REIMANN, LEONARD CAPTURE SGA

New Registration Changes

The Registrar's Office is considering several changes for increased efficiency. The questionnaires recently distributed are to provide initial information for a computer change-over from U.S. to Computer. The data will be used to calculate numerical totals to facilitate administrative responsibilities.

It is possible that pre-registration will be eliminated. Middle currently operates under eight separate registration periods; this is time consuming and costly.

In addition, a student who does not have the opportunity to sign up for courses during the regular registration period.

The eternal cashier's line may be shortened by pre-registration. If a suitable system can be developed, this would save time for everyone, but complications involving guaranteed tuition, etc., would require a highly organized program.

This spring, the minimum credit hours for full-time status can be reduced from 14 to 12 hours. There will be no minimum.

The student who manages a heavy schedule will not have to pay extra. To adjust the 12 hour minimum to present tuition, costs per credit hour must increase to $5.53.

As long as the student has the privilege of writing his own schedule, registration is going to be a hassle. Improvements are being made and old procedures discarded to make it less trouble than in the past.

Library To Be Moved Over Christmas Break

This Christmas break the library will move to the dormitory, next to Dorm 1.

A Freedom Forest has announced that the new food facility will be capable of making meals for anyone available at a normal "grill" when completed, about 90 days from now.

Russell Lemons commented that the grill will be located at the front of the library, facing the dorm. William P. Carr's Steel Buildings will be moved to 60 feet structure and the grill. The patio covering the grill.

The dorm annex has three major areas. It consists of a kitchen area containing the grill, ice cream machine, deep fryer, and a vending machine. The dining area is similar to the present Student Center with 40 feet of vending machines and an occupancy of 50 people at a time. The largest area will be devoted to light recreation, i.e., pool, ping pong, football.

Library is approximately a temporary move and since the removable walls aren't easily removed, the library will try to operate with the walls they are at present. If proven disastrous, most of the walls will come down.

The library is presently attempting to complete the move of aeronaautical science books to the Gell Robb Wilson Complex and putting final touches on the central card catalogue.

Students looking for material can find out what is available by checking the central catalogue. The catalogue, presently found at the main library, will give a listing of books, along with the books' location, in the Gell Robb Wilson Building or the main library. This catalogue will be moved with the main library in December.

The present main library building will be converted into classroom and office space for use by the Air Force ROTC.

Congressman Chappell Visits Campus

Congressman William Chappell, incumbent U.S. Representative from this District, toured the Embry-Riddle Campus Friday morning Sept. 22 and in the process was able to meet many of the staff, faculty and students.

An ex-Navy pilot, Mr. Chappell was in the Air Force ROTC Training Program on Campus.

Mr. Chappell talked to an audience between his Washington office and the District he represents.

New Registration Changes

The Registrar's office is considering several changes for increased efficiency. The questionnaires recently distributed are to provide initial information for a computer change over from G.E. to UNIVAC. The data will be used to establish statistical totals to facilitate administrative responsibilities.

It is possible that pre-registration will be eliminated. Middle currently operates under eight separate registration periods: this is time consuming and costly.

In addition, a study for pre-registration for the fall term in the spring may be forced to overhaul his schedule if he fails a course during the summer term.

Students who pre-register do not have the opportunity to sign up for sections opened during the regular registration period.

The eternal cashier's line may be shortened by permitting students to take courses on a time basis. This would save time for everyone, but complications involved in guaranteed tuition, etc. would require a highly organized program.

This spring, the minimum credit hours for full-time status is being lowered from 14 to 12 hours. There will be no maximum.

The student who can manage a heavy schedule will not have to pay extra. To adjust the 12 hour minimum to present tuition, costs per credit hour must increase to 50c.

Congressman Chappell Visits Campus

Congressman William Chappell, incumbent U.S. Representative from this District, toured the E-R nation in early September. During this visit, Representative Chappell, along with District 45 Congressman Leonard, toured the campus and met with various academic and administrative officials. Chappell expressed his interest in the university's academic programs and highlighted the importance of higher education in the region. His visit was seen as a positive contribution to the community, further encouraging dialogue between federal representatives and the university.

Library To Be Moved Over Christmas Break

This Christmas break the library will move to the downtown area. A new section on the second floor of the library building will be constructed to house the collection. This move is necessary to accommodate the growing needs of students and faculty.

Library book stacks will be moved to the new location, and the library will be operational by the beginning of the spring term. The new library will feature updated facilities and increased space for research and study.

The university is grateful for the efforts of the library staff in preparing for this move. Special thanks are extended to the library staff for their hard work and dedication.

SAO goes to the voters. Richard Reimann wins ballot to the sick.

SGA New Registration Changes

As long as the student has the privilege of scheduling credit hours, registration is going to be a hassle. Improvements are being made and old procedures discarded to make it less trouble than in the past.

Richard Reimann was the top position in the SGA obtaining 45.2 per cent of the total votes cast. The closest candidate, Ken Woodward, got 31.4 per cent.

Richard Reimann took the Vice Presidential slot with 46.1 per cent, a year after his closest contender, Ken Woodward, with 28.3 per cent of the student vote.

When asked about their joint victory, Reimann and Leonard said that they are working hard to find solutions to the problems faced by students in the field of student body and personal group efforts have made the win possible.

Special thanks and congratulations are to be extended to all of the other candidates, winners and losers alike, without whose efforts this successful election might not have been possible.

In a close battle, Anne Irving surpassed Bill McNeer by over 6 per cent (49.9 to 43.5).

Jim Dailey, although he was unopposed, received strong voter support with 568 votes.

University gained another senatorial elections from the ASP who named Dave C. Darby, James M. Papas, Brian C. MacNeil and Richard Reimann.

The Air Science section is the closest contender in the senatorial rolls.

Harvard Invites E-RAU To Model UN

Harvard University has invited E-RAU to attend a Model UN Conference. This invitation comes as a result of the successful E-RAU model in last year throughout the Southeast in Model UN competitions.

This invitation is a stepping stone towards further collaborations between E-RAU and other institutions. It represents an opportunity to share ideas and practices in the field of Model UN organization and operations.

This invitation demonstrates the growing recognition and respect that E-RAU is gaining throughout the region. It is also an opportunity to showcase the work done by E-RAU and to learn from other institutions' experiences in the field.
Reflections Of A By Gone Era
by Curtis J. Foree, Jr.

THE GREAT NERR SCHICKEL- GROBER

There’s a rumor around tho’ strange it may seem, of the great Herr Schickelgruber and his marvelous dreams. Being tired of the Russians, he took to his bed and above all things, he dreamed he was dead. To heaven he went straight in a pompadour manner and banged at the door awake in his banner. But Peter called out in tones cold and clear, “Goodbye, Adolf Hitler, we don’t want you here.” So away did he turn and off did he go, with a real German goose step to the region below. The devil to his lips gave fair warning, “I’m expecting Hitler this dreary morning.”

“Don’t let him in for I’ve got the fear, he’s a worse guy than I and he’ll want to rule here.”

“Excuse me for easel-dropping,” the Dictator said, “but I couldn’t help but think and is my face red.”

“If you don’t let me in where am I to go?” “Well,” said the devil, “I really don’t know.”

So he spit on the great and vanished in smoke, and just at that moment the devil jumped to his mirror, his mustache a-tremble, then he let out with a loud shrieking cry.

“Heaven I’ve lost, I know very well, but whoever heard of being kicked out of hell?”

This poem was written by a boy one year old in 1943 with the help of a German nun of the Dominican order. The nun had been forced to leave Germany and was teaching at a boarding school in Milwaukee, Wisconsin. The boy entered his poem in a contest to win ten, twenty-five cent war bond stamps. The point of this editorial is to share with you the experience an American boy lived with a teacher who he’ll never forget. The humor of the poem reveals more about the teacher than about the boy. It shows the great influence she had on him, and the sort of relationship the two of them had.

One can only wonder if she knew how often she would be remembered. Many teachers are thought of and remembered this way, and some are thought of in the negative. Both kinds, however, have enormous impact on the life of the student. Teacher does have its rewards if only being remembered in the prayers of a grateful student.

By the way, I won the contest."
Today's Music
by Rory Donnelly

David Ackles hasn't put out an album in two years. For Ackles, whose first album thoroughly disguised all those two years as a sort of working period. Two years is a long time between albums, but during those years he managed to write all his songs and to work many of the problems of foreign students.

Last spring ISA was a dynamic voice on campus, officers were elected, the association, and the members of the club took a trip to Cape Kennedy. One reason for the success of the club was the tremendous support given by our foreign students' advisor, Mr. Jeff Ledewitz and his wife, Betty. As the trimester progressed, some members felt that the association was becoming dominated by a few very active students, and attendance at meetings diminished. Others felt that not enough effort was spent in involving all international students on campus in the activities of ISA.

A few members were dis- satisfied when the activities of the club were dependent on donations from club members and the constitution of the club was changed. As a result, dues could be collected in the future.

During the summer an ice-cream party was given at the home of our club sponsor. This get- together enabled new foreign students who arrived after the end of spring trimester to become acquainted with fellow students and introduced them to ISA.

Last week some of the original members met at the home of Mr. Ledewitz to revitalize the International Students Association and to redefine and re-evaluate the goals and purposes of the organization. Special problems of the foreign students were discussed and it was suggested that the future activities could be service oriented as well as providing a social environment for the members.

Everyone interested, especially all international students, is invited to the next meeting on Wed. Oct. 2, at 6 PM in Room 108, Rigby A, Academic Complex. It is especially important for this organizational meeting to be successful. We are looking forward to seeing all of you there.

The newly organized Student Publications Committee is looking for a student to represent the student body at all Committee meetings. The function of the student representative would be that of a spokesman relaying any ideas or suggestions made by the students, and to participate as a board member. The student represent- ative must be someone who has attended E-Rau for at least one trimester, is in daily contact with other students and concerned with campus publications. If you are interested, please contact Mrs. McCumber (ext. 92), Nancy Coates (Avion Office), or John Foster (Housing Director).

Dining Out
by Charles McFadden

I can't believe it! There's actually a restaurant that will feed you as much food as you ask for at bargain prices ($2.50 for adults $1.00 for children).

The Boarding House, located at 331 Ridgewood Avenue, is definitely the place to go - you're hungry and short on cash.

There's where it works. When you order the "pot luck supper", you are served a meat entree, vegetables, biscuits, corn bread, and cole slaw in a family sized bowl on a lazy susan in the middle of your table. If you want, you're also served a platter of fried chicken and you can order as much of everything to want at no additional cost.

The food is delicious, and the service fast, courteous. The dining area's atmosphere is casual, and The Boarding House also has a bar. Michelob draft beer is available with your meal or in the tavern for $2 a can or $1.50 a pitcher.

I highly recommend this restaurant. It's filling to the student's stomach but just as the student's wallet.

Intramural Football Team Of The Week

By Robert Acquila

In an attempt to include more school sports coverage in The Avion, the staff has decided to feature an intramural football team each week.

This week the deserving team is the Delta Chi Jets. The Jets were strictly an independent team in their first year during the fall of 1969. That first year they finished in third place, but many of the players on the Jets pledged Delta Chi fraternity, and together they formed two unbeatable teams in 1970. The leagues were separated, one being inter-fraternity (only fraternity members could play) and the other open intramural. The Jets, made up of Delta Chi members and only three independents, would play one game Sunday morning, and then play the fraternity game later that afternoon, with the same basic team minus the three independents.

The same situation occurred in 1971 and both teams once again were undefeated. The jets were so strong this year and now one player on the Jets names to be noted. Former Delta Chi and Jet's Victory string to 24 straight! The team has a potent offense and fine defense which has been scored upon only 5 times in 2 years.

The Delta Chi Jets would make no predictions on the outcome of this season, only stating that they will take a good team to beat them.

Intramural Again

By Robert Acquila

The 1971 intramural football league got underway last Sunday, and old rivalries began once again.

The action started at 9:00 a.m. and when most everyone else was sleeping, Sigma Chi Delta and the Coyotes met on the gridiron. The Coyotes look as if they are well organized and possible contenders for the Little Axe title.

In the second game we saw the Vets, another top team, beat Sigma Chi, 6-0. The Vets have been playing together a couple of years and their tough defense has proven to be one of its major attributes.

It was 11 o'clock and two more teams battled it out. This time Sigma Chi, met Lambda Chi. Lambda Chi was defeated 12-0, with Sunshine Co. touching downs being the result of the long bomb.

Then the stage was set for the Delta Chi Jets and Cowboys game. The Jets defeated out a little shaky, but soon got it all together and romped their opponents 34-0! The victory continued the Delta Chi Jets' undefeated string to 24 straight, and once again they are going to be tough to beat.

So for you football fans, keep your day morning and help boost the morale of your favorites team.

**Intramural Volleyball**

There will be a meeting of all team captains playing intramural volleyball Tuesday, Oct. 3-6:30 PM-7:00 PM-8:00 PM. Students will organize their own teams and send their captain to the league meeting. Games will be on Tuesday nights starting Oct. 10.

ERAU GREEKS AND CLUBS

Alpha Rho Omega
by Jim Bearnoff

Alpha Rho Omega Professional Aviation Maintenance Fraternity was founded right here at ERAU during March, 1971. During this past summer the incorporation papers were completed. Unfortunately, however, some members were left so any schools wishing to form a branch of this fraternity can do so under our incorporation.

Alpha Rho Omega is currently aligned with a nationwide trailer and an international association. The national is F.A.M.A. (Fostering Aviation Maintenance Association) at headquarters at Pittsburgh, Pa. and the international is S.A.I.C. (Society of Licensed Aircraft Engineers and Technologists, headquarters at London, England). The purpose of these organizations is to promote a high degree of professionalism among aviation mechanics, foster and improve methods, skills, learning and achievement within the field of Aviation Maintenance. We conduct international, national, state and local meetings and seminars, and publish, distribute and disseminate news, technical bulletins, journals, and hold appropriate publications dealing with the trade of Aviation Maintenance.

AVU, PAMA, and START are our main professional profit, non-commercial and non-national. Membership in the aforementioned can be retained for the rest of your life. The dues are extremely reasonable and it is in the best way I know to keep up with the maintenance profession.

For further information, contact us through Box 1476 or we are welcome to attend any meetings by invitation. The next meeting will be on Oct. 4th (Wednesday) at 7:30PM at the Lake Park Recreation Hall, Nova Rd. and Need Canal Rd.

Delta Chi
by James Hunter

Last Friday evening we had our first Rush and what a Rush it was! We expected maybe two hundred people, but as it turned out we had at least twice that. We went through five copies of our Rush Plan and still some people went away thirsty. After the Rush out that like we should have a good number of prospective pledges at our smoker Monday night at 8:00 p.m.

The Delta Chi Jets played their first game last Sunday, defeating the Cowboys 34-0. The defense put up a tough defensive line with the help of Coach, our PE-222 instructor.

The grigers led the team in points with his two touchdowns and one extra point. We must have had a lucky day.

After the game, Delta Chi took over the TGA fish fry serving food, drinks, and beer. When it was all over, we took on the task of cleaning up the mess. The beer was excellent and the fish left something to be desired.

Our next football game is Sunday at 9 a.m. Be sure and be there to see the Jets win their second consecutive game.

Sigma Chi
by Bob Sheen

Last Friday night Sigma Chi hosted a rush party with President Hunt as a guest speaker. Saturday night was followed up with a rush party planned by brothers Frank Moreno and Paul George. Paul Mercendetti is going to be our Magnate this fall.

Sunday started the football season and our first game was played against the Vats. Our social calendar is out and coupled with the school activities, it looks like a busy fall trimester ahead of us.

We'll start out this weekend with a ski party at Lake Dover. It should be a lot of fun.

See you there, Brothers.

Sigma Phi Delta
by Mark Dezendorf

As most of you probably don't know, this article has to be turned over to the Avion Office on the Friday for its publication. Therefore, most of the news you get is almost two weeks old. For instance, when you read this article our first game will already have been played but it will be another week before this column can give you an account of the game. Protest this delay! (To security: If I should disappear, look for my body behind the Avion Office.)

Our mighty team, strengthened by pledges and prayers, is winding up for Sunday's game. We know the Coyotes will give us good competition but the better team will win.

One of the guards on our fine town is Don (otherwise known as warden). This quaint pedestrian refers to the Don's former pride and joy, now just a memory. Anything for a job, huh Don? That's it for now.

Mr. Dezendorf: We will be glad to publish the results of any games played after Friday. Although it is fraternity news, it is specifically sports, and will appear on the sports page.

I am sorry that our Friday deadline for this news disturbs you, but please remember that the Greeks are also students at this university and their work at the Avion is only part-time.

ERAU Pistol

And Rifle Club

All ERAU students are welcome to come to our first meeting on Fri the 14th of September, building A, room 117, at 2:10 pm. Contact Capt. Welch, ext. 57, or Gregor Knol, Box 4386, if you have any questions.

Hope to see you there.

Don't ever miss a trip!

**Mansfield Travels To Munich**

**by John Miller**

"Politics intruded on the more terribly and the ethic of the Games was lost." With this statement, Dean Mansfield described the Olympic Games after his first-hand experience in Munich, Germany.

When he arrived, he found the city beautifully decorated and the people most gracious and hospitable. However, this was soon overshadowed by the murders of the Israeli wrestling team members. "After the shootings, a blink of time seemed to pass over the city," Mansfield said. The tragedy, along with the mishandling of the Games themselves, caused Dean Mansfield to pull his remaining tickets and return early.

Among the events the Dean attended were track and field, soccer and basketball. Speaking as Soccer Coach, Mansfield noted, with disappointment, the performance of the American Soccer Team. He felt that since the rest of the world plays the game, it is "not democratic for the United States to play sub-standard soccer." (The U.S. team had been favored to win the first game but didn't make it to the quarterfinals.)

**SGA Mini Minutes Sept. 19, 1972**

**TIME, PLACE, ATTENDANCE**

The second regular meeting of the SGA Senate for the 1972 fall trimester was attended by three officers and 14 senators.

**OFFICERS' REPORT**

President: President Steenbock reported about his recent trip to Valen-
cia Junior College where he represented E-BHU's SGA at a Volun-
teer Services Fair. The Senate was in-
fomed about a banking agreement which E-BHU is entering with the First
Atlantic Bank. Within the next week construction will begin for a
new snack-bar and a recre-
ation room next to Dorm I. Flowers have been sent to Doctor Ballina who is undergoing a serious opera-
tion.

**COMMITTEE REPORTS**

NEW: Mr. Frank Mong-Mo to be in the process of organizing his committee.
He attended a Library Committee meeting last week.

Internal Affairs: Mr. Robert Meikel from the Traffic Committee in-
formed the Senate that the new traffic regulations are now in effect and
tickets are being issued by the traffic police.

Mr. Paul Mercadetelli, Chairman of Internal Affairs, discussed the
upcoming elections. He cited the openings available and urged the
Senators to encourage other students to run for Senate. Campaign
posters are not supposed to be hung on painted plaster walls.

Mr. Andy Anderson re-
quested adequate notice
before anything has to
be displayed on the
signs.

Social Functions: Mr.
George Merriman moved
that the SGA donate $150
to the Dollars for Scholars Fund. The mo-
tion carried.

The upcoming fish-fry on Sunday, September 24, 1972, was discussed. Mr. Merriman urged the
Senators to talk up the
event and get as many
students to participate as possible. He is also
working on a Halloween Dance at the Armory.

**NEW BUSINESS**

Mr. Stan Steenbock
appointed Mr. Raymond F.
Brown and Mr. William
Lewis Mosesley to Student
Court Judges. The Sen-
ate voted in favor of these appointments.

**ADJOURNMENT**

The meeting was ad-
journed at 1:12 p.m.
Placement Opportunities

The Placement Office has the following employment opportunities. If you are interested, call or visit Barbara Ahoua.

- Aircraft mechanic wanted; must be licensed. Bangor, Maine. Send resume or call party.
- Also airline ticketing and reservations agent.
- Employment agency has need of resumes and information so they can place pilots and mechanics. They have many positions open.
- Flight School and Air Taxi Service has need for an ASP mechanic in California. Flight school has a total membership of 1350, approximately 45 airplanes.
- Flight instructor needed in Peterboro, New Hampshire, good paying job. Helicopter ratings desired.
- Qualified Air Dispatcher needed for FBO in Maryland.
- Flight instructor needed in Iowa. Prefer a veteran or female for this position.
- Flight instructor needed for FBO in Brunswick, Georgia. Same plane needs an AZ for flight aircraft, experience preferred.
- Flight instructor needed in Charleston, W.Va.
- Communications ad
- Airframe Power plant needed in Daytona Beach.

FOR SALE:
- Garrard 5455 Automatic Turntable, includes dust cover base and 2 magnetic cartridges. Has just been cleaned and adjusted. Interested call Joe at 252-2339 anytime.
- General Electric canister vacuum cleaner, step-on switch, new hose and many attachments. Works good! $59.95
- Tired of changing plugs and points every few thousand miles? The Judson Electronic Magnet will extend the life of plugs and points indefinitely! This unit fits any make or model automobile...$27.95
- Bosch Halogen Fog lights. Just what you need for this area. Like new...$25.00
- Gagliano (West German) 5 String Banjo. Mahogany body, rosewood fingerboard, Weatherking skin, resonator. Case, picks, and Pete Seeger book included. YOU can't afford to pass up this opportunity! $50.00
- Call Paul Regalado at 253-5674 evenings and weekends.

Free Films At GRW

GRW has just ordered $1500 worth of FM films and six new 16mm projectors. This is part of the new audio visual program to be shown every day in room 107 (next to the library) of GRW from 1:30-4:45. Also shown are Sanderson film strips rating subjects from pretight instrument planning to basic aerodynamics. For more information check the bulletin boards for listings.

Students Wives

The Daytona Beach Convention Department (chamber of Commerce) has seasonal, part-time jobs for student's wives. Typing is mandatory-call Mrs. Karen Belcher at 253-7292.

The Mint Made A Mistake
You Can Collect

By Joe Green

Usually, a penny is worth a penny, except for Indian head pennies, and quite a few old Lincoln cents. In 1955, the U.S. Mint erred and minted a few thousand double stamped pennies, but these are out of circulation now.

It is very rare that the U.S. Mint goofed with their stringent methods of manufacture and quality control—but this year they did.

That's right, they double stamped a few thousand, or perhaps as many as a hundred thousand, 1972 Lincoln one cent pieces. What does this mean to you? Well, if you're a numismatic, you can put one in your collection. Or, you can sell them to a coin dealer in Daytona or anywhere else in the country.

What's the price? Well, it's up in the air right now, but they've usually been selling for 50 to 100 dollars each. A young man in Port Orange found 230 of them and sold them for $11,500 to a coin dealer in Philadelphia.

There are still plenty in circulation, so, after you pay your 4% Florida sales tax, look at the pennies you get in change. Match those pennies you spend; a handful could finance your education.
