tried to take Auditing apart before she succeeded in speeding him on his way.

Activities
June McGill has twenty-five signed up for the class in First Aid which will be two hours a night every Thursday beginning May 7 and lasting ten weeks. The only trouble with First Aid students is their avidness for real victims, so if you are ever stalked by any of the following you know she is praying for a chance to try out the newest thing in splints: Dot Schooley, Joy Mason, Betty Bruce, Grace Roome, Lucille Fox, Therna Bicketstaff and Pauline Baker. Katherine Bruce is getting a girls' bowling team together so get in touch with her if you would like some fun and exercise. Dale Canegle’s lectures are the high spot of this week and every nite will find him “Riddleless” in his audience learning qualities of leadership and success in the business world. In softball the Main Office team was hot this week! They trimmed Accounting in a return match 22-18 and Engines came off second best in a 12-6 score. The usual number of casualties occurred. Did you hear Eve Atkinson when she substituted for Peter Ordway on his Monday nite broadcast? Hers is a pleasing radio personality.

Personalities
Mary and Lamar Mitchell took an apartment on the bay so they could look out the front window and see their precious sail-boat at all times. Florence McCormick has a new home complete with wrought iron. If you are very nice you may get an invitation to sample those delicious concoctions.

Departure
Feminine hearts dropped at the departure of Hugh Hinehiff, whose gay companionship had been so much enjoyed by all.

Visitor
Mrs. Sundstrom, mother of Eric, visited Embry-Riddle, where she toured the building, lunched in the cafeteria and met the many friends of her son. We see now where Eric gets all his charm.

Sick List
Lt. Stetson (did anyone ever find his hat?) was a patient at Jackson Memorial.

Among visitors at the Technical Division last week were Colonel Stanley J. Mann, Donovan and Colonel Dodson. “Moose” was our first Army Commanding Officer at Carlstrom Field, Arcadia, and his visit to the Tech School was a real pleasure to all who met him.

SOLDIER STUFF
by “The Boys” at Tech-Div.

Freedom
Another (and the last) week of make up time has passed! Once again the soldiers are to be allowed to bathe in the warmth of the beautiful Miami sun, breathe its cool night air and swim up to their own accord without having to go to school. On a small scale, we have learned the meaning of liberty and privates, let me tell you right here and now, it’s somethin’ worth fighting for.

Wheelers’ Woes
I realize most of you know little about heat treatment of metals—truthfully, so do I. However, since this was the extent of my association with the above mentioned subject, I, in the name of the Army, hereby transfer all knowledge to the A.S.T.M., the producers of A.S.T.M. Standards.

Military Discipline
Oakes, Morgan and Thomas, the three musketeers. I don’t know what they did, but I’m pretty sure they won’t do it again. That drilling exhibition they rendered under the tutelage of Sgt. Wood was conclusive enough proof that “it wasn’t worth it.”

Say, Corp. Smith, with what powers exerted did you manage to come in possession of such a vivacious damsels with the Titanic dome Saturday night?

Well, privates, that’s it for now except to state that we were all sorry to see Sgt. Woods drop his activity as our leader. We thought you did a swell job while you were in there pitching for us, Sarg.

...with equal justice for all!

Not knowing exactly what to say they just nodded their heads. After a while a bright idea came to them! They called the Municipal office and after explaining everything, the conversation ended something like this—“by the way, we reversed the phone call charges and for heaven’s sakes get that clearance here. We’re all broke.” Fellows, beware—when going on a cross-country trip—take your checkbook with you!

Jack McKay, Jr., seems to like the time adding machine—especially when he makes a mistake and can’t find it—he just sits there looking at the poor little, helpless thing with such love light shining in his eyes.

Fashion Note!
Something new has been added in the way of the new summer uniforms (navy-blue for the gals information) of Pat Werder, Helen Ferber and Mary Brooks. The women are always one jump ahead of the men. Well, we think so anyhow.

Instructor Tinsley’s last landing Thursday was on one wheel. Guess he’s just being patriotic by saving rubber or something.

Things ‘n Stuff!
Winning the “Flying Jackass” last week was Fred Grossherz who landed at the right place at the wrong time... and held up National Airlines for five minutes!

We welcome Ethel Hazlett to our office staff. Robert Wyatt is the newest addition to our Primary and Secondary Instructor staff. He hails from Atlanta, Ga., and he’s single, girls.

Tickets for the School Party this Saturday evening at the Deauville can be gotten from Mr. Gibbons or the office girls.

Congratulations to Hall Gruff and Lester Hudson on passing their Commercial Flight Tests.

Little Jack Little has been pinch-hitting for Fred Bull who’s been ill.

“Panther” Fouche, or just call me “Foo”, was out a half day last week, sick he said, but we wonder if it could be those calcium pills.

Our little haven has been really running helter skelter with Inven­tory going on. We DID enjoy hav­ing Mr. W. B. Arthur and Mr. John Brooks, though.

MENTIONING MUNICIPAL

by “The Gang”

Well, here we go again ‘cause there is still no sign of Betty Haire. We heard that she was over taking in some of the glorious sunshine at the Beach, Sunday. Sounds though the gal is really on the way back— to the office!

No Credit Balance in Jax!

Instructor C. W. Tinsley, Charles Hon, Vernon Bragg and Lawrence Glover had a new experience last week. It seems that they started off to Jacksonville bright and early one morning without the proper clearance. They landed in Jax and handed the “clearance” to the office there. After he looked at it quizzically for a moment, he told them that they could not return to Miami until the Jax office received a proper clearance.
MATERIEL CONTROL NEWS

Materiel Control Department has a new reporter who is starting his career as a newsman with the same old vow. From now on all the news and scandal of this department will be reported faithfully until something happens to interfere with the schedule. So, on with the news.

Scoop!

The biggest news of the day, and somewhat of a scoop is the fact that the genial head of our department, Mr. B. H. Buxton, formally, and "Buck" informally, slipped off to Fort Lauderdale on Monday of this week and got married. Yep, he fooled the bunch of us. The bride was the former Vivian Hotchkiss of Miami.

Salvage Waste for Victory!

The second largest change in the department was the formation of a reclamation unit and one of the new men in the fourth floor stockroom, Mr. Stewart Dubols, was put in charge of it. The whole unit was then put under the authority of Mr. Gile, and that relieves us of at least one headache.

Personnel Changes—All Units

The changes in personnel, of which there are plenty, we will discuss in the order of the various stockrooms. First, the Fourth floor, or Sheet Metal Stockroom, in Miami, Eddie Baumgarten, who had been Chief Store clerk, was transferred to the Materiel Control office to take over the duties of hand-ling the new Stock Catalog. He was replaced by Edward Clement as Chief. Tommy Whitehead was transferred to the Main Floor Stockroom, and Gene Caswell went back to Blanding with the Medical detachment at that camp. Charlie Shepherd, formerly a runner, was sent to this Stockroom and a new man, Paul Taylor, was hired to complete the complement. And this is just the beginning.

The Instrument Stockroom comes next. Lew Pollock, who had been working part time in this spot, was put on full-time and Bill Davies was sent into the Sheet Metal Stockroom.

Another runner, Charlie England, was transferred to the Main Floor Stockroom.

Municipal

Out at Municipal there was a little bottleneck when two of the regular men went out of circulation because of illness and Jack Little, who seems to be the trouble-shooter of the department, took over until these men came back. The two invalids were Fred Bull and Chenault Elmore and we are glad that everything is all right again.

Eugene Kelley was transferred from Main Floor Stockroom to Card Clerk in the Materiel Control office.

Cleveland

At Cleveland there were a few changes: Stuart Weaver went from the Stockroom to the Maintenance department and was replaced by Donald V. McKay, Jr., who, incidentally, is no kin to Vice-President McKay. Also, Eugene A. Davis was sent to the same Field to take charge of the Mess Hall Stockroom.

Carlstrom and Dorr

Another Davis, William M., is a new character in the Maintenance Stockroom at Carlstrom Field, and Martin Avery, Jr., was transferred from Dorr Field to Carlstrom to undergo special training preparatory to assuming his duties there. E. J. Matthews replaced Avery at Dorr.

The past week also saw the hiring of the first Post Supply employee at the new Union City Field. He is Jimmie Jamison and we hope he likes his new job.

Our "Family Bus" Grows Up

Of special interest to those who like to travel is the news that the new 11-passenger, streamlined bus went into operation on the Embrey-Riddle run last Sunday. Genial Andy Andrews vows that the difference is so pronounced that he could almost be persuaded to work for half his present salary. Paymaster please note!

Johnny Galbraith reports from the Naval Reserve Supply Corps that he is working hard and playing hard and has the situation well in hand.

DO'N'T FORGET!

Remember the School Party at the Deauville this Saturday evening, May 9th, from 9 to sometime or other; dancing inside and outside on the Clipper Deck; feature entertainment including 'Jock' Birrell with his bagpipes and community singing of the 'old timers'; free supper at midnight. Tickets a buck a man, drag or stag . . . and plenty of fun for all! Don't miss it . . . come early and stay late.
