ERAU Purchases Daytona Beach Aviation

Embry-Riddle Aeronautical University has negotiated the purchase of all the stock in Daytona Beach Aviation, a fixed base operation located at the Daytona Beach Municipal Airport.

Although the aviation facility has changed ownership, it will continue to be operated as an independent business and will retain the name of Daytona Beach Aviation. According to J.K. Jones, new president of Daytona Beach Aviation and an ERAU graduate, the fixed base operation will provide co-operative education programs for qualified students. In addition, students will work on a part-time basis as pilots, salesmen, and mechanics.

Air Force ROTC Commandant Visits ERAU Detachment

Brig.Gen. B.B. Cassidy, Jr., Air Force ROTC Commandant, and his Executive Officer, Maj.W. Franklin visited AFROTC DET 157 on 26 October. They were greeted by Cadet Colonel Harry Hodges, the Detachment’s Commandant. They then met with the cadets, Gen. Cassidy, and the Executive Officer, Capt.-Guy F. Holm, before returning to the University.

The Detachment is located at Mainland High School, Daytona Beach, Florida and is one in a series of workshops designed to provide a fuller understanding of the facilities and educational programs available at the University.

The group will be briefed by Thomas Clay, Director of the College of Aviation Technology, followed by a tour of the Science Center buildings. The business meeting will be conducted by Austin O. Combs, Chairman of the Board of Visitors.
LETTER TO THE EDITOR

The Avion Starts Action Line

A question and answer series is about to start with the next issue of this paper. But to do it, we need your help. The vast investigative facilities of The Avion are at your disposal. We will investigate and answer any question you may have and print it in The Avion.

Please limit your questions to the University and campus, and try to keep your questions that will be of general interest to most students.

Drop your questions by The Avion office, Box 1560, or Box 53.

Questions and answers will appear in the new "ACTION LINE" column.

Michael McCarthy

The opinions expressed in this paper are not necessarily those of the University or all members of the Student Body. Nor do letters appearing in the Avion necessarily reflect the opinion of this newspaper or its staff.
Temporary Student Jobs Available in Europe

By John R. Miller

The easiest way to describe the aerial performance at this year's Kissimmee Airshow would be to print a list of adjectives like "amazing" and "incredible." However, the list would be very long and might not leave space for names of the performers and details of their maneuvers. At noon on Saturday, it looked as if the spectators might have to wait for an hour before the official program began.

New Counseling Staff Member

Igor Sikorsky, the man who designed the world's first practical helicopter, died last week at the age of 83.

Sikorsky, an experienced aircraft designer, arrived in the United States with only a few hundred dollars in his pocket after fleeing the Russian revolution.

In 1937, the Aircraft Corporation allotted him money for helicopter research. After spending less than $30,000, he designed and built the first practical helicopter, and it flew successfully on September 14, 1939.

From 1939, helicopters became more and more agile, and even revolutionized warfare. But Sikorsky, a devout member of the Russian Orthodox Church, was far more proud that his helicopters had become invaluable instruments of peace.

In 1956, at the end of his life, one of his favorite hobbies was collecting newspaper clippings that told of helicopter rescues in natural disasters.

There is no truth to the rumor that one student finished his flight course in one trimester.

by Bob Coleman

When asked about his opinion of the students of Embry-Riddle, Ms. Apperson responded that she was generally impressed by their personalities, their academic achievements. She noted that the school is greatly influenced by the large number of military veterans who create fierce competition for better grades.

Concerning the faculty, she commented that for the most part has expanded, the faculty has diversified. She is achieving higher quality at the same time.

About the development of the physical plant, she recalled the old days in the WWII sweatshops and compared the difference between them and the new complexes as being "between purgatory and heaven."

Ms. Apperson is quite dedicated to the teaching profession. Her concern goes beyond that of the average educator. She has spent many Saturday mornings meeting with students who needed help. At one point, she even administered a test to a luckless student at ten o'clock at night in her room.

For a teaching philosophy, Ms. Apperson believes in honesty, discipline, and old-fashioned courtesy. She is greatly in favor of expanding the curriculum in liberal arts at E-RAU. As a personal note for the students, Ms. Apperson heard it was recommended that students take advantage of the career improvement course currently offered at school, "to look at your study habits fall-

Ms. Apperson's plans for the future include teaching at Embry-Riddle at least until her two children are in college.

She hopes that one of her children will attend Embry-Riddle. Her immediate objective is to get organized: "This is a basic plan in life, to get organized!"
Around Central Florida

Twenty-four miles west of Silver Springs, just north of Dunnellon, Florida, is Rainbow Springs. Many of the old-time Florida residents claim this complex has the appearance of Silver Springs some 30 years ago. My family and I found this beautiful area to be just the place to pass a leisurely afternoon. The single admission price is very reasonable and permits one to partake in all the attractions. The boats found at Rainbow Springs are unique in that your seat is five feet below the surface of the water. During your cruise down the Rainbow River, you are able to view the various types of fish and aquatic life in their natural surroundings. If you are an avid fisherman, you will be actually shocked at the tremendous size of some of the Largemouth Bass in this river. Sorry, no fishing though. To quote a travel brochure, "Rainbow Springs is a place of such incredible beauty that it is the subject of repeated recognition, including a coveted national award for contribution of America. The emphasis on conservation and natural beauty is exemplified by the more than 500,000 plants and flowers (39,000 azaleas and 200,000 day lilies alone).

There is a mini-rodent complete with professional cowboys and bucking broncos, a mono-rail which carries you over the highest waterfall in Florida, a small animal enclosure which contains deer and various domesticated animals, the world's tallest aviary, and miles of flower-bordered paths. As you prepare for a trip to this oasis of natural beauty, be sure to pack some additional film for your cameras. Good color pictures will permit you to re-live the many enjoyable hours you can spend at this beautifully maintained oasis. I highly recommend the trip to Rainbow Springs. Be prepared for a very enjoyable experience.

CONGRATULATIONS to Mr. and Mrs. Leonard Roberts for the birth of a 7 pound, 1 ounce baby girl on Oct 25, 1972, at the Halifax Hospital. Welcome baby girl! Credit 1 Airplane!

There is no truth to the rumor that the airplanes have to pay a "no show" when they are not available.

There is no truth to the rumor that the Limby Riddle Flight Line will give you the same answer twice.

TODAY'S MUSIC ON DAVID SOUTHERN
by Rory Donnelly

For weeks I have been ignoring the new John David Souther album. I don't have any particular reasons for doing so; maybe it's just that totally rejected face on the album cover looked familiar enough for me to get involved with. But I had this feeling of having seen it all before, so I finally gave in and bought the album.

The album is John David Souther's first attempt at a recording and is saved from being a musical flop by the lively production efforts that include background voices, which could easily be mistaken for the Eagles. This "eagley" feeling is due to Glenn Fry, who plays slide guitar for the Eagles and sits in with John David on a few cuts.

The winning edge of this album, however, is the strength of John David Souther as an individual. Although he may sound a bit overly derivative, his music is strong, with powerful lyrics. The songs "Run Like A Thief," "Jesus in 3/4 Time," and "Out To Sea" typify a singularity that we seldom hear anymore. But, it is the delicacy ingredient that makes the album any success that it may be. All in all, the album has to be a successful first attempt. It's an album that I wish I had purchased instead of bought. I'd rather have saved my money until a second album is released by John David Souther.

SUGAR MILL TAKES IT'S TOLL

Golf competition at the end the spring season finds E-RAU golfers with two wins, three losses and one tie. Sugar Mill Country Club, at New Smyrna, is the distinguishing by many east coast golfers as being a monster, has maintained its pride in true form, with a score of 536 yards, then managed to score even on par on the next hole. Therefore, it is only right that he record "Higher Honors" of the week. E-RAU was defeated there by Florida State. Neither team was able to turn in any spectacular scores. Paul Loughrey led E-RAU with an 81 total for best round.

At Stetson in Deland, Loughrey turned in a round of 75; Gene Hayes, 79; Stan Bartlett, 81; and Bill Georgeff, 84 for a four man total of 319, good enough for a third place finish. After their match, E-RAU was tied with Stetson.

Further travel this week found the team playing in the Viking Invitational between seven junior colleges throughout central Florida. During the first round of play, our team finished with a 362 total. Paul Loughrey shot a 68; Stan Bartlett, 74; and Bill Georgeff, 77; and Gene Halloway, 83. During this round, Loughrey was one stroke short of being tied for first place among the forty-eight competitors. The following day was washed out by rain showers, but after a brief delay the final round began and a lot of wet golfers, play was resumed. The results were: Paul Loughrey, 75; Gene Hayes, 79; Stan Bartlett, 78; and Walt Guy, 81; for a total of 285. Dean Spears was extremely pleased with the results of the team and concluded that even though "close doesn't count," getting beat by hired pro does take out some of the sting.

E-RAU defeated St. John's of Palatka and Georgia Southern College, then on Oct. 18, the team will be with Florida Tech at Cocoa Beach on November 4th, and then face Winter Haven for a three day tournament on November 7-11.

SOCCER TEAM IN NAIA PLAYOFFS

by Rory Donnelly

Coach Herb Mansfield's far undefeated soccer team has received notice of nomination to play off in District of Georgia for the 25 NAIA Championships. Negotiations are now in process for a neutral playing field on either the 9th or 11th of November.

The winner of this game will play the winner of the District 22 championship. So far, the first place team in District 3 (Payne) and Dist. 7 (Georgia) are on the outside looking in.

This Thursday afternoon at 3:30 p.m. E-RAU faces Stetson University at Stetson.

Injuries have seemed to play their part this year, most of them sustained off the field, but they have not kept E-RAU at full capacity this week.

If the offense can match the defense in the rest of the games, the Sunshine Co. should finish in the top 2.

DAYTONA BEACH SPORTS CAR HARE & HOUND RALLY THIS SAT.

You can spend an enjoyable, unusual evening as you chase the elusive hare over hill and dale. There will also be a free party for all participants afterwards. Trophies will be awarded to the three best chasers. This event is open to everyone. Those wishing to take part in the rally may telephone the Office of the Police Department 252-7670. 

FACULTY WINS VOLLeyBALL CHAMPIONSHIP

by James Hunter

Last Tuesday evening marked the final games for volleyball this year. The championship game was played by the Faculty and the James Gang (both teams were undefeated). The winner is picked by the best score out of 3 games. In the first game we saw the Faculty win 15-12. In the second the James Gang was ahead 15-5. In the third and final game the James Gang was looking very strong, the Faculty really got it together with Mr. Wurzbach’s fabulosity. The Faculty came on top 15-10. So paper are extremely helpful to each entrant.

Mechanics Earn $6.60 An Hour

The nearly 10,000 IAM members on Braniff Air Lines and the 1,600 members on Braniff Airways have won two new 24-month contracts providing wage increases in new deal plan and other improvements. The new mechanics wage rate will jump to $6.60 hourly next Jan. 1, said Vice President Dan Blue of Washington, D.C., reporting the new agreement. Both contracts provide the 5.5% wage package allowed by the Nixon Pay Board, plus catch-up bonuses that must receive Pay Board approval. These include adjusting wage rates upward to conform with rates on other airlines that settled later with the IAM in the last round of negotiations. Also included are dental insurance plans, won three years ago.

Both agreements are similar to those not identical with the IAM's agreement recently negotiated on United Air Lines. This was the first-wrapped up in the current round of negotiations with eight major airlines. The IAM agreement has won full Pay Board approval.

Both the Eastern and Braniff agreements have been ratified by the members voting station-by-station across the USA.

James G. Gales, president of IAM District 160, Chief union negotiator with Eastern, and J. D. Crow, president of IAM District 146, his counterpart on Braniff, reported the details.

How To Make A Proof Set

By Joe Green

Proof sets can be ordered after November 1 from the United States Mint in San Francisco. The 1973 proof set will consist of an Eisenhower dollar, a Kennedy half dollar, a Washington quarter, a Roosevelt dime, a Jefferson nickel, and a Lincoln penny. The price for the 1973 set is $7.00. The address is: Bureau of the Mint, 5th and Mission San Francisco, California 94103. Don't send cash, and the limit is usually five sets per person.

Where are proof sets used? Well, besides being an interesting and colorful collection, they appreciate in value rapidly. A 1946 proof set is now selling for $8000; a 1950 proof set is selling for $150. The make exceptions to their proof sets too. The 1970 proof set with no mint marked dime is now selling for $600. The 1971 proof set with no mint mark on the nickel is selling for $950.

Moving Soon, Must Sell!

Kenmore automatic washing machine, top loading, new pump and drive belt. Works good. $150.00

Faircrest (J.M. Fields) air conditioner, 27,000 BTU, window mounted, just what you need for those hot Florida days! $200.00

Resume Rules

It appears that many persons are coming around to the Placement Office to have their resumes prepared and for that reason we feel we should publicize our rules again.

1. Complete the resume information sheet and set a date for the paper to be picked up. Do not expect one day service as there are others who have been waiting longer. If a special form for preparing the resume is preferred by you, be sure you inform the person typing it so that it will be done to your satisfaction. The date for the resume to be ready for pick-up should be agreed upon with the person typing it, no one else.

2. Allow at least a three day wait for your completed resume as they are done only when time permits.

3. When handing in the information sheet make sure that everything on it is correct, spellings, names, titles, anything you put on it will be typed that way and if you happen to be careless on the information sheet, it will be wrong on the final copy. Also, be sure that everything you want on the final resume is on the information sheet because it will be typed only once.

4. When the final copy of the resume is ready and you have come in to pick it up, do not leave the Placement Office until you have proofread it. It is hard for typists to proof their own work so it will be left up to you to do so.

Once you leave the office with your resume we will assume that your approval has been placed on it and there are no typing errors in it. We will not re-type it after you have left the office and given us the word that it is satisfactory. You are given the chance to look it over so do it carefully, two or three times won't hurt any feelings, just make sure before you leave the office.

5. If the final copy is done to your satisfaction and you would like to have it printed, the Print Shop on campus will be glad to do so at a small fee. It is up to you to have the copies made, not the Placement Office. A copy should, however, be returned to the Placement Office to be kept on file for future reference.

Now that we have given you the ground rules or procedure for having a resume completed, do not hesitate to come by. We are also prepared to help with cover letters, but like resumes we can only type one of these. The Placement Office is in Building 9, room 4, across from the Student Center.

LOCAL GUARD NEEDS PEOPLE

by Curtis J. Perere, Jr.

Captain H. B. Rawlins of Battery "D" 1st AM BN 265 Arty. ADA Florida National Guard is looking for qualified people to join the local National Guard unit. Currently needed are reserve commissioned officers not on active duty and that are Air Defense qualified in the grade of 6th Lieutenant. Other branch qualified officers may apply. Also, prior service enlisted men may be accepted in their former rank and college students who would like to perform their military obligation as reserve officers or enlisted personnel in the National Guard.

Interested persons should call SFP Le Cours or St. Carter at 252-8458 from 8 a.m. to 5 p.m.
