COUNCIL HOLDS BANQUET

New and past representatives of the Student Government Association were honored at the Tri-quarter Awards Banquet and Swearing-In Ceremony this Friday at the Ridgewood Hotel's Plantation room. Guest speakers were Dean Mansfield, Dean Spears, and Cam McQuaid. New officers and representatives were sworn in and letters of recognition were awarded to various members for their service in the SGA.

Cam McQuaid who received a standing ovation for his talk, stated that the Administration is primarily concerned with the "money end of things, "by their circumstance, and this is understandable". He went on to say the SGA should concern themselves with the "human aspect", and that "there has been progress, but there are still things that have to be changed - the roadway", he stated, "is an example of neglected student need."

A Buffet dinner and refreshments were served.

NEW SGA OFFICERS AND REPRESENTATIVES WERE SWORN IN AT FRIDAY'S BANQUET.

SPRIT OF EMBRY-RIDDLE

If you have been sitting on the sidelines all this time, letting your great imagination and talent as a photographer go to waste, now is your chance to come into the limelight. General Spruance, a member of the Board of Trustees and an avid supporter of Embry-Riddle, is offering a $25 prize for the best photograph submitted by any Embry-Riddle student, faculty or staff member which best conveys the Spirit of Embry-Riddle. There are no standards to go by and no restrictions on style, so go out and capture Embry-Riddle's spirit as you see it!

STUDENT LIFE COMMITTEE

The Academic Faculty Association of the College of Aeronautical Studies, whose purpose is in part to provide the responsibilities, prerogatives and interests of the faculty, particularly in the areas of academic affairs, student life and "faculty welfare", announces the establishment of a Student Life Committee. The purpose of the committee is to establish and keep open channels of communication between students and faculty.

The committee is chaired by Mr. Everett L. Chrisman, Chairman of the Management Science Department. Other members of the committee are: Mr. Thomas Clay (General Aviation), Mr. Iraj Hirmanpour (Mathematics), Mr. Burdette Lamar (Humanities), Dr. Donald Ritchie (Aeronautical Engineering), and Mr. Kenneth Wang (Aeronautical Engineering).

A panel of judges made up of AVION and SGA people will select the winning photograph.

Sorry, all originals submitted for this contest become the property of Embry-Riddle. The decision of the judges will be final.

The deadline date for submission of pictures is October 15, 1969. Please put your photo in an envelope, mark it "Spirit of Embry-Riddle" and bring it over to the AVION trailer, or deposit in Box 1568 in the mailroom. The winner will be announced on October 17.

Good luck!

* * *
the president's corner

The plea of the students has been heard once again. The road to the new campus is going to be widened to three lanes, and paved.

May I take this time to urge all students to THINK BEFORE YOU ACT.

In the past few weeks, we have attempted to aid the traffic situation by posting traffic signs in key places. These have been torn down. Automobiles have been known to park on the new campus and drip oil and grease on the road. This is a serious need for improving the road immediately, you are authorized to make arrangement for the paving of the road at the earliest possible time.

In your accomplishment of this project you should:
1. Be sure that the road is of a quality that will endure for at least three years.
2. Be sure that the road is of a quality that will endure for at least three years.
3. Have the paving contract submitted to Mr. Mondshein for approval by our attorney and then signed by Mr. Forrest in my absence.

Kindly give this project top priority in your work schedule.

Jerry Berndt
President
Student Government Association

NEWS & VIEWS

Basketball on an inter-collegiate basis has established itself on the ERAI campus this trimester. The first game is scheduled for the early part of November in Jacksonville. If you are interested in more information, contact Dave Lowe. The team needs support; look to the AVION and on campus bulletin boards for further information.

* * * *

Bethune-Cookman College along with Stetson University, will also be participating in the Student Moratorium to be staged on a nation basis this Wednesday. They will be holding a rally and showing movies. The public, we understand, is invited to attend.

* * * *

The Postmaster wishes to remind students that all those flyers and mimeographed notices that are often distributed in your mailboxes, are making paper mountains for the janitors to wade through and sweep up. It is unnecessary, so please dispose of these things in the nearest wastebasket.

OFFICIAL WORD

TO: Mr. E.M. Gervase, Administrative Assistant to the President
FROM: Jack R. Hunt, Pres.
SUBJECT: Road to Academic Buildings

It seems apparent that the County is not prepared to pave subject road as was previously indicated. Inasmuch as there is a serious need for improving the road immediately, you are authorized to make arrangement for the paving of the road at the earliest possible time.

In your accomplishment of this project you should:
1. Insure that the road is of a quality that will endure for at least three years.
2. Be sure that the road is of a quality that will endure for at least three years.
3. Have the paving contract submitted to Mr. Mondshein for approval by our attorney and then signed by Mr. Forrest in my absence.

Kindly give this project top priority in your work schedule.

President
Student Government Association

LETTER TO SANDS

Attention: Mr. Frank Keller Manager Subject: Vending Machines, Dorm #1

Pursuant to our meeting with Mr. Earl Clark, we request the following changes in vending machines at our new dormitory.

1. In order to eliminate the problem of leaks:

   Exchange the existing Coca Cola cup machine for a can machine. We understand that the cans will hold 12 oz. and are priced at $.20. This machine is to be located in the hallway outside of the Vending Room.

2. Add a hot drink machine (coffee, hot chocolate)--$.10 cups--in the former Coca Cola cup machine location.

3. Add a Hot & Cold Sandwich machine in the hallway outside of the Vending Room. This is to provide evening snacks for those students unable to go out for their evening meal or desirous of a late snack. Product and prices are to be as currently exist at our Flight Line location. Service to this machine need only be at late afternoon.

4. Add a second (mechanical) Pastry machine in the Vending room to provide more variety of pastry and chips.

5. Add a coin changer behind the desk in the front lobby. This may be bolted to the wall or floor, provided that flush fittings are used.

Your cooperation in this matter is appreciated.

Sincerely,

Burt C. Mondshein
The following article is a summary of the events of the student anti-war Moratorium and is reprinted from the Vietnam Moratorium Committee's "Moratorium News Summary."

The AVION neither condemns nor condemns its contents, but has reprinted it for the sole purpose of providing student information. Ed.

On October 15 the most extensive and most broadly based expression of anti-war sentiment will take place. The stage is being set on over 500 campuses, and in the largest cities and in the smallest towns all over the country. The action was deliberately localized and conditions, but generally the pattern has been to divide the day's activities into three sections: a convocation or brief memorial service in the morning, followed by a general canvassing effort, seminars and speakers scheduled for the late afternoon, while the evening is reserved for a culminating march or a candlelight procession. High school students will participate either by not attending classes, wearing black armbands, holding rallies during school time, or joining the activities after school classes. GI's will be marching and distributing literature. Businessmen, lawyers, doctors, teachers will attend activities and are supporting the campus efforts. Seminaries are being organized, and local clergy and community people have been active in publicizing and planning city-wide door-to-door campaigns and vigils.

Dean of Students
University of Stetson
Deland, Florida 32720

Dean:

It has been brought to my attention through your local newspaper that on October 15th, 1969, a group of your students shall enter our campus for the purpose of distributing "Anti-War Literature".

We are an educational institute, not a political hammer. Had your students used proper communication channels, things may have been different, but as it is, I would like to inform you that said group will not be welcome on our campus.

If one wants to do something constructive about the present world situation, I suggest they receive their education, experience, and then enter the field of politics where they can do the most good. If they do not want to do it this way, have them write to their elected Congressmen and Representatives. This is the Democratic way. Thank you for your attention in this matter.

Sincerely,
Gerald J. Berndt
President
Student Government Ass.

Dean Etter McTeer
Dean of Activities
Stetson University
Deland, Florida 32720

Dear Dean Turner:

We would like to offer our apology for the letter from Mr. Gerald J. Berndt, President of the Embry-Riddle Student Government Association dated October 6, 1969.

While we are writing as individuals and therefore do not represent the entire student body, we wish to point out that Mr. Berndt has also written his own opinion and not that of the student body. The Student Government Association has not voted on the matter, nor have they authorized Mr. Berndt to write such a letter as their representative.

We feel Mr. Berndt has over-reacted and over-stepped the authority of his position. We deplore the tone of his letter and regret that he chose to submit it to the news media.

As long term members and past presidents of the Student Government Association, we are embarrassed by this situation. We sincerely hope that the cooperation and good will which has always existed between the students of both schools will not be impaired.

To our knowledge Stetson faculty and students have been, and will be always welcome on our campus. By all precedent, the distribution of literature and other rightful forms of free speech are neither prohibited nor inhibited on our campus so long as they are within the bounds of legal and ethical conduct. We do not foresee any chance to that policy of free and intelligent exchange of ideas.

Sincerely,
Jan Collins
Arturo Freen
Cam McQuaid

You Know You've Been At Riddle Too Long When...

The Veterans Affairs office offers to put you in for old age pension.
Sigma Phi Delta held an initiation of pledges last Friday night. Our pledge class comes to a total of six pledges and consists of the following gentlemen:

Dan Kessler
Todd Gelston
Ed Rinkles
John Houghtaling
Mike Vuolo
Dan Smock

Congratulations, gentlemen, and good luck this trimester. Those of you who are outside the Fraternity, you will be able to recognize these pledges by the sharp looking berets that we have given them. Also on Friday night, the Professional Committee of Pi Chapter showed some excellent movies on the SST, Variable Wing Design and the DC-8 Series 63. Our thanks go out to Ray Alfonsi for a fine selection of films.

Sigma Phi's football team encountered Pi Sigma Phi Sunday morning in a game with excellent sportsmanship. Lead by "Duffy" Don as quarterback and great plays by "Little Cub", "Mumping Joey", "Racing Reginald", and "Eager Ellis" produced a 32-0 shut down.

Sigma Phi Delta plays the C.M.F.'s Sunday, at 10:30. Good luck to everyone!

That's it until next week from the Professional.

Phi Delta held this week the Brothers of Alpha Eta Rho decided to refrain from any organized activities and just sat back and enjoyed a weekend of rain and study. With the exception of the Sunday morning football game, nothing noteworthy has happened among the fraternity's membership this week.

During the game Sunday, which we lost to the "Jee-bos" (18-12 in sudden death), Brother Jeff Rawls tore the ligaments in his knee. He was taken to the Halifax Hospital where he will have to stay for another two weeks, followed by several weeks in a cast. Jeff was captain of the team and his playing and coaching abilities will be greatly missed. We all wish him a speedy recovery.

A trashcan party is planned for the Brothers and Pledges this weekend in belated celebration of the Autumnal Equinox which occurred on September 22.

Keep to the books, and we'll see you all on campus.

* * * * *

ANY ERAI STUDENT USING THE DBJC LIBRARY MUST HAVE A PERMISSION SLIP SIGNED BY THE DIRECTOR OF LIBRARY SERVICES, ERAI, OR HIS REPRESENTATIVE. THE DBJC LIBRARY HAS REQUESTED THAT NEW SLIPS BE ISSUED. THOSE FROM LAST TRIMESTER ARE NO LONGER VALID.

This Saturday, October 11, Pi Sigma Phi will have an Open Frat party. Anyone interested in pledging or just finding out what a fraternity activity is like is cordially invited to attend.

This last weekend we had our first car wash of the season. It started out as a great success, until we got competition from the weather and Mainland High School senior girls. Considering all the problems, we came out very well.

At the last meeting of the Fraternity, we invited Edgar O. Rawls to speak to us about developing a closer Fraternal organization and also creating more fraternity spirit among its members.

Again we would like to extend an invitation to our party. Posters will be placed around campus as to location.

Fly Daytona Beach Aviation's Inverted Champion Citabria. Improve your skill, build your confidence. Aerobatics Include:

- Barrel Rolls * Half Cuban 8's * Snap Rolls

Lessons tailored to meet individual needs. $139.00 total price. Demonstration rides, hourly instruction and advanced courses available.
EAGLES ROLL PAST ST. LEO

BY MARTY STILLING

The Eagles could do no wrong last Saturday on the home field of the St. Leo Monarchs. 15 players traveled to the small private institute near Dade City, and all contributed to the somber 0-2 victory. The Eagles stayed home this past weekend as poor weather and water conditions forced cancellation of two planned dives. The dives to Blue Springs and Little River, both cave-dives, will be rescheduled for a future date.

We made up for our lost diving time, however, at our Monday evening meeting with a very interesting lecture and slide presentation on sharks by Mr. Dave Cooper, who is a member of the Daytona Beach Skin Divers. Mr. Cooper's lecture lasted nearly 45 minutes and covered such items as recognition of different sharks, habits of sharks as a whole, avoidance and various types of defense, and statistics of shark attacks. Mr. Cooper evoked more interest from those who came to hear him than many paid instructors get from their various classes.

This coming Monday, October 17, 1972, will be rescheduled for a future date.

Billy Mozar gave the Eagles an early lead with his third and fourth goal of the season. Zack Fagbemi led the way with 15 shots on goals, making 3 good for his first hat trick of the season. Zack's three scores give him a total of five over the young season, high on the squad.

The first game was between Sigma Phi Delta and Pi Sigma Phi. Sigma Phi Delta overwhelmed their opponent by a score of 32 to 0. Alfonso scored the first touchdown and an extra point later in the game. Dan Kessler, who handled the quarterback position, passed for 3 touchdowns and ran the ball to score on an extra point. Reginald Przybyl, was on the receiving end of one of Kessler's passes to score. Steve Ellis also caught two touchdown passes and returned a punt for a major portion of the scoring. Pi Sigma Phi was unable to score but showed fine spirit in the game.

The second game matched the "Bombers" against the "Devils of Daytona". The quarterback of the "Bombers," who is an understudy of Joe Namath, scored 3 touchdowns. Broadway Bill Rehrmann scored once on a 10 yard run and twice more on short runs. He also passed to his two ends freely for the remainder of the scoring. Quanstrom received one and Greenwood scored twice on passes from Rehrmann. Smith did all the scoring for the "Devils of Daytona" by catching two passes. Final score was 31 to 12.

The "Jeebos" and Alpha Eta Rho played what was the closest game of the season. At the end of the 60 minutes playing time, the two teams were tied at 12 to 12. A sudden death playoff was begun and finally a pass play wrapped it up for the spirited...
SPORTS CONTINUED

FOOTBALL CONTINUED

"Jeebos". Acker passed to McGinness for two touchdowns. Acker received an injury to his knee and the Fraternity missed him considerably for the remainder of the game. The "Jeebos" quarterback passed for 2 TD's and also ran into the end zone for another.

The "Jets" pounded the Cougars 38 to 6. The Cougars' only scoring came on a pass play. The Jets' Daytona returned a kickoff, made a Boozin-safety, ran, passed, and Bruisers 0 2 executed I Diving Eagles Continued well to score throughout the game.

The "C.M.F's" won their first game of the season on a forfeit from the "Boozin Bruisers". We would rather have played, however, than to have won the way we did. If this situation happens again, we will have one less team in the league. The "C.M.F's" held a short practice session which gave a few of the "Eagles" players a chance to do some scouting on us. They were off this week.

If any teams are going to practice this week, do not use the field where the Junior League practices. We have been informed several times this week that we are tearing it up too much and that we are to stay off of it.

Diving Eagles Continued

October 13, A.J.Bland, dive-master for the Diving Eagles, will show and comment on slides taken during the last trip to the Bahamas. This will be somewhat of a preview for those going to Bimini on October 25. Even those not going will enjoy the program.

Mr. Snodgrass is also a new member of the Diving Eagles.

We are still interested in getting new members, if you are interested in diving. Why not take just one night off from Laugh-in and see what we offer.

* * *

ERAI SKY DIVERS

All students interested in Sky Diving: We have recently formed a new Sport Parachute Club at Riddle. We have qualified instructors and equipment.

The club is jumping every Saturday and Sunday. Ground school will be scheduled during the week during the evening. For those interested in joining, contact:

Pierre Champoux
Dorm #2
or Box 362

STRANGE ROAD CREW
BY GARY ANDERSON

As soon as I heard that the road outside the new academic complex was going to be paved, I ran down to the office of Colonel Dan Deadly, who is Riddle's Dean of Transportation, to get some details.

When I got there Colonel Deadly was in his office with a couple of Riddle's crack lawyers playing blackjack.

"Excuse me, sir, but do you have any information on how the new road is coming along?"

"Well, the lawyers are looking over the paving contract now."

"It looks like they're playing blackjack to me!"

"Unfortunately they've run into a snags. It seems..."

"No, eaten!"

I began to think of the schools' image. What are people going to say when they see a seventy year old man in a sailor suit and 12 alligators wandering around in the parking lot.

At that time a panic stricken freshman ran into the office.

"My math teacher was just eaten by an alligator!"

"That's terrible! It's not even 12:00!"

"You mean you don't care that an instructor was eaten?"

"Well, for $109 we had to make a few concessions."

"That's disgusting!"

"Well, you didn't expect them to eat in the Student Center, did you?"

INTROSPECT

Well, gang, one of Riddle's new Humanities teachers is Mrs. McLemore. She's been in Florida off and on for 15 years, spending her other moments traveling through most of Europe. (How's that for a reference?) Her first introduction to our school came last trimester when she filled in as a substitute teacher for seven weeks. That first encounter must have been pretty good, because she's back and still very optimistic. Her enthusiasm for the future of the school and for its past achievements is most encouraging. Let's hope her joining our staff represents a useful and practical way of improving Riddle's academic standards. All too often improved standards mean no more than changing a few points on an already ridiculous curve.

1970 CANCER CRUSADE

Embry-Riddle Aeronautical Institute has again been invited to participate in the 1970 Cancer Crusade as a representative of the Educational Division of this Crusade. Embry-Riddle was well represented last year when the Educational Division increased its contribution to this worthy cause by some 400% over any previous year.

The American Cancer Society is the only national voluntary health agency dedicated to the control of cancer through comprehensive, year-round programs of Research, Education, and Service to the cancer patients. The Society meets the standards of the National Health Council for National Health Agencies, is a member of the United Fund, Inc., and is supported entirely by voluntary contributions from the public.

ER representative for the crusade is Mr. Gervase. He will also be chairman for all the officer/functions not covered by other chairmen cited below. Chairmen for the separate divisions are: Mr. W.N. Boaz, Flight Technology Division; Mr. C.H. Caswell Aircraft Maintenance Technology Division; Dr. Daniel Sion, College of Aeronautical Studies.

The Crusade closing date for ERAI is October 10, 1969. Please contact your chairman early. In recognition of the great need for continuing research and also of the many benefits provided locally by the Florida Division, you are asked to contribute as generously as possible.

Now that the election returns are in, who really lost?
Deleon Picnic

By Ralph Wicklund

Everyone knows what a picnic is when it's sponsored by the Embry-Riddle Veteran's Association. Those of you who made the scene last Sunday at Ponce DeLeon Springs will agree that it was more than just a run of the mill outing. You didn't just meet and eat -- you had fun with a capital F.

Those of you who weren't there read on and we'll tell you a little about it.

The first item on a picnic list is always the food and the liquid refreshments. It took two kegs of beer and several cases of soda, plus steaks, hamburgers, hotdogs, casseroles, baked beans, potato salad, cole slaw, and the dozen or so other items that garnish the main course to satisfy the huge appetites that gathered around the tables.

It's too bad more people didn't show up so we could tap the other two kegs of beer we had sitting on ice.

After eating and then relaxing a while, some of the braver souls moved down to the spring and frolicked in the brisk 70°F water until it was time for the beer-chugging foot race.

For the foot-race relay teams were formed, first by the girls, and finally by the children (chugging coke). A length of rope was strung between two picnic tables to serve as an obstacle between the start-finish line and the beer. Some of our less agile men had a little upsetting trouble with the obstacle, even though it was only three feet above the ground.

Two-ounce bottles of mixed drinks were awarded to the adult winners and the balloons and tootsie rolls went to the kids.

Apple-bobbing, for the kids, was next on the entertainment list with some second-childhood kids getting into the act too.

The game ended when Mrs. Martucci accidently had the water spilled all over herself.

The climaxing event of the day was provided by three fellows who literally dropped in on the picnic.

Either the winner or the loser in a Veteran's Association trick meet.

Pierre Champoux, Stafford Ouderkirk, and Bob Mercer, all accomplished sky divers, entertained the picnickers with a spectacular jump into Ponce DeLeon Springs. All three hit their intended target which was the spring itself. The manager of the Springs told us that she would not charge admission to the parachutists because she thought it was very interesting.

The picnic was called on account of rain at about 6:30 PM but no one needed prodding. We were all tired after a very full day and ready to go home.

The Veteran's Association would like to thank all who came to and enjoyed the picnic.
Well, dear hearts, it's band wagon time, and Uncle Steve has the word to put in your ear. Let us dwell this week on the culinary artistry of our own, beloved Sand's International Cuisine. Now, labors of love will bear witness to the necessity of a bun (the breaded kind, dear hearts) sticking to the meat (as in hamburgers, dear hearts). Now-some-ever, most of the aforesaid are machine-dispensed delicacies.

After consulting the local delicatessens, I must conclude that perhaps a higher grade of, well, effort should be put into the, let us say, over-the-counter ware. We, the committee, hereby decree: fresher buns (bread, love, bread) and quotable ingredients in the, uh, meat product. What say ye, Sand's?

COLLEGE STUDENT'S POETRY ANTHOLOGY
THE NATIONAL POETRY PRESS
ANNOUNCES
The closing date for the submission of manuscripts by College Students is NOVEMBER 5
ANY STUDENT attending either junior or senior college is eligible to submit his verse. There is no limitation as to form or theme. Shorter works are preferred by the Board of Judges, because of space limitations.

Each poem must be TYPED or PRINTED on a separate sheet, and must bear the NAME and HOME ADDRESS of the student, and the COLLEGE ADDRESS as well.

MANUSCRIPTS should be sent to the OFFICE OF THE PRESS.

Traffic Committee - SGA
POLUTION
SOLUTION
BY RICHARD T. WHITE

By now most of you have seen the funny car with the engine in the trunk. Just a joke, you say? "Not so!" says Mr. Bolton, head of the Jet Technology lab. The car was designed by him, and built by his students in their spare time in order to learn the practical applications of jet turbines.

The car uses a Solar Company turbine from a water pump set-up. The turbine drives two hydraulic pumps whose fluid flow is regulated by the throttle. Diverting the fluid flow drives two more pumps, which, in turn, drive the transmission. The turbine runs at 4,300 RPM and the transmission at 4,300 RPM.

The project's purpose is two-fold: first, to create interest in the students, showing them applications of turbines. The other by-product is the public-relations value that the car brings to the school.

If any student is curious as to what other fascinating projects the Jet Lab and Mr. Bolton have devised, I would recommend visiting the shop - it's quite advanced.

MUSIC
ART FESTIVAL

WEST PALM BEACH...........
The first annual Palm Beach International Music and Art Festival will be held November 28, 29, 30 with 30 of the nation's leading recording groups. The festival will be held at the Palm Beach International Raceway, announced Dave Rupp, president of Gold Coast Raceway, Inc., owner of PBIR. The festival site is located on the Beeline Highway (State Highway 710) 20 miles from downtown West Palm Beach.

"We will have a three day marathon of activities with PBIR becoming a city within a city", Rupp said in unveiling plans for the festival. "We are setting up areas for camping, the art festival, record store booths and boutiques," he said.

Rupp, promoter of the festival, said negotiations are underway with 30 of the nation's top recording groups including: the Iron Butterfly, Jefferson Airplane, Sly and the Family Stone, Janis Joplin, Steppinwolf, Chambers Brothers, Sweetwater, Pacific Gas and Electric, Johnny Winter, Canned Heat Country Joe and the Fish. Tickets will go on sale about October 15 in the Palm Beaches and throughout Florida. Advance tickets will be $20 for the three days and $10 for a Sunday ticket, the only day for single admission.

DAYTONA BEACH
DATeline

BY YUHOU

After 29 days of rain, the sunshine state seems to be having a comeback. When last heard of, Riddle's flight line was somewhere out to sea making the first unmanned transatlantic flight in a Cessna 172.

All those who are wondering why the Academic complex is not being built further, ask the Rho Brothers. Their pledges are walking around with the bricks.

Rumor has it that last Friday night the SGA put on a "social" drunk. This social was for your benefit, so don't complain. Past President Jan Collins commented, "We wanted to make sure the alcohol in this town was fit for consumption by our students".

Florida's version of the Grand Canyon (Riddle's famous road) seems to be doomed. According to reliable sources, it has been condemned to become a paved road. Now is the time to act. All you nature lovers who want to maintain this national landmark - when the plows come, lay down on this beloved canyon and don't let the plows through.

"Good morning, Mondshein!"

POLUTIN SOLUTION
BY RICHARD T. WHITE

By now most of you have seen the funny car with the jet engine in the trunk. Just a joke, you say? "Not so!" says Mr. Bolton, head of the jet technology lab. The car was designed by him, and built by his students in their spare time in order to learn the practical applications of jet turbines.

The car uses a Solar Company turbine from a water pump set-up. The turbine drives two hydraulic pumps whose fluid flow is regulated by the throttle. Diverting the fluid flow drives two more pumps, which, in turn, drive the transmission. The turbine turns at 40,300 RPM and the transmission at 4,300 RPM.

The project's purpose is two-fold: first, to create interest in the students, showing them applications of turbines. The other by-product is the public-relations value that the car brings to the school.

If any student is curious as to what other fascinating projects the Jet Lab and Mr. Bolton have devised, I would recommend visiting the shop - it's quite advanced.

You Know You've Been At Riddle Too Long When.....
...You've read all the graffiti in the bathroom of the old academic building.

MUSIC ART FESTIVAL
WEST PALM BEACH
The first annual Palm Beach International Music and Art Festival will be held November 28, 29, 30 with 30 of the nation's leading recording groups.

The Festival will be held at the Palm Beach International Raceway, announced Dave Rupp, president of Gold Coast Raceway, Inc., owner of PBIR. The festival site is located on the Beeline Highway (State Highway 710) 20 miles from downtown West Palm Beach.

"We will have a three day marathon of activities with PBIR becoming a city within a city", Rupp said in unveiling plans for the festival. "We are setting up areas for camping, the art festival, record store booths and boutique," he said.

Rupp, promoter of the festival, said negotiations are underway with 30 of the nation's top recording groups including: The Iron Butterfly, Jefferson Airplane, Sly and the Family Stone, Janis Joplin, Steppinwolf, Chambers Brothers, Sweetwater, Pacific Gas and Electric, Johnny Winter, Canned Heat, Country Joe and the Fish.

Tickets will go on sale about October 15 in the Palm Beaches and throughout Florida. Advance tickets will be $20 for the three days and $10 for a Sunday ticket, the only day for single admission.

DAYTONA BEACH DATELINE
BY YUHOU

After 29 days of rain, the sunshine state seems to be having a comeback. When last heard of, Riddle's flight line was somewhere out to sea making the first unmanned transatlantic flight in a Cosana 172.

All those who are wondering why the Academic complex is not being built further, ask the Rho Brothers. Their pledges are walking around with the bricks.

Rumor has it that last Friday night the SCA put on a "social" drunk. This social was for your benefit, so don't complain. Past President Jan Collins commented, "We wanted to make sure the alcohol in this town was fit for consumption by our students".

Florida's version of the Grand Canyon (Riddle's famous road) seems to be doomed. According to reliable sources, it has been condemned to become a paved road. Now is the time to act. All you nature lovers who want to maintain this national landmark - when the plows come, lay down on this beloved canyon and don't let the plows through.

"Good morning, Mondshein!"

Note: The above table shows the transactions for the account. The opening balance is $100, and there has been a total of $150 deposited and $85 withdrawn. The ending balance is $105.
Happiness is......Being caught with your girl in your dorm room during open house and being able to explain it off as a guided tour.

You Know You've Been At Riddle Too Long When..... ...Leaving on a date with your girl you yell "Tally-Ho" within earshot of her parents.

Hats off to the fast thinking student who got his preflight and prelanding checklist mixed up and reported a "real short field landing a mile west of the outer marker."

KEEP LAUGHING, RAY, YOUR TIE IS ON FIRE
The AVION is a weekly publication for Embry-Riddle students financed by the students' activity fee through the Student Government Association.

Articles may be submitted to the AVION for publication by the administration, the faculty and student body. The AVION deadline is every Monday afternoon at 5:00 p.m.

Please mark all items AVION and deposit in the basket in the trailer, the Suggestion Boxes, or EMAI Box 11608.

The opinions expressed in this paper are not necessarily those of the Institute or all members of the Student Body.
