The 'Eagles' have now got 3 Straight Victories.

Graduate Business Test Dates Released

The Admission Test for Graduate Study in Business (ATGSB) is required of more than 320 graduate business schools or divisions, and will be offered on November 4, 1972, and on February 3, April 7, June 30, and August 11 in 1973.

The Admission Test for Graduate Study in Business is an aptitude test designed to measure abilities and skills important in the study of management at the graduate level. It is not a measure of achievement or knowledge in specific subject matter. Those who take the test are neither required nor expected to have had undergraduate preparation in business subjects.

Registration for the ATGSB does not constitute application for admission to any business school. Candidates should request information on admission procedures and requirements directly from the graduate schools to which they wish to apply.

All graduate schools select their first-year classes during the spring preceding entry. Applicants for admission to the 1973 classes are advised to take the test no later than the February 3, 1973, date. Scholarship applicants are urged to register for either the November or the February test date.

For further information, contact the counseling office.

Employee Fund

A general meeting of all E-RAU employees will be held on Thursday, October 19, 1972, at 4:15 p.m. in room D-3, in order to form the "Buddy Riddle Employee Community Service Fund" and appoint officers.

The Fund will be forming to provide a convenient means of paying employees, through voluntary regular payroll deductions, to contribute to the various charitable and other worthy organizations which are active throughout the year. The governing body of the Fund, and its executive agency for carrying out the Fund's activities, is a Board of Trustees composed of five members. At the October 19th meeting, the employees will elect from the nomination list the members to the Board of Trustees to administer the affairs of the Fund until a new board is elected and assumes the responsibility. The first election is scheduled for early November. The one issue that will be for discussion is the selection of the functions of the Board of Trustees to administer the Fund.

Included in the future

1. The non-fiction readings will be
2. Future Shock (Alvin Toffler), the best-selling book on what is going to be
5. Brave New World Revisited ( Aldous Huxley), twenty-five years after Huxley another look from the non-fiction side.

October 20 is the last day for applications. Late ones will be accepted.

Student Run Flight Safety Council

The Student Flight Safety Council is a student organization formed because of concern over safety in flight operations and a desire for additional safety information programs. The Council will serve to assist E-RAU administration in the formation of additional policies and necessary rules. The objectives of the Council include recommending solutions for possible safety hazards to E-RAU flight operations, providing safety information to flight students, and establishing student preventive programs such as safety meetings and student suggestion systems.

The present safety record of E-RAU flight operations is already quite impressive. Bob Robert Beebe, Chairman of the Flight Safety Council and an Aeromedical student, stated that students will be implementing a number of programs designed to improve pilot safety. During the month of August, E-RAU aircraft flew more than 4,500 accident-free flight training hours, and the Flight Safety Council is working to maintain this record.

Literature Course to Study Future

The Modern Literature course for the spring trimester will feature fiction about the future, the Humanities Department announced Tuesday. Seven novels, along with a number of non-fiction books, will make up the readings for EN-307, according to instructor, Mr. Lamar.

This year's fiction selections are not science fiction in the old-guard sense of the term. They treat more of less, just recent futures that are very possible in terms of present technology and societal trends.

A main thrust of the course. Mr. Lamar said, will be to determine some fictional futures, comparing them to some of the currently available views of what is actually possible or likely.

Included in these novels are:

1. Andreomeda Strain (Michael Crichton), about biocrash and biowarfare using extraterrestrial organisms.
2. A Space Odyssey (Arthur C. Clarke), about supercomputers and possible influences of beings from elsewhere in the universe.
3. Fail-Safe (Burkitt and Wheelock) about relying too much on super-reliable weapons systems.
4. Seven days in May (Knebel and Bailey), about power concentration and conservative politics in the military.
5. Brave New World (Alfords Huxley), about controlling a society through genetic engineering and mind-altering drugs.
6. Sidney (S. F. Skinner), a fictional depiction of much of the material in his Beyond Freedom and Dignity, namely whether to control the society through conditioning is desirable, even if it is possible.

Jeffrey A. Giordano, Executive Director of Volusia County Mental Health Association, talked on possible community services projects at the E-RAU Lambda Chi Alpha house Wednesday night. The talk was part of Lambda Chi's program of continuing fraternity education.

Mr. Giordano talked mainly about three local programs - the Hot Line, Big Brother, and Youth Alternative. He said that all of these organizations help from local groups and citizens.

The Hot Line is a 24-hour service receiving telephone calls from40 distressed individuals and citizens. The Hot Line volunteers either talk to the callers or refer them to appropriate counseling agencies. Basically, the Hot Line needs volunteers.

Safety Florence

One impressive feature of the Robert Wagner lecture program is the number of programs designed to improve pilot safety. During the month of August, E-RAU aircraft flew more than 4,500 accident-free flight training hours, and the Flight Safety Council is working to maintain this record.
This week has been, to say the least, exciting, confusing, and turbulent. Now that I have been elected, I find myself in a gigantic, political whirlpool which, at present, shows no signs of slowing down. I had anticipated this because, as many of you know, any time there is a change, there is confusion. I hope that within one month most of it will be straightened out, and we will start functioning as we should have in the past.

During last week's Executive Board meeting I announced and recommended appointments of the following persons to these positions: Mosers, Jim Baco, Mark Shoemaker and Carl Tofsky into the offices of Justice of the Student Court. As presently withholding the announcement of any appointments to the University Athletic Committee as there are three persons currently being considered. I am proud to say that through the efforts of Mr. Moser and Mr. Tofsky, we have initiated and organized investigations on the students' behalf concerning appointments in the academic areas in the A&P department. Those areas were made known to me during my campaign. Also, Dorm residents have finally elected a Dorm Council Senator. Randy Winters is working hard to establish with them a working relationship.

Probably one of the biggest areas of concern right now is the merger of the Phoenix and the Avion into one office. Mr. Paul Mercandetti, Chairman of Internal Affairs, has taken much interest in the students' behalf to make sure that the merger is completed successfully and smoothly. Also, under Mr. Mercandetti, Senator Craig has been given the position of blood drive chairman. The blood drive will be conducted on the 1st and 2nd of November. I don't need to remind you that this is a very worthy cause and that all who are eligible should support such an effort. Any suggestions concerning advertisement or promotion of the blood drive would be greatly appreciated by Senator Craig.

I would like to bring your attention to a list put out by the registrar's office concerning a correction of the schedules which are currently published in the University bulletin. Those lists will be distributed around campus during the next week. Please check and read them carefully and make appropriate changes to your bulletin. There is also a bill in the mail, a redesigning of the current registration procedures. Dorm residents and Frank Moreno are coordinating such ideas and it is planned, in the future, to obtain Senate approval for any new proposals. Your comments would be appreciated.

Attendance at the E-RAU vs. Stetson soccer game was unusually good this past Saturday. Approximately 350 people attended and about 100 of those were from Stetson. Although there is a great deal written about the game itself this week, I feel that something more should be said about attendance at the games and what effect it has on the team and the school.

Even though we have a winning team with very good players, it would help greatly to improve team spirit and enthusiasm if the student body all came out and supported them.

In addition it would contribute toward competitiveness and camaraderie among the students. I felt great pride in E-RAU as we won the game, but also Stetson's spirit, even though they lost.

I would like to suggest that one or more of the fraternities undertake a support our team project. They might establish rallies and cheering sections, and even provide transportation to students who want to attend away from home games.

by Curtis J. Poree, Jr.

Attendance And Team Spirit

Letter to the Avion

I want to thank all the people who supported me in my campaign for USG senator. I am representing the Airframe & Powerplant students partially by my position by the students' Activities Fee through the Student Government Association.

Articles may be submitted to the AVION for publication by the administration, the faculty, and the student body. The AVION deadline is Friday afternoon, at 4 P.M. Please mark all items AVION, and deposit in the box outside the trailer, inside the trailer, or E-RAU Box 1862.
Walt Disney World Stol
by Drew Kassal
information from Disney World

There is little known about the Stolport operations which serve Florida's cities and the Bahamas.

Lake Buena Vista Stol is designed to be a satellite of the computer Stol service, specifically, Shonee Airlines at the present time.

The concept of a Stol transportation system deals with maximum efficiency at minimal operating costs. The Stolport handbook contains a lit-tle bit of information about the Stolport operation in its present development. The load factors to date, and an extremely low percentage, but it is believed that the operation will be successful when the pieces are put together.

When a passenger arrives at the Stolport he is asked if he will be departing at a later date. He is then told when and where and what time he is to be picked up. This information is kept in the transportation department and this is a standard procedure.

There are no scheduled runs to pick-up outbound passengers. The transpor-tation system is complemented by a passenger who is located at Walt Disney World, the Disney Designated Stolport in the nation. It functions as an urban center to a station; its identifi-cation is as Disney World Airport, Manager, Assistant to the Airport Manager, Flight Attendants (who handle all phases of ticketing, transportation, cabin-aircraft servicing, fueling, baggage, and customer service). In the future, the Stolport hostesses will be used. These people are all employed by Walt Disney World Co. not by Shonee Airlines.

Walt Disney World's operations are currently under-developed due to the fact of poor publicity. One example of this is the DAS-DNS service which had to be discontinued. Walt Disney World would appreciate it if you could send the word about its operations.

LEARN GERMAN—classes or private lessons taught by native teachers. Call Mrs. Eva Richtie at 253-3138.

DEHAVILLAND STOL (SHORT TAKE-OFF AND LANDING) Twin Otter—now flying directly into Walt Disney World from Major Florida cities and the Bahamas.

SPOTLIGHT

Walt Disney World Stol
by L.E. Andersen

I would like to discuss my impressions of the most distant point of Disney's reach that I'll cover in this series. Located in Tampa, Florida, Bush Gardens is one of the showcase attractions of the United States. Although the area is in the northeast, and what time he is to be picked up. This information is kept in the transportation department and this is a standard procedure.

The first thing that strikes your attention upon arrival is the Swiss Chalet that has been authentically re-created on the Garden grounds at old country structure sits on the highest point in the Garden area. The food is extraordinary and the prices are not too high; rather what is generally considered as medium for food.

Probably the main attrac-tion at the Gardens is their African Veldt. Bush Gardens is decorated by a wide variety of animals from all corners of the earth. The animals are free to roam as the land is large and the tourists are in the house. This is the only way to view the Veldt, which is from either the monorail train that circulates the entire area.

We took the monorail ride as it put us in an elevated position for taking pictures. As the train and the monorail are the only additional admission attractions in the Gardens, we only rode the monorail. The cost was approximately $1.50 per adult. Each child cost $0.50. The cost much in line after the excursion, as there is much to be seen in such a circuit.

They have a small animal enclosure which is free of admission, and can be seen in the Gardens. This area contains a myriad of animals from all over the world. The majority of the animals are in small enclosures where they are easily readily photographed.

Also found in this enclosure is a rather unique building. The Bush people have designed this area so that we may see what goes on in the world after dark. Every inhabitant is nocturnal. Due to the lighting, the animals think it is dark and go about their nat-ural way. Two of the occupants are the Aardvark and Aardwolf of South Africa.

Further down the line they have the park area of the Gardens. This is the area where they put on the famous bird show and have over 1000 birds on display. One of the most beautiful birds to be seen here is the white heron. By saving the best for last, now we come to the brewery. You would not want to lose this tour before you see the rest of the Gardens as they do provide free "re-freshments" inside. If you should want the product of the brewery with too much gusto, you may not be able to see the rest of the Gardens. The quantity is limited to soft drinks for the children are $1.25 each in the brewery.

The cleanliness in the buildings has to be seen to be believed. The Gardens are completely spotless. All metal fixtures are stain-less. The floors are immaculate.

The main event of our day at Bush Gardens was just over $3.00, including the cost of the film and gas. This was for seven people, which included 3 children and 4 adults. This attraction is a must for you while in this area.

by Charles McMahon

Do you know your pro-fessors? Sure they in-tegrate themselves in part when you begin a course, and the school handbook contains a little bit of information about them. But you never really know their feelings about teaching at E-RAU, about their students or about the future of Embry-Riddle. In the weeks to come, The Avion will feature an E-RAU professor each week and try to enlighten you on his background and ideas.

The first teacher inter-viewed is Mr. Michael Deeley, a professor in the mathematics depart-ment. Mr. Deeley was born in Sheboygan, Wis-consin, where he at-tended grammar and high school. He attended The University of Wisconsin for three years and then dropped out to review his academic goals. He then entered Clark Uni-versity where he re-ceived his Bachelor's and Master's degree in mathematics at A.A.U.B's fellowship.

He moved to Daytona Beach to teach Beth-une Cookman College for a year before coming to E-RAU.

When asked what he thinks of E-RAU, Mr. Deeley replied, "In the past three years the student body and faculty have greatly improved. The average student is better prepared for college and more intelli-gent. This new gencration is more responsive to both students and faculty opinions. Most of the misconceptions exist only among the administration are due to communication breakdown. The administration is not as in-flexible as people think."

FOR RENT-4 room house, $175.00/mo., 378 Linda Circle, 60 Daytona Beach. Contact Leonard Wilson, realtor-767-5954.

This past weekend found all members of the golf team practicing very seriously for the various matches and tournaments that will take place during October and November. We would like to take this opportunity to thank Chuck Boivin and Steve Meade from the Phoenix for taking the time and effort to come out with the team and take some action shots for the 73 Phoenix.

Here are a few points of interest and humor noted during Saturday's play. Dean Spears and Stan Bartlett each had one nice birdie putt that was "mutually rewarding." Stan also turned in a 78 total (sic), Walt Guy's driver accidentally "dropped" from his hands, rolled off the tee and fell into a lake "about 40 yards away" (said Walt did retrieve his driver. After many holes of play, it appeared that Dick Reimann (SGA President) was on a tear and surpassed his old record of 114. However, after much trial and error, and a little self-analysis, Dick was able to salvage a 101.

E-RAU present team members consist of: Dean Spears (coach), Stan Bartlett, Paul Laugher, Walt Guy, John Bishop, Gene Holloway, Ed Strickland, Bill Georgeff, Dick Reimann, Mike Pescitelli, and Gene Wages (team captain).

Our schedule for October and November is as follows:
- Oct. 15—here—St. John's College and Florida Institute of Technology.
- Oct. 17—there—Stetson College.
- Oct. 27-28 —Palatka-2-day intercollegiate tournament hosted by St. John's College.
- Nov. 4—Orlando—Florida Tech. University.
- Nov. 8-11—Winter Haven-3-day (ROB) intercollegiate tournament.
Rules For Fall Blood Drive

Advertising Campaign: There will be two prizes awarded in this competition, one for the best overall campaign and the second for the best single entry.

Entry qualifications for the overall campaign:
1. The organization must be recognized by the E-Rho Sigma.
2. Material entered should in some way identify the organization involved.
3. Entry qualifications for best single entry:
   1. May or may not be used as part of an overall campaign.
   2. Must be submitted by a full-time E-Rho student.
   3. Must bear the designer's name on the back.

The prize awarded for the overall campaign will be a trophy, which may be kept by the winning organization. A $25 savings bond will be awarded to the winner of the best single entry campaign.

All entries will be judged on October 27, 1972.

Voting Committee:
An organization winning this competition will receive a trophy which they will retain as well as having their name placed on the permanent trophy in the Gill Robb Wilson building.

Entry qualifications:
1. The organization must be recognized by the E-Rho Sigma.
2. Register in writing with the SGA Blood Drive Committee on or before October 27, 1972.
3. Exception: Individuals representing the regis-

Plecmcnt

The following are employment opportunities which the Placement Office has current information on:
1. Pilot needed for charter and taxi service. 200 hours required with ASME.
2. Local opportunity seeking pilots. A growing concern.

Call the association having continuing need for licensed A&P mechanics and pilots. Send resume.

Flight and ground-school instructors needed at Teterboro Airport in New Jersey.

Aircraft Technicians, immediate, employment Field team aircraft maintenance and modification. Must be willing to travel and relocate frequently.

Further instructions and benefits. Should call collector in this place immediately.

Club managers needed for FBO, rate of pay problems can be found.

Call will provide food, shelter, location.

Need experienced ground personnel.

To send resume immediately.

Engineering project manager needed. Must have recent experience in aircraft.

Send resumes to Placement Office. Need to send resumes immediately.

Information on what to expect during an interview and how to prepare for it is available in the Placement Office. Come by and see what we have for your information as you go out and send resumes when you graduate.

For students who are nearing graduation, please stop by the Placement Office and complete a form for our office records. This is the only way we have of maintaining a record on you, learning what type of employment you are most interested in and assisting you in reaching your career goals.

We can’t help you if you don’t cooperate. Further, it is important for everyone to complete the graduate form as they leave school to enable us to evaluate employment opportunities. Also, if you desire assistance with resumes and/or cover letters, please stop by at your convenience.

Help Youth Shelter

Sometimes during the coming week you will probably be approached by a representative of Lambda Chi Alpha Fraternity. You will be asked to contribute needed articles for the newly formed Youth Alternatives in Daytona Beach.

Currently, for lack of adequate facilities a youth may find shelter only at the Salvation Army Or in Juvenile Hall. The Mental Health Association of Volusia County doesn’t think that this is much of an alternative. In order to remedy that situation they have founded Youth Alternatives.

Youth Alternatives is a non-profit shelter facility for dependent, delinquent and runaway youth.

The VA shelter, located at 828 Cypress St., will provide food, shelter, and counseling for these youngsters until solutions for their problems can be found.

The only things needed to open the VA facility are food and furnishings for the shelter. Lambda Chi Alpha has set up a program for collecting donations anddiscards to meet these needs.

You can help if you can contribute any of the following:

- Beds, sheets and pillows, bedspreads, blankets, pillows, towels, and wash clothes.
- Non-perishable foods and kitchen equipment.
- Household cleaners, hand soap, children's toilet articles, first aid kit.
- Yard maintenance equipment, including a mower.
- Sports equipment (indoor and outdoor), televisions, radios, record players, cards, games.

If you have any of these items, Lambda Chi Alpha will pick them up on one of the next three Sat. mornings (Oct.14, 21, 28).

Octoberfest

by Joe Green

Octoberfest is with us once again. The 4th annual Octoberfest, presented by the Prince of Peach Church in Ormond Beach starts today.

Friday from 4:30 to 7:30 there's a Bavarian dinner. At 6:00 the festival opening ceremony starts with a costume parade of children and a tree lighting ceremony. From 7 to 8 o'clock the Sweet Adelines will entertain you, and from 8 to 11 there will be free live music.

Saturday features a chicken barbecue, baby contest, adult games, and more live music. Sunday there's a spaghetti dinner, a variety show, more live music and crowning of the Burgermeister and Prin.

There's not really enough space to include everything that will happen, but there are prizes for the kids, games and door prizes, a midway with prizes, snack booths, dancing and something new this year - the Mexican Room. What's the Mexican Room? Well, we're not allowed to say as this paper might be sent through the mails. Come and see for yourself.

Parking's never a problem at Embry-Riddle.

More On Coins

by Joe Green

Did any of you find any of the $100.00 pennies? I hope so. I personally looked through 15,000 - that's right - fifteen thousand pennies, and didn't find a single one.

But, I did find some rather unusual mint errors. One completely blank penny, one with cents missing on the reverse, on with no date, and about 10 other minor errors.

If you have some spare time to kill this can be a fascinating and rewarding hobby, with little or no investment.

I purchased a mint sealed bag of pennies from the Ormond Beach First National Bank, and with the help of a $6.00 machine I purchased from Ben's Coin Shop, looked through all of them. This is where I found the above oddities - worth approximately $125 as quoted to me by local coin dealers.

The rest of the pennies I looked at, I rolled and returned to the bank, replacing the 5 or 6 cents I took out. Then I bought another bag and looked through that. I then bought another bag, and another, and another....

Dining Out

by Charles McMahon

Sorrento's Italian restaurant and sub shop is located at the west end of the K-Mart shopping plaza on Volusia Avenue. Many K-R AU students have already sampled their fine cuisine, but perhaps some of the newer students on campus have not.

When you enter Sorrento's your nostrils are immediately assailed with the irresistible smells of an Italian deli, and you feast your eyes on the hot table where simmering meatballs, sausage, and veal are waiting for you to order. Adjacent to the hot table, cold cuts and cheeses are displayed to further your indecision as to what to order.

Regardless of whether you choose a submarine sandwich or a meal, you'll be pleased. Everything is delicious, and you won't have to leave your right arm at the door - all prices are reasonable.

Takeout service is available for either dinners or sandwiches, and in addition to soft drinks, beer is available with your meal. Sorrento's - try it once and you'll be hooked.
Today's Music
by Bory Donnelly

Toulouse Street by the Allman Brothers is a definite improvement over their first album released over a year ago. The first album seemed to go nothing but point out all of the groups weaknesses. Toulouse Street does just the opposite.

The two drummers, Michael Rossack and John Harrell, combined their talents and come up with a steady background beat that persists throughout the entire album. The crystal clear acoustic and electric guitar playing of Tom Johnston (lead), Pat Simmons (rhythm), and Tiran Porter (bass) can't help but make you smile. All together, they produce a mellow, rockin' sound with lacy guitar playing such as you've worked from the Allman Brothers.

It's hard to point out exactly what is so good about Toulouse Street. The thirty-five minute album is just good. The closing cut, 'Listen to the Music', starts your foot tapping and it doesn't stop until the record is over. Don't be surprised to find yourself immediately playing the album over again.

There are a few concerts coming up in Jacksonville this fall. The concerts are:

1968 Olds Toronado. All power, factory air and FM stereo. Front wheel drive with disc brakes. Blue with black vinyl interior. New tires and water pump. Price $1950.00. $350.00 for a Gibson 3 string guitar. Case, capo and picks included. Like-new Factory warranty. Excellent condition. Must see and hear to appreciate. $1500.00 Contact Raul Regalado at 255-6674 or R-RAU Box 4293.

Certified for Sale: Gerard $555 Automatic Portable, includes dust cover and 2 magnetic cartridges. Has just been cleaned and adjusted. Interested call Sue at 259-2339 anytime.

For Sale: GMC 1 ton dump truck comes with a fifty foot winch, four way winch, and air compressor. Price $2200.00. Occidental, Oregon. Call 352-7560.

Are you interested in placing your name and pertinent information in a paper which is published yearly for international students who are interested in studying in their own countries? There is no cost to this service and it is open to all foreign students who will be graduating within the next year. It is a very good opportunity for you to advertise your qualifications to international companies and it may provide you a job. All you must do in come by the Placement Office and see Claire Lane to complete the necessary forms. There is a deadline of November 20th, so hurry on in and complete the forms so they can be mailed off.

PASS YOUR WRITTEN

ROTC

If you plan to register for Air Force ROTC during the spring 1973 or fall 1973 trimester, now is the time to make application.

No Professional Officer course applications for the spring 1973 trimester will be accepted after November 15, 72.

Contact Sgt. Webb or Sgt. Abner in Building 3, Room 15 (old simulator room) or call ext. 53 for more information.

Sport Parachute Club

Your Sport Parachute Club has changed the day and time of its monthly meetings. They will now be held on the first and third Thursdays of the month at 7 p.m. The next meeting will be on the 19th of October. Elections of officer for this year will be held, and you're all welcome to drop in and see our delightful interpretation of 'Roberts Rules of Order'.

Foreign Students

If you are interested in finding yourself abroad, you may wish to peruse the 'Foreign Students' section of the Classifieds section for more information. If not, you may wish to find out what our foreign friends are up to by answering the following questions:

Are you interested in taking any FAA written exams (A&P, FLT, check rides, orals, and practicals) at the ACME School in Ft. Worth, Texas? If you're interested in passing your written exams, please contact Rick Hubel Box 337 or call 672-4124. The next meeting will be on or about Nov. 1st and will be for about 2 weeks.
