been synonymous with ex-

Mr. Riddle sold their
known today as American
Airlines. In 1926, John
C.
Embe Embry joined to form
the Embry-Riddle Company
and began operations in
Cincinnati, Ohio. In
addition to the forma-
tion of schools for
flight instruction, the
Embry-Riddle Company es-
established the nations' first air express line
in 1927, sponsored public
air shows, and was gen-
erally involved in the
transportation of cargo,
airmail and passengers.
In 1929, Mr. Embry and
Mr. Riddle sold their
airline operations to a
new company which is
known today as American
Airlines. Mr. Riddle
remained with American
Airlines and Mr. Embry
moved to California.
In 1939, the Embry-
Riddle Company was re-
organized with Mr. John
Paul Riddle and Mr. John
G. McKay as partners in the
operation of a sea-
plane base in Miami,
Fla. Mr. McKay, a pro-
minent Florida attorney
and a former Army Air
Corps Lieutenant, had
great enthusiasm for
aviation.

The pilot training
program which was In-
augurated by Mr. McKay
and Mr. Riddle brought
an appeal from Army Air
Force General H. H.
Arrold, for help in
building up the Army Air
Corps.
Training contracts
were awarded to the
Embry-Riddle Company in
1941, and Embry-Riddle
was deeply involved in the
training of Air Force pilots in Florida
and in Tennessee. Embry-
Riddle also trained more
than two thousand Royal
Air Force Cadets in
Clewiston, Fla. During
this period, Embry-Riddle
made aviation history by
flying a total of six
hundred and fifty thou-
sand hours, with only
one accident.
Under State Depart-
ment sponsorship, Latin
American students were
sent to Embry-Riddle for
technical training. This
program ultimately led to
the establishment of the
Escola Tecnica
deAviacao deSao Paulo,
Brazil, in 1944.
In 1944, Mr. McKay
became the sole proprie-
tor of Embry-Riddle and
its interests in the
United States. South
American interests were
retained by Mr. John
Paul Riddle and others.

In 1946 Embry-Riddle,
at the request of the
Free French Republic,
trained French Naval
Cadets at Homestead Air
Force Base in Florida.
At the same time, Embry-
Riddle joined in the
nationwide veterans re-
habilitation training
program. This involved
increases in instruct-
tional personnel and fac-
tilities to handle this
growing number of stu-
dents. At this point,
Embry-Riddle utilizing
its facilities at the
huge Opa Locka Airport,
Dade County, began train-
ing pilots and techni-
cians to meet the needs
of business and commer-
cial aviation.

In the operation of the
school, Mr. John Mc-
Kay was actively assist-
ed by his wife, Isabel,
from 1945 until his
death in 1951.
Mrs. McKay assumed the
Presidency of Embry-Rid-
dle and continued in
that post for thirteen
years. Mrs. McKay be-
came the first and only
woman to serve as a dir-
ector of the Aeronautic-
al Training Society.
Under Mrs. McKay's
leadership, Embry-
Riddle's curriculum in
Aeronautical Engineering
Technology was first ac-
cepted in 1946.

SUMMER JOBS
IN EUROPE
A summer job in Eu-
rope is available to any
college student willing
to work. As all of
these summer jobs in
Europe pay a standard
wage and most also pro-
vide free room and board;
only a few weeks work
earns more than enough
to cover the cost of a
roundtrip youth fare
ticket to Europe, plus
extra money for travel-
ing around Europe before
returning home.

Thousands of paying
student jobs are avail-
able in European resorts,
hotels, offices, shops,
restaurants, factories,
hospitals and on farms
and construction sites.
Most openings are locat-
ed in Switzerland, Ger-
many, France, England
and Spain, but other
jobs are available in
other countries.
The Student Overseas
Services (SOS), a Luxem-
bourg student organiza-
tion, will obtain a job,
work permit, visa, and
any other necessary
working papers for any
American college student
who applies. Applica-
tions should be submit-
ted early enough to allow
the SOS ample time to
obtain the work permits
and other necessary
working papers.

Interested students
may obtain application
forms, job listings and
descriptions, and the
SOS Handbook on earning
a trip to Europe, by
sending their name, ad-
dress, educational in-
stitution and $1 (for
addressing, handling and
postage) to Summer
Placement Officer, SOS-
Student Overseas Ser-
dices, 22 Ave. de la
Liberte, Luxembourg,
Europe.
The SGA President's Corner

Saturday, March 25, will be the most social event in the SGA calendar. And why not? It will be another annual function! It will be a BBQ/Baseball game. The location of the BBQ will be behind Dorm #1. There will be plenty of food, beer, and, hopefully, rooting interest. Drinkards will be required.

We are also hoping to initiate our new BBQ Pit being built and sponsored by the students of Embry-Riddle. Mike Wise has informed us that it will be ready for the BBQ on March 25. I would like to see as great a participation as possible in the annual blood drive on March 16 and 17. As usual, I believe the Fraternity will do an outstanding job in their campaigning to aid in the success of the Blood Drive.

The SGA has ordered the trophy case which will be placed in the Gill Robb Wilson Science Center. It will be used to display awards and achievements of the students of Embry-Riddle. I would like to remind all Seniors to come by and register for the Senior Class party.

On March 15 I attended the luncheon for the Board of Visitors and was given the opportunity to speak on behalf of the students. I pointed out the activities and success the students have had and that we do look forward to becoming better associated with the Board of Visitors and the merchants of Daytona Beach.

...and, hopefully, rooting interest.

The AVION is a publication for Embry-Riddle students partially financed by the Students' Activity fee through the Student Government Association. Articles may be submitted to the AVION for publication by the Administration, the faculty, and the student body. The AVION deadline is every Monday afternoon at 4 P.M. Please mark all items AVION, and deposit in the box behind the trailer, the suggestion box, or ERAU box 1988.
The Best of GWA

Anyone who has ever given blood at Riddle has to have some recollec-
tions of Wilma Fogerty. Wilma is the head nurse in charge of blood-
letting in the Daytona Area. A former middle line backer for the Dal-
as Cowboys, Wilma retired years ago and became bored with the
hum-drum existence of lifting weights at the "Y". She yearned
once again to hear screams of agony, see blood fly, and generally
mess people up. Fortunately those "angels of mercy" at the Red Cross
came to her aid and made her a nurse. Last year during the blood drive I
tried to interview her:
"Miss Fogerty?"
"Yah! Wadda ya want?"
"I'm from the school paper and..."
"Oh a reporter huh? I knew a reporter once. I met him in a bar in
Green Bay. He said I was an uncivilized, unlady - like brute."
"Did you straighten him out?"
"Yah! First I straightened out his nose, then I straightened out his
face. Then I rear- ranged the rest of his body.
"Well, I'm here to talk about giving blood."
"Good, get on the table."
"No, you don't understand. I want to talk to you about your tech-
nique. Does putting the needle in people bother you?"
"Na: I close my eyes."
"Isn't that a little dangerous?"
"Na, I've done it about 700 times and I haven't been hurt yet."
"What about the pa-
tients?"
"After about 3 quarts they stop yelling and
bleed."
Believe it or not, dear reader, she was right.

DINING OUT
by Steve Barbour

What do you usually eat when you go out? It generally limited to steak, fish, Italian food, and occasionally Chinese. After a
while it becomes boring so this week we visited a Daytona Novelty - Chez Bruchez's: A French restaurant.

Everyone who visits Europe raves about the food. The reason is that Europeans have mastered the art of blending, and babying meats, vegetables and herbs to make meats that have long left the American scene due to the fact that they demand time and perfection to make.

We had forgotten how good French food really is. The visit to Chez Bruchez's certainly re-

minded us of the excell-
ence of the French kit-
chen. The menu offered a

variety of dishes, almost all strictly French. This was a very novel part of our evening, be-
cause we weren't sure exactly how things would taste (even though my wife could translate nicely).

We ended up having tenderloin of beef with an exquisite wine and garlic sauce. It literally
melted in your mouth. It was served with elegantly prepared vegetables and a gener-
ous salad.

We were tummy-happy. The trip might have been a contributing factor to eat French food without wine would be almost sinful - and the wife's
sweet tooth was taken care of by two Mousse au chocolate.

The success of Mr. Bruchez's cooking is added to by the atten-
tiveness of his waiters. It seemed as if we were merely thinking about something and the waiter was there attending to it. It was an impressive display of efficiency and friendliness; yet he never intruded on our conversation - he was there, performed his task, and was gone.

The atmosphere of Chez Bruchez's is not of candle light and whispers - it's not that way in Europe. It's almost too well lighted, but again - it's as it is in France.

We give Chez Bru-
chez's the highest re-
commendation. If you feel like going to some-
place different, with deliciously different menu offerings, that's not too expensive ($15 for two with wine) - then Chez Bruchez's is the place.

ARRIVEDERCI!!!
MORE DINING OUT

Any student who has been to Europe knows that each university offers cheap and very fine food in its cafeteria. These cafeterias are open to all students—even traveling foreign students. This little-known fact has begun to spring up in student handbooks for traveling in Europe—Europe on $5 a Day, etc. Now, the shoe is on the other foot. Some cafeterias are becoming less expensive, but everyone knows that the American student is rich, so it wouldn’t make any difference to him.

I ate the hamburger. It was the staple of the American student (that’s what the students at ERAU said).

The price was 2.75DM. That’s very expensive, but everyone knows that the American student is rich, so it didn’t seem to bother me. Oh dear, I was embarrassed. I thought of the postage...

Embro is going to have the American student is very expensive, meters.

I got a ride to the cafeteria. The students were concerned about me. They think of the postage.

“After leaving Daytona Beach Community College, I hitchhiked to the next school in town. It wasn’t hard to find, because the police personed me up. They were concerned about me. They said that if I got trouble, I had to find a clean place. While I was eating, a gentleman began sweeping all around the table. I told him I was getting dusty in my food and that this was most unhealthy, but it didn’t seem to bother him—I think he only does that to visitors.

Happiness is a reduction in Riddle’s tuition.

If there’s anyone interested in making some money by tutoring a student in Sl-11 (Bayard Hall) please contact Mr. Ledwitz in the Guidance Office.

SUMMER EMPLOYMENT CAREER OPPORTUNITY PROGRAMS

The National Agency Of Student Employment Has Recently Completed A Nationwide Research Project On Jobs Available To College Students And Graduates During 1972, Catalogues Which Fully Describe These Employment Positions May Be Obtained As Follows:

(1) Catalog of Summer and Career Positions Available Throughout the United States in Resort Areas, National Corporations, and Regional Employment Centers. Price $3.00.

(2) Foreign Job Information Catalog Listing Over 1,000 Employment Positions Available in Many Foreign Countries. Price $3.00.

(SPECIAL: Both of the Above Combined Catalogue With A Recommended Job Assignment To Be Selected For You. Please State Your Interests. Price $5.00).

50,000 JOBS
Sigma Phi Delta

There hasn't been much time for relaxation for the engineers this week. It began last weekend when the pledges tried to out-do the brothers in a water fight. When the hose was finally turned off, it was hard to tell who came out ahead. But in case of a tie, the win always goes to the brothers. The pledges are showing a lot of enthusiasm with the last few weeks of the pledge petition approaching. Keep up the good work!

Throughout the week there's been a lot of socializing gone on. We're repainting the north house and it has turned out to be quite a job.

The week ended on a good note when we won our first softball game on Sunday. It was a hard fought game and enjoyed by all. It looks like another fight ahead next week when registration begins. Good luck to everyone.

Congratulations to Delta Chi on acquiring their charter.

Alpha Rho Omega

Alpha Rho Omega now has a coat of arms; copies will be distributed to members as soon as they get back from the print shop. Raymond Lund, the designer of the crest, will receive a U.S. Savings Bond worth $25.00. Steve Marlin receives a $10.00 bill for being runner-up in the design contest.

New brothers in the Fraternity are: Gilbert Hadden, Gibby Thomason, and Chris Khail. Welcome.

A banquet is being set up for Alpha Rho Omega April 14. (We have waited a long time)

Jim Bearwolff is in the process of setting up a trip to the Aircraft Museum in Atlanta. Transportation will be by a DC-3. Cost to a fraternity member will be $25.00 round trip. A limited number of seats are open for non-members at $35.00 per person round trip. This will be a very interesting and educational trip.

At the meeting March 8th, the film committee showed two films on "FAA Crash Testing." The brothers watched a DC-9 and a C-121 being demolished beyond repair. One sequence showed a wing being sheared off by a telephone pole.

As a fund raising event for Alpha Rho Omega, the brothers will have a car smashing event at the next SGA BBQ. "Hit a car with a sledge hammer" or "How much can she take?"

Persons interested in joining Alpha Rho Omega contact Ron Carter, Box 904.

Lambda Chi Alpha

"why should a bright young freshman (or sophomore, or junior) be expected to enjoy a role in which his fraternial status is second class?" Mr. George W. Spayd, Executive Director of Lambda Chi Alpha, asks this question in sincere interest of the future of fraternities in his article, Pledges - Who Needs Them? In this second installment, he states that fraternities "expect a pledge to obey every rule while active, but don't expect to carry matches; say "yes sir; no sir." "proving himself worthy of membership." And yet if we knew a spineless person who would do such things in our society, "we'd be disgusted with him."

Here in Lambda Chi, no traces of semi-servitude are even approached. We are too busy to waste any time on such trivial, as our Associate Members are virtually brothers the moment we accept them into our Fraternity Education Program. There are no "pledge" projects because Brothers, as well as Associate Members, participate together in everything we undertake, be it Work Days, Blood Drives, or whatever. Think about it.

HAVE YOU CONSIDERED THE ARMY ROTC 2-YEAR PROGRAM??

This program affords the junior college graduate an opportunity to earn a commission as an Army Officer upon graduation from a four year college. To make a good thing better, you receive $100 per month as a draft deferment while in the program. Those who are interested are also eligible to participate in the ROTC flight training during their senior year. You might also want to investigate the possibility of a two-year scholarship which would pay all expenses except room and board.

ROTC trains you for leadership in civilian occupations as well as military. Be among the best!!

INTERNATIONAL STUDENTS ASSOCIATION

There is an International club on campus! Unfortunately from the attendance of the last two meetings, many of our potential members seem not to be aware that this organization does exist.

The turnout has not been very encouraging considering the number of foreign students on campus. Certainly the club has the potential of being one of the best organizations at this school. However, in order to achieve this goal we need your support.

Don’t be apathetic. Many interesting activities have been planned for the very near future.

Look for the date of the next meeting in the AVION, and on posters around campus.

HATCH FOR THE OPENING OF THE NEW EMBRY RIDDLE BAR
THE EAGLE’S NEST

GROVER
"watch for my column"
Friday night eight o'clock. Hundreds of people slumped into plastic black chairs in hotel ballroom. Stumpy stout and starched old ladies/man with pit-bottom, and bellies with horoscopic hope / young men in short fur coats and long fur hair/bug-eyed worried wives and purring babes/wrenches wrenching down ice - cubed Scotchies/bloodied Mary looking for answers/waiting for words from Doctor Psychic.

Three - fifty admission. They paid the same price for 3 hours of Pididdle on the Roof with this fiddler on their roofs.

They wait for Dr. Curly; that's all. It is in the palm of his hands; their past in his pockets; their present in his now-all mind; their presence in his presents to them - a little bit of prediction from a slice of truth. $3.50 skeptics on a Friday night waiting to be proven wrong.

Friday night eighteen-twenty o'clock. Somebody's young blond boy walks out to announce to the crowd that Dr. Richard Huntington - star of hotel ballrooms, piazzas, concert halls and black and white advertisements in the movie sections of both the Dailies -- is "gasp" late/Dead/ill. The mind's multiple choice game is open for facts.

Instead: "Hello?" So this is Dr. H. with his black-bottomed suit and Dick Cavett face and sparkling eyes on a small man with a small head. How could it ever hold all that information? How could he ever tell us everything we always wanted to know about aviation, inc. and no one's afraid to ask. An hour warm-up session complete with dream talk, ESP pointers and the audience sways and sways and - shoomp - they're his as he's about to be theirs. And during that hour: three magic mots that will put you in Huntington in a trance.

"Write me questions on paper cards about anything. Sign your name. Tape my eyes so I can see the stars and blindfold them the doors and no smoking and don't cross your legs and put your hands on your laps facing up and..."

Tension headaches from all several hundred. The good doctor takes cards, deliberates just long enough, passes them over his Johnson & Johnsoned head like decks of cards being put in the air.

"Mary Humphries."

"You're pregnant."

"...I'm not."

"Yes you are.

She crosses her legs. What else is there to say?

"Bill Bill...

"Yeah.

You have an injury. I know how you got it in your upper back...see a new doctor..."

"Who did I know?"

"Ruth...I see a murder of a woman...I see a bullet hole through her heart.

Palm up, tension incredible. No body moves, nobody breathes and, nobody crosses their legs.

"...I know who did it, call me tomorrow.

Kahuna time. You're going to be involved in a rock festival in June or July...aren't you? No...no...yes."

"It's going to be another Woodstock...but don't take the first two sites...I see nothing but legal problems...but it will be successful..."

I put a Kahuna on you.

In union: smile. Kahuna equals good luck. I see you have such good luck..."

...a man rises upon hearing his name called.

"Yes?"

"I see an accident...an automobile accident...in a blue Volkswagen...tonight."

"I don't have a blue Volkswagen."

My daughter's boy friend has a blue Volkswagen."

Everyone gasps and grunts and goes wild and boy oh oh boy this guy can do no wrong and wow oh boy we believe because we sure hope we aren't cheating because we believe we believe because we believe we have to believe..."

...and twenty-four hours later, little Dr. Huntington sits eating mush melon in his hotel room talking to the depressing press.

"were you born...how old are you...are you married...so you're single then...how-do-you-do-it when a how do you do would have been enough."

Thirty-year old Dr. H. makes and tries to be friendly, but why don't they ask him what he really wants to ask? and why can't he answer what he really wants to answer?

"Three months out of the year I am Richard Huntington...three other months I am a Shakespearean actor named John R. Campbell, my real name...I paid money to get the "Dr." so I wouldn't be driven out of every town...and counselling is my specialty...I'm not a fraud (why do I have to keep proving-proving-proving) and I don't want you to use my talents...I want to help people become responsible for their own lives...to help them gain control, that's what's important to me."

"I am a psychic, not a freak show..."

But he never gets a chance to say it.

"Dr. Huntington..."

Ace reporter says..."

"Will you tell me everything about yourself?"

"It takes an hour for me to get warmed up...I have to put all that tape on again...and when I take it off it hurts...I'm losing my eyebrows...but if you insist..."

"I'd really like that."

Dr. R. wouldn't do that. It's not that he can't do it, it's just that...Secretary Lisa pops in.

"Dr. Huntington, your appointment is here and waiting." He'll be right out.

The reporter from a large metropolitan daily goes away unsatisfied and ready to write up his psychic experiences in twelve minutes for all of the city to read and experience.

Outside in the next room a family sits, clutching a cigarette to memorialize the visit, (little boy in the floor watching TV) and waiting for its twenty minutes of forty-five truth. "Good luck, Dr. H. says to the reporters.

The family's eyes gleam: Good luck -- Kahuna from Dr. H. How lucky you are. It's all too real. And Dr. H. is real. He's real because he's real he's real because they make him real he's real because it doesn't matter on bit whether he's real or not because he's plugged into these people's minds life-long lists of importance care about yourself, take control of your life, you're the most important person in the world, I know.

Dr. Richard Huntington doesn't care if they think he's real. He only cares if they think they're real. Which is much harder on a Friday night eight o'clock for hundreds of people slumped into plastic bump-back chairs to believe.

W/N AND BAHAMAS FLIGHTS OK
And Wheels and had the N.C., was taking me with Aviation in Greensboro, walked up and opened the carefully let myself between them. I own charter-Air Take different, and also the seat.

getting pointed in the aircraft on loan from me and began propping by. He came up behind and signaled to one of the people standing near the small half door on the "airplane," looked, paused tentatively up to the air, turned and looked again. "Oh well," I thought to myself, "it does have wings so maybe it really." I backed away and looked again.

Bright red and shiny it seemed to squat heavily on its short main gear and small tall wheel. On the back of the main gear, two aluminum straps which looked like mud guards. Its narrow, rounded nose seems to turn up a bit before it slopes back to the small windshield.

Not really sure whether I should laugh or cry, I looked around and began examining the wings. They almost looked like they could fold back and stow in some room to spare, except the shape was different, and also the engines and gas tank were between them. I walked up and opened the small half door on the open cockpit and very carefully let myself into the narrow rear seat.

Barbara O'Connor, a friend and pilot with her own charter-Air Take Service, Trans-Air Aviation in Greensboro, N.C., was taking me with her in the aircraft. She also works at Wings Service, Transit-Air.

Barbara climbed in and signaled to one of the people standing near by. He came up behind me and began propping the airplane.

After taking off and getting pointed in the right direction, Barbara let me have the controls. It had to be undoubtedly the most unstable airplane I have ever been in, not to mention attempted to fly. This aircraft, by the way, had no trim wheel whatsoever. With the two of us in it, it was unstable enough to make each of us wonder who was doing what. In making a turn you move the controls and then wait for the airplane to catch up to you.

I flew around a while and gave the controls back to Barbara, who made a turn which would make anybody turn green with envy.

I got out, looked at the airplane, and grinned. I was glad I had had an opportunity to fly in a..., or maybe you've all already figured out what it is. Here are two hints: one, it was designed by Crel White in 1930, and two, it was made in 1931.

The domestic training films shown at last Friday night's membership meeting were some of the best ones we have ever had, they really impressed us all. There were a lot of strange looks on guy's faces when they left, guess it was the kegs of beer that were consumed...

Two more committees were conceived at the meeting Friday night, Bob Parresi is heading up the social functions committee and Lynn Henry is steering the Veterans Affairs Committee. If you have a social that needs functioning or are a Veteran needing an affair, contact Bob or Lynn, they will be glad to help. All kid-

ding wise; if you have some ideas, bring them up! That's what committees are for. We are becoming an action club so let's have some action.

Remember, what you do is what you get, not what you say you do. Now what we need is a committee to keep track of all these committees we're breeding. I can see it now...."The committee for committee coordination." If you have gotten

The US Marine Corps Officer Selection Team from Jacksonville, Florida will be here 20 and 21 March 1972, to discuss Marine Corps opportunities for men and women. The team will be available between 9:00 am and 3:00 pm in the Student Center to interview counsel and test those persons interested in earning a commission in the US Marine Corps.

Available programs include Office Candidate School and Aviation Officer Candidate School for seniors and graduate students. The Platoon Leaders Class (PLC) summer training program is offered for undergraduates and seniors that are interested in unrestricted enlisted positions, pilot training, navigator school and law school. The PLC program offers financial aid and civilian pilot training for those that qualify.

Students are invited to discuss their interest with the team, and those who desire may be tested on campus without obligation.

There is no truth to the rumor that this is the new Volkswagen Fastback.
GUIDANCE

Mr. Ledewitz would like YOU to be aware of the excellent counseling services that are provided at the Guidance Center here in Daytona Beach. The Guidance Center is a non-profit organization which exists to help people of all ages come as close as possible to their potential. They provide services for the most seriously troubled person as well as the person with comparatively minor problems.

All consultations at the Center are confidential, and the counselors are highly trained mental health specialists who come from the fields of medicine, psychology, social work, nursing, special education, occupational therapy and mental health technology. They have individual or group counseling in child guidance, marital counseling, special groups for young people who are abusing drugs, discussion groups for parents, training and research, and many other services.

The fees at the Guidance Center are based on a client's income and number of dependents. If you have a problem, large or small, consider stopping in at the Guidance Center for some help.

Their address is 1220 Willis Avenue. Telephone 255-6538.

This is just a reminder that our next meeting will be March 28 at the Lakeview Mobile Home Park recreational building at 7:30 PM. Newcomers are more than welcome. The dress is casual. If you have any questions, Lisa Wolf will be glad to help. Her telephone number is 252-5686. Again, your husband does not necessarily have to be a member of the schools' Veterans Association for you to be a member of the Veterans' Wives Auxiliary.

FOR SALE- 1966 Mustang 289, 3 speed, low mileage, new tires and new braking system. In excellent shape. $750 or best offer. Bruce Box 4081.

IS YOUR INSURANCE GOOD? It is possible if you are from out-of-state, that your insurance is not valid in the state of Florida. This is due to the fact that since January 1, 1972 Florida has implemented the no-fault clause in their insurance requirements for all automobiles.

DON'T run out and make a long distance phone call to your home state insurance agents! It would be wiser to attend the Young Republican meeting on March 23rd at 8 PM at the Beef & Bottle. That evening the YR's invite all to attend a meeting involving the issue of no-fault insurance. Knowledgeable insurance agents will attend to speak on the topic and answer questions you may have.

Come early (about 7:30) and enjoy a cocktail hour. Reasonable prices on drinks will prevail.

FOR SALE: Pioneer PL 12A manual turn table 12" platter, 2 speeds, magnetic cartridge, anti-skate, dust cover. Call Dave 252-2339

SOFTBALL

by Mike Hoyle

The first game last Sunday was between Sigma Chi and Sigma Phi. The game was pretty one-sided. Sigma Phi got their spirit up and put all their efforts together and whipped Sigma Chi by a score of 23 to 13.

The second game was played between the "Old Timers" and AHP National. The "Old Timers" put up a real good game but couldn't handle AHP National. Final Score was 20 to 4.

The third game was a confusing game as Delta Chi vs. Alpha Rho Omega. The game was so confusing that the baserunners didn't even know which way to go. Delta Chi thought it was all over until Alpha Rho Omega rallied in the sixth inning. Evidently Delta Chi got a little scared and started playing like they are capable of. The final score was 16 to 12.

The final game was between the Vets and the Broken Bats. Although there was some discrepancy in a few of the rules, the Broken Bats came back after their loss two weeks ago to beat the Vets by the score of 11 to 6. Congratulations to Larry Froede and Harlon Crane for hitting two of the longest home runs ever belted out on that diamond.

Aunt Jemima makes a better batter
Dear Editor:

Pre-registration is here and I've been searching for my counselor for almost a week. Mr. "KP" has been hiding, at least for lower students.

He sent word through his boss to all students: "Find your own counselor - I'm too busy to be bothered."

Is Mr. "KP" too good to stoop to help students?

Phil Phall

Dear Avion:

Really now, what kind of political charade is going on in this state! When a foul mouth, right-wing conservative pig can win a state primary by a 2 to 1 margin over his nearest competitor, isn't something wrong?

Alabama's racist leader doesn't deserve such praise. To the contrary, all he really deserves is a cell block in the basement of some mental institution. Of course these are only opinions, but a large majority of the American people feel the same way. Just try to imagine the state of affairs this country would be in should he actually become the President.

If his record in Alabama is any indication of his abilities as a national leader, we're in trouble.

The time to stop this bigoted idiot is now. How can you, a citizen, stand by and allow this slap at freedom to go unchallenged?

Name withheld due to the possibility of reprisals on this campus...afterall, this is the only school in the state that Wallace carried in the March 7 Straw Poll...ed.
