For forty years the name Embry-Riddle has been synonymous with excellence in aviation education. In 1926, John Paul Riddle and T. Higbee Embry joined to form the Embry-Riddle Company and began operations in Cincinnati, Ohio. In addition to the formation of schools for flight instruction, the Embry-Riddle Company established the nation’s first air express line in 1927, sponsored public air shows, and was generally involved in the transportation of cargo, airmail and passengers. In 1929, Mr. Embry and Mr. Riddle sold their airline operations to a new company which is known today as American Airlines. Mr. Riddle remained with American Airlines and Mr. Embry moved to California.

In 1939, the Embry-Riddle Company was reorganized with Mr. John Paul Riddle and Mr. John G. McKay as partners in the operation of a seaplane base in Miami, Fla. Mr. McKay, a prominent Florida attorney and a former Army Air Corps Lieutenant, had great enthusiasm for aviation.

The pilot training program which was inaugurated by Mr. McKay and Mr. Riddle brought an appeal from Army Air Force General H. H. Arnold, for help in building up the Army Air Corps.

Training contracts were awarded to the Embry-Riddle Company in 1941, and Embry-Riddle was deeply involved in the training of Air Force pilots in Florida and in Tennessee. Embry-Riddle also trained more than two thousand Royal Air Force Cadets in Clewiston, Fla. During this period, Embry-Riddle made aviation history by flying a total of six hundred and fifty thousand hours, with only one accident.

Under State Department sponsorship, Latin American students were sent to Embry-Riddle for technical training. This program, ultimately led to the establishment of the Escola Tecnica de Aviacao de Sao Paulo, Brazil, in 1944.

In 1944, Mr. McKay became the sole proprietor of Embry-Riddle and its interests in the United States. South American interests were retained by Mr. John Paul Riddle and others.

In 1946 Embry-Riddle, at the request of the Free French Republic, trained French Naval Cadets at Homestead Air Force Base in Florida. At the same time, Embry-Riddle joined in the nationwide veterans rehabilitation training program. This involved increases in instructional personnel and facilities to handle this growing number of students. At this point, Embry-Riddle utilizing its facilities at the huge Opa Locka Airport, Dade County, began training pilots and technicians to meet the needs of business and commercial aviation.

In the operation of the school, Mr. John McKay was actively assisted by his wife, Isabel, from 1945 until his death in 1951. Mrs. McKay assumed the Presidency of Embry-Riddle and continued in that post for thirteen years. Mrs. McKay became the first woman to serve as a director of the Aeronautical Training Society. Under Mrs. McKay’s leadership, Embry-Riddle’s curriculum in Aeronautical Engineering Technology was first accredited.

A summer job in Europe is available to any college student willing to work. As all of these summer jobs in Europe pay a standard wage, most also provide free room and board, only a few weeks work earns more than enough to cover the cost of a roundtrip youth fare ticket to Europe, plus extra money for traveling around Europe before returning home.

Thousands of paying student jobs are available in European resorts, hotels, offices, shops, restaurants, factories, hospitals and on farms and construction sites. Most openings are located in Switzerland, Germany, France, England and Spain, but other jobs are available in other countries.

The Student Overseas Services (SOS), a Luxembourg student organization, will obtain a job, work permit, visa, and any other necessary working papers for any American college student who applies. Applications should be submitted early enough to allow the SOS ample time to obtain the work permits and other necessary working papers.

Interested students may obtain application forms, job listings and descriptions, and the SOS Handbook on earning a trip to Europe, by sending their name, address, educational institution and $1 (for addressing, handling and postage) to Summer Placement Officer, SOS, Student Overseas Services, 22 Ave. de la Liberte, Luxembourg, Europe.
The AVION is a publication for Embry-Riddle students partially financed by the Students' Activity fee through the Student Government Association. Articles may be submitted to the AVION for publication by the administration, the faculty, and the student body. The AVION deadline is every Monday afternoon at 4 P.M. Please mark all items AVION, and deposit in the box in the basket in the trailer, the suggestion box, or ERAU box 1988. 

The opinions expressed in this paper are not necessarily those of the university or the student body, nor do letters appearing in the AVION necessarily reflect the opinion of this newspaper or its staff.

The SGA President's Corner

The SGA has ordered the trophy case which will be placed in the Gill Robb Wilson Science Center. It will be used to display awards and achievements of the students of Embry-Riddle.

I would like to remind all Seniors to come by and register for the Senior Class party.

On March 15 I attended the luncheon for the Board of Visitors and was given the opportunity to speak on behalf of the students. I pointed out the activities and success the students have had and that we do look forward to becoming better associated with Board of Visitors and the merchants of Daytona Beach.

Frank Mayer
SGA President

NEWS & VIEWS from the EDITOR

A reprieve - The Universities' Board of Trustees have decided not to put the F-102 anyplace but where it sits now. The rumors started flying two weeks ago about the new location either by Dorm I or in front of the Gill Robb Wilson Memorial Center. Typical of the expanding militarism here at ERAU, the authorities considered this armed forces aircraft representative of the student body. We can thank SGA President Frank Mayer for straightening things out.

Something smells bad, or so it seems. Three weeks ago the AVION ran a small service advertisement titled, "Jobs in Alaska." Kickbacks have shown that this article has bordered on mail fraud through misrepresentation. The AVION has only apologized for allowing this to reach print. We had no way of checking on the validity of the organization. Mail fraud is hard to prove and apparently this service fulfilled all they claimed to. They did violate the moral principle behind such advertising and, though, and the AVION hopes you take note.

This incident doesn't mean there are all summer job placement bureaus are phony. In this case yes, but please don't assume they're all alike.

The AVION has been deluged with inquiries wishing to know the source of our food editor's expense account. Mr. Barbour uses his own pocketbook when stepping out on the town. Does that fact ease a few troubled minds?

Blood is one of man's major sources. The one gift you give can save a life. So sometime today, take a few minutes, roll up your sleeve, and let it pour out. The good feeling you'll get will be great. The possibility of winning a prize also exists, and there's some good ones too.

Robert E. Duden
Editor, AVION
Anyonoe who has ever given blood at Riddle has to have some recollection of Wilma Fogerty. Wilma is the head nurse in charge of blood-donating in the Daytona Area. A former middle line backer for the Dallas Cowboys, Wilma retired several years ago and became bored with the hum-drum existence of lifting weights at the "Y." She yearned once again to hear screams of agony, see blood fly, and generally mess people up. Fortunately those "angels of mercy" at the Red Cross came to her aid and made her a nurse. Last year during the blood drive I tried to interview her:

"Miss Fogerty?"
"Yah! Wadda ya want?"
"I'm from the school paper and..."
"Oh a reporter huh? I knew a reporter once. I met him in a bar in Green Bay. He said I was an uncivilized, unlady-like brute." "Did you straighten him out?"
"Yah! First I straightened out his nose, then I straightened out his teeth. Then I rearranged the rest of his face."

"Good, get on the table!"
"No, you don't understand. I want to talk to you about your technique. Does putting the needle in people bother you?"
"Na, I close my eyes."

"Isn't that a little dangerous?"
"Na, I've done it about 700 times and I haven't been hurt yet."

"What about the patients?"
"After about 3 quarts they stop yelling and squirming anyway."

"But if your eyes are closed, how can you tell where to put the needle?"

"People are big- you get a 50-50 chance of hitting them."

"Aren't there special places to put the needle?"

"Heck no! You put something sharp in somebody, and chances are they'll bleed."

Believe it or not, dear reader, she was right.

DINING OUT

by Steve Barbour

What do you usually eat when you go out? It generally limited to steak, fish, Italian food, and occasionally Chinese food. After a while it becomes tiresome, so this week we visited a Daytona Novelty - Chez Bruches's, A French restaurant.

Everyone who visits Europe raves about the food. The reason is that Europeans have mastered the art of blending, and babying meats, vegetables and herbs to make meats that have long left the American scene due to the fact that they demand time and perfection to make.

We had forgotten how good French food really is. The visit to Chez Bruches's certainly reminded us of the excellence of the French kitchen.

The menu offered a variety of dishes, almost all strictly French. This was a very novel part of our evening, because we weren't sure exactly how things would taste (even though my wife could translate nicely).

We ended up having tenderloin of beef with an exquisite wine and garlic sauce. It literally melted in your mouth. It was served with elegantly prepared vegetables and a generous salad.

We were very happy. This might have been a contributing factor to eat French food without wine, would be almost sinful- and the wife's
Getting It Together
by John Eaton

In order for a prospective student to examine a school successfully, he/she must be in contact with the people who are affected by the school's philosophies, policies, and influences.

Nowadays at ERAU", expressions of frustrations and dissatisfaction are becoming less candid and more necessary. This holds true especially for the students of Dorm 1, being so "attached" to the school physically and psychologically. We do not have such equal opportunities as living off campus and effecting our own lives as much as possible from the outside. So, I am going to tell you my story and its influences on us. It's not too unusual to see and hear a fragment of football, firecracker, or even firecrackers in the hallways. Now something of the purest lacking in my opinion, ERAU has gone too far in the futuristie, psychological stage and overlooking the present. I can imagine the Admin saying: "Well, we can sense the dissatisfaction, but just wait and see what ERAU's going to be like in another 10-15 years!" All I can say is that it is a fault. I was born 15 years too early!

Granted, there is cause for appreciation for a few of the modern improvements within Dorm 1, but I feel these are not the direct courses to take in solving the problems.

If ERAU wishes, like most schools, to gain the support of the purest of the pure, Alumni for the needed finances, it had better start redirecting its emphasis.

ATTENTION 1972 GRADUATES

If you plan to attend the Senior Class Party, stop by the SGA Office and fill out an Invitation Form. Hours are from 9:30 a.m. daily, and the last day will be May 17th. You will not be admitted to the party without the invitation.

MORE DINING OUT

Any student who has been to Europe knows that each university offers cheap and very decent food in its cafeteria. These cafeterias are open to all students - even traveling foreign students. This little-known fact has begun to spring up in student handbooks for traveling in Europe.

Now, the shoe is on the other foot. Everyone knows that the American student is rich, so it wouldn't make any difference to him.

I ate the hamburger, and for some reason was not yet full after eating another hamburger, so I went to one of the many machines for something. The machine took my money, but gave me nothing in return. I tried to get my money back, but was told I had to fill out a card, and the machine would be sent to me. Oh dear, think of the postage.

The EMBRY-RIDDLE cafeteria is a very clean place. While I was eating, a gentleman began sweeping all around the table. I told him he was getting dust in my food and that this was most unhealthy, but it didn't seem to bother him - at all. He only does that to visitors.

Happiness is a reduction in Riddle's tuition.

"Well, what I need is something good to eat," I said. That was the funniest thing of the whole day. All the people in the cafeteria laughed. I was a little embarrassed over the uproar, but it all seemed to be in good humor, so I tried to be a "good sport".

I got a hamburger. It was the staple of the American student (that's what the students at ERAU said).

The price was 2.75 DM.

That's very expensive, but everyone knows that the American student is rich, so it wouldn't make any difference to him.

I ate the hamburger, and for some reason was not yet full after eating another hamburger, so I went to one of the many machines for something. The machine took my money, but gave me nothing in return. I tried to get my money back, but was told I had to fill out a card, and the machine would be sent to me. Oh dear, think of the postage.

50,000 JOBS

SUMMER EMPLOYMENT CAREER OPPORTUNITY PROGRAMS

The National Agency of Student Employment has recently completed a nationwide research program of jobs available to college students and graduates during 1972. Catalogue which fully describes these employment positions may be obtained as follows:

(1) Catalog of Summer and Career Positions Available Throughout the United States in Resort Areas, National Corporations, and Regional Employment Centers. Price $3.00.

(2) Foreign Job Information Catalog Listing Over 1,000 Employment Positions Available in Many Foreign Countries. Price $3.00.

(SPECIAL: Both of the Above Combined Catalogue With a Recommended Job Assignment to be Selected For. Please State Your Interests. Price $5.00.)

There hasn't been much time for relaxation for the engineers this week. It began last weekend when the pledges tried to out-do the brothers in a water fight. When the hose was finally turned off, it was hard to tell who came out ahead. But in case of a tie, the win always goes to the brothers. The pledges are showing a lot of enthusiasm with the last few weeks of the pledge petition approaching. Keep up the good work.

Throughout the week, there's been a lot of painting and sleeping going on. We're repainting the north house and it has turned out to be a lot of fun.

The week ended on a good note when we won our first softball game on Sunday. It was a hard fought game and enjoyed by all. It looks like another fight ahead next week when registration begins. Good luck to everyone.

Congratulations to Delta Chi on acquiring their charter.

**Lambda Chi Alpha**

Why should a bright young freshman (or sophomore, or junior) be expected to enjoy the role in which his fraternal status is second class? In this second installment, he states that fraternities "expect a pledge to obey every rule (while actives don't) fight cigarettes: carry matches, say 'yes sir; no sir';...proving himself worthy of membership." And yet if we knew a spineless person who would do such things in our society, "we'd be disgusted with him."

Here in Lambda Chi, no traces of semi-servitude are even approached. We are too busy to waste any time on such trivialities, as our Associate Members are virtually brothers to the moment we accept them into our Fraternity Education Program. There are no "pledge" projects because Brothers, as well as Associate Members, participate together in everything we undertake, be it Work Day, Blood Drives, or whatever. Think about it.

**Alpha Rho Omega**

Alpha Rho Omega now has a coat of arms; copies will be distributed to members as soon as they get back from the print shop. Raymond Lund, the designer of the Crest, will receive a U.S. Savings Bond worth $25.00. Steve Marlics receives a $10.00 bill for being runner up in the design contest.

New brothers in the Fraternity are: Gilbert Hadden, Gibby Thomas, and Chris Khal. Welcome.

A banquet is being set up for Alpha Rho Omega April 14th. We have waited a long time. Jim Bearwolf is in the process of setting up a trip to the Aircraft Museum in Atlanta. Transportation will be by a DC-3. Cost to a fraternity member will be $25.00 round trip. A limited number of seats are open for non-members at $35.00 per person round trip. This will be a very interesting and educational trip.

At the meeting March 8th, the film committee showed two films on "FIA Crash Testing". The brothers watched a DC-7 and a C-121 being demolished beyond repair. One sequence showed a wing being sheared off by a telephone pole.

As a fund-raising event for Alpha Rho Omega, the brothers will have a car smashing event at the next SGA BBQ. "Hit a car with a sledge hammer" or "How much can she take?" Persons interested in joining Alpha Rho Omega contact Ron Carter, Box 904.

**H ave you considered the Army ROTC 2-Year Program??**

This program affords the junior college graduate an opportunity to earn a commission as an Army Officer upon graduation from a four year college. To make a good thing better, you receive $100 per month as well as a draft deferment while in the program. Those who are interested are also eligible to participate in the ROTC flight training during their senior year. You might also want to investigate the possibility of a two-year scholarship which would pay all expenses except room and board.

ROTC trains you for leadership in civilian occupations as well as military. Be among the best!!

There is no truth to the rumor that: The textbooks used for Man and His Environment are biodegradable.
The turnout has not been very encouraging considering the number of foreign students on campus. Certainly the club has the potential of being one of the best organizations at this school. However, in order to achieve this goal we need your support. Don’t be apathetic. Many interesting activities have been planned for the very near future. Look for the date of the next meeting in the AVION, and on posters around campus.

If you feel like this guy looks after the flight, refresh yourself at our Lounge.
and put your hands on your laps facing up and... everyone GASPS and GRUNTS and GOES WILD really like RICK IITZ and... boy ohh boy this guy that's a doc Tension headaches can do no wrong and wow Dr. H. wouldn't Friday night eight 0' clock. Hundreds of people slumped into plastic back chairs in a hotel ballroom. Stumpy them over his Johnson & we want to-... twenty-four waiting. sf9a~ell be right there. Dr. H. is real... I'm not a fraud he's real or not/because he never gets a chance to say it. They're real. Which is... three other lucky in his know-all mmd; and forbid, nobody months I am a man with a small head. How could it. ever hold all that information? HOW could he ever tell us everything we always wanted to know about AVIATION, INC. and black and white advertisements in the movie sections of both the Dailies -- gasep6 late/Dead/ill. The mind's multiple choice game is open for fate. Instead: "Hello?" So this is Dr. H. with his black-bottomed suit and Dick Cavett face, sparkly eyes on a small man with a small head. How could it ever hold all that information? How could he ever tell us everything we always wanted to know about aviation and no one's afraid to ask. An hour warm-up session complete with dream talk, ESP pointers and the audience sways and sways and -- shoommp -- they're his as he's about to be theirs. And during that hour: three magic mots that will put you in Huntington in a trance. 'Write me questions on paper cards about anything. Sign your name. Tape my eyes so I can see the stars and blindfold them there and no smoking and don't cross your legs and put your hands on your laps facing up and..." Tension headaches from all several hundred. The good doctor takes cards, deliberates just long enough, passes them over his Johnson & Johnstone head like decks of cards being put in the air. "Mary Humph... Moek "yes". "You're pregnant." "...I'm not." "Yes you are." She crosses her legs. What else is there to say? "Bill Bill..." "Yeah." You have an injury... I know how you got in your upper back...see a new doctor... Who else do you know? "Ruth...I see a murder of a woman...I see a bullet hole through her head..." Palms up, tension incredible. Nobody moves, nobody breathes and, nobody crosses their legs. "...I know who did it...let me tomorrow." Kahuna time. "You're going to be involved in a rock festival in June or July...aren't you? No...no...yes." "It's going to be another Woodstock...but don't take the first two sites...I see nothing but legal problems...but it will be successful..." I put a Kahuna on you. In union: smile. Kahuna equals good luck. If you have such good luck... ...a man arises upon hearing his name called. "Yes?" "I see an accident...an automobile accident...in a blue Volkswagen...tonight."

"I don't have a blue Volkswagen." "My daughter's boy friend has a blue Volkswagen." everyone GASPS and GRUNTS and GOES WILD and boy ohh boy this guy can do no wrong and wow ohhh we believe because we're sure he is cheating because we believe we believe because we believe... ...and twenty-four hours later, little Dr. Huntington sits eating mush melon in his hotel room talking to the depressing press. Were you born...how old are you...are you married...so you're single then...how-do-you-do-it when a how do you do would have been enough. Thirty-year old H. is tall and tries to be friendly, but why don't they ask what he really wants to ask (and why doesn't he make them?) and why can't he answer what he really wants to answer? "Three months out of the year I am Richard Huntington...three other months I am a Shakespearean actor named John T. Campbell, my real name...I paid money to get the "Dr." so I wouldn't be driven out of every town...and counseling is my specialty...I'm not a fraud (why do I have to keep proving-proving-proving) and I don't want you to use my talents...I want to help people become responsible for their own lives...to help them gain control, that's what's important to me. I am a psychic, not a freak show..." But he never gets a chance to say it. "Dr. Huntington" ace reporter says... "Will you tell me every-thing about myself?" "It takes an hour for me to get warmed up...I have to put all that tape on again...and when I take it off it hurts...I'm losing my eyebrows...but if you insist..."

"I'd really like that." Dr. H. wouldn't say that--oh, it's not that he can't do it, it's just that... Secretary Lisa pops in. "The 7:00 appointment is here and waiting." "He'll be right out." The reporter from a large metropolitan daily goes away unsatisfied and ready to write up his psychic experiences in twelve minutes for all of the city to read and experience. Outside, in the next room a family sits, clutching a cassette to memorialize the visit, (little Dr. H. is on the floor watching TV) and waiting for its twenty minutes of $25 truth. "Good luck," Dr. H. says to the reporters. The family's eyes gleam: Good luck -- Kahuna from Dr. H. How lucky you are. It's all too real. And Dr. H. is real. He's real because he's real and real because they make him real/he's real because it doesn't matter on bit whether he's real or not/because he's plopped into these people's minds life-long lists of importants--care about yourself, take control of your life, you the most important person in the world, I know.

Dr. Richard Huntington doesn't care if they think he's real. He only cares if they think they're real. Which is much harder on a Friday night eight o'clock for hundreds of people slumped into plastic back-back chairs to believe.
And Wheels had the N.C., was taking me with Aviation in Greensboro, walked up and opened the carefully let myself between them. I opened cockpit and very own charter Air Take seat.

getting pointed in the aircraft on loan from me and began propping by. He came up behind and signaled to one of them. I walked rather ten- and began examining the wings. They all looked like they could had an opportunity to fly in a... or maybe you've already figured out what it is. Here are two hints: one, it was designed by Caryl White in 1930, and two, it was made in 1931.

by Doug MacKay

The domestic training films shown at last Friday night's membership meeting were some of the best ones we have ever had. They really represented a new wave. There were a lot of strange looks on guy's faces when they left, guess it was the... kes of beer that were consumed...

Two more committees were conceived at the meeting Friday night. Bob Parreis is heading up the social function committee and Lynn Henry is steering the Veterans Affairs Committee. If you have a social that needs functioning or are a Veteran needing an affair, contact Bob or Lynn, they will be glad to help. All kids- ning side; if you have some ideas, bring them up! That's what committees are for. We are becoming an action club so let's have some action. Remember, what you do is what you get, not what you say you do. Now what we need is a committee to keep track of all these committees we're breeding. I can see it now..."The committee for committee coordination."

If you have gotten by Doug MacKay

PLACEMENT OFFICE

Part time off campus employment opportunities have picked up considerably in the past few weeks. The listing in the Placement Office includes: Appliance repairman, tire mechanic, Body shop repairman, security guards, short order cooks, truck drivers for mornings, stock clerk and restaurant help. If you are in need of part time employment, please stop by.

If you haven't already signed up Career Day, please do so if you plan to graduate in 1972. In addition to those attending last week are: United Airlines, another representative from a different department with Eastern Airlines and Southwest Eastern Airline Corporation. We plan to use rooms 108-110 in the Academic Complex.

Remember, also, that Major Corbett of U.S. Marines will be at the Student Center on Monday and Tuesday, March 20 and 21. Major Fortson and Major Ayers, Eglin Air Force Base, will be on campus on Wednesday, March 22 in the Student Center. They are interested in telling you about the Air Force Reserve Flight Program.

your petition to increase Veterans benefits ready to turn you in, please do so at the used book store. We are going to try to have them compiled and turned in to the National Headquarters by the end of the tri. Thank you again for all the good work that has been going on in this area.

That's all for this time, remember, we have a dance this Saturday night (hope you made reservations), and a BBQ coming up the 8th of April. Drive carefully!
GUIDANCE

Mr. Ledewitz would like YOU to be aware of the excellent counseling services that are provided at the Guidance Center here in Daytona Beach. The Guidance Center is a non-profit organization which exists to help people of all ages come as close as possible to their potential. They provide services for the most seriously troubled person as well as the person with comparatively minor problems.

All consultations at the Center are confidential, and the counselors are highly trained mental health specialists who come from the fields of medicine, psychology, social work, nursing, special education, occupational therapy and mental health technology. They have individual or group counseling in child guidance, marital counseling, special groups for young people who are abusing drugs, discussion groups for parents, training and research, and many other services.

The fees at the Guidance Center are based on a client's income and number of dependents. If you have a problem, large or small, consider stopping in at the Guidance Center for some help.

Their address is 1220 Willis Avenue, Telephone 255-6538.

ERAU-VWA

by Susan MacKay

This is just a reminder that our next meeting will be March 28 at the Lakeview Mobile Home Park recreational building at 7:30 PM. Newcomers are more than welcome. The dress is casual. If you have any questions, Lisa Wolf will be glad to help. Her telephone number is 252-5686. Again, your husband does not necessarily have to be a member of the school's Veterans' Association for you to be a member of the Veterans' Wives Auxiliary.

FOR SALE: 1966 Mustang 289, 3 speed, low mileage, new tires and new braking system. In excellent shape. $750 or best offer. Bruce Box 4081.

FOR SALE: Pioneer PL 12A manual turn table 12" platter, 2 speeds, magnetic cartridge, anti-skate, dust cover. Call Dave 252-2339.

IS YOUR INSURANCE GOOD? It is possible if you are from out-of-state, that your insurance is not valid in the state of Florida. This is due to the fact that since January 1, 1972 Florida has implemented the no-fault clause in their insurance requirements for all automobiles.

DON'T run out and make a long distance phone call to your home state insurance agent. It would be wiser to attend the Young Republican meeting on March 23rd at 8 PM at the Beef & Bottle. That evening the YR's invite all to attend a meeting involving the issue of no-fault insurance. Knowledgeable insurance agents will attend to speak on the topic and answer questions you may have.

Come early about 7:30 and enjoy a cocktail hour. Reasonable prices on drinks will prevail.

FOR SALE: Pioneer PL 12A manual turn table 12" platter, 2 speeds, magnetic cartridge, anti-skate, dust cover. Call Dave 252-2339.

INTRAMURAL SPORTS

SOFTBALL

by Mike Hoyle

The first game last Sunday was between Sigma Chi and Sigma Phi. The game was pretty one-sided. Sigma Phi got their spirit up and put all their efforts together and whipped Sigma Chi by a score of 23 to 13.

The second game was played between the "Old Timers" and AHP National. The "Old Timers" put up a real good game but couldn't handle AHP National. Final score was 20 to 4.

The third game was a confusing game as Delta Chi vs. Alpha Rho Omega. The game was so confusing that the baserunners didn't even know which way to go. Delta Chi thought it was all over until Alpha Rho Omega rallied in the sixth inning. Evidently Delta Chi got a little scared and started playing like they are capable of. The final score was 16 to 17.

The final game was between the Vets and the Broken Bats. Although there was some discrepancy in a few of the rules, even the umpire wasn't informed of some of them! The Broken Bats came back after their loss two weeks ago to beat the Vets by the score of 11 to 6. Congratulations to Larry Froede and Narhlon Crane for hitting two of the longest home runs ever belted out on that diamond.

SOFTBALL STANDINGS

Delta Chi 3 0
AHP National 3 0
Broken Bats 2 1
Vets 2 1
Sigma Chi 1 2
Sigma Phi 1 2
Alpha Rho Omega 0 3
Old Timers 0 0

Mr. Sullenberger, I was really at the baseball game:

SPEEDWAY

For the first time, Daytona International Speedway will host the International Motor Sports Association Grand Touring and Sedan cars on Easter weekend.

The unique two-event IMSA battle on Saturday, April 1, is the first in a series of Camel G.T. Trophy races, and will be conducted over the speedway's 3.81-mile international road and track course. This demanding layout combines the twisting flat infield section with the high banks of the speedway proper.

Qualifying and practice will be held on Sat. from noon 'til 5:00 pm, with the first event for the IMSA Sedans set to roll at 7:00 pm.

The headline event will be the "Starlitz Three Hour" Grand Touring road race and is set for 9:00 pm.

The G.T. race is open to Corvettes, Mustangs, Firebirds, Porsches and other similar sports cars. The Sedan race will find the likes of Pintos, Vegas, Datsuns, and other smaller cars feature some 80 to 100 in this category. The IMSA-Camel Grand Prix is also the highlight of the 38th Daytona 500, which is scheduled for Sunday, April 2.

Touring events -- aimed directly at the vacationing collegians -- will feature some 80 to 100 of the top southeast sport car drivers.

HISTORY OF ERAU CONT.'T
credited by the Engineers Council for Professional Development. Embry-Riddle also became affiliated with the Technical Institute Division of the American Society for Engineering Education, and has for many years been represented on the Technical Institute Council of A.S.E.E. Embry-Riddle also holds active membership in the National Council of Technical Schools, with representation on its Board of Trustees.

Approximately 75,000 graduates of Embry-Riddle have been awarded diplomas from the three divisions of the school: Airframe and Powerplant, Aeronautical Engineering and Engineering Technology, and Flight. This total included flight training during World War II for air personnel of the U.S., England, and France, plus technical training during World War II and the Korean War for the United States government. In 1962, Embry-Riddle Aero Institute took a giant step forward and applied for and received a charter as a "not for profit" educational institution. In 1963, Jack R. Hunt, holder of the Harmon Trophy, became the President of Embry-Riddle Aeronautical Institute.

Realizing the problems in air space and physical facilities in connection with any expansion in Miami, Embry-Riddle in April, 1965, elected to move to Daytona Beach. Less than one month after the move, Embry-Riddle began operations with about 250 students. This figure had nearly doubled by the following September and tripled by the fall of 1966 to about 750 students.

The most challenging chapters of Embry-Riddle Aeronautical University's history remain yet to be written. It is clear, however, that her vital role in Aviation Education is assured and that her future is bright.
Dear Editor:

Pre-registration is here and I've been searching for my counselor for almost a week. Mr. "KP" has been hiding, at least for lowly students.

He sent word through his boss to all students: "Find your own counselor - I'm too busy to be bothered."

Is Mr. "KP" too good to stoop to help students?

Phil Phall

Dear Avion:

Really now, what kind of political charade is going on in this state! When a foul mouth, right wing conservative pig can win a state primary by a 2 to 1 margin over his nearest competitor, isn't something wrong?

Alabama's racist leader doesn't deserve such praise. To the contrary, all he really deserves is a cell block in the basement of some mental institution. Of course these are only opinions, but a large majority of the American people feel the same way. Just try to imagine the state of affairs this country would be in should he actually become the President.

The time to stop this bigoted idiot is now. How can you, a citizen, stand by and allow this slap at freedom to go unchallenged?

Name withheld due to the possibility of reprisals on this campus...afterall, this is the only school in the state that Wallace carried in the March 7 Straw Poll...ed.
