PARTY OF THE YEAR

by Dave Wilkinson
Sigma Chi's Inter-Fraternity Council planned the past Saturday night was applauded by many as a memorable accomplishment.

Embry-Riddle's Inter-Fraternity parties have always been self-financed and therefore very sodar in the past.

Under the direction of Sig Bob Butterworth, we experienced the first IPC party to boast a top band (The Wooden Spoon), or for that matter any band at all. However, the most pleasant surprise was that there were more eligible coeds than at any other party thus campus has ever seen. Some of the guys looked like kids in a fresh-sliced bread-surgery jamboree.

The combination assured that the party was properly keyed as "Action Control". As is the case our IPC parties have joined Greeks from other areas as well as our own Greek community. By welcoming desirable Greek students presently in our area, Sigma Chi was able to put on a tremendous event as well as enable us to gain the fellowship of Greeks from around the nation. The national fraternities on campus enjoyed seeing many brothers from other distant chapters. This event will strengthen the IPC by enlarging our goals for the future.

IN MEMORIAL

Jim Hausaman Captures Tournament Trophy

by Mike Tallman
Jim "Hausie" Hausaman was lying in the darkness for the Eagles in last week's tournament activities as he walked off with the batting trophy.

Hausaman got eight hits in seventeen times at bat, knocking in seven runs. His incredible .479 average was better than that of any other of the nearly ninety other players competing.

Hausaman's competition for the trophy came from the Eagles' outfielders Eberhard who batted .417. In addition, Hausaman was voted the Eagles' most valuable player. During the tournament, he played in four different positions.

Other Eagles also in the top ranking hitters included: Johansen, number seven with a .313 average, and Derick Cais, tied for tenth with a .312 average.

The individual trophy winners were:

Most Valuable Player- Derick Cais (FlU)
Most Outstanding Website- Eberhard
Most Defensive Player- Joe Hablin (Wabash)

The registrars office begins to be a demanding job months prior to the actual registration date. Classes are then conducted, availability of qualified instructors, and classroom space to be utilized must be coordinated. The job is extremely complex and requires a great deal of planning and cooperation to arrive at the final list of classes to be offered. Dr. Ponce and his capable working staff should be commended for a job well done.

Dr. Sain Will Lecture in Michigan

by Bill Lenda
Dr. George Pence, Alfa-Seltzer in hand, has accomplished another successful registration. He and his executive staff worked diligently to insure that registration would run smoothly.

Normally, not all students here at EMU are completely satisfied with their proposed schedules. It should be noted, however, that the registration procedure has been simplified and shortened considerably under the direction of Dr. Pence.

Aerospace Education at the Conference. The symposium will be concerned with how aviation can be taught as a science, how it can be used as a teaching aid, and the educational programs at EMU.

According to Sain, aviation is emerging as an applied science course in many high schools. Because of the scope of the aviation field, aviation education can also be used as an aid in teaching other sciences such as meteorology, communications, economics, physics, mathematics, and many other fields of general education.
PRESIDENT'S CORNER

Dear Avion,

I spent so much time trying to get my class reorganized I forgot to write a president's answer. 

This is where it's at!

Super Unisex Guys
Do you own your thing? Long may be in, but shaped is where it's at. Super no set-ups great wash & wear haircut, $700.

News and Views

From the Editor's Desk

"Aeronautical University" sure has an impressive sound to it, but put it on the same slide with Embry Riddle Flight Line in there and it isn't so impressive.

Have you ever tried using a common head screwdriver on a Philips head screw? It works, but not very efficiently. That's what it's like when taking the instrument and advanced instrument courses.

Many of the aircraft here are always undergoing some kind of maintenance on the navigational equipment, leaving the cockpits bare.

If a student wants to go on an instrument cross-country or actual conditions, the flight would be limited by much less than what it is today, glide slope, or malfunctioning ADF. The school has one aircraft with a DME which has never worked properly since it was installed, how can a student work with inferior equipment and get "advanced" training?

I myself would like to know why there is such a hang up at the flight line for keeping up the instrument aircraft equipment?

Drew Kassel
Editor, AVION

For those students who will be here for the summer, having hopefully pre-registered by now, you should know what kind of free time you will have. How about working for the AVION? With the summer coming up, our staff will be reduced. We will have openings for typists, photographers, artists, reporters and layout personnel. If you are interested, drop a note in Box 1568 or see Mrs. Mcelmone in room 126.

The game room at the dorm annex is now open.

Sanders has started moving in its equipment and the food service hopefully will start soon.

There should be some more development on the new ramp this week. They are saving some money because the strength of it was designed so a 747 and the school doesn't plan on using very for full construction. Thus, the ramp will be a few inches thinner.

Drew Kassel
Editor, AVION

If you have any questions, please let us know.

Love that beach!

**The Adventures of the Black And Blue Baron**

By Terry Gardner

... last left our student wonder, Theodore J. Throttlebottle, in pursuit of his runaway aircraft as it approached the intersection of the north/south runway. Without so much as a blink of the eye, Throttlebottle made a right turn, switched to tower frequency, and formed the controller he was rolling for takeoff.

He obviously hadn't received clear instructions for this procedure and his immediate takeoff took him within two feet of a sixty-five year old grandparent who was in a C-150, who promptly drove up to him and accused him of being a student pilot.

In the meantime, Chief Flight Instructor, Captain Skinski and Operations Manager, O.S.S. P. C. Thirty, employed a trick learned in the Army, and disapp- proached the intersection, disavowing any knowledge of the student named Throttlebottle, or the fact that he was a student at Humpty-Dumpy.

Now, Skinski was not about to be left with the dirty end of the stick and informed the dispatcher in charge, Roger, Roger, that he was going to get a haircut and after that would probably be in the key shop, at the "Pelis", or upstairs in the Serox machine doing its thing.

Well, Roger Roger (who acknowledged all radio calls with his full name) did the only thing he could in this situation, put Throttlebottle on the grounded list and let someone else worry about it. His response to this situation, put Throttlebottle on the grounded list and let someone else worry about it. This is the situation that typifies all good "Black and Blue" pilots.

**MOVIES THIS WEEK**

by Marvin Stokes

Cinema: They held over "Heartbreak Kid" last week, but now comes Paul Newman and Jacqueline Bisset in "The Life and Times of Judge Roy Bean". A relative newcomer, Victoria Principle, is terrific as the run-of-the-mill western woman who's done, historical look at the man who ran West Texas in the late 1800's.

Highly recommended.

Halifax: Imagine yourself hurtling down a river in a flimsy canoe; imagine seeing one of your friends killed and another brutally raped by two dispatchers; imagine seeing that there is nothing you can do except watch the scene."Halifax" is a series of events that has always left a lasting impression on its young, uninitiated, and only half-wit audience.

We finally decided upon chicken and waffles and a side order of pancakes, a choice of toast or pancakes with eggs. We were immediately served piping hot coffee after our order was very promptly taken. A quart container of it was left on the table to re-serve itself. The service we found to be top notch. The blue plate took no longer than a quick 5 minutes before we received our selections. The waitress was very gentlemanly and polite, and served us our food. The eggs were light and fluffy, enclosing delicious and spicy sharp cheddar cheese. The melted cheese was generously spread throughout the eggs which were cooked and browned to perfection.

**DISSING OUT**

by Drew Kassal

Who can breakfast be boring? I say that it should be much more than a bland dish of cold cereal to choke down in the morning and that's consequently why my wife and I attend ourselves at the International House of Pancakes this past weekend.

Variety and quality are two of the most impressive aspects of the pancake house menu. One can choose from about 15 varieties of pancakes: blueberry, strawberry, buckwheat, waffles, biscuits and more.

We finally decided upon chicken and waffles and a side order of pancakes, a choice of toast or pancakes with eggs. We were immediately served piping hot coffee after our order was very promptly taken. A quart container of it was left on the table to re-serve itself. The service we found to be top notch. **TRAN-LUX BLUE**: "The Adventures of the Black And Blue Baron" is beginning a run at the Trans-Lux Blue. This movie has received seven Academy Award nominations including: Best Picture, Best Director, Best Special Effects, and Best Supporting Actress (Shelley Winters). (PC)

**THE ACADEMY AWARDS**

The Academy Awards Presentation will be televised March 27. Just for the fun of it, locators have put together suggestions for the top oscars:

Best Picture: "The Godfather"

Best Actor: Marlon Brando for "The Godfather"

Best Actress: Liza Minnelli for "Cabaret"

Best Supporting Actor: Joel Gray for "Cabaret"

Best Supporting Actress: Shelley Winters for "The Poseidon Adventure"
**SPORTS**

Baseball Tournament Concluded

by Mike Tallman

Friday, the last two games of the Embry-Riddle Invitation Tournament were played before an impressive crowd of fish-eating spectators.

Embry-Riddle met the Mercer Hawks in the tournament's final game. The Eagles played twice before in the tournament, but the third game was their first against another team. In the third game, the Eagles' first baseman had been on base.

The Eagles drew first blood as they scored a run in the first inning, when Bernie Calahan got home from third base on an error by the Hawks' catcher.

In the end of six and one-half innings, the Eagles led 2-1. Once again, though, the Eagles' sixth and final inning let the Hawks tie the game. By the end of the seventh inning, the Eagles led 2-0 as two runs already scored in the seventh inning, and only one out was left. The Eagles were still threatening, even though they had the bases loaded, preventing them from making a score line out that looked like a sure hit. Eagle third baseman, Bert Herle, turned a hard hit drive into a double play, when he made a leaping catch and then tagged the third base runner as he tried to get back to the bag. With the Hawks' threat stopped, the game went to extras.

The Eagles lost another heart breaker when the losing pitcher ran in the bottom of the eighth. Final score: 3-2.

The first game Friday between Florida International University and Wabash College, was played to determine the tournament champion. Wabash and FIU had equal May winter hits into the game of 2 wins, 1 loss and 1 tie.

FIU dominated the entire game. Although Wabash out-hit FIU 7 hits to 6, they couldn't put together enough to score a run until the 6th inning. When it was too late and too little and too small, FIU scored: 4, Wabash 1.

**INTRAMURAL ACTION**

Lambda Chi vs Vets

Lawdama Chi 4 - 11

Vets won Sunday as expected against Lawdama Chi, 11-4. The game was over as soon as it began. Lawdama Chi scored 7 runs in the first inning, making the outcome obvious.

The Vets are now tied for 1st place in Sigma Phi and have a perfect record of 4-0.

The loss for the Vets was Steenbach, and Carl Topky who both went 2 for 3.

Home runs for this game were::

Lawdama Chi 2 - 0, Steenbach 0 - 1.

The Vets Sunday game against Lawdama Chi, thus making their record 4-0, while Lambda Chi plays Delta Chi.

Delta Chi vs Sigma Uno

5 - 4

Well the game of the season took place last Sunday with two undefeated teams going at it. Lambda Chi, the defense of Sigma Uno taking the lead in the first inning, with all played Delta Chi, which had the "same old" attitude.

Sigma Uno took the lead in the first inning with a 2 run clout by Bobby McGinnis, who later reached base on a double. The defense of Sigma Uno took the top of Delta Chi scoring until the top of the 9th inning. Delta Chi popped a triple to the outfield and came home from first to make it 1-1. The game finished 4-0, with Sigma Uno winning. The two teams played superb baseball, with Delta Chi hitting off all possible hits by either team until Sigma Uno put the last 2 runs on the scoreboard. In the 9th inning, Delta Chi defense and offense held firm. Delta Chi made the score 4-1 in Sigma Uno favor.

**PLACEMENT NEWS**

We use to contact you after graduation and employment reviews and for compiling statistical data. A recent survey indicated that students with up-to-date records have a distinct advantage in their search for post-graduation employment. We encourage you to keep your information current and to inform us of any changes in your plans. Please contact us if you have any questions or need assistance.

**EASTER WEEKEND RACES**

The schedule calls for practice for Baby Grand machines on Friday and Saturday. We will find both groups qual- ifying from Noon until 3:30 p.m. The mile Baby Grand event schedule is set.

The second annual Camel Stakes Three Hour GT Challenge Highway at 9:00 p.m. and conclusion will be held.

The camel GT Challenge group will consist of Corvettes, Shelby, Porches, Camaros, Javelinas, Mustangs, and Alvas.

The defending Stakes "Lance" will be Dr. Wilbur Pickoff of Wisconsin, and his partner, Charlie Kemp, former national champion from Illinois.

Pickoff and Kemp, who were the only ones to make it last year, took the 2nd place in the 3-hour course in the three-hour marathon in the powerful Camel GT Challenge. On an average speed of 109.760 miles per hour.
BASEBALL, BEER, AND BROADS
Under The Yum Tree'-Delicious

by Marvin Stokes

You're truly eat a delightful treat when you visit an immensely enjoyable evening at Orlando's A Steak House. There, you'll find the famous Romani's "Under the Yum Tree" once again. The menu offers a delightful selection of food, and the ambiance is excellent. I broke down and bought a steak dinner with a sumptuous bowl of creamed spinach. It was delicious! The service was friendly and attentive.

Now, on with the show! As the show was a somewhat weak opening, the play really started to pick up when the unkept, Lothario Hogan (Jack Kelly) stumbled onto the scene. As the landlord, he was a bit of a shock to the patrons.

Mr. Eakley's
A Practical Approach

by Bill Leeds

The atmosphere in the restaurant was warm and inviting. The service was attentive and the food was delicious. The staff was friendly and the ambiance was cozy.

The course was taught by Mr. Eakley, who made arrangements for his class. He was very knowledgeable and the students were happy with the experience.

On Wednesday, March 21, he arranged and conducted a tour of the Piper Aircraft Plant in Vero Beach. This was an excellent opportunity for everyone involved. If you are looking for an elective that's worthwhile, consider this well-presented course.

**TIME-SAVING FOOD SERVICE**
by Fred Mulyu, Kinansi

I sat comfortably in a stretched DC-9. The gorgeous looking stewardesses and passengers locate their seats, I could just barely hear the disco music in the background. I wondered how I would see in Jamaica.

What of the Jamaican people? They were originally from Africa. I was told that Jamaica had first been ruled by the Spaniards, then the British and since 1963, it has been independent. Jamaica is about 50 miles wide and 128 miles long. It has a population of about 2.5 million people.

Once I landed in Kingston, Jamaica, I realized it was going to take some time to get through customs and to locate my baggage. The airport was overflowed with all different types of people: Europeans, Americans, Africans, and of course I proudly represented Americans.

It looked as though everyone had come to spend Christmas in Jamaica. As I glanced through a local newspaper, I realized I was where the action was. The Rolling Stones were recording an album. Melba Moore was in town and the latest James Bond movie was being filmed in Montego Bay.

As we drove through the town from the airport, I started noticing the signs of British rule in the past. Most of the cars were British. We drove on the left side of the road, just like they do in London. The streets, the buildings, and even the people made me feel as if I was in Wales (Kenya), my own home town.

Later at the airport, I had to bar-gain with the cab drivers, as they all offered different prices to take me to Birdluer Heights and settled for the cheapest one!

Tony Thompson, a friend and a native of Jamaica, attends UCLA and had come home for Christmas. We went on the town the very first night.

We went to a few nightclubs. Most of the clubs have either a live band or a discotheque. Here again, I got that unique Jamaican beat and some of the best run in the world.

Jamaica gets most of its income from the mining of bauxite. Tourism is the second source of big business. The third industry is agriculture. Jamaica exports a lot of sugar, coconuts, citrus fruits, bananas and dairy products.

After being in Jamaica for about ten days, I had experienced a lot. I had not met the Prime Minister, Michael Manley on several occasions. I had traveled right across Jamaica, from Kingston to Montego Bay. I met a lot of Jamaican people and made many friends. I had eaten all sorts of Jamaican dishes, which made me feel and when I realized that I would be going back to hamburgers.

Jamaica is dynamic. It is unique because there isn't another island which can match its composition. The American music is very popular. British cars and clothes are also popular...and of course, the natives are basically from Africa. Think you'll be thinking of Jamaica when you think of paradise, Jamaica is definitely a cool island.

PAELLA IS A GOURMET'S DELIGHT

by Macleau Adams and G. O. Radin

Paella is a traditional Spanish dish, which is prepared by the peasants during times of shortage. Using their ingenuity, they prepared one pot meal which turned out to be a gourmet's delight. This pungent rice dish was the favorite of the peasants as it kept them well while they had to spend days in the countryside tending their flocks. They cooked rice in large quantities until there was a need of necessity, they trava-4ed light, therefore carrying only limited cooking utensils, which usually consisted of one pan.

In the meantime, they gathered around a fire which was kindled with grapevine twigs and ate the paella directly from the common pan.

Paella is traditional-ly prepared in an iron pan or pot, however, any cooking ves-sel will do.

The following ingredients are needed in the preparation of paella:

1 medium onion
1 medium orange
1 teaspoon of salt, 1/2 teaspoon of black pepper
1 medium chicken
1 medium green pepper
1 teaspoon of garlic
1/2 lbs. of shrimp
1 package of green peas
1 small jar of pimientos
1 small can of black olives
1 package of string beans
1 small can of mushrooms

First, cut up the chicken and boil until tender. Add the rice to the chicken, following the directions on the package. Add shrimp, chopped onion, mushrooms, and chopped green pepper, cook until almost done. Then place the clams in their shells into the pot. Cook until rice is done.

To serve, place the string beans around the plate, like spokes in a wheel, then surround the paella in the center. Arrange the clams and green pepper on the top. Garnish with green peas, pimiento strips and black olives. Serve steaming hot with a cracking cold rose!

There is no truth to the rumor that the flight line lets students fly when there is a cloud in the sky.
