AIR FORCE ROTC TWO AND FOUR YEAR SCHOLARSHIPS AWARDED

Air Force ROTC, Detachment 157, at Embry-Riddle Aeronautical University has awarded two-year scholarships to three members of their Advanced Program. Recipients of the two-year scholarships are James H. Danby, Jeffrey B. Harris and David A. Schants. The two-year scholarships will provide each student full tuition, books, incidental fees, and a $100.00 a month subsistence allowance while he is attending Embry-Riddle. Upon graduation from E-RAU, all three men will be entering Air Force pilot training.

The Detachment also awarded two four-year scholarships to Embry-Riddle students enrolled in AFROTC. Freshmen students George D. Clark, III and Matthew M. McCombs were presented their four-year scholarships by Col. Hilton L. Hilton, Commander of Detachment 157. These scholarships provide the same benefits as the two three-year scholarships and will amount to approximately $9500.00 for each student. Both students plan to enter Air Force pilot training upon graduation from Embry-Riddle.

David S. Janik, who has a three-year scholarship, transferred to EAU this fall from Case Western Reserve University. Starting Air Force ROTC his first trimester at EAU, we have six students receiving AFROTC scholarship benefits.

Qualified freshmen and sophomore EAU students enrolled in AFROTC will be competing for two and three-year scholarships this coming spring.

Test Dates-Teachers Exams Announced

College seniors preparing to teach school may take the National Teacher Examinations on any of the seven different test dates announced by the Educational Testing Service, a nonprofit, educational organization which prepares and administers this testing program. New dates for the testing of prospective teachers are: November 3-13, 1972, and January 27-9, April 7, and July 21, 1972. The tests will be given at nearly 500 locations throughout the United States. Results of the National Teacher Examinations are used by many large school districts as a measure of several factors in the selection of new teachers and by several states for certification or licensing of teachers. Some colleges also require all seniors preparing to teach to take the examinations. The school systems and state departments of education which use the examination results are listed in an ETS leaflet entitled Score Users which may be obtained by writing to ETS.

On each full day of testing, prospective teachers may take the Common Examinations which measure their professional preparation and general educational background and a Teaching Area Examinations which measures their mastery of the subject they expect to teach. Prospective teachers should consult the Common Examinations and Teaching Area Examinations, starting page 6, for detailed information on examinations to take and on which dates they should be taken.

Members Sought For Student Flight Safety Council

by Robert Beebe

As you well know, safety has a positive position and plays an extremely important role in aviation.

Unfortunately, aircraft accidents and incidents occur every day, ever increasing the need for new safety procedure developments and safety education.

We, the students of Embry-Riddle, in an attempt to do our part in this vital aspect of aviation, are establishing a Student Flight Safety Council. The purpose of this council is to create a council of the students for the students, with the objective of making available, through various programs, safety information to produce more safety conscious pilots. One area in which the council will participate is aircraft accident investigation. Also, other programs are being established which will prove to be most interesting, and hopefully, with your cooperation, most effective.

May I now take this opportunity to urge and invite all interested AERO-Science and PRO-Flight majors to serve as members and officers on the council. I'm sure you will find your participation to be very beneficial and knowledgeable in your career as a professional pilot. As a pilot, you have an obligation to the concept of safety, so if you're interested in serving as a member or an officer on the Flight Safety Council, please attend the meeting Friday, Sept 15, 5:00 PM in room 112, Building N, Gill Robb.

Are You Liberated?

We're not quite that radical but if you'd like to get out of the house occasionally and meet some new faces, come and join the Vets Assoc. Wine Auxiliary at an open house on Tuesday, Sept. 19 at 7:30 p.m. at the Academic Complex, Building A, study hall.

There will be refreshments and lots of good gab. All EAU veterans' wives are welcome. Your husband does not have to be a member of the Vets Association in order for you to join us. So come on out—we're looking forward to meeting you!

Paying Jobs In Europe Available

How any student can independently earn his or her trip to Europe by simply obtaining a paying job in Europe. A few weeks work at a resort, hotel, or similar job in Europe paying well over $5.00 plus board plus a wage more than pays for the new 165 round-trip Youth Fare being offered by many airlines.

A couple more weeks on the job earns enough for travel around Europe before returning home. Thousands of paying student jobs are available in Switzerland, France, Germany, Italy and Spain. Neither previous working experience nor foreign language are required for many jobs. How to make certain every student gets off on the right foot and starts on the job the Student Overseas Service (SOS) provides job orientation in Europe. Jobs, work permits, visas, and other necessary arrangements are issued to students on a first come, first served basis. Although thousands of jobs are available, applications should be submitted far enough in advance to allow 2 to 3 months for application and necessary working papers and permits. Any student may obtain an application form, job listings, the SOS Handbook on earning a trip to Europe by simply sending their name, address, name of educational institution, and SS (for addressing, handling, and air mail postage from Europe) to Student Overseas Service, Box 5173, Santa Barbara, California.
The SGA President's Corner

The biggest news item this week is that the SGA has truly gone international: the residence center in Germany is in operation. I imagine that this will really give a sense of accomplishment to those students who have been here a long time and the few who have been to Kiel. Possibly a renaming of our university to "Embry-Riddle International Aeronautical University" might be in order.

Again, I want to stress that the elections are coming up on September 28. Many petitions have been picked up already, but there are many more senatorial openings that will come on, and I want to get involved and begin campaigning.

I have been informed by the Traffic Department that they will start giving out tickets to traffic violators. Let me urge you again to read your traffic regulations carefully and abide by them.

Your SGA is presently working to eliminate many of the parking problems both by the Student Center and the Academic Complex. Your President, Stan Steenbock

The Olympic games have always been truly the "Field of friendship" where individual athletes compete against individuals on a personal level, in a peaceful way.

Years of hard work, sweat and tears are on display for mankind to see. Any hostility that exists between different nations, languages and races are brushed aside in the hope of cooperation for the basic talents and skills displayed by individuals.

They have helped to showcase the talent of the world to better things as witnessed the triumphs of Jesse Owens and Wilma Rudolph in 1936. We have attempted to turn those games into a glorification of the United States and the Negroes.

But the Olympic flag continued to fly. Wilma Rudolph would have "allowed a handful of terrorists to destroy" the Olympic flame. It was the forerunner of the P沾's historical struggle against the takeover by Finlay's neighbor's.

But the Olympic flag continued to fly. Wilma Rudolph would have allowed a handful of terrorists to destroy" the Olympic flame. It was the forerunner of the Pian's historical struggle against the takeover by Finlay's neighbor's.

Finally, in March of this year, campaigning in the Florida primary, he stated, "We can save about $32 billion that is now on the back of the average taxpayer." What will be the cut? He is sure he has no idea, but to at least $22 billion by 1975, the following reductions would have to occur.

Carrier force would be cut to 1.2 million.

In 1973 we plan to purchase 183 aircraft, a reduction from 300 since the 30's. That would reduce the force to be cut by 50% leaving the U.S. with 200 aging B-52's and F-111's. No funds would be available for future bomber development.

Our carrier force would be cut from 16 to 6. All this will leave our already reduced aircraft services with inferior expensive equipment. It would be a reckless and dangerous move, which would cause the U.S. to lose its defenses and to open the door to aggression.

A more little More of The Avion staff from the student body and staff would be greatly appreciated. After all, it is a student newspaper.

ERAU THE QUESTION OF FREEDOM OF THE PRESS ON CAMPUS

By Curtis J. Foree, Jr.

Recently, a large university in the state had a great deal of controversy over the editing of their campus newspaper. Apparently those in control of the paper problems both by the Student Center and the Academic Complex.

It seems that a misunderstanding occurred between the instructor and the students in a journalism class at ERAU, when the instructor stated that dummy sheets and articles would be edited by the instructor prior to publication of the newspaper. This statement caused some anxiety and apprehension, if not a furor, among the students. Later the instructor clarified this by stating that only the format of the dummy sheets would be edited and changes suggested to the executive editor so that the paper would look professional. The quality and content of the articles would be the responsibility of the students and the executive editor.

Recently relieved, we presented a copy of the first issue of The Avion to the student body. We appreciate the fact that most faculty members recognize the importance of international cooperation and goodwill.

From America to withdraw from the games due to Hitler's attitude was resisted and the contrast between Owens' and Hitler's boorishness was salutary. "Hitler's race" theory was exposed as a hoax and the contrib. utor. of Owens and his teammates made toward equality will always be remembered.

Tiny Finlay's mastery of the games of the 1920's led by the Frenchman and his two mates toward equality will always be remembered.

The Avion staff members take a great deal of pride in the school paper. We all spend a great deal of time and effort getting the paper to the students each week.

For those of you who have been at ERAU at least two trimesters, you have no idea of what we're here for -- to learn from each other and to profit from each other. The Avion staff would be greatly appreciated.

All this will leave our already reduced aircraft services with inferior expensive equipment. It would be a reckless and dangerous move, which would cause the U.S. to lose its defenses and to open the door to aggression.

All Vets, Reserves, and active duty personnel are invited to attend the Veterans' Association first meeting tonight at 8:00 p.m. at the Vet's Hall Headge adjacent to Howard Jackson on I-95 and 92. Memberships will be available, and beer will be $2 a can.

WANTED

All Vets, Reserves, and active duty personnel are invited to attend the Veterans' Association first meeting tonight at 8:00 p.m. at the Vet's Hall Headge adjacent to Howard Jackson on I-95 and 92. Memberships will be available, and beer will be $2 a can.

McGovern On Defense

Presidential hopeful George McGovern talks and talks and talks about cutting the so-called fat out of our defense budget. When you hear him speak you get an idea of the amount involved.

For example, in January 1970, McGovern called for a reduction of $50 billion in the next three years with a $20 billion cut in the coming year. By November 1971, McGovern stated that President Nixon's $78 billion defense budget for 1972 would be cut in half. He states that the $39 billion cut of $39 billion. On January 9, 1972, he said "I seriously believe we can cut that to $50 billion defense budget but not more than $50 billion, and we'll still have a strong military." Finally, in March of this year, campaigning in the Florida primary, he stated, "I'm sure no idea, but to at least $22 billion by 1975, the following reductions would have to occur.

Carrier force would be cut to 1.2 million.

In 1973 we plan to purchase 183 aircraft, a reduction from 300 since the 30's. That would reduce the force to be cut by 50% leaving the U.S. with 200 aging B-52's and F-111's. No funds would be available for future bomber development.

Our carrier force would be cut from 16 to 6. All this will leave our already reduced aircraft services with inferior expensive equipment. It would be a reckless and dangerous move, which would cause the U.S. to lose its defenses and to open the door to aggression.

A more little More of The Avion staff from the student body and staff would be greatly appreciated. After all, it is a student newspaper.

The OPINIONS EXPRESSED IN THIS PAPER ARE NOT NECESSARILY THOSE OF THE FIFTY MEMBERS OF THE STUDENT BODY, NOR DO LETTERS APPEARING IN THIS PAPER NECESSARILY REFLECT THE OPINIONS OF THE NEWSPAPER OR ITS STAFF.
Embry-Riddle Aeronautical University has appointed Mr. Thomas C. Clay as acting Dean of the College of Aviation Technology effective from August 1, 1972. In his new position, he will be supervisor of the flight Technology Division, the Aircraft and Powerplant Division, and the Aircraft Maintenance Repair Station. Mr. Clay earned a Bachelor of Science Degree with a major in Air Transports with their son Craig. An acting Dean of the university has spent 20 years on active duty between 1942 and 1968. In September of 1968 Mr. Clay began his employment at ERAU as Assistant Professor of Aeronautical Science and Management Science. A native of Dunkirk, Indiana, Mr. Clay and his wife Isabel reside in Orlando by the Sea with their son Craig. An older son is in law school at the University of Florida, and a daughter is attending Indiana University.

$50 Award for University Seal Design

**What's a Jaycee**

The Jaycee Creed

*We believe - That faith in God gives meaning and purpose to human life; That the brotherhood of man transcends the sovereignty of nations; That economic justice can best be won by free men, through free enterprises; That government should be of laws rather than of men; That each's great treasure lies in human personality; And that service to humanity is the best work of life. This Creed is thought to be the perfect expression of the spirit which lives in the hearts of young men who want to better the world in which they live. The actual purpose of the Jaycee's is to improve and develop the community in which they live, and to improve and develop the individual in his own right. Members of the Jaycee's and thought them for civic leadership, and business advancement. The Jaycee's are non-political, non-sectarian, and do not have any political affiliations. The young men of the Jaycee's, age 21 to 36, learn by doing. They gain courage, conviction and enthusiasm by pulling together for a worthy cause. At the same time they gain leadership skills that cannot be learned from any school in the world. No job or task is too small, or too large. The JayCee's have sponsored such things as the Miss Daytona Pageant, blood drives, the Round Dog Derby, and are active in combating drug abuse and other projects too numerous to mention. In the next few months they plan a surfing contest and a vote drive to get out the vote. This article isn't sponsored by the JayCeeb and it is not an inducement to join them. However, if you think you'd like to better yourself and the community in which you now live, and are between 21 and 36, go down to the Chamber of Commerce and get some more information. Oh yes, the JayCee's also have affiliate organizations in almost every city in the United States. They even have chapters in most State Prisons at the present time.*

Golf Competition Nears
by Dick Reimann

The fall season of the E-RAU golf team is about to get under way as the Florida intercollegiate season gets underway this month. The first match of the season is against St. Johns University in Palatka on Sept. 29. This is followed by a match against F.I.T. at Melbourne on Oct. 5, then a match of the same teams here at Daytona Beach in mid-Octo-
ber. Also, we are scheduled to play F.A.U. on November 4. This
leads to the big intercollegiate matches in November when the team will compete against approximately 50 other colleges.

We hope to improve tremendously in the last two years that Mr. Brown has been coach. This is easily understood since Coach Brown is one of the top tennis players in the state. and also one of the best coaches.

He needs people who are interested in the tennis game and preferably players who have some tournament experience to start playing immediately. The spring season is also a great time to improve his tennis game, in competing in an intercollegiate sport, and getting involved for his university, please contact Mr. Carl Brown, Building A, Room 227.

Inter-Collegiate Intramural Athletics

Inter-collegiate sports include soccer, basketball, volleyball, tennis and baseball. These teams, known as the Eagles, play nationally rank colleges, universities and junior colleges from all over the United States. Embry-Riddle is a member of the National Collegiate Athletic Association and the National Association of Inter-collegiate Athletics. As a member of these organizations we are eligible to compete in all National Collegiate Championships. Students interested in trying out for these teams are urged to contact the following head coaches of each sport: Soccer-M.W. Mansfield Baseball-J.B. Morkesh-Em

Volleyball-Dr. Bob Brown Women's Volleyball-Dr. Margaret Brown Tennis-Dr. John Spears Intramural programs provide an opportunity for all students, faculty and staff to participate in the sports of their choice.

Intramural again
By R. Argiles

It's sort time again on the Embry-Riddle campus and for all you guys who have been gussying up all summer, knocking a couple of packs a day, and developing huge guns, you can participate in an intramural sport and have the opportunity to clear the smoke, alcohol, and fat from your bodies!

Intramural football is pretty popular at Embry-Riddle and gives everyone a chance to get back at their enemies legally. So you people who plan to participate, design a captain and have the coach attend the meeting on Monday, Sept. 11.

Last year's Intramural league saw the Jests and Bushmasters play a great championship game, with the Jests taking the title, undefeated for the last two years. The Intramural League was once again dominated by the fine Delta Chi team, which has also been undefeated for two straight years.

Volleyball is also a fall trimester intramural sport which always generates a lot of tough competition. Last year the big team was the Trojans who won it all.

For you guys who are more athletically inclined, you can go on a step higher and try out for the fall intercollegiate sports of soccer, volleyball, or basketball.

So, there's going to be fun and health this winter if you just get out of the house or dorm and put in some effort in organizing a team or trying out for one.

SOCORR

All students are invited to try out for the E-RAU soccer team.

Practice Times
Friday Sept. 8 4-6:30 pm
Saturday Sept. 9 9 am-11:00 pm
Monday Sept. 11 4-6:30 pm
Tuesday Sept. 12 3-5:00 pm
Wed.-Fri. Sept. 13-15 4-6:30 pm

Come aboard the best college soccer team in the world.

Field is across from Administration Building.
The Bill

In class today sitting still
Pondering over how I am going to pay my bill
Listening to the instructor teach
Then we should wash society with a little bleach
Telling us that non-violent people are yelling "kill"
Which reminds me, I haven't paid my bill
I hear that people of America should stick together
And start spreading a little love on your brother
So with love in my heart I went to a gas station
And thought I'd check on this brotherhood I see in this great nation
I pointed a gun at the attendant and said "brother open the till"
The attendant laughed and said "what's the matter, you didn't pay your bill?"
And then he hit me in the head with a wrench
The next thing I know I am sitting on a Police Station bench
In court today sitting very still
Pondering a better way to pay my bill
Listening to the judge preach
The I should be washed with a little bleach
Telling me that violent people should be killed
Which reminds me that I still haven't paid what I was billed.

MINI MINUTES

The first regular meeting of the SGA Sen-
ate for the 1972 Fall term was held on Monday, September 18
and attended by Three Officers and 14 Senators.
President: Acting President Steenbock sug-
gested that the SGA should be a parliamentary con-
duct the Spring meeting.
With the Senate’s ap-
approval, Mr. Palm Beach was appointed to this position.
Mr. Steenbock re-
ported on a possible appointment for sons and daughters of POM’s, a library agreement with the DACC and that Mr. Jim Baweol was selected to represent the Board of Commanders at the SGA meeting on Tuesday, September 19.

Social Functions: Mr. Morrocco informed the Sen-
ate that the stereo equipment is available at the Student Center now and another piece of stereo equipment is being considered. Some technical difficulties will be in operation.

Treasurer: Mr. Arcuyo discussed his financial statements and expen-
tures for the incoming students' barbecues.

Placement Office: Mr. Morrocco informed the Senate that the next job fair will be scheduled for September 24. A band will be contracted for this event.

Internal Affairs: Mr. Frank Moreno was named the chairperson of Detachment 157 for the week of Sept. 25.

Traffic Committee: The recommendations of Detachment 157 was approved.

E-Hub: Mr. Moreno was appointed as the new chairman.

Placement Editor: Mr. Mercandetti reported on his responsibilities for the week of Sept. 25.

Term Papers: The Placement Office has taken over the responsibility of coordinating class assignments.
Mr. Reissman announced that he is now the rep-
resentative for the University.

The meeting was ad-
journed at 11:30 PM.

Intramural Flag Football

There will be a meeting
of all team captains on Monday, September 18 in Room 108, Building A at 7:00 p.m. to discuss rules and scheduling.
Play begins Sunday, September 24.
A student may play on one team only.

Jeffery Ledwitz, head of Guidance, recently out-
lined goals which include: increasing self-
confidence, personal product-
iniveness, reduced fear, and help-
ful guidance. His guidance realistic plans for the future.

I think one reason that many stu-
dents don’t come in is they don’t know what services are available,” said Ledwitz who began counseling at E-RAU last February.

“We talk about counseling and guidance. We’re not just talking about problem-oriented counseling. Counseling also helps students find graduate schools or off-
eers can threaten me. Through this office it is possible to avoid intelligence programs different businesses offer...there are a number of various job classifications the student can learn about by coming in and talking about his career goals.”

Besides career information and personal problems, assistance is available in study habits. “Where a faculty member has only X number of hours to work with this student...a student who comes in here is in for a much larger period of time on an individual basis...I don’t feel that the roommates or close friend is not going to keep the confi-

Ledwitz continued. Students feel they have these problems. Volusia County has The Guidance Center...The approach we take in this office is to help the student by giving them the tools and techniques to cope with these problems.”

The student, because he is directly involved, often loses the objec-
tivity and doesn’t see the various alternatives he can select from. The counselor can’t take the responsibility of making decisions for the student. The counselor must make his own deci-
sions...Learning is growth, and this is what counselors are inter-
gested in.

Jeffery Ledwitz is available from 8:00 a.m. to 5:00 p.m. Monday through Friday. His office is in Building A, Room 108, phone extension 28.

TERM PAPERS

Get help on your term papers.

How to Order Your Term Paper

1. Call the Placement Office at 386-724-4800.
2. Provide your topic and required length.
3. Make a deposit of $50 or more on the spot.
4. Have the rest of the fee mailed to SGA Office, 1800 University Ave, Daytona Beach, FL 32114.
5. Pick up your term paper when it's ready or let us ship it to you.

AFROTC RECIPIENT

Colonel Alton L. Hilt-
ton, Professor of Aero-
space Studies at Embry-
Riddle Aeronautical Uni-
versity, reports that Detachment 157 has re-
ceived notification from Air Force ROTC Headqua-
ters that they have re-
collected their first four
years College Scholarship recipient.
Matthew H. McRobb, of Niagara Falls, N.Y., was se-
lected from nation-wide competition to receive a four year AFROTC schol-
arity. He will be en-
tering Embry - Riddle Aeronautical University this fall to pursue his Bachelor’s Degree in an Air Force commission.
The Air Force ROTC Scholarship will provide full tuition, laboratory and incidental fees, and a book allowance for a full four years. As a scholarship recipient he will also receive a $100 monthly subsistence allow-
ance. Matthew anti-
icipates entering Air Force flying training upon graduation from Embry-Riddle. According to Col. Hilton, Matthew should make a fine addition to the Air Force ROTC Corps of Cadets being established at Embry-Riddle. The de-
tachement has 12 students in Field Training this summer and anticipates an enrollment of approximately 50 students in Air Force ROTC this fall.

ERAU Thanks Student Photographer

Jerry Erickson, Air Science senior, has been a photographer for The Avion since last spring. He is now a photographe: editor. The Avion photo staff spends a minimum of 8-10 hours weekly and usually more trying to provide the photographs needed for the weekly Avion and for other miscellaneous school functions.

This trimester The Avion and all other student publications were incorporated into a 2 credit journalism course, supposedly at no extra cost to the students who volunteer their time every week and had already registered for the full trimester with full schedules.

Well someone in the school's hierarchy doesn't see it that way. They want $90.00 from Jerry Erickson because he's trying fewer than 18 credit hours this trimester. They want $90.00 so he can only register 8-10 hours of his time a week. The school says they can't just give away 2 credits. Well, every other staff member who has registered for the course has not paid one cent extra. Yes, the school really appreciates guys like Jerry.

Concerned student

Is there any truth to the rumor that E-RAU is Co-education?

BIGOT VIEWS

The patriarch of the Pinko Political Party has softened. The Pinko is desperately trying to keep his nominating designation of Devante by saying his position has not changed and is trying to worm his way through the re-election process. This Pinko Politician passed judgment on a poor student only to find a Democrat who hasn't any enemies, experience, or guts to say no. McConney's other stand? He has softened his stand on capitulation to his Commie friends. He tries to live down his promise to crawl on his knees and has shot down the unapparable free money he promised. The issue in this campaign is strictly personal. Do the American people want someone who takes action first and speaks later or someone who takes a stand, then doves its meaning. Pinko McConney demonstrates poor judgment and no spine. He verbalizes the Radical Unworkable Ideals of the New Left. Then compounds the consequences trying to change slang with his right foot and hand position with his left. The Panda Bear still needs some good "red" meat.

VETS

The ERAU Veteran's Affairs Office is now receiving a monthly publication, "What Every Veteran Should Know". This publication may contain valuable information for you. A Reading Folder is available for you to read at any time at the V.O.A. Office.
