Unannounced Holiday Veteran's Day Oct. 23 NO CLASSES

Graduate Business Test Dates Released

The Admission Test for Graduates in Business (ATGB) required by more than 320 graduate business schools will be held on November 4, 1972; and on March 4, April 2, June 30, and August 11 in 1973. The Admission Test for Graduates in Business is aptitude test designed to measure abilities and skills important in the study of management at the graduate level. It is not a measure of achievement or knowledge in specific subject matter. Those who take the test are neither required nor expected to have had undergraduate preparation in business subjects.

Registration for the ATGB does not constitute application for admission to any business school. Applicants should request information on admission procedures and requirements directly from the graduate schools to which they wish to apply.

Since some business schools select their first-year classes during the spring preceding entry, applicants for admission to 1973 classes are advised to take the test no later than the February 3, 1973 date. Scholarship applicants are urged to register for either the November 4 or March 4, 1973 test.

Further information is available in the counseling office.

Employee Fund

A general meeting of all E-RAU employees will be held on Thursday, October 19, 1972, at 4:15 p.m. in room 202 in the Volusia County Memorial Medical Center, to form the E-RAU Employee Community Service Fund and to appoint officers. This Fund will be formed to provide a convenient means of supporting employees, through voluntary regular payroll deductions, to contribute to the various charitable and other worthy organizations which are active in the community.

The governing body of the Fund, and its executive agency for carrying out the Fund's mission, is a Board of Trustees consisting of six members. At the October 19th meeting, the employees will elect the Board of Trustees. The Board will then appoint the members to the Board of Trustees to administer the affairs of the Fund. The next Board is elected and assumes the responsibility of the Fund. The first election will be held as scheduled on Tuesday, October 24, 1972.

Literature Course To Study Future

The Modern Literature course for the spring semester will feature fiction about the future, the Humanities Department announced Tuesday. Seven novels, along with one non-fiction book, will make up the readings for ENG-107, according to Professor William B. S. Miller, instructor. The fiction selection are not science fiction in the old-guard sense of the term. They treat more or less plausible future that are very possible in terms of present technology and social trends.

A main thrust of the course is that all the readings will examine some fictional futures, comparing them to some of the most available views of what is actually possible or likely.

Included among the novels are: Andromeda Strain (Michael Crichton), about bioresearch and biowarfare using extraterrestrial organisms.

Future Shock (Alvin Toffler), the best-selling book on what will be.

Profiles of the Future (Arthur C. Clarke), contains many predictions of scientific advancements and explorations. In 1959 Clarke predicted that lunar landings would take place in 1996.

New Brain World (Almond & Loehly), a study of the present state of what is possible for biocomputer and the future of man, "if any."

Brave New World Revisited ( Aldous Huxley), twenty-five years after Huxley's classic work, another look at the non-fiction side.

Oct 20 is the last day for DEC. GRADUATE APPLICATIONS. NO LATER ONES WILL BE ACCEPTED.

Director Mental Health Speaks at Lambda Chi Alpha

Jeffrey A. Giordano, Executive Director of Volusia County Mental Health Association talked on possible community service projects at the E-RAU Lambda Chi Alpha House Wednesday night. The talk was part of Lamba Chi's program of continuing fraternity education. Mr. Giordano talked mainly about three local programs: Hot Line, Big Brother, and Youth Alternative. He said that all of these organizations help from local groups and citizens.

The Hot Line is a 24-hour receiving telephone staffed by volunteers from local groups and citizens. The Hot Line volunteers are either at the callers or refer them to appropriate counseling agencies. Basically the Hot Line needs volunteers.

Students Run Flight Safety Council

The Student Flight Safety Council is a student organization formed because of concern over flight safety. Mr. M. S. Miller, an executive of Volusia County Mental Health Association (252-5785), speaks at the Lambda Chi Alpha House Wednesday night. The talk was part of Lambda Chi's program of continuing fraternity education. Mr. Giordano talked mainly about three local programs: Hot Line, Big Brother, and Youth Alternative. He said that all of these organizations help from local groups and citizens.

This week has been, to say the least, exciting, confusing, and turbulent. Now that I have been elected, I find myself in a gigantic, political whirlpool which, at present, shows no signs of abating or slowing down. I had anticipated this because, as many of you know, any time there is a change, there is confusion. I hope that within one month most of it will be straightened out, and we will start functioning as we should have in the past.

During last week's Executive Board meeting I announced and recommended appointments of the following persons to these positions: Messrs. Jim Bace, Mark Shoemaker, and Carl Tofts into the offices of Justice of the Student Court. I am presently withholding the announcement of any appointments to the University Academic Committee as there are three persons currently being considered.

I am proud to say that through the efforts of Mr. DiMillo, Chairman of REM Committee, we have initiated and organized investigations on the students' behalf concerning appointments to the personnel area in the AAP department. These areas were made known to me during my campaign. Also, the Dorm residents have finally elected a Dorm Council Senator. Randy Winters is working hard to establish with them a working relationship.

Probably one of the biggest areas of concern right now is the merger of the Phoenix and the Avion into one office. Mr. Paul Mercadelli, Chairman of Internal Affairs, has taken much interest on the students' behalf to make sure that the merger is completed successfully and smoothly. Also, under Mr. Mercadelli, Senator Bill Craig has been given the position of blood drive chairman. The blood drive will be conducted on the 3rd and 5th of November. I don't need to remind you that this is a very worthy cause and that all who are eligible should support such an effort. Any suggestions concerning advertisement or promotion of the blood drive would be greatly appreciated by Senator Craig.

I would like to bring your attention to a list put out by the registrar's office concerning a correction of the schedules which are currently published in the University bulletin. These lists will be distributed around campus during the next week. Please check and read them carefully and make appropriate changes to your bulletin. There is also in the mail a redesigning of the current registration procedures. Director's College and Frank Moreno are coordinating such procedures and ideas and it is planned, in the future, to obtain Senate approval for any new proposals. Your comments would be appreciated.

by Curtis J. Poree, Jr.

Attendance and Team Spirit

Attendance at the E-RAU vs. Stetsen soccer game was unusually good this past Saturday. Approximately 350 people attended and about 100 of those were from Stetsen.

Although there is a great deal written about the game itself this week, I feel that something more should be said about attendance at the games and what effect it has on the team and the school. Even though we have a winning team with very good players, it would help greatly to improve team spirit and enthusiasm if the student body all came out and supported them.

In addition it would contribute toward consciousness and camaraderie among the students. I felt great pride in E-RAU as we won the game, and enjoyed Stetsen's spirit, even though they lost.

I would like to suggest that one or more of the fraternities undertake a support our team project. They might establish rallies and cheering sections, and even provide transportation to students who want to attend away from home games.

Letter to the Avion

I want to thank all the people who supported me in my campaign for AAP senator. I am representing the Airframe Powerplant students in the Senate. Representing you is my main job. I need your help and ideas to make E-RAU a better place for all of us.

Any complaints or suggestions be written down and put in my mail box in the Student Center ($4A) or in my box in the SGA Office.

Remember, if you do not tell me your problem, nothing can be accomplished.

David D. Clausen
There is little known about the operation of the STOLport operations which serve Florida's cities and the Bahamas.

Lake Buena Vista STOL Airport is designed to accommodate a computer STOL service, specifically, Shownee Airlines at the present time.

The concept of a STOL transportation system deals with maximum efficiency at minimal operating costs. The Cape Pointerland Twin Otter (DC-6) is presently demonstrating the capabilities of a STOL operation in heavy-duty, large areas. The load factors to date, an extremely low percentage, but it is believed this operation will be successful when the pieces are put together.

When a passenger arrives at the terminal, he is asked if he will be departing at a later date. If he is, a card is made out indicating his departure date, name, the number in his party, flight number, etc. This is done so that and where and what time he is to be picked up. This information is used in the transportation plan. When this is a standard procedure for all departures. There are no scheduled runs to pick-up outbound passengers. (The transportation system is completely designed.) There have arisen many instances whereby a passenger is lost in the airport and knowledge of him.

Both airports located at Walt Disney World, is the Disney World's designated STOLport in the nation. It functions as an airport terminal connected to a station; its identity is that of a Disney World Air Manager, an Assistant to the Airport Manager. Flight Attendents (who handle all phases of ticketing, transportation, cabin-aircraft servicing, refueling, baggage, and customer service). In the planning stages of the STOLport hostesses will be used. These are people who are employed by the Disney World Company. Not by Shownee Airlines.

Walt Disney World's operation is hindered due to the fact of poor publicity. One example of this is the DAS-DNS service which had to be discontinued. Walt Disney World would appreciate it if you could pass the word about its operation.

LEARN GERMAN- classes or private lessons taught by native teachers. Call Mr. Ora Riches at 253-3138.

Do you know your professors? Sure they introduce themselves in part when you begin a course, and the school handbook contains a little bit more information. But you never really know their feelings about teaching at K-Rau, about their students or about the future of Embry-Riddle. In the weeks to come, The Avion will feature an E-KAU professor each week and try to enlighten you on his background and ideas.

The first teacher interviewed is Mr. Michael Bailey, a professor in the mathematics department. Mr. Bailey was born in St. Augustine, Florida, where he attended grammar and high school. He attended The University of Wisconsin for three years and then dropped out to review his academic ambitions. He then attended Clark University, where he received his Bachelor's and Master's degree in mathematics on a N.A.S.A. fellowship. E-MU's

He moved to Daytona Beach to teach at Bethune-Cookman College for a year before coming to K-Rau.

When asked what he thinks of K-Rau, Mr. Bailey replied, "In the past three years the student body and faculty have greatly improved. The average student is more responsive to both the students and faculty opinions. Most of the students are not only well-behaved but actually respect each other's rules. The administration is more on the side of the students than I have seen in other schools."

Mr. Bailey is also impressed with the school's new library, which is one of the best in the country. He feels that the library is an important part of the school's success.

Another sign of improvement is the strong student voice which has emerged in recent years. Students are less apathetic about what happens to their school and to them."

When asked what he thinks of K-Rau's future, Mr. Bailey replied, "Riddle's future is dependant on several things-first, the performance of its graduates, second, its clearly defined objectives. Some private schools have tried to be all things to all people. K-Rau has avoided that. He's grown slowly, but what good are empty buildings? Lastly, an active selling campaign is necessary for future expansion."

When asked about his teaching philosophy, Mr. Bailey replied, "Well, I believe in the relaxed, easy-going atmosphere in class and in the dormitory. I like to encourage my students to think for themselves. This aids in the development of their interests in the course. I don't believe in fear tactics to get things done in class. I don't believe in rigid format in my courses. I set minimal goals, if the student understands the material, I set the goal. I improve according to the class."

Mr. Bailey then thanks Mr. Deeley for granting us this interview, but more important, we thank him for his interest in K-Rau's students and in its future.

E-RAU Golf Team
by Gene Wages

This past weekend found all members of the golf team practicing very seriously for the various matches and tournaments that will take place during October and November. We would like to thank Chuck Boivin and Steve Meade from the Phoenix for taking the time and effort to come out with the team and take some action shots for the Phoenix.

Here are a few points of interest and humor noted during Saturday’s play. Dean Spears and Stan Bartlett each had one nice birdie putt that was “mutually rewarding.” Stan also turned in a 78 total for the best round.

E-RAU present team members consist of: Dean Spears (coach), Stan Bartlett, Paul Loughry, Walt Guy, John Bishop, Gene Holloway, Ed Strickland, Bill Geor- geff, Dick Reimann, Mike Pescitelli, and Gene Wages (team captain).

Our schedule for October and November is as follows:

- Oct. 15—here—St. John’s College and Florida In- stitute of Technology.
- Oct. 17—there—Embry-Riddle.
- Oct. 27-28 --Palm Beach--2-day intercollegiate tournament hosted by St. John’s College.
- Nov. 4-5—Orlando—Florida Tech. University.
- Nov. 8-11—Winter Haven—1-day (ROB) intercol- legiate tournament.

E-RAU Eagles Take Home Another Victory

by Bob Arquila

What was predicted to be mainly a two team race for the championship is starting to come true as the Vets Club and Delta Chi Jets are leading the Intramural league, both teams being undefeated.

Delta Chi, while hanging in there with only one loss, won its second straight game against the Cowboys who are winless so far this season. The game was tight all the way and the final score was 6-0. The undefeated Vets met Lambda Chi Alpha and remained undefeated with a 21-0 victory. The Vets defense looked tough as ever and their offense really got it together to give Lambda Chi its third straight setback.

The Delta Chi Jets also remained undefeated by shipping the Coyotes 33-9. A fine running and passing game plus a great punt return by Sam Lopez led the game for Delta Chi.

The tough Sigma Phi Delta squad proved to be just as good and kept the Sunshine Co. from scoring. Sunshine Co. had been the second highest scoring team unit all the season, but couldn’t move the ball against Sigma Phi and the game ended in a tie 0-0. This dropped the Sunshine Co. behind the Vets and Jets by a game.

Rules For Fall Blood Drive

Advertising Campaign:
There will be two prizes awarded in this competition, one for the best overall campaign and the second for the best single entry.

Entry qualifications for the overall campaign:
1. The organization must be recognized by the E-RWA SGA.
2. Material entered should in some way identify the organization involved.

Entry qualifications for best single entry:
1. May or may not be used as part of an overall campaign.
2. Must be submitted by a full-time E-RWA student.
3. Must bear the designer's name on the back.

The prize awarded for the overall campaign will be a trophy which may be kept by the winning organization. A $25 savings bond will be awarded to the winner of the best single entry competition. All entries will be judged on October 27, 1972.

Voting Competition:
An organization winning this competition will receive a trophy which they will retain as well as having their name placed on the permanent trophy in the Gail Rob Wilson building.

Entry qualifications:
1. The organization must be recognized by the E-RWA SGA.
2. Register in writing with the SGA Blood Drive Committee on or before October 27, 1972.
3. Enter your organization in the regis-

Placemnt

Help Youth Shelter

The following are employment opportunities which the Placement Office has current information on:
- Pilot needed for charter and taxi service, 200 hours required with ASME.

Local opportunity seeking additional help for growing concern.

Cash Gifts Association has continuing need for licensed A&P mechanics and pilots. Send resume.

Flight and groundschool instructors needed at Teterboro Airport in New Jersey.

Aircraft Technicians, immediate employment. Field team aircraft maintenance and modification.

Need to travel to volunteer. Frequently furnish own tools. Travel allows for small benefits. Should call or write to this place immediately.

Club managers needed for FBO, rate of pay open. Light aircraft marketing, PA or BS with some business training.

Commercial license with at least 500 hours. Flight instructor rating. Some experience preferred and excellent benefits. Should call or write immediately.

Engineering project manager needed. Must guide and instruct project personnel in the complete design, alteration, or modification of aircraft projects assigned to. Responsible for the complete design of an airplane according to corporate and Federal Aviation Agency requirements. Other information is available in the Placement Office.

Information on what to expect if you graduate and how to prepare for it is available in the Placement Office.

All students who are nearing graduation, please stop by the Placement Office and complete a form for our offsite records. This is the only way we have of maintaining a record on you, learning what type of employment you are most interested in and assisting you in reaching your career goal. We can't help you if you don't cooperate. Further, it is important for everyone to complete the graduate form as they leave school to enable us to evaluate employment opportunities. Also, if you desire assistance with resumes and cover letters, please stop by at your convenience.
Octoberfest
by Joe Green

Octoberfest is with us once again. The 4th annual Octoberfest, presented by the Prince of Peach Church in Ormond Beach starts today.

Friday from 5:30 to 7:30 there's a Bavarian dinner. At 6:00 the festival opening ceremony starts with a costume parade of children and a tree lighting ceremony. From 7 to 8 o'clock the Sweet Adelines will entertain you, and from 8 to 11 there will be free live music.

Saturday features a chicken barbeque, baby contest, adult games, and more live music.

Sunday there's a spaghetti dinner, a variety show, more live music and crowning of the Burgermeister and Frae.

There's not really enough space to include everything that will happen, but there are prizes for the kids, games for the adults, a midway with prizes, snack booths, dancing and something new this year - the Munich Room. What's the Munich Room? Well, we're not allowed to say as this paper might be sent through the mails. Come and see for yourself.

Parking's never a problem at Embry-Riddle.

More On Coins
by Joe Green

Did any of you find any of the $100.00 pennies? I hope so. I personally looked through 15,000 - that's right - fifteen thousand pennies, and didn't find a single one.

But, I did find some rather unusual mint errors. One completely blank penny, one with cents missing on the reverse, on with no date, and about 10 other minor errors. If you have some spare time to kill this can be a fascinating and rewarding hobby, with little or no investment.

I purchased a mint sealed bag of pennies from the Ormond Beach First National Bank, and with the help of a $6.00 machine I purchased from Ben's Coin Shop, looked through all of them. This is where I found the above oddities worth approximately $125 as quoted to me by local coin dealers.

The rest of the pennies, I looked at, I rolled and returned to the bank, replacing the 5 or 6 cents I took out. Then I bought another bag and looked through that. I then bought another bag and another, and another....

Dining Out
by Charles McManus

Sorrento's Italian restaurant and sub shop is located at the west end of the K-Mart shopping plaza on Volusia Avenue. Many E-Rau students have already sampled their fine cuisine, but perhaps some of the newer students on campus have not.

When you enter Sorrento's you nostrils are immediately assailed with the irresistible smells of an Italian deli, and you feast your eyes on the hot table where simmering meatballs, sausage, and veal are waiting for you to order. Adjacent to the hot table, cold cuts and cheeses are displayed to further one's indecision as to what to order.

Regardless of whether you choose a submarine sandwich or a meal, you'll be pleased. Everything is delicious, and you won't have to leave your right arm at the door - all prices are reasonable.

Takeout service is available for either dinners or sandwiches, and in addition to soft drinks, beer is available with your meal. Sorrento's -- try it once and you'll be hooked.

Parking's never a problem at Embry-Riddle.

Today's Music
by Rory Donnelly

Toulouse Street: The Eight Bells Band is a definite improvement over its first album released over a year ago. That first album seemed to do nothing but point out all of the groups weaknesses. Toulouse Street does just the opposite.

The two drummers, Michael Mossack and John Herington, combine their talents and come up with a steady background beat that persists throughout the entire album. The crystal clear acoustic and electric guitar playing of Tom Johnston (lead), Pat Simmons (rhythm), and Tiran Porter (bass) can't help but make your smile. All together, they produce a mellow, rocking sound that you can find yourself to the all man's album.

It's hard to point out exactly what is so good about Toulouse Street. The thirty-five minute album is just good. The opening cut, 'Listen to the Music', starts your foot tapping and it doesn't stop until the record is over. Don't be surprised to find yourself immediately playing the album over again.

There are a few concerts coming up in Jacksonville in the next few weeks.

PASS YOUR WRITTEN

ROC

If you plan to register for Air Force ROTC during the spring 73 or fall 74 trimester, now is the time to make application.

No Professional Officer course applications for the spring 73 trimester will be accepted after November 15, 72.

Contact Sqt. Wohr or Sqt. Abner in Building 3, Room 15 (old simulator room) or call ext. 53 for more information.

Sport Parachute Club

Your Sport Parachute Club has changed the time and day of its bimonthly meetings. They will now be held on the first and third Thursdays of the month at 7 p.m. The next meeting will be on the 19th of October. Elections of officers for this year will be held, and you're all welcome to drop in and see our delightful interpretation of 'Roberts Rules of Order'.

FOREIGN STUDENTS

Are you interested in placing your name and pertinent information in a paper which is published yearly for international students who are interested in coming to our own countries? There is no cost for this service and it is open to all foreign students who will be graduating within the next year. It is very good opportunity for you to advertise your qualifications to international companies and it may provide you a job. All you must do is come by the Placement Office and see Claire Lane to complete the necessary forms. There is a deadline of November 20th, so hurry in and complete the forms so they can be mailed off.

Classified

Soccer Team Remains Undefeated

by Mary Donnelly

Embry-Riddle ran their record to 3-0 with a win Saturday over a confident Stetson University team. It was the sixteenth meeting of the two schools; the Eagles have won ten while tying three.

Saturday’s game saw six Embry-Riddle players score. The four starters Gary Haupt, Summuit Vivarokas, Honolu Johnson, and Ivan Estrella each scored one goal. Two other goals were scored by Vuolo Guerra and Ward Dunnin.

It was the impressively balanced attack by Coach Mansfield’s team that led them to their 6-4 win. The Stetson team went home with great respect for the determined Embry-Riddle team.

Next week the Eagles will try and stretch their record to four straight wins when they play Florida Institute of Technology. The game will be an away game.
