Riddle Ranks in NAIA

Press release from National Association of Intercollegiate Athletics.

Eleven of the National Association of Intercollegiate Athletics (NAIA) Soccer playing schools remain undefeated after the first month of action with all 186 Soccer playing schools vying for one of the eight berths in the NAIA National Soccer tournament finals in Dunn North Carolina, Dec. 1-4.

The winners of the eight NAIA Area Tournaments will advance to the single elimination National finals.

Present contenders for Area honors, after the first month of play are:

AREA I - Whittier College (Calif.) 5-0-1; Pomona College (Calif.) 4-1-1; Westmont College (Calif.) 3-1-1. (Westmont finished sixth in NAIA finals last year).

AREA II - Ottawa University (Kan.) 7-1-1 (Ottawa finished fifth in finals last year).

AREA III - Blackburn College (Ill.) 6-0-0; Quincy (Ill.) 6-1-0; Platteville State (Wis) 3-0-1; Greenville College (Ill.) 3-1-0; Macalester College (Minn.) 4-2-2; (Quincy finished second in finals last year).

AREA IV - Marion College (Ind) 7-0-0; Spring Arbor College (Mich) 4-0-0; Earlham College (Ind) 3-0-1; Goshen College 4-1-0; (Earlham finished 8th last year).

AREA V - Campbell College (N.C.) 5-0-0; Erskine College (S.C.) 4-0-0; Embry-Riddle (Fla) 4-0-1 (Campbell finished 3rd last year).

AREA VI - Morris Harvey (W.VA.) 5-0-0; Indiana Univ. (Pa.) 4-0-0; York College (Pa) 3-0-0.

AREA VII - Newark College of Engineering 6-0-0.

AREA VIII - Keene State College (N.H.) 8-0-0.

DANCE TONIGHT

Ah yes, it's finally here! Tonight is the night - The Monumental Masquerade Ball...

Everyone is welcome, but you have to have your Riddle ID. It's a costume affair, but those who must be in "civies" are welcome too (although a costume might win you a water bed). We might have one for a door prize. We are spending a lot of your money on this. Why does not everyone go out, get a bottle of your favorite brew - we'll have some mixers - call your favorite girl (and all her girl friends) and come down to the Desert Inn. Everything is there for a good time.

Further on is Greek Week, just 2 more weeks away. On that Saturday the BBQ starts at noon on the Soccer field sideline. The Soccer game follows on the BBQ's heels at 12:30 with the hung over Frats starting their game immediately afterwards, approximately 2:30.

If anyone is still standing, the movie "Hotel" will be shown about 7:00 PM.

A reminder that the Kissemee air show is next weekend and the Bunnell air show is the week end after that.

Jim Owen

Fri. Oct 29  Halloween Dance
Sat, Oct 30  Soccer at U of F
Fri. Nov 5  ERAA meeting
Sat & Sun  Kissemee
Fri. Nov 12  IPC Beer Bust
Sat. 13  Soccer vs Georgia College

Speaking Out

The AVION reserves the right to edit letters as we see fit in accordance with good journalistic practice. All letters must be signed, although names will be withheld upon request from the writer.

Presidents Corner

For those of you who haven't heard the Avion's budget was cut, and I felt that in order to save them money I would hold onto my article until I felt I had something worthwhile to say.

In cutting the Avion's budget it was felt that with their income derived from advertising, they could more than cover their costs with money orginally allotted them. This was not a decision by a committee of one. The people you elected are looking out for your interest (spelled m-o-n-e-y). Perhaps the Avion would rather borrow the money from either the SGA or the school and sell the paper to you the students, and if your interest in it is as great as the individual cost then they could cover their costs that way. (Maybe even make money)

A slight comment on a remark from a previous issue. I had asked the chairman of social functions to check on some "name" bands and evaluate our ability to hold a concert. He became upset because of certain "name" bands and performers I liked (e.g. Cat Stevens, Carole King, etc.) Granted our budget may not be able to handle really big name entertainment but it's impossible to tell if no work has been done - and with cooperation from other schools?

For those of you who frequent some of the "head" shops around town maybe you've seen The Oracle of Victory, a new magazine made in and for Florida. It's really refreshing reading an "in this writer's opinion" you should pick up a copy and dig into it. It's not underground or establishment - in fact I don't think it could be easily classified at all. But if you're interested in yourself, your enviraiment, food, sex or whatever - do yourself a service and read it. If you can write they are also looking for contributors in the way of articles of all types this can give you an added avenue of expression. If you don't have time to get involved, read the opinions of some people who do.

Speaking of writing, note the Mainframe is going again and soliciting articles. If you are the literary or artistic type contribute. Till..."later?"

SGA President

The U.S. Marine Corps Officer Selection Team will visit here Nov. 1-2. The Selection Officer will interview and test any students that are interested in any Marine Corps officer training program. Anyone interested should look for the Officer Selection Team in the Student Center on Nov. 1-2.

SANDS

by Jan A Nelson
Senator AMM

Do you like to give your money away? Dealing with Sands Vending Company may be considered as doing exactly that.

When I first enrolled at Embry-Riddle, I was taken in by the roles pitch offered by them about all the good they did for the students. Later, after serving two trimesters on the SGA, with one of these trimesters as Chairman of the College Facilities and Food Service Committee, I saw firsthand how exploitive and understanding of the students needs they actually are.

During this period, under the guise that Sands will improve the quality of food offered through the vending machines, prices were increased on most items. This price increase served to line the pockets of both the school administration and Sands Vending Company with no visible benefits for the student.

In an effort to stabilize prices a solution was offered by Sands. A final price increase of

Did you know that the new SGA Constitution is so liberal that it changed ERAU's school colors to those of Bethune Cookman College.
I will begin by stating the facts I gathered; the facts will speak for themselves.

The student body has decided that they are not going to submit to the planned reduction of services for next trimester. The student body has decided that they had had enough. The student body has made it clear that they will no longer accept the dubious outfit. Only then will the student body believe that the status and service they pay for are worth what they are paying for.

The student's attitude of this, besides one of apathy, was one of disgust. Boycotts were planned and threats of supplies were actually accomplished. To counter this Sands imported a team of executives from Atlanta to convince the students that they were actually losing money by operating at Embry-Riddle. As written in the contract between the school administration and Sands Vending Company, the College Facilities and Food Service Committee was prepared to inspect the machines according to Florida State laws governing sanitation of vending machines. The SGA was also prepared to dispute the written contract that was set up when Sands first installed machines on Campus for three major short comings:

a) Hostess, school day hours
b) Additional machines (coffee)
c) Non-profit, no cut to school (lower prices)

With the beginning of this trimester, an additional hostess has been provided at the academic complex. Machine maintenance and cleanliness has improved considerably.

I say to you from past experience that we can expect that Sands will request some type of retribution be made. Whether it is a price increase, a more lenient contract, or a reduction of services remains to be seen.

As a concerned student and also as an SGA representative, I beseech you to support the efforts of your representatives in dealings with the school administration and this dubious outfit. Only then will the student body believe that the status and service they pay for are worth what they are paying for.

**After walking through the halls and hearing various complaints about the new crop of "lousy" instructors and having the same feeling, one begins to wonder what is the problem. After attending ERAU for three years, and seeing one batch of "lousy" instructors after another come and go I began to ask myself where the real problem lies. It is this writers opinion that the problem lies with those in the position of hiring these people.

After the usual three of four trimesters of student complaints about an instructor, the one is usually dismissed only to have another loser hired.

Now the only foreseeable answer to this problem is the same as a gardener might have with weeds. If the gardener wants to get rid of the weeds he does not cut off the top, he pulls them out by the roots.

I suggest that the next time you feel like complaining about having an instructor dismissed, you stop to analyze where the real problem lies and proceed to pull it out by the "roots" - those in the position of hiring. After all, your paying their salary.**

**Editorial Name Withheld**

A special meeting of the SGA Senate was held this past Tuesday for the apparent purpose of proving how superfluous the Senate is. Much legislation was referred back to committees, most of which had not been formed at the time the legislation was initiated. This is why the legislation appeared on the agenda in the first place. Of particular interest was legislation that was referred to an ad hoc committee that does not yet exist, but whose formation will hopefully delay any changes in the SGA By-Laws as long as possible. Certain drafters of the new SGA Constitution and By-Laws once stated that the only people interested in changing the new Constitution and By-Laws were those who had something to gain. One wonders how much these aforementioned individuals hope to gain by objecting to so many proposed changes - perhaps election to the Presidency in November?

An added highlight was the discussion of school colors, during which the Senate underwent a metamorphosis from a Senate conducting itself with proper decorum to a Committee of the Whole conducting itself with improper decorum back to a Senate again. The real showstopper was the argument over changing the school mascot from "bald eagle" to "American eagle". Apparently the Senate favored the possibility of their mascot being referred to in the future as "old Baldy". Whether it's a bald eagle or an American eagle, Senator Superfluous certainly deserves the "bird".
safety tips
by Curtis J. Poree, Jr.

How much longer is Line AX than AY?

Answer: They are both the same length although AX, because it is part of an optical illusion, appears to be longer. Approach, a U.S. Navy safety magazine, points out that optical illusions can lead a pilot into danger. For example, the width of a runway will appear shorter than a narrow runway of the same length. All pilots should learn to recognize an illusion and compensate for it.

Look!

If there are any of you interested in letting your imagination run, free for awhile - let it! We have a need for the tiniest bit of your view of this world of ours. Should you choose to explore the fascinating world of poetry, prose, or art; let us share in your secret. Give others a fleeting moment of joy from your personal appraisal of life.

Let the Main Frame publish you! Turn in your contribution to this student publication, to John Foster, Box 4344, Jim Garret, Box 4354, or room 123 in the academic complex.

COMMENT ON PLEDGE PROGRAMS

It is hoped that the following will not reflect badly on any fraternity on campus. The thoughts and opinions are entirely my own. Last week during lunch at the student center, loud orders were being given to someone across the room and more than a few heads turned to see what was happening. A "pledge" was being harshly reprimanded for a trivial mistake. As I watched his face flush and then redden because of the embarrassment of his public display, this article was decided upon. Having been twice a pledge and once a former pledge master I felt qualified to offer the following constructive criticism. The above immature "brothers" have demonstrated by their actions that they know little of "pledge psychology" (dispite the fact that they were once pledges also) and how deeply hurt a pledge can be made by such displays. The military drill instructor method of tearing down and building back up is not the Greek Way. A true fraternity aids pledges in improving the good qualities they already have. The result of hazing (an illogical test that proves nothing) can only be disillusionment and self-conscience. The result of sincere friendship can only be the brotherhood that is the main goal of any worthwhile pledge program. The strong bonds of friendship that exist past undergraduate years are only made by how much you give to your pledges and not by how much they can take. There are some very worthwhile fraternities on campus both social and professional. Their pledge programs are conducted in a mature manner. Incidents like the above are detrimental to us all.

Sigma Phi Delta

Many of the brothers traveled to New York this week to the wedding of Brother Steve Ellis. Congratulations Steve on the "Big Step".

As a result of the wedding, the football game between Sigma Phi and Sigma Chi has been postponed till this Sunday. It will be played as part of a Double Header following the game with undefeated Delta Chi.

Refurbishing of the South House Bathroom began Saturday. The old flooring was replaced and new tile laid to replace the old. It seemed a short but very busy week for the Brothers.

Fraternally yours, Sigma Phi Delta.

Delta Chi

Everything seemed right for a party. So last Friday we had one. It was a lot of fun and all of our pledges and little sisters were there, too! Bill Nixon came out on the bad side of a new game (to us) called Shom B'm Shalom (is that close, Mike?). It's a really interesting party game and all I can say is you have to be there to appreciate it.

Saturday was clean-up day. The pledges and brothers who came did a fine job of rejuvenating the rug and floors. It really needed it after Friday night's episode.

This time we've got it all organized and barring any rain, the pledges are having a car wash at the Sunoco station on Volusia and Ridgewood. So for a dollar, Gamma pledge class and the brothers, will have your car cleaned inside and out. Come on over and let us show you.

Sunday was football day. And a tough game indeed! Alpha Eta Rho's defense was good enough for a 6-6 tie for 7/8's of the game. Mike Harvey scored the first T.D., but then with a minute and a half left, Paul Barry broke through for a long run and winning touchdown. Final score Delta Chi 12, Rho 6.

It looks like Ship is on his way to becoming our first ace. He now has 2 kills. Rho's quarterback suffered a cut above his eye. I hope it wasn't bad. Sometimes it's hard to believe this is only flag football. However, our record now is 5-0. Be sure to come out for the big game this Sunday and watch Sigma Phi Delta, in second place, try to blemish our record.

Did you know noise pollution can be harmful to your health?

See ya next week.

Sigma Chi

Sigma Chi Pledge Class

by Harold Kennedy

The Sigma Chi pledges are getting under way with class projects. Among the items which came to our immediate attention were the swimming pool diving board, and the house sign. Also, we plan to build a brick BBQ or erect a white cross (the Sigma Chi symbol) for our own personal contribution to Sigma Chi.

Class assignments are getting harder, but observing the determination among the pledges to become brothers they are completed with a goal in mind.

Alpha Eta Rho

The great chief pilot of AHP inducted eleven new members into our ranks this past weekend. The new brothers are: Ed Andrews, Ralph Azarian, Ed Bular, Keith Cober, Mike McCarthy, Bruce McKeon, Bill Goldstein, Clay Owen, Stan Paine, Bob Peterson, and Les Williams. Best of luck to our new brothers.

Sunday marked another tragedy in the continuing saga of the AHP eight. After priming our offense with a 37-7 thrashing of the pledge class on Saturday, we just couldn't raise enough steam on Sunday. Delta Chi did us in 12-6 but we didn't go down without a fight. For awhile it appeared that a 6-6 standoff was in the making but a last minute game-breaker by Delta Chi mount the difference.

Not much news from this side of the fence, so till next week, farewell.

THE ALPHA ETA RHO'S NEW BROTHERS
Congratulations to Charles H. Whitten, newly elected member of Alpha Rho Omega. Charles graduated from East Coast Aero Tech with an A&P license and is presently enrolled in the BS of AMM program.

The drawing for the raffle is November 5 at 12:45 PM in the student center. There are still plenty of tickets available. Contact John Kamerosky at the meetings.

Bob Barresi and Jan Nelson report that progress is definitely being made in the fraternity's meetings. Jim DeJugienio, Skip Dawson and Ken Allen are all showing signs peculiar to the old man brothers.

I forgot last week to include that we had the most blood donated in our honor, 145 pints, thanks brothers.

Young Republicans

The ERAU Young Republicans had elections at last Friday's meeting. The new officers are: President: Skip Dewson and Ken Allen. V.President: Roger Moody Secretary: Bruce Terrell Corresponding Secretary: Bob Haley Treasurer: Ray Hanson The Corporate Income Tax referendum was discussed and debated. We felt that a reprint of a recent YR article would be pertinent to the rapidly approaching vote.

The Corporate Income Tax is a hot political issue in Florida. Governor Askew ran on the basis that he would institute such a tax. The Legislature has put the matter up to us, the voters, for a referendum in November. The facts are obscured by emotionalism, flag waving and name calling, but we have endeavored to set up sides on the issue on a pro and con basis.

What is the proposed Corporate Income Tax? It is a taxation that would tax the net income of corporations by 5%.

Pros:
1. Florida has one of the most inelastic tax structures in the US, i.e., the tax will not keep up with growth.
2. Florida has a regressive tax structure that makes middle and lower income families pay a higher proportion of their salaries for taxes (7th most regressive in the US).
3. Florida taxes large corporations at the next lowest level of all the states (27% per $1000 as opposed to national average of $6.51), and their consumers at a higher amount of business at one of the highest.
4. The tax could not be passed on to consumers because it would be deductible from Federal tax and therefore the whole nation would finally pay. Example: A car bought in New York or any of the other 43 states that have a corporate income tax, costs the same as in Florida, yet General Motors pays $10 million dollars in New York taxes and only $1,500 in Florida.
5. The tax is already so widespread that it would not affect economic growth of Florida. Other considerations would play a larger role such as climate, availability of skilled labor and natural resources.
6. The tax is on a basis of ability to pay...no profit, no taxes. The bill as proposed by Askew, calls for a first $5,000 exemption to it, thus taking the bite out of the tax to small businesses. The most widely spread argument is the fact that large, interstate corporations will bear the majority of the tax.
7. The tax is the best solution to Florida's revenue crisis.

Cons:
1. This tax is the first step toward a personal income tax. Of the 43 states that have a corporate tax, all but two also have a personal income tax. So, corporate tax today, income tax tomorrow.
2. A tax of this nature would cause higher prices. The corporations have the option to either raise prices, or absorb the loss. What they will do is obvious.
3. The tax will lower dividends for shareholders, 1,242,000 persons in Florida. This included the profit sharing programs of many companies.
4. With tighter belts due to this new tax, industry will be discouraged from new hiring, an already major problem in Florida and most other states.
5. The majority of the corporations in Florida are small to medium sized. The "corporate giants" the proponents refer to will in fact be little affected. The reason is that you rarely ever do business with the corporations. When you buy a car, you buy from a local dealer, not actually GM or Ford. The handful of large corporations that would pay are offset by the thousands of local corporations.
6. The taxes would be piled on top of each other in many instances. The producer would be taxed, then the wholesaler, then the retailer, thus raising prices three times for the three incomes taxed.
7. The monies could be raised by other means, for instance trimming of state employees (Florida ranks third in employment of government workers). Also there is a levelling off of school requirements with fewer school age children coming into Florida's school system. And, finally, the Disney World boondoggle hasn't been considered. The 80,000 new jobs 27,000 new hotel rooms all will bring in new tax revenue.
8. A long range tax prediction is necessary, not yearly tax raises with little direction and responsibility.

The YR's will be having a number of events both political and social, if you would be interested. Drop a note in the Young Republicans box, ERAU Box 1507.
Coed Spotlight

Our bright new Co-ed from Beirut, Lebanon is Renee Constantin. She has been here 3 months and is planning on staying 2 yrs. Renee is in the Management program and hopes after graduation to go back to Lebanon and work at the Beirut International Airport. Her father is the Director of Customs there.

Renee speaks 3 languages- Arabic, French, English, and a little Italian.

Her hobbies are music and Lit. When asked how she likes Daytona Beach, she said, "I don't see much in Daytona Beach- from school to home and from home to school. I saw Walt Disney World- It is a marvellous dream." While here she is living with her brother Cesar, who attends ERAU and studies AMET.

She says "People here facilitate many things by their smiles and by their kindness."

We extend a warm welcome to Renee, and hope she enjoys her stay here.

Have you thought of flying to Panama for a cross-country flight or vacation? (long way??) Only two and a half Cessna 172 hours away to the Northwest, Panama City, Florida offers beautiful beaches, excellent boating and fishing waters, hunting areas, roaming with small game and numerous inner-city amusements. This area of Florida offers some of the last of the truly natural open wildness unspoiled by pollution and population.

The Florida Outdoor Writers Association (F.O.-W.A.), a conservation minded organization, met there in Panama City October 15-17 to discuss environmental Pres. problems. Officers of the Grand Lagoon Company were present, developers of Bay Point- (Bay Point?) Bay Point-- Panama City's $100 million bay front residential-recreational development, to open in June 1972.

The writers were treated royally and took advantage of the great fishing in that area of Florida. Our own Dr. Herbert P. Riggs of the Daytona Beach area, Pres. of F.O.-W.A. and author of "Pow-er and Sail" (DBNU) hauled in a nice 33 and one third lb Red Grouper to take the lead in that division of the Panama City fishing tournament to end at the end of this month. Roy Martin runs wild in that area of Florida fishing the calm water of the Gulf with much success. Roy boasts 29 World fishing records. Roy Martin, along with many others of the area, showed the writers what that area of Florida is all about and gave them new insight of the meaning of "Southern Hospitality".

Wayne Erickson

Placement Office News

The Marine Corps Recruiting Team will be visiting the ERAU campus on Nov. 1 and 2, from 9 AM to 3 PM, at the Student Center.

Local Employment: for those student wives that would be interested, we have two full time positions in the local area. One position is for a full time permanent legal secretary - with experience. The other is a secretary-receptionist position for a brokerage firm, that also is full time.

A local restaurant needs 3 set-up boys for night hours. An equipment shop needs a small engine repairman-flexible hours.

Local store needs stock and sales clerks for part time work now and there are also positions for full time clerks during the Christmas holidays.

An automotive center in South Daytona needs an experienced auto mechanic - late afternoon and evening hours.

Local hotel needs waiter and a busboy - for evening work.

Also in our employment files for this week are openings for restaurant helpers, carpentry work, service station attendants, delivery man, salesmen, and various other opportunities. Stop in at the Placement Office if any of you are interested.
**SPORTS**

**SOCCER**

Last Sunday, the Eagles made the trip of the season when they flew on board the DC-3 (ER N1213M) to Tallahassee. They had a tough match compared to the show they offered the Saturday before against FIT. Still, they didn't stop them from conquering the Seminoles (FSU Soccer team) by six goals against a single one.

The Eagles started with the usual formation except for half of the forward line where the reserves took over to test the opponents' defense. Ten minutes later they were replaced by the strikers who showed their ability by scoring four goals before the end of the first quarter.

The defense line was as solid as ever especially with the return of Ed Forst in goal after being absent for two weeks due to injury. The middle line was controllable but kept the ball a little bit too long and didn't entertain us as usual with their 1-2 passes.

**GOLF**

We played our return match with St. John's on the 21st, and lost—honorable, with a score of 306 to 321. Almost half of the difference was due to one of their golfers who shot a fantastic 72; the other contests had only a 1-3 stroke difference.

The greens were in deplorable condition, and we lost most of our strokes through difficulty in judging putts. Overall, our golfers played the best game of which they're capable—no complaints.

---

The attack scored half a dozen goals but could have done much better.

As a whole, the match was rated just below average and needed more excitement.

The first goal was achieved by the highest NC AA scorer for this season up till now (2. Fagbemi #10) who also missed an open goal. A. Shivji #4 added another one, so did A. Akwadibonye #40 scored a hat-trick (3 goals) the last of which was very spectacular and tricky. Both the Rungaang brothers had a wonderful game, Charlie #21 as a tough full back and Rex on the left wing who shot a 20 yd bomb at the foe's goal line, but extreme luck alone was able to save it from tearing the net and declaring the 7th goal.

The Eagles record stands 4-0-1 at the moment, and we hope they will keep it up.

Next match will be tomorrow at Gainsville where they will meet the University of Florida.

On behalf of the Soccer team I would like also to thank the pilots of the big bird who were able to supply the team with a smooth enjoyable trip.

Thank you.

---

The ERAU Sport Parachute Club is proud to announce that our administration has offered to sponsor us in the upcoming inter-collegiate sport parachuting meet to be held in Deland over the Thanksgiving Holidays.

Without their help we could not represent you in this thrilling sport event.

The way things are shaping up it looks like this is going to be a fun trimester. If you're not doing anything Tuesday night at 9:00 drop by the Academic Complex, room 117, and sit in on one of our meetings. You'll find the atmosphere quite friendly. We have a custom in parachuting that requires anyone who has dropped thin ripcord (after pulling it) to purchase a case of beer for the enjoyment of everyone. Why not join us out in Deland some weekend. You'll be able to pick us out immediately. We'll be clustered about the drop zone with a thirsty look on our mugs just waiting to pounce on the dude who drops his ripcord. See you around.

Student Aid Fund grants are going to be given away by the S.G.A. this trimester. Applications can be obtained from the SGA in their office. Deadlines for applications is November 12.
FOOTBALL
by Scooter

In the opinion of this reporter, this season on the flag football field has pretty well taken shape. Just last week I was having lunch with Coach Wurzbach, ERAU's Athletic Director and talented basketball coach when the following facts were brought to light.

Last years champions, the ball control Jets are once again on top of the standings with the expansion Bushmasters only half a game behind. It is with caution that I dare pick a winner at this point. Both clubs are undefeated and will meet on the championship field Nov. 7, all this barring an upset this week. Following the top two are the Riddle 69's, another group of un-tapped talent, they will be a team to watch next year. Standings as of October 24 are

Jets 4-0-0
Bushmasters 3-0-0
Riddle 69's 2-2-0
Northerner's 1-2-0
Cowboys 0-2-1
Sunshine Company 0-2-2

The Frats are still hard at work but as in the Intermural League, a definite trend has been set. As last year, the Jet led Delta Chi team leads the league followed closely by Sigma Phi Delta. The standings reveal:

Delta Chi 5-0-0
Sigma Chi Delta 3-1-0
Alpha Eta Rho 1-4-0
Sigma Chi 0-4-0

BASKETBALL
October 21st was the set date for the turn out of the "new" Eagles basketball team. The meeting was at 6:00 and many interested students attended.

The team doesn't seem to have the regular height as the other average teams, but the Eagles do plan to have a good season.

The games will be played at Mainland Jr. High School. The Eagles will start with some tough scrimmage matches against DECC and Bethune Cookman two weeks from now. The result of these games will determine the future record of the ERAU basketball team.

Practices are daily (except Sundays) at Mainland Jr. High School at 6 PM.

The fifth regular meeting of the SGA Senate was held today in Room 108 with all present except the following: Fred Arbab, Randel Neimann, Tom Paradis, Gary Rosmini, Bob Thams, and Wayne Wedlake. The meeting was called to order at 1:15 by Vice President Jerry Nichols. The minutes of the previous meeting were accepted as written unanimously.

President's Report. President Dan Smock stated that thought is being given to joining a student lobby. Delta Chi and Mr. Campbell are working on the Peace Corps' school-building project. No communications have been received from the Florida Student Congress, and since this organization does not seem very worthwhile, the ERAU SGA has not paid its dues. Newsreel-type documentary films are available and might be shown with regular SGA feature films.

Second Vice President. Hank Cothran reported that President Smock has selected the following students to serve as members of the new Faculty-Student Conduct Committee: Ed Raymond, Ralph Azarian, Hank Cothran, and Richard Malboeuf.

Social Functions. The Halloween Masquerade Ball will be held at the Desert Inn, Friday, October 29, at 9 pm; BYOB and ID. Prizes will be given for the best costumes.

Internal Affairs. Rick Spicer recommended presenting Alpha Rho Omega with a special plaque for their assistance with the Blood Drive.

Legislation.

Senate Bill 71-S-5 - returned from Social Functions Committee:
The SGA activity fee shall not be a guarantee of entirely free social functions. Passed, 17 for, 3 against, 4 abstaining.

Senate Bill 71-S-1 - An Ad Hoc committee shall be formed to establish a "career day" on campus. This committee will operate under the jurisdiction of the HEW Committee. Passed, 24 for, 0 against, 1 abstaining.

Senate Bill 71-S-2 - All elected members of the SGA shall receive a certificate of recognition once per term of office. The certificate shall state his name and the office to which he was elected. Passed, 23 for, 2 against, 0 abstaining.

Senate Bill 71-S-3 - An Awards Banquet shall be held once a year, during the spring trimester, for the purpose of recognizing those students who participated in extracurricular activities supported by SGA funds. Passed, 19 for, 2 against, 4 abstaining.

The meeting was adjourned at 1:15 pm.
