Graduate Business Test Dates Released

The Admission Test for Graduate Study in Business (ATGSB), required by more than 320 graduate business schools or divisions, will be offered on November 4, 1972 and on February 3, April 7, June 30, and August 11 in 1973.

The Admission Test for Graduate Study in Business is an aptitude test designed to measure abilities and skills important in the study of management at the graduate level. It is not a measure of achievement or knowledge in specific subject matter. Those who take the test are neither required nor expected to have had undergraduate preparation in business subjects.

Registration for the ATGSB does not constitute application for admission to any business school. Any student who wishes to apply for admission to a business school must request information on admissions procedures and requirements from the graduate school to which he wishes to apply. Since many business schools set admission requirements for their first-year classes during the spring preceding entry, applicants for admission to 1973 classes are advised to take the test no later than the February 3, 1973 date. Scholarship applicants are urged to register for either the November 4, 1972 or the February 3, 1973 test date.

For further information and application forms, contact the counseling office.

Employee Fund

A general meeting of all E-RAU employees will be held on Thursday, October 19, 1972 at 4:15 p.m. in the Founders’ Lounge to form the E-RAU Employee Community Service Fund and appoint officers.

This Fund is being formed to provide a convenient means of voluntary payroll deductions to contribute to the various charitable and other worthy organizations which are designated by employees throughout the year. The governing body of the Fund is the Executive Agency for carrying out the Fund’s purposes; it is a Board of Trustees composed of E-RAU employees.

At the October 19th meeting, the employees will elect officers to which the Board of Trustees will appoint the members to the Board of Trustees to administer the affairs of the Fund. At that meeting, a Board of Trustees will be elected and the Board is expected to meet the first Tuesday in May, 1973 to discuss the functions of the Fund. Interested employees are soliciting for funds on behalf of external organizations.

Director Mental Health
Speaks at Lambda Chi Alpha

Jeffrey A. Giordano, Executive Director of Volusia County Mental Health Association, was guest speaker at the Lambda Chi Alpha House Monday night. Mr. Giordano talked mainly about three local programs: Hot Line, Big Brother, and Youth Alternatives. He said that all of these organizations help local groups and citizens.

The Hot Line is a 24-hour-a-day telephone service, receiving telephone calls from concerned citizens. The Hot Line volunteers either refer the callers to appropriate counseling agencies or talk tofighters until they are helped. Basically, the Hot Line needs volunteers.

The Student Flight Safety Council is a student organization formed because of growing need for safety in flight operations and a desire for more exposure to flight safety programs. The Council will serve to assist the E-RAU administration in the formation of safety policies and necessary rules. The objectives of the Council include recommending solutions for possible safety hazards to E-RAU flight operations, providing safety information to flight students, and establishing student preventive programs such as safety meetings and student suggestion systems.

The present safety record of E-RAU flight operations is quite impressive. But, Robert Beebe, Chairman of the flight Safety Council and an E-RAU student, states students will be implementing a number of programs designed to improve pilot safety.

During the month of September, E-RAU aircraft flew more than 4,500 accident-free hours, and the Flight Safety Council is working to maintain this record.

Literature Course To Study Future

The Modern Literature course for the spring trimester will feature fiction about the future, the Humanities Department announced Tuesday. Seven novels, along with selected non-fiction books, will make up the readings for EDU 107, according to instructor, Mr. Lamar.

The fiction selections are not science fiction in the old-guard sense of the term. They treat more of less, still limited futures that are very possible in terms of present technology and social trends.

A main thrust of the course will be to examine some fictional futures, comparing them to some of the available views of what is actually possible or likely.

Included among the novels are:

Andromeda Strain (Michael Crichton), about biowarfare using extraterrestrial organisms.

2001: A Space Odyssey (Arthur C. Clarke), about supercomputers and possible influences of beings from elsewhere in the universe.

Fail-Safe (Bur dick and Wheelright), about relying too much on super-reliable weapons systems.

Seven Days in May (Knebel and Bailey), about power concentration and conservative politicians in the military.

Brave New World ( Aldous Huxley), about controlling a society through genetic engineering and mind-altering drugs.

Wilde: Two (F. Skinner), a fictional treatment of man's material in his Beyond Freedom and Dignity, namely whether free control of the society through conditioning is desirable, even if it is possible.

E-RAU Soccer Team Remains Unbeaten After 6-4 Victory Over Stetson on Sat.

The Eagles have now got 3 Straight Victories.
President's Corner

This week has been, to say the least, exciting, confusing, and turbulent. Now that I have been elected, I find myself in a situation in which, at present, shows no signs of being toned down. I had anticipated this because, as many of you know, the merger of the Phoenix and the Avion into one office will have a profound effect on the student body, not to mention the fact that the merger has been completed successfully and smoothly. Under Mr. Mercandetti, Senator Hall has been given the position of blood drive chairman. The blood drive will be conducted on the Ist and 3rd Wednesdays in November. I don't need to remind you that this is a very worthy cause and that all who are eligible should support such an effort. Any suggestions concerning the promotion or advertisement of the blood drive will be greatly appreciated by Senator Hall.

The Avion reserves the right to edit letters as we see fit in accordance with our publication practices. All letters must be signed, although names will be withheld upon request from the writer.

Attendance and Team Spirit

by Curtis J. Poreo, Jr.

Attendance at the E-RAU vs. Stetson soccer game was unusually good this past Saturday. Approximately 350 people attended and about 100 of those were from Stetson. Although there is a great deal written about the games themselves, I feel that something more should be said about attendance at the games and what effect it has on the team and the school. Even though we have a winning team with very good players, it would help greatly to improve team spirit and enthusiasm if the student body all came out and supported the team.

In addition it would contribute toward competitiveness and camaraderie among the students. I felt great pride in E-RAU as we won the game, but I still think that Stetson's spirit, even though they lost.

I would like to suggest that one or more of the fraternities underwrite a support our team project. They might establish rallies and cheering sections, and even provide transportation to students who want to attend away from home games.

Letter to the Avion

I want to thank all the people who supported me in my campaign for AAP senator. I am representing the Airframe & Powerplant section in the Senate.

Representing you is my main job. I need your help and ideas to make E-RAU a better place for all of us.

Any complaints or suggestions should be written down and put in my mail box in the Student Center (548) or in my box in the SGA Office. Remember, if you do not tell me your problems, nothing can be accomplished.

David D. Clausen
Walt Disney World Stol
by Drew Kassal
Information from Disney World

There is little known about Stoll. His name is associated with STOLport operations which are located in Florida's cities and the Bahamas.

Lake Buena Vista STOL Airport is designed to serve as a computer STOL service, especially to commuters at Disney World at the present time.

The concept of a STOL transportation system deals with maximum efficiency at minimal operating costs. The Cessna Caravan, a state-of-the-art STOL provides a recent demonstration of the capabilities of a STOL in operation in heavily populated areas. The load factors to date are an extremely low percentage, but it is believed that the operation will be successful when the pieces are put together.

When a passenger arrives at the terminal, he is asked if he will be departing at a later date. The car is then made out indicating his departure date, name, the number in his party, flight number, name of the city, and what time he is to be picked up. This information is then put in a transportation planning file. This is a standard procedure for all departures. There are no scheduled flights to pick-up outbound passengers. The transportation system is completely booked.

There are many instances whereby a passenger is located at Disney World International, and the airport has no knowledge of him. He is then directed to the Disney World Hotel as the closest STOLport in the nation. It functions as an airport and offers a shuttle service to a station; its identifying feature is a Disney Airways Airport Manager, an Assistant to the Airport Manager, Flight Attendants (who handle all phases of ticketing, transportation, cabin-aircraft service, fueling, baggage, and customer service). In the event that the Disney Airways STOL port hostesses are used. These people are all employed by Disney World Company, not by Sunshine Airlines. A Disney Airways STOLport hostess is not employed at Disney World Airports in United States because Disney World is unincorporated due to the fact of poor publicity. One exception is the DAS-DNS service which had been discontinued. Disney World Disney World would appreciate it if you could leave the word about its operations.

LEARN GERMAN- classes or private lessons taught by native teachers. Call Ms. Oya Ritchie at 253-3138.

DEHAVILLAND STOL (SHORT TAKE-OFF AND LANDING) TWINS OTTER... now flying directly into Disney World from major Florida cities and the Bahamas.

AROUND CENTRAL FLORIDA

by L.E. Andersen

I would like to discuss my impressions of the most distant point Daytime Reach that I'll cover in this series. Located in Tampa, Florida, Busch Gardens is one of the showplace attractions of the United States. Although the area is far from Tampa, it is near three lakes. The area is called Tampa, but it is worth the time needed to explore.

The first thing that attracts your attention upon arrival is the Swiss Chalet that has been authentically reproduced on the Garden grounds at this country structure sits on the highest point in the Garden. The food is extraordinariable and the prices are not too high; rather what is generally considered as medium for food.

Probably the main attraction at the Gardens is their African Veldt. The area is roofed by a wide variety of animals from all corners of the earth. The animals are free to roam the entire area and the tourists are in the area only way to view the Veldt is from either the monorail trains that circle the entire area.

We took the monorail ride as it put us in an elevated position for taking pictures as the train and the monorail are the only additional admission attractions in the Gardens. The cost was approximately $1.50 per adult.

The cost of the meal is $9.50 in line after the excursion, as there is no place to be seen from a train in circuit.

They have a small animal enclosure which is free of admission, a show place in the Gardens. This area contains a myriad of animals from all over the world. The majority of the animals are in small enclosures where they are regularly photographed. Also found in this enclosure is the area, is a rather unique bird habitat. The Busch people have designed this area so that we may see what goes on in the world after dark. Every inhabitant is nocturnal. Due to the lighting, the animals think it is dark and go about their natural way.

Two of the occupants are the Aardvark and Aardwolf of South Africa. Further down the line they have the park area of the Gardens. This is the area where they put on their shows, a show show and have over 1000 birds. On display one of the most beautiful birds to be seen are the white sighthawks. The white sighthawks are known for their speed.

They save the best for last, now come close to the brewery. You would not want to taste this concoction before you see the rest of the Arms. They do provide free "refreshments" inside. If you should sample the product of the brewery with too much gusto, you may not be able to see the rest of the Gardens. The cost is not too expensive, soft drinks for the children are $1.25 each in the brewery.

The cleanliness in the buildings has been recently improved. The grounds are clean and the areas completely spotless. All metal fixtures are well-stained. The floors are immaculate.

The layout of Busch Gardens is far from Tampa. It was over $300,000, including the cost of the film and gas. This was for seven people, which included 3 children and 4 adults. This attraction is a must for you while in this area.

by Charles McMahon

Do you know your professors? Sure they introduce themselves in part when you begin a course, and the school handbook contains a little bit more. But you never really know their feelings about teaching at E-RAU, about their students or about the future of Embry-Riddle. In the weeks to come, The Avion will feature an E-RAU professor each week and try to enlighten you on his background and ideas.

The first teacher interviewed is Mr. Michael Deeley, a professor in the mathematics department. Mr. Deeley was born in Sheboygan, Wisconsin, where he attended grammar and high school. He attended the University of Wisconsin for three years and then dropped out to review his academic goals. He then entered Clark University, where he received his Bachelor's and Master's degrees in mathematics on a N.A.A. fellowship.

Mr. Deeley moved to Daytona Beach to teach at Bethune-Cookman College for a year before coming to E-RAU. When asked about his teaching philosophy, Mr. Deeley replied, "Well, I believe in relaxed, easy-going atmosphere in class and having a rapport with my students. This aids in the communication of the subject matter to both students and teachers interested in the course. I don't believe in fear tactics to get things done in class. I don't believe in rigid format in my courses. I see my main goal in life to improve according to the class." Mr. Deeley's thanks to Mr. Deeley for granting us this interview, but most important, we thank him for his interest in E-RAU's students and in its future.

Another sign of improvement is the strong student voice which has emerged in recent years. Students are less apathetic about what happens to their school and to them."

The then asked, "How about Embry-Riddle's future?" Mr. Deeley replied, "Embry-Riddle's future is dependent on several things-first, the performance of its graduates, second, its clearly defined objectives. Some private schools have tried to be all things to all people. E-RAU has avoided that. We've grown slowly, but what good are empty buildings? Lastly, an active selling campaign is necessary for future expansion."

When asked about his teaching philosophy, Mr. Deeley replied, "Well, I believe in relaxed, easy-going atmosphere in class and having a rapport with my students. This aids in the communication of the subject matter to both students and teachers interested in the course. I don't believe in fear tactics to get things done in class. I don't believe in rigid format in my courses. I see my main goal in life to improve according to the class."

Mr. Deeley's thanks to Mr. Deeley for granting us this interview, but most important, we thank him for his interest in E-RAU's students and in its future.

Mr. Deeley's thanks to Mr. Deeley for granting us this interview, but most important, we thank him for his interest in E-RAU's students and in its future.

**E-RAU Eagles Take Home Another Victory**

OR - Gary Haupt, 5 (1)
18 - Somnuit Voraraksa (1)
11 - Ivan Petrilla, 4 (1)
6 - Mosolu Johnson, 2 (1)
22 - Telmo Ucvar, 2 (1)
8 - Ward Dunning, (1)

The other two scores in the three games were made by center halfback Kendall Sommarial and by Tom Hsuon, who tallied with a head shot off of a corner kick. The Eagles have only given up seven goals in the three games, two of these have been penalty goals and the two goals have been done Yeoman service.

The Eagles' next two games are against the Sunshine Co., from scoring, Sunshine Co. had been the second highest scoring team until this point, but couldn't move the ball against Sigma Chi and the game ended in a tie 0-0. This dropped the Sunshine Co. behind the Vets and Jets by a game.

**Vets & Jets Tied**

by Bob Arcilla

What was predicted to be mainly a two team race for the championship is starting to come true as the Vets Club and Delta Chi are leading the Intramural league, both teams being undefeated.

Sigma Chi, while hanging in there with only one loss, won its second straight game against the Cowboys who are winless so far this season. The game was tight all the way and the final score was 6-0.

The undefeated Vets met Lambda Chi Alpha and remained undefeated with a 21-0 victory. The Vets defense looked tough as ever and their offense really got it together to give Lambda Chi its third straight setback.

The Delta Chi Jets also remained undefeated by shipping the Coyotes 35-9. A fine running and passing game plus a great punt return by Sam Lopez ended the game for Delta Chi. The tough Sigma Phi Delta squad proved to be just as good as they had been the Sunshine Co. from scoring, Sunshine Co. had been the second highest scoring team until this point, but couldn't move the ball against Sigma Phi and the game ended in a tie 0-0. This dropped the Sunshine Co. behind the Vets and Jets by a game.

The standings after three weeks are as follows:

1. Vets
2. Delta Chi
3. Sunshine Co.
4. Sigma Chi
5. Coyotes
6. Sigma Phi
7. Delta
8. Cowboys
9. Lambda
10. Chi Alpha

**E-RAU Golf Team**

by Gene Wages

This past weekend found all members of the golf team practicing very seriously for the various matches and tournaments that will take place during October and November. We would like to take this opportunity to thank Chuck Boivin and Steve Meade from the Phoenix for taking the time and effort to come out with the team and take some action shots for the 73 Phoenix.

Here are a few points of interest and humor noted during Saturday's play. Dean Spears and Stan Bartlett each had one nice birdie putt that was "mutually rewarding." Stan also turned in a 73 total for the best round. Following a bad tee shot, Walt Guy's driver accidentally "dropped" from his hands, rolled off the tee and fell into a lake "about 40 yards away" (sic). Walt did retrieve his driver. After many holes of play, it appeared that Dick Reimann (SGA President) was out to surpass his old record of 114. However, after much trial and error, and a little self-analysis, Dick was able to salvage a 101.

E-RAU present team members consist of: Dean Spears (coach), Stan Bartlett, Paul Loughery, Walt Guy, John Bishop, Gene Holloway, Ed Strickland, Bill Geor- geff, Dick Reimann, Mike Pescitelli, and Gene Wages (team captain).

Our schedule for October and November is as follows:

Oct. 15--here--St. John's College and Florida Institute of Technology.
Oct. 17--there--Stetson College.
Oct. 27--28 -- Palatka--2-day intercollegiate tournament hosted by St. John's College.
Nov. 4--Orlando--Florida Tech. University.
Nov. 8-11--Winter Haven--3-day (ROB) intercollegiate tournament.
Rules For Fall Blood Drive

Advertising Campaign: There will be two prize winners in this competition, one for the best overall campaign and the second for the best single entry.

Entry qualifications for the overall campaign:
1. The organization must be recognized by the E-R AU SGA.
2. Material entered should in some way identify the organization involved.

Entry qualifications for best single entry:
1. May or may not be used as part of an overall campaign.
2. Must be submitted by a full-time E-R AU student.
3. Must bear the designer's name on the back.

The prize awarded for the overall campaign will be a trophy which may be kept by the winning organization. A $25 savings bond will be awarded to the winner of the best single entry competition.

All entries will be judged on October 27, 1972.

Voting Composition:
Organization winning this competition will receive a trophy which they will retain as well as having their name placed on the permanent trophy in the Gill Robb Wilson Building.

Entry qualifications:
1. The organization must be recognized by the E-R AU SGA.
2. Register in writing with the SGA Blood Drive Committee on or before October 27, 1972.
3. Entry in this competition present the committee with the total number of active members. If the organization has membership fees, this number should only include members in good financial standing.

Placement

The following are employment opportunities which the Placement Office has current information on:

1. Pilot needed for charter and taxi service. 300 hours required with ASME.
2. Local opportunity selling advertising. E-mail association has continuing need for licensed A&P mechanics and pilots. Send resume.
3. Flight and groundschool instructors needed at Teterboro Airport in New Jersey.
4. Aircraft Technicians, immediate, employed.

Field team aircraft maintenance and modification. Must be willing to travel and relocate frequently. Furnish own hand tools. Travel allowance in addition to benefits. Should call collector in this place immediately.

Club managers needed for FBO, rate of pay open.
5. Light aircraft marketing, PA or BS with some business training. Commercial licence with 500 hours. Flight instructor rating.

Some experience and good ability preferable in sales but not necessary. Need to send resume immediately.

Engineering project manager needed. Must guide and instruct project personnel in the complete design, alteration, or modification of aircraft projects. Should have experience in aircraft, particularly in business aviation.

Information on what to expect in an interview and how to prepare for it is available in the Placement Office. Contact us to see what we have for information as you go out and seek positions for your career.

1. Medical & Foreign Auto Parts
2. Domestic & Foreign Auto Parts
3. Auto Sales
4. One of Daytona's most complete inventories of:
   a. Domestic & Foreign Auto Parts
   b. Life & machine shop
   c. H.P. Performance Parts
   d. Volsuia Auto Parts/252-9642
   e. 841 Volusia Ave.
Octoberfest
by Joe Green

Octoberfest is with us once again. The 4th annual Octoberfest, presented by the Prince of Peach Church in Ormond Beach starts today.

Friday from 4:30 to 7:30 there's a Bavarian dinner. At 6:00 the festival opening ceremony starts with a costume parade of children and a tree lighting ceremony. From 7 to 8 o'clock the Sweet Adelines will entertain you, and from 8 to 11 there will be free live music.

Saturday features a chicken barbeque, baby contest, adult games, and more live music.

Sunday there's a spaghetti dinner, a variety show, more live music and crowning of the Burgermeister and Frau.

There's not really enough space to include everything that will happen, but there are prizes for the kids, games, games, a midway with prizes, snack booths, dancing and something new this year—what we call the Munich Room.

That's the Munich Room? Well, we're not allowed to say as this paper might be sent through the mails. Come and see for yourself.

More On Coins
by Joe Green

Did any of you find any of the $100.00 pennies? I hope so. I personally looked through 15,000— that's right—fifteen thousand pennies, and didn't find a single one.

But, I did find some rather unusual mint errors. One completely blank penny, one with cents missing on the reverse, on with no date, and about 10 other minor errors.

If you have some spare time to kill this can be a fascinating and rewarding hobby, with little or no investment.

I purchased a mint sealed bag of pennies from the Ormond Beach First National Bank, and with the help of a $6.00 machine I purchased from Ben's Coin Shop, looked through all of them. This is where I found the above oddities—worth approximately $125 as quoted to me by local coin dealers.

The rest of the pennies I looked at, I rolled and returned to the bank, replacing the 5 or 6 cents I took out. Then bought another bag and looked through that. Then bought another bag, and another, and another.

Dining Out
by Charles McMahon

Sorrento's Italian restaurant and sub shop is located at the west end of the K-Mart shopping plaza on Volusia Avenue. Many K-Rau students have already sampled their fine cuisine, but perhaps some of the newer students on campus have not.

When you enter Sorrento's your nostrils are immediately assailed with the irresistible smells of an Italian deli, and you feast your eyes on the hot table where simmering meatballs, sausage, and veal are waiting for you to order. Adjacent to the hot table, cold cuts and cheeses are displayed to further one's indecision as to what to order.

Regardless of whether you choose a submarine sandwich or a meal, you'll be pleased. Everything is delicious, and you won't have to leave your right arm at the door—all prices are reasonable.

Takeout service is available for either dinners or sandwiches, and in addition to soft drinks, beer is available with your meal.

Sorrento's—try it once and you'll be hooked.
Today's Music
by Bory Donnelly

Toulouse Street by the Doobie Brothers is a definite improvement over their first album released over a year ago. That first album seemed to go nowhere but point out all of the groups weaknesses. Toulouse Street does just the opposite.

The two drummers, Michael McDonald and John Hartman combined their talents and come up with a steady drumming background that pervade throughout the entire album. The crystal clear, acoustic and electric guitar playing of Tom Johnston (lead), Pat Simmons (rhythm), and Tiran Porter (bass) can't help but make you smile. All together, they produce a mellow, rocking sound with lacy guitar playing such as you've never heard from the Allman Brothers.

It's hard to point out exactly what is so good about Toulouse Street. The thirty-five minute album is just good from the opening cut, 'Listen to the Music', starts your foot tapping and doesn't stop until the record is over. Don't be afraid to find yourself immediately playing the album over again.

There are few concert coming up in Jacksonville in the next few weeks.

For advance tickets by mail, send $1.00 money orders or personal checks (Name of Group) Concert 308 Water Street Jacksonville, Florida 32204. The concerts are:

Friday, Oct. 13, 8 PM Ten Years After $4.25 advance $5.50 Day of show
Sunday, Nov. 5 at 8 PM Jethro Tull $5.50 reserved seats only
Nov. 12 Blue Funk Rail Road
Nov. 24, Elton John
Dec. 9, Uriah Heep

Are you interested in placing your name and pertinent information in a paper which is published yearly for international officers and men who are interested in studying from their own countries? There is no cost for this service and it is open to all foreign students who will be graduating within the next year. It is your very good opportunity for you to advertise your qualifications to international companies and it may provide you a job. All you must do is come by the Placement Office and see Claire Lane to complete the necessary forms. There is a deadline of November 20th, so hurry on in and complete the forms so they can be mailed off.

Soccer Team Remains Undefeated
by Mary Donnelly

Embry-Riddle ran their record up to 9-0 with a win Saturday over a confident Stetson University team. It was the thirteenth meeting of the two schools; the Eagles have won ten while tying three.

Saturday's game saw six Embry-Riddle players score. The four starters Gary Haupt, Summi Vozarakes, Homolu John-son, and Ivan Estrella each scored one goal. Two other goals were scored by Raul Guevara and Ward Danning.

It was the impressive balanced attack by Coach Mansfield's team that led them to their 6-4 win. The Stetson team went home with great respect for the determined Embry-Riddle team.

Next week the Eagles will try and stretch their record to four straight wins when they play Florida Institute of Technology. The game will be an away game.
