Richard Bach Visits ERAU

By John Dolwick

Richard Bach, author of the
attractive Laguna Spinnaker,
came to Embry-Riddle Tuesday,
Mr. Bach had a busy day which
included a luncheon, a dialogue
with the student body and dis-
tur on the President’s Residence.

While speaking to the student
body Mr. Bach explained that
he have talked to a group
that knew what an airplane was.
This could be a great experience.
During the talk, which lasted
from 3:30 to 7:00, Rich-
Dbach answered many ques-
tions from the students.
He
of his time with the Air
Forces, his days of hanggliding
[...]

SCHOLARSHIPS GRANTED

By John Dolwick

Two ERLAU students have
been chosen to receive the
John L. Black Memorial Schol-
arship. The recipients are
Erik West and James Green.

The Black Scholarship is
awarded to students enrolled
in the Aeronautical Engineering
program. Several qualifications
must be met before the schol-
arships are granted. A person
must have completed one
year of college and a second
year is to be started. Erik West

James Green

Erik West was born in Fin-
land and his present home is
in New Park, Pa. Erik has a
GPA of 2.4 and plans to en-
roll in April of 75. He is
planning to go into the aero-
plane industry when he com-
pletes his schooling.

Jim Green is from Ypsilanti,
Mich. Jim has a GPA of
2.7, and will be graduating
this spring of ’75. Upon graduation, he plans to work
at the Neil Young Research
Center in Virginia. Mr. Green
was a top student at the
Research Center.

Benefits for the Black Scholar-
ship are made whenever
the school is given the money.
These will be divided among
the students at the rate of $750
for each of the last two
semesters of school.

SCHOLARSHIPS PASSED NEW "BIL" FOR SENATE APPOINTMENTS

By John Dolwick

The Student Government As-
nociation has just voted in a
new bill which will allow student
to fill vacant seats in the
Senate. The new bill reads in
full:

"If Senator Stearns position is vac-
ent for any reason then the
student on petition for the
Stears seat, with confirmation of the
Senator, for the remainder of the
session. After which he must be eli-
ited to that Senator seat."

A student may petition if
submitting a letter to the SGA

John Riddle’s STAFF

Ralph D. Henry, Vise President,
has been named to the newly
created post of Director of De-
velopment at Embry-Riddle Aeronau-
tical University. A veteran of
more than fifteen years in the
field, he will be directly
responsible to the President in
maters of development and
public relations and in alumni
activities and parent relations.

Working with Henry will be
John B. Rollins as Director of
Community, Alumni, and Parent Relations and Mrs. Dorothy G.
Lowe as Public Relations Di-
rector. Both are filling positions
that have been vacant for the
past year.

Henry’s appointment was
on October 10th and was
announced to the Board of Trustees by ERAU President
Jack Hunter on October 16th.

The new Director of Develop-
m is a graduate of BA Ham-
Univerity in St. Paul, Min-
nesota and graduated work
in educational psychology at
the University of Minnesota.

He served as Director of De-
velopment at New College in
Sanpete from 1965 to 1971
and before that was with Allto
College, Albion, Michigan and
Hamline University. For the
past four years, he has been in
business in Washington, Ohio.
He and his wife, Ann, have a
daughter, Lita, and a son, Bill,
both college students.

In introducing Henry to the
Board, President, General William W.
Simpson, the Chairman said:
"Several months of searching
we have found a development
officer who has had meaningful
experience, has a great person-
ality and has expressed a desire
to really get involved with de-
velopment at Embry-Riddle.

Rollins is an alumnus of
Emry-Riddle with a Bachelor of
Science degree in Aviation Man-
agement. He also holds a de-
ger in business administration
from Bahon College, Wellesley,
Massachusetts, and required
public relations at Boston Uni-
versity. Rollins has been an ad-
ministrative counselor at ERAU
since 1966.

A native of Maine, Rollins
served as an Army pilot for
five years before leaving Batho
University, using duty in Viet-
m and Europe.

As a student at ERAU, he
was an assistant in the Human-
s and Social Science Division

Story Continued Page 4
The opinions expressed in this paper are not necessarily those of the university nor all members of the student body. Letters appearing in The Avion do not necessarily reflect the opinions of this newspaper or its staff.

**EDITORIAL**

**NOW'S A GOOD TIME...**

The season's right and the situation is demanding action. The situation is the "men's", click, chant...whatever that is that "surrrounds" dorm I.

Before the "cool" books and the "cool" dorms arrive ("Dayton") and start pointing toward the city hall, take a minute to ponder the situation. I'll be the first to admit that I don't know the relationship between the city, SMAU and the sewer department. I do know that the mess is becoming more and more unsightly and is an unhealthy distraction from the appearance of the dorm. It doesn't lend much to improving prospective students' either. So let's clean it up.

The boys, trash, seeds, and etc., that float in the most can be removed without too much difficulty and a mile or a pair of choppers could clean out the banks to some degree of acceptability. I imagine the city could come up with some chemicals to kill any thing growing in or on the water if asked. The big question, who comes up with the elbow grease, I don't know! The University has the tools, trucks and etc. Perhaps they'll come up with the leadership to get the job off the ground. I bet there are students in the dorm willing to help.

**SHOE LEATHER EXPRESS**

On the subject of guys in the dorm, it will come as no surprise to many of us that the dorm residents have no notion of transportation save the "shoe leather express." Recently, I've noticed increasing numbers of dorm dwellers walking from the dorm to the student center and being passed by our car full of ER stickers on how to get a trip with the dorm leader to get the job off the ground. I bet there are students in the dorm willing to help.

**POLICIES**

I've never seen so many policies surfacing lately. As normal, the student body becomes more and more active each term and more and more policies arise from the depth of the great policy book. "Don't walk against Nan-Valey; how about rifles? What about the policies regarding this?"

I wish the back don't everybody could see what the polices are.

---

**LETTERS TO THE EDITOR**

I have been a letter addressed to President's indicate that the appreciation by the Red Cross for the 100 people who volunteered to give blood at our blood drive. Attached to the letter is a listing of all the people, blood types, etc. A quick compilation shows that 11% of the student body contributed, 10% of the staff (administration), and only 5% of the faculty.

We have three blood drives each year. The requirement for approval was that 25% of the organization participate. It seems fairly obvious that the people who have the longest contracts will do the least to build up their end of our blood bank. It also appears that everyone who does contribute would take a friend with them, we could build our bank to a long term position that would help cover our doubts and those who cannot give. While the Red Cross sponsors the Blood Drive, it appears too in a little better organization is needed by the faculty.

(same withhold)

**NOTICES**

**STUDENTS:** If you will be here over the Thanksgiving Holiday and would like a shared dinner with a local family, please contact Mrs. Linda Estes, 73.

**FACULTY & STAFF:** Will you tolerate a student to Thanksgiving dinner? Please contact Mrs. Linda Estes.

There are two positions open for any experienced photographer who would be willing to work on the 1972 Phoenix. If interested contact William Thompson at 252-3578. Room 312 or the dorm or call 252-5561, ext. 73.

The Navy Recruiting Team will show two films "Pressure Point" and "No Property for Second Time" on Friday evening at 7 PM in Room 200.

"Pressure Point" is a film about flight training conditions and "No Property for Second Time" is about the F-14 and "joy fighting."

---

**PRESIDENT'S CORNER**

By Andy Dymul

Last week the Senate held another meeting and we passed some very worthwhile legislation. I'd like to bring your attention to some of the bills passed that may be of interest to you.

The Senate has established new guidelines for "goodwill."

If any student is hospitalized, he may receive one of the following:

1. Flowers
2. Free TV rental for one week
3. Receive up to $12 for books, magazines or any other
data material

Also in the event of a student's death or the death of a
tuition, child or parent, flowers will be sent to the funeral.

The Senate passed another bill as an addition to the By-
Laws. The bill, in effect, allows students to petition for Senate positions if there are any vacant seats after an election.

Two newly formed organizations were recognized by the Senate. The organizations are the Explorer-Bigle Eagle Band and the Brothers of the Wind. The Non-Vets Club was tabled until the next Senate meeting pending a more specific purpose for the club.

I hope some of you are noticing the Senate by their new name tags, which they should be wearing. These tagnill work even harder if you're behind them. Don't just support your Senators. I'm asking you to DEMAND the best possible representation.

To bring you up to date on the Phoenix affair, I'm preparing a number of proposals to be presented to the next session of the Academic Standards and Policies Committee. I'll keep you informed of any progress or setbacks.

My second project, that I'm involved in, is in the Maintenance Technology area. The problem is A & P students being charged an extra $50 per development course the school requires them to take. I feel this extra $50 or $100 is unfair to the A & P students. I'm in the process of obtaining background information necessary to make a decision.

Till next week, let's all get together for a strong and uni-

VOLUME 11 ISSUE 2

Published biweekly throughout the academic year and weekly through the spring semester. The Avion newspaper is published by the Student Publications Board, 1009 Nan-Valey on the University of Oregon campus.

The whole art of government consists in the art of being honest."

Thomas Jefferson
**Special Accounting 1 Class Offered**

A "special" Accounting 1 section (MS 110-01) that uses a new concept in class presenta
tions will be offered during the spring term.

The classroom environment should be interesting to students since one traditional lecture ses
tion will be replaced each week by a professionally produced audio visual program known as
ALEX (A Learning Experience). ALEX has been created by the Prentice-Hall Publishing Com-
pany after years of research and preparation and is considered to be one of the best
visual aid presentations that has been developed for beginning accounting students. In addi-
tion, specially prepared exercises will accompany the ALEX program to assure a close con-
nection between the film presenta
tions and the text material.

Classes will meet three ses-
tions each week. ALEX and supplemental exercises will be used in one session. Two ses-
tions will be conducted in the
traditional manner and will in-
clude review and discussion of specific problems the students may encounter.

Text material requirements will be the same as those used in other MS 110 sections.

Accounting Principles, work-
ing portions Chapters 1-4 and Practice Set 1 by Niswonger and Feas.

Computer and the Account-
ing Process by Robert P. Miga.

**Notice**

To the person who took the two wallets and the calculator from room 257. I guess by
now you have enjoyed some of all my $411. It only took me two weeks of work to earn
it. Enjoy the money, but what are you going to do with the wallets and I.D.? Instead of
throwing them away, why don't you put it in box 1163. My name, as you probably
know by now, is David Kauer. My mother would also like his wallet, and calculator if you
can manage it.

**ALUMNI NEWS**

**GARY V. BIRCHFORD,** as August 1974 graduate from the Airline Management Program in Aviation, is in the US Army currently stationed at Fort Carson, Colorado.

**PETER D. HERZEL** graduated with a degree in Aviation Management in April 1972. He is presently working for the New York State Department of Motor Vehicles and plans to begin graduate studies toward an MA in Hospital Administration at George Washington University in Washington, D.C.

**THOMAS L. BERG** is serving in the US Air Force in Norton AFB, California. As an aircraft commander of a C-141, he continues his work in Aeronautical Science in December 1974.

**RUSSELL P. BORGER** earned his BS in engineering and aeronautical science certificate in October 1962. He is currently a line mechanic with Eastern Air Lines in Ft. Lauderdale, Florida.

**HUBERTUS O. GAGGEN** graduated with a BS in Aviation Management in June 1972. He is presently a factory representative for Boeing Commercial in Dublin, California.

**RONE F. FAWING** is an Aeronautical Science student at Rensselaer from April 1967. He is president and editorial advisor for King Air, a major supplier.

**WILLIAM W. FORNEY** received his BS in Aeronautical Science in April 1972. His present position is in Richland, Washington where he is a pilot with Pacific Northwest Air Lines.

**FRANK R. HERRECK** graduated in April 1974 with a degree in Aviation Maintenance Management and is currently associated with United Airlines in New York as an aeronautical science test engineer.

**GORDON R. HAGEN** is an AFSC Trainee with Boeing Airplane Company in Seattle.

**JOHN A. JOHNSON** is an Aeronautical Science student at Rensselaer from April 1967. He is president and editor of the magazine American Aviation.

**FRANK E. HUGER** is in the Air Force with the 5th MLT AFB in Massachusetts. He is associated as a student manager at AFPC in New Jersey. Frank graduated in 1974 with a BS in Aeronautical Science program in April 1970.

**AEC Shuts Down Nuclear Plants**

CPS-The Atomic Energy Commission has quietly ordered 25 other nuclear reactors in the US to shut down temporarily because of mysteries of cracks developing in the plants' graphite reactor cores.

Cracks in the pipes have been detected in 25 other plants, and as a result, the AEC wants to examine 18 other similar plants. The AEC said that the cracks are not serious, but acknowledged that failure of the cooling system could cause explosions and fires.

In a related development, a safety analyst, Carl Howerton announced he is quitting the AEC to protest what he says are inadequate safety precautions being followed by the agency. In instituting his resignation, Howerton charged that the agency is using "wholly unacceptable" methods to evaluate the danger of nuclear reactors, Howerton is the latest in a series of safety experts to resign from the AEC's Idaho Safety Research Center.

New Bike Lock Guaranteed

If anyone breaks this lock and steals your bike, we'll pay for the bike.

By Nora Whitten

Looking for a product which the manufacturer will back up with a guarantee? Well, we at Security believe we've found one. You can order this lock mail for $21.45 plus tax, or you can get it on a bulk order through the security office and get it at a 10% discount. Once we get 290 on the list, we'll send in the order.

Delta Chi News

By Ken Barbick

There are a lot of cool legs and buttacks among many silly, terrors, shared throughout the brotherhood of Delta Chi. This past Saturday, we all went roller skating! All of the brothers, pledges, and little sisters had a blast. This upcoming Saturday is the Delta Chi men's semi-bash party. Those of you who were not able to pledge the brotherhood this fall, because of financial difficulties, or because you are a first semester freshman, or for personal reasons, will be extended a personal invitation this week. We would just like to let you know of your interest in us. Delta Chi's Social Calendar for the remainder of the term is an exciting one to say the least.

Look at it this way. You're hot, and if your bike will rust your new lock and the maker will buy you a new bike. If you have a bike worth $100,000, then approximately one to odds, either way you win. You will still own with a bike.

BICENTENNIAL ROUTES

HAPPY TRAILS

The country's first trans-American bicycle route is scheduled for completion in 1796, coinciding with the country's bicentennial celebration. Two routes, each stretching from the Oregon coast to Washington DC will primarily use existing back roads and skirt major cities. The 3200 mile trail is the brainchild of four cyclists who had been surveying and charting the trail this summer.

Braving the two routes, a handful of cyclists will be available at several shops and publishing overnight lodgings every 40 to 50 miles. The trip will take approximately 80 days for a "slow" tour (traveling 40 to 50 miles per day) and half that time for a "fast" tour.

Information may be obtained from Bicentennial '76, PO Box 1024, Madison, VT 58690.

Steps Taken To Improve US Flag Lines

Secretary of Transportation Claude K. Brinegar has issued an order requiring all passengers on American airlines operating in the United States to be provided with their own tickets. The CAB has been assured that there will be no additional flight traffic to cover costs.

We believe that the combined impact of these seven steps will be a long-term decision to reduce foreign carriers operating in the United States. We are actively negotiating the merger of Pan Am and the French airline, which would eliminate the threat of any additional flight traffic to cover costs.

The CAB has also initiated a series of meetings with airline representatives to discuss potential mergers and joint ventures that could be mutually beneficial. These discussions are ongoing and will continue to be held.

Leadership. Together with the CAB and Department of Justice, we are working to ensure that the merger of Pan Am and the French airline is a success. We are also closely monitoring the progress of these negotiations to ensure that all interested parties are treated fairly and justly.

The CAB has also issued a request for proposals to the private sector financial institutions that it believes have the capacity to finance the merger.

If the CAB is successful in negotiating the merger, it will be a major step forward in improving the financial health of all our international flag carriers, including Pan Am. In particular, we believe that the merger will provide a strong foundation for future growth and profitability. We are committed to ensuring that the interests of all our customers are protected and that the merger is a success.
Sigma Chi Fraternity

Ten members of the Sigma Chi Fraternity at the University of Idaho were arrested in Hailey, Idaho, last week, on charges of resisting arrest and obstruction of justice. The fraternity members were charged after a house party in the Fraternity house was broken up by Hailey police.

The fraternity members are accused of resisting arrest and obstructing justice.

Sigma Chi Fraternity

On November 9th, the Sigma Chi Fraternity at the University of Idaho was notified by the Hailey Police Department that they were being charged with violating the university's Greek Club regulations.

The fraternity was charged with violating the university's Greek Club regulations.

SIGMA CHI

There will be announced support for a constitutional amendment that would permit Congress to remove a president in a three-fourths vote of each House.

There is even talk of establishing a constitutional amendment that would allow the House or the Senate to override a veto by the president, while a constitutional amendment would require the Senate to override a veto by the president. Congress will concentrate on monitoring the nation.

The House of Representatives, it appears, may finally be freed.

WASHINGTON WHIRL. During the last days of the Nixon administration, one late citizen reported a package of dried cow dung to the White House. The package broke open at the post office and exposed the mounds of cow dung to the Executive Mansion. Because he failed to take out health insurance when he left the White House, former President Nixon will have to foot his enormous hospital bills out of his pocket. Ironically, even if his own proposal for national health insurance had been enacted, Nixon would still have had to pay at least $1,500 of his medical costs. And, after 90 days of unemployment, he would have been without insurance.

Scores of children and some adults have been hurt while visiting Bob Krueger's jumping foam. The worst injury resulted in a death. The least serious case involved a six-year-old Chicago girl who got a bad scare when she drove off a board and into a sandbox. Pedestrian Police-wearing cop, George Weiler, who was working in Arkansas, was nearly killed when a tattered notebook he lost in the sale. The mounds revealed his notes and zero cents in damages, but the loss has already cost him $5,000.

While the federal budget squeeze has forced government officials to withdraw the support they were getting at important Mafia functions, for the testimony he gave during his syndicate ceremonies, he is now on welfare.

Buck's Gun Quiz ANSWER

On Monday, November 11, all four (!) of the entries that were submitted to the AVION, in sealed envelopes for the Gun Quiz sponsored by Buck's Gun Back on Yohoom Avenue, were taken to Buck to identify the weapons, was the Small Arms of the World: A Buck Manual of Military Small Arms by W. H. Smith, copyright 1960 by the Stackpole Company, Sixth Edition (Library of Congress Catalog Card Number 60-6532). The answer to the Gun Quiz questions of manufacture, model and caliber of the rifle donated by Mr. Buckwell to the NRA Museum can be found on page 384 of the book. The present curator of the National Rifleman's Association Museum and Mr. Buckwell both agree that the following information is authentic and pertains to the weapon in the quiz.

Manufacturer: French, Saint Etienne, Paul
Model: M1917/15
Caliber: 8mm, Nobel rimmed cartridge

Additional information on this weapon: Overall length 41.42 inches; barrel length 31.4 inches; weight 9.84 pounds. In 1934 the 1907/15 design was modified to handle the 7.65 mm rimless cartridge, the magazine was changed from the old Mannlicher type to a Nobel Mannlicher type, also the barrel was shortened to 32.92 inches.

Buck regrets to inform the participants in the Gun Quiz that there was not a winner. A few people were close, but not exact as required. Buck, in conjunction with the AVION, is presently working out details on another contest that would interest more Embry-Riddle students. Keep a sharp eye out for future details and contest rules in the AVION.

SPORT PARACHUTE CLUB EVENTS

By Dave Greger

On a beautiful Sunday morning, the Skydive Sound Parachute Club, led by Doc Ihle, sprayed a DC-3 from 18,000 feet over Deland Airport to facilitate a "Sixtyman Big Jump." Doc Ihle (with 50 jumps) from Embry-Riddle fell as our base man. Jim Murray, a veteran with over 600 jumps, immediately steered Doug and formed a "Two Man Stare," on which several others entered. Carl Weldon performed free fall in sixth. Seventeen seconds later, skydivers, including Dave Greger completed a "Fourteen Man Stare," with two more persons entering when the "break" altitude was reached. Everyone then bobbled off and pulled their ripcords.

This jump eased Doug and Carl (Rayonier ERU Skydiver of the Month) for participating in an eight man or larger size. Dave earned his RS2 (Rayonier Stunt Awards) for "flying in" 8:45 or later. Lining up to accomplish

couple of more times. It was extremely exciting to see our guys, both novices and vets, connecting on some good formations, making good cross and base play, and in some instances, making misplays. Considering that it will be six weeks into the spring when we start our newsmaster's "flight" column, we will have the opportunity to see more learning benefits. Our caps are up to Coach Wayne Storton, the Canaan coaches and their athletes.

So and the big diamonds ended another week with memories of "Iron Man" up a notch and the very northern dragons.

For those of you who will be with us in the spring, it would be wise for you to come out for a half hour and take 20 spins off "Iron Man." He's going strong 3:39 till dark. Monday and Thursday from 11:30 to 2:00 Saturdays. Please take advantage, since and football season here are done. We've made it last Saturday, even if it was the individual's first time out were more season against the Nationals.

Soaring

The ERU Skydive Club would like to extend our regard that the National Collegiate Parachute League have their annual skydiving competition from 29th of November to 2nd of December. Presently it appears that Embry-Riddle will be represented at the meet by the ERU Skydive Club. Be looking for a future article that will explain the most in detail. Over fifty competitors from all over the US are expected to participate in the various parachute events.

The Giant Killer Takes To The Diamond

Another week of untouchable full Eagle baseball has transpired. May I read you in as the National Collegiate Parachute League have their annual skydiving competition from 30th of November to 2nd of December.

The Eagles are making a run for their fourth consecutive championship. The Eagles will be the favorite to win the tournament. The Eagles have a strong pitching rotation and a solid defense. However, the Eagles face some tough competition from other teams in the tournament.

Puerto Rico Plans Demonstrations

The first Puerto Rico massacre tragedy occurred in 1909 when Juan Ponce de Leon and his soldiers invaded the island to pacify the island's peaceful natives.

The second and continuing tragedy began in 1908 when at the end of the Spanish-American War Puerto Rico became an official colony of the United States after 400 years of Spanish domination.

Since then the island has been elevated to the status of a commonwealth. Its people are non-voting citizens of US citizens but do not have all the rights of US citizens, and have been conscripted to fight in World War II, the Korean War, and the Vietnam War. The Selective Service is a barometer for heavy American industry, which according to Puerto Rican nationalists, is seriously threatening water and air pollution standards and exploiting the island's workers.

Eighty percent of the Puerto Rico economy, nationalism against the US, and inter-island communications.

Twenty-four US-owned stores in Puerto Rico are responsible for 30% of all sales.

In an effort to bring the Puerto Rican situation to the American public the Puerto Rican Solidarity Day Committee has organized a demonstration in Madison Square Garden October 27, under the banner “Bi-Centennial Without Colonies.”

Diverse liberation groups in the US have rallied behind the demonstration and appearances have been confirmed by Angela Davis, Dave Dellinger, Jane Fonda, and Pele Soege among others.

The demonstration will be held on October 27, 1984 at 7:00 PM in Madison Square Garden. Tickets will be sold at the door. The call to action is: “Puerto Rico is not the US. Puerto Rican Solidarity Day Committee seeks an end to US oppression and support for the rally.”

VIOLENT HISTORY

Recent Puerto Rican history has been spotted with violent demonstrations and numerous-strikes all related to the independence issue.

In 1960 a six-day nationalist insurrection resulted in hundreds of deaths and thousands of arrests. Following the uprisings, Puerto Rican nationalists went to the Blair House where President Johnson was living and tried to shoot him into his room. As a result of the attack one of the nationalists and a guard was killed and the other nationalist was arrested and sentenced to 32 years imprisonment.

Four years later on March 1, 1964, four nationalists entered the House of Representatives and began to randomly fire pistols, crying “Viva Puerto Rico Libre!” The four were sentenced to keep their heads down and it is in their honor that the October demonstration is being dedicated.

Since then various civilian and worker strikes have been waged to protest US rule on the island. Heavy resistance has been voiced frequently against a proposal Puerto Rican “Superport” and the project is that all the sites in the eastern coast of the US have resisted for ecological reasons.
The judicial power shall extend to all cases arising under this Constitution, the By-Laws, and all acts of the Board of Trustees, and all acts arising from traffic violations; and to all cases which may be referred to the Court by the Office of the Dean of Students, including but not limited to matters involving the personal conduct of students, disputes between two or more students, and cases concerning academic honesty.

Section 5 Appeal

Decisions and recommendations of the Court shall be subject to review through established University channels.

Section 6 Chief Justice

At its first meeting each calendar year, the Court shall elect from its members a Chief Justice who shall serve as the presiding officer of the Court until the Chief Justice is installed. A member of the Court may serve only one term as Chief Justice.
LANCASTER AIRPORT AUTHORITY

By Barbara Lyons

LANCASTER, Pa. — Maintenance officials at the airport have been wearing a new uniform in recent weeks. The uniforms are part of an effort to improve security at the airport.

The uniforms are made of a special fabric that is resistant to fire and chemicals. They are also designed to be comfortable and easy to move around in.

The airport recently announced that it would be expanding its hours of operation to include Sundays. This will allow for more flights to and from the area.

In addition, the airport is considering adding a new terminal to accommodate the growth in passenger traffic.

Princeton Had Goalpost Problems

In the winning minutes of the game, Princeton and Princeton Academy played to a 6-0 draw. The game was marred by several instances of unsportsmanlike conduct.

Princeton fans and Princeton Academy alumni were not pleased with the outcome of the game. Some fans took to social media to express their disappointment with the game.

But the officials ruled that Princeton must run once for a two-point conversion. Princeton did, they failed, and the game ended in a 6-0 tie.

OVERDUE BOOKS

This term has been the worst in Emery-Riddle history for overdue books. For your information, the lending period is two weeks. Books may be renewed for another two weeks if another patron does not reserve the book.

Several books are overdue and must be returned to the library within the next two weeks.

YOURSELF

Send your comments and suggestions to the editor.

Activities Office

Yes, you can still borrow books from the library. However, overdue fees will be assessed on overdue books.
