STUDENT CENTER SOON?

At 3 p.m. last Saturday, 3 white teenagers tried to steal a Hoka motorcycle lot by making fo a drive, which indicated it was not locked. The Dayton Police Dept. had been called to belong to the suspects, but the bike wasn't chained down, enabling the thieves to take it away. "The major contributor to the incident was the alarm and making sound," reported Walt Hansen. He continued, "This shows the Guards are not 'Blue Meanies' but protectors of school and Personal Property. But, the burden of securing personal property belongs with the individual owning the property."

Letters to the AVION

LETTERS TO THE AVION

Presumably, the intent of the back page of the Jan. 19th issue of the AVION was to show more student participation through written contributions to the student newspaper.

We hope this carries the same interest to the student body in the future as it has been in the past.

Julia A. King
(wife of an ERAU student)

Mrs. King, you are correct in saying that the work of ERAU students is very important. However, we feel that the work of the editorial staff is also important. It is a challenge, to say the least, to be a member of an organization that is given so much respect and say-so in the growth of the University. Elections will take place Jan. 31.

Richard R. Robb
President SGA

President's Corner

The AVION reserves the right to edit letters as we see fit in accordance with good journalistic practice. All letters must be signed, although names will be withheld upon request from the writer.

Campus Growth. Recently, the Board of Trustees has announced that serious plans are being made for the future growth of our University. According to plan, campus will grow to include the entire eastern half of the campus.

There are three major areas which will have a planning of the overall campus and which will have a major impact on the students. These areas will be located within the triangular point which will be the center of the campus and which will also be visible from in front of the administration building.

We hope this carries the same interest to the student body as it has been in the past.

Julia A. King
(wife of an ERAU student)

National Blood Drive

BY VAUGHN LANE

ERAU will kick-off a Red Cross sponsored national college blood drive Feb. 15th and 16th. The blood drive will receive national coverage on various radio stations across the country. Anyone who donates blood will assure all the blood needed for one year anywhere in the U.S. for the donor, spouse, their children, parents, and grandparents. The Florida Chapter of the Red Cross supports a number of Florida hospitals including three V.A. hospitals. Regular donors who have given one gallon of blood have a life time Red Cross blood coverage. There is no charge made to recipients of Red Cross blood.

All blood contributions are used. Whole blood less than 21 days old is used in surgical operations. Blood un-used in 21 days is processed to obtain blood derivatives for preservative medicines against measles, infectious hepatitis, victims of hemophilia, and other uses.

It takes less than one hour to give blood including the enjoyment of free refreshments afterwards.

ERAU SOCIAL FUNCTIONS

BY JIM BARK

There is an opening on the Student Court for a Justice. Interested persons should have two trimesters remaining, including spring-ter. We are responsible to the students and interested in working to improve present administration. Applicants submit name to Chief Justice, Jim Bark, ERAU Box 621, not later than Feb. 1, 1973.

With the beginning of the Trimester Student Court will convene at 6 p.m. on Tuesday evenings to hear traffic cases, special hours will be announced on other sessions. Spectators are invited, but try to be a spectator only.

In order to gather some school spirit the scheduled barbecues this trimester will begin at the University baseball field across the street from the Administration Building. Saturday, Feb. 3rd, there will be a game between ERAU and St. Johns. Beer will be served at the field beginning at 12:30 p.m. and when the game is over, around 3 p.m., beer, hotdogs, and hamburgers will be served behind Dorm 1.

The second barbecue on dorm will be supporting ERAU against P.T.T.

Our Valentine's Day Dance on Feb. 27 and a rock group band the ERAU TEAHRE is tentatively scheduled.

The Easter Dance on April 14 does not have a group booked yet but we're looking for a "Big Name" group.

ESC has invited the ERAU Student Senate body to their Homecoming Dance & Basketball game on Feb. 2. Game starts at 7:30 p.m. Girls are free, with the exception of ESC 1F or ESC 1D's 50c. We are also scheduled for "mini concerts" which are performances by booked groups at DBCC Student Center or their Matinee Auditorium on Mar. 9 at 12:00 noon and March 21 at 12:00 noon. They have extended this invitation to install grades will be between the two colleges. Besides, they have girls going there.

Erau Returns To Auburn Model U.N.

Four students from Babby-Riddle and Ann A. Apperson, professor of Social Science left yesterday enroute to Auburn University in Alabama to act as delegates participating will be expected to submit resolutions in keeping with their respective nation's character and position in Present-Day world affairs. Faculty judges will be observing each nation's representatives in the General Assembly and the Security Council.

According to Ms. Ann Apperson, the delegates from all six nations participating will be expected to submit resolutions in keeping with their respective nation's character and position in Present-Day world affairs. Faculty judges will be observing each nation's representatives for parliamentary procedure, diplomatic techniques, and the creditable national resolutions.

The ERAU students acted as the delegation from the People's Republic of China and were cited for their outstanding achievements at the conference. The ERAU delegation will convene from Thursday, Jan. 25 to Saturday, Jan. 27.

Blood Drive Rules

BY WILLIAM R. CRAIG

There will be two prizes awarded in this years blood drive competition, one for the best overall campaign and the second for the best single entry.

Entry qualifications for the overall campaign:
1. The organization must be a registered SGA.
2. Material entered should in some way identify the organization involved.
3. To insure all advertising and activities, organizations should contact the blood donor and give the time and place of special events.

Entry qualifications for best single entry:
1. May May not be used as part of an overall campaign.
2. Must be submitted by a full-time ERAU student.
3. Must bear the design name of the entry.
4. The prize awarded for the overall competition will be a trophy which may be kept by the winning organization. A $25 savings bond will be awarded to the winner of the individual competition.

All entries will be judged by Feb. 12.

Voting Competition:
The organization winning the competition will receive a trophy and will retain it as well as having their name placed on the permanent trophy in the Gill Bob Wilson Build.

Entry qualifications:
1. The organization must be recognized by the ERAU SGA.
2. Register in writing with the SGA Blood Drive Committee on or before Feb. 14, 1973.
3. At the time of regular registration the committees will total the number of active members. If the organization has membership fees, this number should only include members in good financial standing.

The voting will be accomplished in the following manner. Each individual has given blood, he will be given a ballot with the names of the registered organizations on it. He will mark one choice only and enclose this in a locked ballot box. Any ballots with more than one choice marked will be void. To offer small organizations the opportunity to win, the winner will be selected by the ratio of votes to active members. In the event of a tie, the winner will be decided by a drawing.

Canvassing to get more donors to vote for your organization is not only allowed, but encouraged, as this will be of great assistance in making this the best block drive yet. Be sure to have enough space available, there will be no canvassing inside of the DBCC Building.

The competition will be awarded at an ERAU Senate meeting or some other meeting to be announced with the purpose of the event. There will be Avion coverage as well as news releases which will further public relations for both ERAU and the winning organizations.

WHAT IS WATT IN HI FI

By Ray Di Lorenzo

There seems to be a tremendous amount of misconceptions concerning audio equipment these days. For instance, "How much does an audio system cost?" is one that comes up frequently. And do I have to spend $500 for a good stereo?" and many such questions are asked all the time. In fact, the answer to the first question is "It depends." The equipment discussed in this article will be the first in a series of articles discussing the ins and outs of purchasing stereo equipment. What to look for, what to avoid, and the new technology that is coming out.

We will concentrate our first article on loudspeakers. It may seem an obvious choice but your speakers will pretty much determine the sound of your whole system. Therefore, your speakers should be the first components purchased. There are many types of units on the market today, such as dynamic, low efficiency, bass reflex, horn, bi-wiring, and suspension. How do you determine which one is right for you? Fortunately, you can forget every type I mentioned and focus on the first two. What were interested in here is the sound of your speakers, not how we obtain it.

The terms "high efficiency" have nothing to do with the quality. They simply refer to the speakers' ability to use the power available to them. This is important because the speakers you pick will have a great effect on the amplifier you choose, which will come later.

The most effective method of buying speakers is to simply buy the best you can afford. The units you have will sound the best for the money. For most people, they look like what brand they are, and you will find the quality very competitive.

Be wary of salesmen who try to persuade you otherwise. They may be trying to sell you something that sounds better. You are the best judge. You will be listening to it. Before you purchase the speakers you want, insist that the purchase will be on a trial basis. Most stores will let you use them for a period of 30 days. The reason being that speakers have a tendency to sound different in different rooms. They might sound better in your store than in your living room. After this has been accomplished, you can now think about purchasing your power source.

Today's Music / Loggins & Messina

BY RORY DONNELLY

I really didn't think it was possible, but then again, I never thought about it. Kenny Loggins and Jim Messina have released a second album on the Columbia label and it's every bit as good as their first, "Sittin' In". As a matter of fact, because of a slightly more mature sound, the new album, titled simply "Loggins and Messina", may have to be given a slight edge in superior quality in most respects, however, it could be considered the second half of a double-disc album if the first half is released simultaneiously. That's how closely related the two albums are.

A lot of people are moving in the mellow direction and they're going to find the album most appealing. If gentle mellowness can come across intensely, then that's exactly what Jim Messina can do. Together with Loggins, they produce some of the most pleasant and soothing music in the industry.

About the only way to adequately review this album is to go over each of the eleven songs individually. That may be a big job, but in this case, not good enough. You have simply got to hear this one for yourself. It would be too easy to rave on endlessly about "Thinking of You", "Good Pickin'" and "Holiday Hotel" each of which was written and sung by Jim Messina; and "Whiskey", "Long Tall Cat" and "Lady of My Heart" by Kenny Loggins. That's saying nothing at all about the two songs they cowrote together; "You Mama Don't Dance" and "Angry Eyes", which are the easiest-to-listen-to songs on the album.

These two artists have created a sound that many other popular performers have tried to attain. Their biggest attribute seems to be their naturalness. Their ring of everyday things such as friends, whiskey, and women, and how they come from inside, that's obvious, anyone who has heard them can testify. The feelings that they portray through music just can't be pretended.

Dining Out / FRISCH'S

BY DREW NASSAU

If you're one of those people who like to eat hamburgers or don't like to spend a lot of money on a meal, Frisch's Big Boy is a place you should look into. Frisch's has a hamburger called Big Boy, which resembles that of a Big Mac. This can be ordered separately or as a platter which includes cole slaw or French fries or onion rings. The platter is $1.20 and is very reasonable. They also have other variations of hamburgers, if that's what you have in mind.

For a change of pace, Frish's offers other dinner selections such as fried chicken, a seafood platter, shrimp, spaghetti and steak. The price ranges from $1.20 to $2.25. All the portions are average size and are at reasonable prices. A good item to invest in while eating your meal is to order some onion rings, if your stomach can handle them. I have found them to be one of the best in the area.

If you're not full after your main course, there are desserts very tempting and will finish the job in filling you. They have a variety of pies, cakes and ice cream treats. Whenever you're beach side near Bel-Air Plaza drop into Frisch's, 7601 S. Atlantic Avenue (one block north of Bel-Air Plaza) and try a meal there. The best opinion is your own.

In a fantastic upset the Eagle basketball team outplayed the Jacksonville University Dolphins at Mainland Jr. High School in what was a great boost for basketball at Embry-Riddle. For those who missed this exciting game, the lead see-sawed through the first half as both teams were hot as pistols and exchanged baskets for baskets. The first half ended with the score deadlocked at 54 apiece and J.V. knew they were in a ball game.

This is the same Jacksonville team that as freshmen defeated the Florida State University freshmen 147-71 and reeled off 20 straight wins and led the nation with a 109.9 scoring average.

The Jacksonville winning streak was in jeopardy as the second half started and the Eagles jumped to a 6 point lead. Jacksonville University then started to get hot and with their "E" on top they were hitting from inside and outside the game up and from there only a hard fought finish with E-R winning the hard fought contest 95-85 as the Eagles started running away with the game in the last two minutes.

On Feb. 5th these teams will have a re-match with an expected crowd of over 10,000 spectators to be the largest crowd to ever see an ERAU Athletic team in action. The Jacksonville Junior Varsity consists of 4 sophomores, 3 juniors, and 1 freshman.

BY Jock Kubic

Since 1964, National Championship Air Races has been restablished as the world's fastest motor sport. Once again, the pilot is a hero by his own standards. The pilot climbs into a Bearcat and in less than 30 seconds hits the straightaway at 400 miles per hour. As in all contests, man races because he feels he has to. Air racing, like any sport, is a game men play to win. The PRFA General Race Rules are designed to keep the heroes out of the race and increase the safety of the race.

At the Miami Air Races, there were four classes of aircraft: T-6 class, the bi-plane class, the Formula I class and the unlimited class. The Unlimited class consists of very slightly modified aircraft. The object is to keep them as stock as possible. This gives more competition to the race. The T-6 race was a wing-tip-to-wing-tip battle for first place. The sport bi-plane was a Vought V-218 air-craft designed for general aviation flying. The enthusiasm in bi-plane competition grew to the point of developing an entirely new class. The race reaches speeds up to 300 miles per hour with, again, very close competition.

The two classes that are strictly built for racing, are the Formula I and unlimited classes. In the formula I class, the aircraft must weigh at least 500 pounds and use a continental 1-200 unmodified engine. The race turns out to be a sweat-drawing, wing-touching event, with the crowd in an uproar. Of course, the unlimited race is the most fascinating event. There are no limitations, except 500 pounds.

Hoover pacing the pack for the start, they dove into the number 1 pylons. As Hoover pulls away, the race began. Lyle Shelton and his bearcat grabbed an early lead, and held it throughout the race. With speeds over 400 miles per hour, the race was very close.

The races themselves made up only part of the show. Between races, that is, it has to use a piston engine. With Bob were various fly-bys, stunt flying, parachute jumps, and plenty of hot air from the speaker. The Flying Pierces really did a fantastic wing walking routine. Believe it or not, Mrs. Piers did the wing walking! Of course, Mary Caffanjy was there. You know, the Women's World Champion in stunt flying, who does snap rolls faster than you can blink your eyes?

The most impressive events in the show were the 747 and DC-10 fly-bys.

We've got to stop meeting like this.

BY JAMES HUNTER

Last year the ERAU Intramural softball league consisted of 8 different teams and the season lasted all the way up to final exams. This year, despite the amount of teams are expected to be organized, so Mr. Wurtzbach has decided softball league will be underway earlier this trimester. Anyone interested in organizing a softball team should elect a team captain by next week. The Captains will have their first meeting Monday, Feb. 6 at 7 P.M in room 106 building A. Last year the Broken Bats took the Softball Championship, but this year it looks as though Delta Chi will be the team to beat.

Sky King Revisited

Until two months ago Sky King was only a memory, an action series that had died off more than a decade past. Kirby Grant, Sky King himself, plans on a return to the blue yonder and the soaring heights in a return engagement of one of the first TV airshows.

Still, problems such as finding a sponsor have to be ironed out, but as today's TV shows lack much of enjoyable action I feel assured of the return of the new Sky King series. The shows will be Air and Space oriented, with E.R.A.U as a working base, being close to Kennedy Space Center which is likely to be used in the series.

The new Sky King series is apt to arouse the interest in flying among TV viewers of all ages. Sky King, once again, will bring exciting action and lots of pleasure to his friends.

Cessna's new jet made an appearance here last Tuesday. It looked like an eight passenger 172; would you believe a six passenger 747?
