The Student Government Association plays a major role on campus. These men and women of the organization together work to bring about the coordination of all those involved with Embry-Riddle. It is to your advantage to become familiar with each candidate, a presentation of their qualifications and platforms is given to you today via print. Read them carefully, be aware of their capabilities and plans, and don't hesitate to approach them with any questions or suggestions.

REIMANN - LEONARD TEAM

I have just decided to run for the presidency of the SGA. My qualifications have been a student at Embry-Riddle since August 1971 and an active student in the SGA. I have served as a senator for two trimesters in the SGA and have been active on the Executive Board. I want to help reform the SGA into a powerful voice on behalf of the students.

My vice president, Mike Leonard, is currently in charge of the student court and is without a doubt the best person to conduct the senate. He has represented E-XAU at model U.N. at Auburn University and the University of South Alabama. Embry-Riddle received awards for outstanding performances at both of these conferences. Mike is also our present representative on the University Advisory Board and the academic policies committee.

OWEN - IRVING TEAM

Jim Owen thanks you for this opportunity to give his qualifications and views for the office of president of the SGA. His qualifications go back a long way. While in high school he became involved in opening a new school, helping to start the student government, to start projects to complete the campus, and to develop traditions.

His first trimester at E-RAU he became involved in the Dorm Council. The next trimester he was elected to the senate.

In the last year in the Senate he headed many committees, fought many battles and helped reform the SGA into a powerful voice on behalf of the undergraduates at E-RAU.

OPEN OFFICE

The SGA office is now closed to all students except the senators and officers. Jim believes the function of a student government office is to give the students a place to air their gripes and to make suggestions. If Jim is elected president of the SGA on Wednesday, he promises to get involved and help reform the SGA.

INFORMATION

A new service should be started by the SGA to give information to those students who live in the area. Jim believes there is a need to keep the students informed, and he will work to make sure this information is available to all students.

Committee to Elect Jim Owen & Ann Irving to SGA President and Vice President

Jim Dailey, nominee for vice-president, is presently enrolled in Aviation Management. He holds an active interest in student activities. Jim wants to help others and has strong feelings for a better communication between student body and administration. Mr. Woodward, a past airline pilot would like to see better relations between airlines and E-XAU.

Bill Medley, nominee for the position of secretary, is presently enrolled in Aviation Management. He holds an active interest in student activities. Bill wants to help others and has strong feelings for a better communication between student body and administration. Mr. Woodward, a past airline pilot would like to see better relations between airlines and E-XAU.

JIM DAILEY

JIM DAILEY, nominee for treasurer of the SGA, would like to see better information turn to the students. Jim, a past president of the Vet's Association, and now the manager of the used bookstore feels fully qualified to take over the treasury. He is now enrolled in AAEM and promises to have better representation for the AAP section.

The team as a whole would like to fight for better representation of the student needs. The students in the flight line, AAP, and academics all have special needs and the team would have people from each of these areas to represent them. They feel the need for improvement in areas of working, shuttle service for dorm students, and better rapport between student problems and the problem solvers. They would most of all like to see better recognition of Embry-Riddle graduates. By working as a team, these four men will be working together as against each other, which means more problems being solved for you, the student. Get out and vote for the Team!
Another week ended with activities coming up this weekend; namely, the SGA Barbecue. My social functions chair- man, George Merian, tells us that this will be the biggest fish fry our school has ever had and promised to have plenty of soda to drink. An exiting parachute demonstration by E-RAU's Sports Parachute Club will also highlight the barbecue. The demonstration will take place at approximately 1:45 pm. The elections are drawing near and the deadline for petitions is today. To cut and new voters candidates and familiarize yourself with the issues. There are still seats open in Air Science and A&P. Become involved! Run for the Senate. I am happy to have some good news for the Dorm I residents. During the next several weeks construction will begin for a recreation room and a snack bar adjacent to dorm 1. Hopefully this will help relieve the plight in Dorm 1.

At a recent trip to Volusia College, Orland. I represented our SGA as a Volunteer Services Fair. Its purpose was to promote a regional volunteer service bureau. My own feelings about the bureau are that the E-RAU SGA has done and it's doing their part in the community.

Congratulations to Ray Brown (AASP) and William Hoosley (S&W) on their appointment as Student Court Justices. I regret to inform you that my statement in last week's AVDNC concerning operations at our residence center was a bit premature. As of now, classes at the German residence center will begin November 6, 1975. The intramural teams have informed me that the intramural flag football season is now in full swing. Come out and support your favorite team. That about wraps it up for this week's message.

Your President,
Stan Steenbock

Bigot's News

Our Marshal of Man-kind's moral turpitude running out of time. The full-blown feather brain has four more months to dish out the smut and filth he's seen in the film. The son of a minister sees only corruption and evilness in everyone, excluding only the core of deviants who surround him. He has turned a possible lively campaign into a mudslinging.

After expending on the unworkable and unpalatable programs to get his nomination secured, he tried to solicit them to the public. But the right thinking public isn't buying his comic rot! The misfit and his crowd of deviants are all too late. They belong to the ''spend our-selves broke'' and ''concede to the commies'' era of the Johnson administration, the man most responsible for putting a republic on Pennsylvania Avenue.

I hope George isn't really planning to vote in! It looks though the present occupant will be signing another four year lease.

THE OPINIONS EXPRESSED IN THIS PAPER ARE NOT NECESSARILY THOSE OF THE UNIVERSITY OF THE STUDENT BODY, AND NO OPINIONS APPEARING IN THE AVDNC NECESSARILY REFLECT THE OPINION OF THIS NEWSPAPER OR ITS STAFF.

Next Wednesday morning the polls will open on campus for a number of SGA positions. There are four candidates running for the office of the president, with many senator positions. "but why should I take a minute or so of my precious time to vote in a school election?" For several important reasons.

First, the outcome of the elections affects each student personally. Some candidates will work for you while others will do whatever they feel like doing at that time. Check the previous records of those running for office and you just may put them in a whole new light. Two of them have been chairman of the SGA. Social Functions Committee. Both resigned.

Secondly, the university building plans are constantly in a state of flux, usually with student ideas and wishes being the last thing considered. A good example is the parking problem. A strong president and senate could straighten out many of our problems. But the right people must be chosen for this position of responsibility.

Finally, unlike a national election, a few votes can make a drastic difference. As few as four votes could tip the scale the other way. So please, take time next Wednesday and vote for the person who will best represent you.

Jai Alai: Everything You Ever Wanted To Know

by Joe Green

The History
Most students are now to Daytona Beach, Florida, and probably don't know a pelota from a casta. Actually they are the bat and the ball used in baseball. But, just what is jai-alai, and where did it come from? The Basilians and Mayan Indians are thought to have originated the game. The sport, as we know it now, started about five hundred years ago in the Pyrenees mountains.

Basque peasants, working from dawn to dark, six days a week, used Sundays as their day of recreation. They had contests, throwing a ball against a wall of the village church.

Basque petitioned him to compensate him for exhibiting. So was given

The first recorded hero was Perkaino; poems and ballads were composed in his honor. He had such audacity and courage that he once threw three balls at one over his head, and one to each side. The balls missed him by inches. Instead of being punished, he was rewarded with a plate of silver.

One day, after an extremely tough game, a gang of bandits threatened to take him prisoner. He threw a ball at the leaders head, killing him instantly, and escaped in the confusion.

Jai-alai passed the church walls stage at the beginning of the last century. In 1806 and building called a fron
ton was finally built in Spain.

As in every sport, there have been radical changes in equipment. The ball is faster and better made. The center of basket was originally a forked stick with three branches tied together at the bottom, interlaced with cord forming a net.

The home of jai-alai is the Basque country, a town in particular, the rest of Europe, Latin America, Canada and finally in the United States. It was played in New York, Chicago, St. Louis, and Florida. Now Florida is the only state to have legal jai-
alai.

The Game
The game starts with team 1 meeting team 2. Each team serves the ball against the front wall. Each team must return it to a specified area on the playing court. Then it is in play, with each team taking turns to return the ball against the front wall. The ball may be caught on the fly or by a bounce, and play continues until the ball is missed or a player fouls out.

The court is 9,600 feet of playing area (126 feet, 50 feet wide, and 40 feet long). There are walls on three sides and a screen on the fourth to separate the spectators from the players. The front wall is made of 12 inch thick granite blocks, weighing 10 tons.

The Court

The Peel

The pelota is about three-quarters the size of a baseball. It is live and heavier than a golf ball, and often reaches speeds in excess of 150 miles an hour. Made of rubber, it has two covers of goat skin and costs $40.

The Court

The court is 9,600 feet of playing area (126 feet, 50 feet wide, and 40 feet long). There are walls on three sides and a screen on the fourth to separate the spectators from the players. The front wall is made of 12 inch thick granite blocks, weighing 10 tons.

The Best Part

Jai-alai is played indoors in air conditioned comfort. There are bars, cocktail waitresses, and pari-mutual wagering girls. That's right, you bet on jai-
alai, just like a horse or dog race. Even if you don't bet, it only costs 50 cents to get in, parking is free, and it's exciting.

Today's Music

by Rory Donnelly

Tony Stevens, Loned
some Dave Percevezt, and Roger Earl, all members of the original Savoy Brown band, got it together with Red Price and put a call themselves Phogat. Quite unexpectedly, I might add, ever, Phogat is a complete contrast in music from the original Savoy Brown style.

The album, of the same name, produced by Dave Edmunds in an example of how much fine producer can add to hot boogis music, a Bud Scoopa, of "Rolling Stone Magazine" said, "the self taught Edmunds is clearly without peer as the creator-in-the-

studio of that raw, edgy, primitive sound so closely associated with rock and role.

Despite all of Edmunds capabilities, it is the music that is the most impressive part of this album. With the combination of two gui
tars, bass, and drums, Phogat displays a sharp sense of imagination in music.

The first cut on the album is "I Just Want To Make Love To Willy Dixon." It starts out so softly that it begins to reach for the volume control and sud
ddenly the song really begins peeling throughout the room.

Percevezt's voice blends so perfectly with his own guitar playing and that of Red Price that you'd swear that the sounds all came from the same instrument. As can be heard in "Leavin' Again" and "Rolls Hall of Fame," Price and Percevezt are masters of effective rhythms and guitar soloing.

I can't help but hear a slight similarity be
tween this album and Alton's Stones' new "Exile on Main Street." If you like one you'll probably like the other.

For the ending, things are slowed down a bit and the sounds are softened, but Phogat's classy guitar playing still stands out.

Rumplestiltskin Day Coming Soon

Faculty Invited
To Fly

Mr. Thomas Clay, Dean of Flight Technology, has invited academic professors to sample C-Wall's Gemini flight concept by observing students during training flights.

Many professors have never flown in light aircraft and are not ac
quainted with flight line procedures and staff.

Now the opportunity is at hand. So walk on over to the Gill Robbins Wilson Center and see how it's done.

SOCCER SEASON BEGINS

Embry-Riddle, vastly depleted by graduation, enthusiastically opens its 1972 soccer season September 23 against a strong Marymount College team.

The game will be played at Marymount College in Boca Raton.

There are only three players returning from last year’s undefeated squad (11-0-0). As well as being conference champs, Marymount was ranked seventh in the nation when the season ended.

Any team that may have a national ranking should have some support from the student body that represents. Go out and watch a few games.

Captain Gary Haupt said, “Despite all of our inexperience, I’m sure we’ll have a fine season.” Haupt would make no further predictions, however.

INTRAMURAL FOOTBALL

by Robert Argila

A meeting to get the Intramural Football League organized was held last Monday, with Mr. Wurtzbach residing.

Controversial rules were cleared up and a schedule for the first week of competition, Sept. 24, was established.

At the present time six teams are scheduled. If there are any other people who would still like to form a team, see Mr. Wurtzbach as soon as possible so your team will fit into the following week’s schedule: Sept. 24 - 9:00 Sigma Phi Delta vs. Coyotes
10:00 Veta vs Sigma Chi
11:00 Lambda Chi Alpha vs Sunshine Co.
12:00 Delta Chi vs Cowboys

SPORTS WORLD

ERAU GOLFERS BOW TO SMITH’S G7

The ERAU golf team played their first match of the season against St. John’s of Palatka last Tuesday. We lost the match, although the team turned in a nice four-man total of 312. You must take into consideration that this was the first time we had played this course. Leading the team was Stan Bartlett with a 75, followed by Paul Loughrey and John Bishop, both with 79’s and Dick Reimann with an 81. For those of you who are not familiar with the way these matches are run, we usually take five golfers and the four best rounds are used. Danny Smith, a young, calm and cool golfer from St. John’s, led his team to victory by shooting a beautiful round of 67. With his 67 their team turned in a four-man total of 302.

One of our golfers playing in the same foursome with Smith said that he couldn’t believe how cool and collected Smith stayed and that he should have had a 64. We are looking forward to a rematch with St. John’s here at our home course soon.

P.S. Dawn Sempe, our coach, has proclaimed and awarded to Gene Holloway the “Super Hawk Award.” Congratulations, Gene!
ERAU GREEKS AND CLUBS

Sigma Phi Delta

by Mark Dersendorf

Things are looking up for Sigma Phi Delta this tri. Pete is throwing pledges at us right and left, and can we use them (oh, how we use them). Brett has the newly elected house management. He also nominated this tri as "house to the grizzlante". We hope to make our house the beat on campus through the help of our gifted brothers, eager pledges, and cool chicks.

Congratulations to Chare, who resigns again as chief engineer.

Every house should have a kick, and the mighty Sigma Phi is no exception. His name is Rebel (what else?). Ordinarily, one can find him bending over his darting board, turning out a wing structure (or a dirty picture). Come football time, however, our quiet, studious Atlantans turn into a Superstar Quarterback, object of admiration by theoras and Crossmen. One target of many is his blood-thirsty right arm. But does any of this have to do with Rebel? Not sure, but what can you say about a guy who sets the class pace in football?

All seriousness aside, however, aren't things a little slow in the parking lot? Even the love bugs have trouble deciding which car to martyrize themselves on. And to you guys on cycles, I wouldn't be worried just about love bugs. If you know what I mean. Put a blue flasher on your cycle and you shouldn't have any trouble.

TERM PAPERS

Next term will find me typing at times of 5 A.M. at the least. Please call for help in every paper and meeting.

BRIEFCASE BRIEFS

Erauvwa

by Linda Negri

It looks like the Wives Auxiliary is going to have a busy and exciting trimester. At our last meeting, on Sept. 12, we made plans for an Open House on Sept. 19 for prospective members. Next we discussed our Halloween Party which will be held Oct. 21 at President Hunt's home. Our husbands are also invited.

Since our bake sales have been so successful we have planned another one for Sept. 28th at Dorm I. Save your money and your appetites, fellows. This trimester our new officers are: President--Jill Bitter; Vice President--Susan Macacy; Secretary--Linda Negri; Treasurer--Madeline Braun; Historian--Delores Kubel.

We would like to have all ERAU Wives as members. If you care to join us at our next meeting which will be held at the Academic Complex Complex, Study Hall, Sept. 26 at 7:30. We hope you will all join us.

While some of the other fraternities were having their rush parties this past weekend, the brothers of Delta Chi got together for a social gathering of their own. The event lasted until early Saturday morning, and some of our brothers didn't even make it to football practice Sunday morning. You can imagine what their rush party will be like.

At our last meeting we smoothed out most of our problems and made the final preparations for the upcoming rush party. We had an especially good turnout in which everyone agreed to most everything brought up for discussion (we even got caught up to date with our bills). The meeting was adjourned with the traditional dunking of a Delta Chi brother who was recently married.

This time it was Fucio's turn to get wet. The Delta Chi Jets had the first big game on Sunday, the first big game on Sunday, both teams are sure to be plenty of excitement and blood if you're still hungry after the game, you can truck on over to the Ed Bar-B-Q and fill up on hamburgers and beer.

Pistol and Rifle Club

All ERAU students are welcome to come to our meetings on Tuesdays, 6:30 P.M. Contact Capt. Shelly from room 117, at 512-7000 for more information.

ATTENTION VETERANS

The ERAU Veteran's Affairs Office is now receiving a monthly publication, "What every Veteran Should Know". This publication may contain valuable information for you. A Reading Pledge is available for you to use at any time at the VA Office.

SIGMA PHI DELTA

On August 19th, Alpha Rho Omega became a charter chapter member of the Professional Aviation Maintenance Association (PAMA). Its headquarters are currently in England. AU is one of six smaller organizations to go into PAMA as a charter member. The purpose is to form a large national organization within the United States.

Alpha Rho Omega fraternity would like to welcome all of the new A & P students and also those who already have their A & P license to Embry-Riddle and Daytona Beach. Alpha Rho Omega sponsored the annual Embry-Riddle during 1971 especially for the Aviation Maintenance Technicians. If you are in the A & P curriculum or already have your license, and get acquainted with AUP. Alpha Rho Omega fraternity is being active and you are welcome to join.

Alpha Rho Omega fraternity is having a "Birthday Bash" party Friday night, Sept. 22. The location is the American Legion, building on highway 92, one block east of U.S. 1 (Ridgewood). Happy hour will be 5 - 10 P.M.

ATTENTION VETERANS

The ERAU Veteran's Affairs Office is now receiving a monthly publication, "What every Veteran Should Know." This publication may contain valuable information for you. A Reading Pledge is available for you to use at any time at the VA Office.
At the "Heart" each room has their own space and the "Heart" have no sign-in days. Major snafus are rare. Students need to enjoy being away from home and the overpowering of dorm life in the middle of the night. Transportation is convenient to and from the university.

The "Heart of Daytona" seems to be a popular location. Rumors have been spreading about the "Heart of Daytona" being a "happy in their new home: the dorm life and the overpowering of dorm life in the middle of the night.

Transportation is convenient to and from the university. Students need to enjoy being away from home and the overpowering of dorm life in the middle of the night.

Dual Degree Program Established

by Vaughn Lane

The Dean of Men's decision can be appealed to the Dean of Students. Any non-academic decision can also be appealed to the Dean of Students. If the case involves a course a student can see the Division Chairman to appeal the ruling of an instructor and even appeal this decision to the Dean of the college.

One must keep in mind that the student has the right to appeal, but the right should be used only when necessary. If an instructor shows the student why he received a grade based on attendance, grades, and answering homework, the appeal should not be utilized unless the instructor has made an error.

If you are not sure who to see about your problem, there is a system by the Department of Men's office. This system is in the right direction.

The appeal system is a viable way to right a wrong and the student has the right to appeal whenever he has a legitimate reason. After all it exists for you.

ALPHA RHO OMEGA
U.S. Representative
London Symposium

The Society of Licensed Aircraft Engineers and Technologists held a three-day symposium at its headquarters in London, England during August for the purpose of bringing together its forty-four country membership. The symposium is held every other year, each time in a different location.

Alpha Rho Omega is currently the largest U.S. chapter member of "EELA." Jim Beaverton, current acting president, APAE/AEDUU announced the report on aviation in the U.S. at the London symposium. As all of the countries reported in alphabetical order, Jim was the last to report.

The symposium opened with an address from Lord John Boyd Carpenter, who is the Director of Operations for the Civil Aviation Authority for the U.S. at the London symposium.

The effectiveness of the symposium was a continuing topic for discussion throughout the symposium. Much information was presented to the students and educational programs such as Embry-Riddle have for the maintenance of technical. At the rate aviation is expanding throughout the world, the need for standardization of all licensing is rapidly growing.

Other topics discussed at the symposium were maintenance methods and design, economic management, maintenance co-operation, and maintenance management.

The next "SLAET" symposium will be held in the U.S. sometime during 1974.

While Mr. Beaverton was in England, he attended the Farnborough Airshow, one of the largest in the world. The Concorde Super-Sonic Transport project was the most suggested topic by the ground displays in the airshow. The Concorde is scheduled to be in commercial use sometime during 1975.

The next "SLAET" symposium will be held in the U.S. sometime during 1974.

Think you've got problems? Our friend Ernie counted 641,207 love bugs on his car. And that was just on a trip from the student center to class.

The following jobs are available around the Daytona Beach area. If you are interested, please contact Gloria Sullivan at the Student Employment Office.

1. Fill out an application form at the Registrar's Office and pay the fee of $45.00.
2. Take the application form to the Division Chairman in whose division the course is offered for which the examination is to be taken. Three weeks prior to the date of the examination, a course outline and textbook references will be provided for each course in which an examination is to be taken.
3. Make an appointment with the Division Chairman for the exact time and place to take the examination.
4. After the examination is graded, the person who took the examination will be notified in writing whether he has passed the examination. If he has passed, he will be given the credit value, but not given a grade. The student's academic record in the Registrar's Office will reflect "credit by examination".
5. Only one examination attempt shall be allowed for each course. If the examination is not passed, one must enroll in the course and successfully complete it in order to receive credit.

**Student Publications Committee Looking For Representative**

The newly organized Student Publications Committee is looking for a student to represent the student body at all Committee meetings. The function of the student representative would be that of a spokesman relaying any views or suggestions made by the students, and to participate as a board member.

The student representative must be someone who has attended E-RAU for at least one trimester, is in daily contact with other students and concerned with campus publications.

If you are interested, please contact James McGee (Avion Office), Nancy Colby (Avion Office), or John Foster (Housing Director).
