L3 Aviation Products: As Diverse as Aviation Itself

Todd Scholten
Fleet Sales Chief Pilot, L-3

Follow this and additional works at: https://commons.erau.edu/ntas

This Event is brought to you for free and open access by the Conferences at Scholarly Commons. It has been accepted for inclusion in National Training Aircraft Symposium (NTAS) by an authorized administrator of Scholarly Commons. For more information, please contact commons@erau.edu.
AS DIVERSE AS AVIATION ITSELF

L3 Aviation Products

ACSS • Aviation Recorders • Avionics Systems • Display Systems • Electronic System Services
$13B+ large-cap Defense Company

Fortune 150; S&P 500 Company

Prime Contractor in C3ISR, Government Services & Aircraft Modernization

Supplier of Subsystems & Products

Diverse business base with good sales visibility

Over 70 businesses with approx. 51,000 employees worldwide
ADS-B Mandate

- Consists of two different Services
  - ADS-B Out – Minimum requirement
    - UAT Out (below 18,000)
    - 1090 ES (all altitudes)
  - ADS-B In – Adds features
- Intended to replace radar
  - Integral to US NextGen airspace strategy
- Hardware required
  - Rule compliant position source (GPS)
  - ADS-B unit
- Required Equipage (US)
  - All aircraft flying in the US National Airspace by 2020
L-3 APS Solution to ADS-B Equipage
Reasons to Equip with ADS-B

- Reasons aircraft operators will select an ADS-B In/Out solution:
  - Traffic
    - The traffic picture used by air traffic control will be available in the cockpit
  - Weather
    - Weather reports and radar available through Flight Information Service (FIS-B)
  - Terrain
    - Terrain information available to pilots
  - Flight information TFRs and NOTAMs broadcast to aircraft

- Mandate
  - All aircraft flying in the US will be required to be equipped with ADS-B by 2020
  - UAT Out is the minimum requirement for aircraft that fly below 18,000

- Get ahead of potential backlog as mandate approaches
L-3 MultiLink Surveillance System

- Family of affordable ADS-B focused solutions
  - Remote mount
  - Panel mount
- Integrates key elements for easy installation
  - ADS-B In & Out
  - Mode S ES
  - UAT
  - Embedded GPS
  - Active Traffic
  - ATAS – NEW!
  - TAWS- NEW!
- Reduced Weight
- Low Cost
TAWS
ATAS

- Formerly referred to in development of the MOPS as TSAA (Traffic Situational Awareness with Alerts)
- Includes 2 methods of providing alerts
  - With display
  - With only light and audio
  - Requires only the use of ADS-B information
  - NGT-9000 uses display and audio
Lynx® MSS Capability

- NGT-1000 UAT OUT
  - Rule Compliance

- NGT-2000/2500 UAT IN/OUT
  - ADS-B Wx & Traffic to iPad

- 1090ES Transponder
  - ADS-B Wx & Traffic Display

- 1090ES Transponder +
  - Active Traffic (TAS)
  - ADS-B Wx & Traffic Display
L-3 ADS-B Solutions for Flight Schools

- Lynx® Advantage
  - Common equipment for all aircraft minimizes downtime
  - Extensive AML STC includes all popular trainers
  - Single box “one and done” solution
  - No other expensive changes needed to other avionics
  - Unmatched field support
  - Customized proposals to match your fleet needs
  - Installation support and training
  - Three Year warranty
